Asset Management

In the text portion of this press release, we present our Asset Management results as 1) Management fees and other revenue, and 2) Incentive fees.

Asset Management operating revenue was \$312 million for the first quarter of 2022, 5% lower than the first quarter of 2021.

Management fees and other revenue was \$287 million, 3% lower than the first quarter of 2021, and 5% lower than the fourth quarter of 2021.

Average assets under management (AUM) for the first quarter of 2022 was \$256 billion, 2% lower than the first quarter of 2021, and 6% lower than the fourth quarter of 2021.

AUM as of March 31, 2022, was \$253 billion, down 8% from December 31, 2021, and down 5% from March 31, 2021. The sequential decrease from December 31, 2021 was driven by market depreciation of \$12.4 billion, foreign exchange depreciation of \$2.1 billion and net outflows of \$6.5 billion.

Incentive fees during the period were \$25 million, compared to \$33 million for the first quarter of 2021.

OPERATING EXPENSES

Compensation and Benefits

In managing compensation and benefits expense, we focus on annual awarded compensation (cash compensation and benefits, plus deferred incentive compensation with respect to the applicable year, net of estimated future forfeitures and excluding charges). We believe annual awarded compensation reflects the actual annual compensation cost more accurately than the GAAP measure of compensation cost, which includes applicable-year cash compensation and the amortization of deferred incentive compensation principally attributable to previous years' deferred compensation. We believe that by managing our business using awarded compensation with a consistent deferral policy, we can better manage our compensation costs, increase our flexibility in the future and build shareholder value over time.

For the first quarter of 2022, we accrued adjusted compensation and benefits expense¹ at an adjusted compensation ratio of 58.5%, compared to the first-quarter 2021 ratio of 59.5%. This resulted in \$409 million of compensation and benefits expense, compared to \$385 million for the first quarter of 2021.

We manage our compensation and benefits expense based on awarded compensation with a consistent deferral policy. We take a disciplined approach to compensation, and our goal is to maintain a compensation-to-operating revenue ratio over the cycle in the mid- to high-50s percentage range on both an awarded and adjusted basis, with consistent deferral policies.

Non-Compensation Expense

For the first quarter of 2022, adjusted non-compensation expense¹ was \$117 million, 14% higher than the first quarter of 2021, primarily reflecting higher travel and business development expenses, as well as continued investments in technology.

The ratio of adjusted non-compensation expense to operating revenue was 16.8% for the first quarter of 2022, compared to 15.8% for the first quarter of 2021.

Our goal is to achieve an adjusted non-compensation expense-to-operating revenue ratio over the cycle of 16% to 20%.

TAXES

The provision for taxes, on an adjusted basis¹, was \$39 million for the first quarter of 2022. The effective tax rate, on an adjusted basis, was 25.4% for the first quarter of 2022, compared to 28.6% for the first quarter of 2021 and 23.9% for the full year of 2021.

CAPITAL MANAGEMENT AND BALANCE SHEET

Our primary capital management goals include managing debt and returning capital to shareholders through dividends and share repurchases.

In the first quarter of 2022, Lazard returned \$281 million to shareholders, which included: \$47 million in dividends; \$176 million in share repurchases of our common stock; and \$58 million in satisfaction of employee tax obligations in lieu of share issuances upon vesting of equity grants.

In the first quarter of 2022, we repurchased 4.7 million shares of our common stock at an average price of \$37.26 per share.

As of March 31, 2022, our remaining share repurchase authorization was \$318 million.

On April 27, 2022, Lazard declared a quarterly dividend of \$0.47 per share on its outstanding common stock. The dividend is payable on May 20, 2022, to stockholders of record on May 9, 2022.

Lazard's financial position remains strong. As of March 31, 2022, our cash and cash equivalents were \$878 million, and stockholders' equity related to Lazard's interests was \$850 million.

ENDNOTES

¹ A non-U.S. GAAP measure. See attached financial schedules and related notes for a detailed explanation of adjustments to corresponding U.S. GAAP results. We believe that presenting our results on an adjusted basis, in addition to the U.S. GAAP results, is the most meaningful and useful way to compare our operating results across periods.

² First-quarter 2022 adjusted results¹ exclude pre-tax charges of \$1.1 million relating to office space reorganization. On a U.S. GAAP basis, this resulted in a net charge of \$0.8 million, or \$0.01 (diluted) per share, in the first quarter of 2022.
