Supplemental Financial Information

Corporate Structure & Tax Reform Considerations

Corporate Structure

Bermuda corporation with common stock traded on the NYSE

- Corporate governance structure consistent with U.S. peers and files annual proxy statement
 - Files 10-Ks and 10-Qs with SEC, including IRS Employer Identification Number
- Partnership structure for U.S. tax purposes
 - K-1 issuer for dividends – no Unrelated Business Taxable Income (UBTI) or Effectively Connected Income (ECI)
 - No separate state filing requirements, appropriate for tax-exempt investors
 - Foreign investors only subject to withholding tax on U.S. portion of dividends

Investor Diversification

Broadly diversified investor base includes key indexes, mutual funds and global institutions

- Included in Russell and CRSP market capitalization weighted indexes, and Dow Jones U.S. Select Dividend Index
 - Approximately 22% of Lazard holders identified as index investors, compared to generally de minimis for publicly traded partnerships
- Float approximately 97% held by a broad range of active and passive institutional investors
 - Representing approximately 250 mutual funds and 80 ETFs

Impact of Tax Reform

US tax reform provisions (2017) suggest conversion to a U.S. C-corporation would result in a significantly higher tax rate

- Recent analysis indicates a conversion under the new tax law could add approximately 10 percentage points to our steady-state effective tax rate
- Net operating losses (NOLs) restrict our ability to use foreign tax credits and to access the new special deduction for foreign earnings, resulting in double taxation for non-U.S. earnings
- Expansion of categories of foreign income to be taxed would result in increased tax payments

Operating Revenue is a non-GAAP measure which excludes:

- 1 Noncontrolling interests principally related to Edgewater and ESC Funds, and is a non-GAAP measure.
- 2 Changes in the fair value of investments held in connection with LFI and other similar deferred compensation arrangements for which a corresponding equal amount is excluded from compensation and benefits expense.

- 5 For the year ended December 31, 2016, represents a gain relating to the Company's acquisition of MBA Lazard resulting from the increase in fair value of the Company's investment in the business. For the year ended December 31, 2015, represents revenue relating to the Company's disposal of the Australian private equity business which was adjusted for the recognition of an obligation, which was previously recognized for U.S. GAAP.
- 6 Represents certain distribution fees and reimbursable deal costs paid to third parties for which an equal amount is excluded from both non-GAAP revenue and non-compensation expense, respectively, and excludes bad debt expense, which represents fees that are deemed uncollectible.
