July 28, 2010

NEW YORK, Jul 28, 2010 (BUSINESS WIRE) -- Lazard Ltd (NYSE: LAZ) today announced financial results for the second quarter and first half ended June 30, 2010. Net income on a fully exchanged basis was \$53.0 million, or \$0.39 per share (diluted), for the second quarter of 2010, compared to net income of \$43.1 million, or \$0.34 per share (diluted), for the second quarter of 2009. Net income on a fully exchanged basis was \$114.5 million, or \$0.84 per share (diluted) for the first half of 2010, compared to \$13.5 million, or \$0.11 per share (diluted), for the first half of 2009, excluding in each period pre-tax special charges in the first quarter of the applicable year<sup>(c)(f)</sup>.

Net income, on a U.S. GAAP basis, which is before exchange of exchangeable interests, was \$44.6 million, or \$0.39 per share (diluted), for the second quarter of 2010, compared to net income of \$28.2 million, or \$0.34 per share (diluted), for the second quarter of 2009. Net income, on a U.S. GAAP basis, which includes the first-quarter special charges in the 2010 and 2009 periods, was \$11.0 million, or \$0.10 per share (diluted), for the first half of 2010, compared to a net loss of \$(25.3) million, or \$(0.36) per share, for the first half of 2009.

A reconciliation of the U.S. GAAP results to the adjusted results is presented on page 12 of this release.

*Lazard believes that results assuming full exchange of outstanding exchangeable interests and excluding special charges provide the most meaningful basis for comparison among present, historical and future periods.*

### **Operating Revenue and Operating Income**

Operating revenue for the second quarter of 2010 increased 10% to \$438.4 million, compared to \$398.8 million for the second quarter of 2009. Operating income increased 18% to \$67.1 million for the 2010 second quarter, compared to operating income of \$56.9 million for the second quarter of 2009.

Operating revenue increased 33% to \$895.3 million for the first half of 2010, compared to operating revenue of \$671.8 million for the first half of 2009. Operating income increased over 400% to \$144.5 million for the first half of 2010, compared to operating income of \$28.7 million for the first half of 2009, excluding special charges in both periods.

*The Company's quarterly revenue and profits can fluctuate materially depending on the number, size and timing of completed transactions on which it advised, as well as seasonality and other factors. Accordingly, the revenue and profits in any particular quarter may not be indicative of future results. As such, Lazard management believes that annual results are the most meaningful.*

### **Comments**

"Our Financial Advisory and Asset Management businesses both reported record first-half revenues, with thirty-six percent growth, as we continue to experience a gradual but uneven upturn in the cycle," said [Kenneth M. Jacobs](#), Chairman and Chief Executive Officer of Lazard. "We continue to show growth and gain market share in M&A and Strategic Advisory, and our Asset Management professionals continue to attract net inflows against a backdrop of a volatile economic climate."

"Lazard's performance in this quarter and year-to-date underscores the power of Lazard's advice-driven, intellectual capital model in a climate marked by uneven economic recovery, aftershocks from the financial crisis and shifting flows of investment capital between developed and developing markets," said Mr. Jacobs. "In this new environment, companies, government bodies and investors demand independent advice, with a geographic perspective, deep understanding of capital structure, informed research, and knowledge of global economic conditions. Lazard, through its Financial Advisory and Asset Management businesses, is the only global independent firm positioned to meet that need."

"We remain focused on containing discretionary spending while investing in our businesses," said [Michael J. Castellano](#), Chief Financial Officer of Lazard. "For the first half of the year, operating revenue increased 33% while compensation and non-compensation expenses increased 22% and 14%, respectively."

### **Restructuring**

Restructuring operating revenue was \$79.9 million for the second quarter of 2010, compared to \$93.2 million for the second quarter of 2009. The decrease was due primarily to a reduction in retainer fees earned related to a decrease in the number of active assignments in the second quarter of 2010, compared to the second quarter of 2009, consistent with the industry trend. Restructuring operating revenue was \$180.1 million for the first half of 2010, compared to \$154.2 million for the first half of 2009. The increase in the first half of 2010 was due primarily to an increase in completion fees earned, which more than offset a decrease in retainer fees. Restructuring operating revenue reflects continued restructuring advisory activity in the US and Europe, although the number and value of corporate defaults has decreased during the first half of 2010 compared to the first half of 2009.

Over the past decade, Lazard's global restructuring team, paired with its M&A industry specialist bankers, has advised on more than 450 restructurings worldwide, with an aggregate value over \$1 trillion. The firm is recognized as having the world's leading restructuring advisory group.

Completed second-quarter 2010 Restructuring assignments include Cooper-Standard, LyondellBasell, Six Flags, Twin River Casino, Smurfit-Stone Container, Crescent Resources and Citadel Broadcasting in connection with their Chapter 11 filings, as well as Gala Coral Group, Grupo Reyel Urbis, TAS Group, Technicolor's (formerly Thomson) US noteholders, Trident Resources and Xerium Technologies in connection with their debt restructurings.

The decrease in the second quarter revenue was due primarily to a decrease in underwriting for public offerings, partially offset by an increase in the number and value of fund closings by our Private Fund Advisory Group.

Assignments in the second quarter of 2010 included advising on:

- *IPOs*: CBOE Holdings, Inc., Metals USA Holdings Corp., Niska Gas Storage Partners

### **Asset Management**

Asset Management operating revenue increased 42% to a record \$187.2 million for the second quarter of 2010, compared to \$131.6 million for the 2009 second quarter. Asset Management operating revenue increased 58% to a record \$370.9 million for the first half of 2010, compared to \$234.5 million for the first half of 2009.

Assets Under Management at June 30, 2010, were \$123.5 billion, representing a 26% increase over Assets Under Management of \$98.0 billion at June 30, 2009, and a 9% decrease compared to Assets Under Management of \$135.0 billion at March 31, 2010. Assets Under Management were primarily impacted in the second quarter by adverse market and foreign exchange movements. Net inflows were \$2.1 billion in the 2010 second quarter and \$5.0 billion in the 2010 first half.

Average Assets Under Management were \$129.2 billion for the second quarter of 2010, representing a 44% increase over average Assets Under Management of \$89.6 billion for the second quarter of 2009. Average Assets Under Management were \$129.3 billion for the first half of 2010, a 44% increase, compared to \$90.1 billion for the first half of 2009.

Management fees increased 56% to \$167.0 million for the second quarter of 2010, compared to \$107.1 million for the 2009 second quarter, and increased 64% to \$328.8 million for the first half of 2010, compared to \$200.6 million for the first half of 2009.

Incentive fees, primarily related to traditional long-only investment strategies, were \$12.6 million and \$26.4 million for the second quarter and first half of 2010, respectively, compared to \$13.2 million and \$18.6 million for the comparable periods in 2009. Incentive fees are recorded on the measurement date, which for most of our alternative strategies that are subject to incentive fees occurs in the fourth quarter.

Other Asset Management operating revenue was \$7.6 million and \$15.7 million for the second quarter and first half of 2010, respectively, compared to \$11.3 million and \$15.3 million for the comparable periods in 2009.

Our Asset Management business provides investment management and advisory services to governments, institutions, financial intermediaries, private clients and investment vehicles around the world. Our goal in our Asset Management business is to produce superior risk-adjusted investment returns and provide investment solutions customized for our clients. Asset Management includes the management of equity and fixed income securities as well as alternative investment and private equity funds.

### **Expenses**

#### **Compensation and Benefits**

Compensation and benefits expense includes base salaries and benefits, amortization of deferred incentive awards and an accrual for estimated year-end discretionary cash incentive compensation. The expense was \$263.0 million and \$239.3 million for the second quarters of 2010 and 2009, respectively. The expense was \$538.5 million and \$442.8 million for the first half of 2010 and 2009, respectively, excluding the 2010 first quarter special charge. While operating revenue increased 33% for the first half of 2010, compensation and benefits expense increased 22%, compared to the same 2009 period.

The ratio of compensation and benefits expense to operating revenue, excluding the 2010 first-quarter special charge, was 60.0% for the second quarters of 2010 and 2009, and was 60.2% and 65.9% for the first halves of 2010 and 2009, respectively. The reduction in the compensation ratio for the first half of 2010 is due primarily to execution on our previously announced goals to grow annual compensation expense at a slower rate than operating revenues, and to achieve over the cycle compensation levels on average consistent with the targets established at the time we went public in 2005.

#### **Non-Compensation**

The ratio of non-compensation expense to operating revenue, excluding amortization of intangibles related to acquisitions, was 19.9% and 19.1% for the second quarter and first half of 2010, respectively, compared to 19.8% and 22.6% for the respective 2009 periods. Total non-compensation

expense increased 12% to \$89.0 million for the second quarter of 2010 and increased 14% to \$174.2 million for the first half of 2010, compared to \$79.4 million and \$152.5 million for the respective periods in 2009, including amortization of intangibles related to acquisitions of \$1.8 million and \$3.5 million in the respective 2010 periods and \$0.3 million and \$0.7 million in the respective 2009 periods. Other factors contributing to the second-quarter and first-half 2010 increases include higher business development expenses for travel and market related data and fund administration expenses related to the increased level of business activity and assets under management, and partially offset by lower professional fees.

*The percentage of non-compensation expenses to operating revenue can vary from quarter to quarter due to quarterly fluctuation in revenues, among other things. Accordingly, the results in a particular quarter may not be indicative of future results. Lazard management believes that annual results are the most meaningful basis for comparison.*

#### **Provision for Income Taxes**

The provision for income taxes, on a fully exchanged basis, was \$13.5 million and \$27.2 million for the second quarter and first half of 2010, respectively, compared to \$13.5 million and \$16.1 million for the second quarter and first half of 2009, excluding the effects of special charges in each period. The effective tax rate on the same basis was 20.3% and 19.2% for the second quarter and first half of 2010, respectively, exclusive of noncontrolling interests.

#### **Noncontrolling interests**

Net income attributable to noncontrolling interests, on a fully exchanged basis, amounted to \$0.5 million and \$2.8 million for the second quarter and first half of 2010, respectively, compared to \$0.3 million and a net loss of \$0.8 million for the respective periods of 2009. Noncontrolling interests, on a fully exchanged basis, principally represents interests that the Company is deemed to control but not own in (i) various LAM-related general partnerships and (ii) in Edgewater management vehicles acquired during the third quarter of 2009.

#### **Liquidity, Capital Resources and Other Items**

Lazard continues to maintain a strong liquidity position with over \$1 billion in cash, US Government and agency securities, and marketable equity securities at June 30, 2010.

At June 30, 2010, total stockholders' equity related to Lazard's interests was \$430.6 million, which includes negative adjustments to total Accumulated Other Comprehensive Loss during the first half of 2010, due primarily to net negative foreign currency translation adjustments of \$51.9 million.

During the second quarter of 2010, Lazard repurchased 687.3 thousand shares of Class A common stock, at an aggregate cost of \$21.8 million. Lazard's remaining share repurchase authorization at June 30, 2010, was \$177.3 million.

During the second quarter of 2010, Lazard repurchased \$10.0 million principal amount of its senior notes due in 2015 and recognized an aggregate loss of \$0.4 million.

This presentation includes non-GAAP measures. Our non-GAAP measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures, and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. For a detailed explanation of the adjustments made to comparable GAAP measures, see item (d) in notes to unaudited condensed consolidated statements of operations and reconciliation of US GAAP results to full exchange excluding special charges. Lazard believes that results assuming full exchange of outstanding exchangeable interests and excluding special charges provides the most meaningful basis for comparison among present, historical and future periods.
