Net income assuming full exchange of exchangeable interests^(a) for 2006, increased 37% to \$236.2 million or \$2.24 per common share (diluted), from pro forma \$172.3 million, or \$1.72 per common share (diluted), for 2005. Operating income increased by 49% to \$115.2 million for the fourth quarter of 2006, from \$77.1 million for the fourth quarter of 2005. Operating revenue for the fourth quarter of 2006 increased by 27% to \$491.5 million, from \$387.7 million for the fourth quarter of 2005. Net income before exchange of outstanding exchangeable interests for the fourth quarter of 2006 increased 68% to \$36.6 million, or \$0.78 per common share (diluted), compared to pro forma income from continuing operations of \$21.7 million, or \$0.57 per common share (diluted), for the fourth quarter of 2005.

“Lazard had an exceptional first full year as a publicly traded firm and these results demonstrate the continued effectiveness of our simple business model. We are particularly pleased to have successfully implemented our three-year plan in Asset Management,” said Bruce Wasserstein, Chairman and Chief Executive Officer of Lazard Ltd. “We are a premium financial services firm that is committed to excellence, intellectual rigor, integrity and creativity for our clients on a global scale.”

“Our businesses have significant operating leverage,” added Wasserstein. “Although markets, and our results, will fluctuate from year to year, our strategic plan is to deliver an average annual earnings per share growth of over 20 percent during the next five years, while continuing to invest in our core businesses.”

“During 2006, Lazard marked a number of milestones in the history of the firm. We are pleased to report record annual revenues in both Financial Advisory and Asset Management,” said Steven J. Golub, Lazard’s Vice Chairman. “We advised on a large number of major transactions, including Pfizer’s \$16.6 billion sale of its consumer business, the Cerberus consortium’s \$14 billion acquisition of a controlling stake in GMAC, Fisher Scientific’s \$12.8 billion merger with Thermo Electron, and Caisse d’Epargne’s reorganization of its Caisse des Depots et Consignations partnership and its negotiations with Groupe Banque Populaire in the creation of NATIXIS. We delivered positive net inflows in Asset Management for the fourth quarter and the full year, and reached an all time record of over \$110 billion of assets under management.”

“In December, we successfully completed our second public equity offering, raising \$349 million for us. This enables us to invest in our businesses, furthering our ability to achieve our strategic vision,” noted Golub. “We also have continued to control costs, while retaining and attracting talented professionals.”

Lazard believes that pro forma results assuming full exchange of outstanding exchangeable interests provide the most meaningful basis for comparison among present, historical and future periods. See sections “Historical Results” and “Basis of Historical and Pro Forma Information” later in this release for a discussion of Lazard’s historical results and the basis of presentation for Lazard Ltd’s historical and pro forma financial information.

The Company’s quarterly revenue and profits can fluctuate materially depending on the number, size and timing of completed transactions on which it advised, as well as seasonality and other factors. Accordingly, the revenue and profits in any particular quarter may not be indicative of future results. As such, Lazard management believes that annual results are the most meaningful.

Operating Revenue

Financial Advisory

Lazard's Financial Advisory business encompasses general strategic and transaction-specific advice to public and private companies, governments and other parties, and includes Financial Restructuring as well as various corporate finance services. Some of our assignments and, therefore, related revenue, are not reflected in publicly available statistical information. This revenue is reflected in our financial statements.

Financial Advisory revenue increased 13% to a record \$973.4 million for the full year 2006, from \$865.3 million for 2005, driven by strong M&A performance and growth in Corporate Finance and Other revenue offset by lower Financial Restructuring revenue. Financial Restructuring

Financial Restructuring revenue was \$70.6 million for the full year 2006, compared to \$103.4 million for 2005, and was \$20.4 million for the 2006 fourth quarter, compared to \$23.0 million for the 2005 fourth quarter.

Completed fourth-quarter 2006 Restructuring transactions included advising Owens Corning and Meridian Automotive on their emergence from Chapter 11 bankruptcy. Notable Restructuring assignments announced since the third quarter of 2006 include Lazard's retention to advise InSight Health Services and an *ad hoc*

committee of second lien holders in connection with Dura Automotive's Chapter 11 filing. In addition, we are continuing to work on a number of Restructuring assignments, including those involving Collins & Aikman, Eurotunnel, SunCom Wireless and Tower Automotive. We also continue to advise Calpine's Unsecured Creditors Committee, Northwest Airlines Creditors Committee and the UAW in connection with Delphi's bankruptcy and with regards to alternatives for restructuring DaimlerChrysler's post-retirement healthcare obligations.

Corporate Finance and Other

Corporate Finance and Other revenue increased 26% to \$110.3 million for the full year 2006, compared to \$87.3 million for 2005, driven primarily by our Private Fund Advisory Group, which advised on a number of large fund closings in 2006. For the fourth quarter of 2006, Corporate Finance and Other revenue increased 6% to \$34.3 million compared to \$32.2 million for the fourth quarter of 2005, due principally to increased revenue from our Private Investment in Public Equity (PIPE) and Registered Direct Offering business.

Asset Management

Asset Management revenue increased 18% to a record \$548.5 million and 25% to a quarterly record of \$174.6 million for 2006 full year and fourth quarter, respectively, compared with \$463.7 million and \$139.5 million for the corresponding 2005 periods.

Management fees increased 16% to a record \$450.3 million and 24% to a quarterly record of \$121.6 million for 2006 full year and fourth quarter, respectively, compared with \$389.4 million and \$98.4 million for the corresponding 2005 periods. Assets under management totaled \$110.4 billion at the end of 2006, a record level, representing a 25% increase from the end of 2005, due principally to market appreciation. The 2006 full year experienced net inflows of \$2.8 billion, with net inflows for the fourth quarter of 2006 of \$1.8 billion, driven by expanded product offerings, and benefiting from our investments in talent and global distribution efforts. The Asset Management business has experienced net inflows for four of the last five quarters. Average assets under management rose 13% in 2006 to \$97.4 billion from \$86.1 billion for 2005.

Incentive fees increased 33% to \$59.4 million and 24% to \$42.0 million for the 2006 full year and fourth quarter, respectively, compared with \$44.6 million and \$34.0 million for the comparable 2005 periods, reflecting improved performance.

Expenses

Compensation and Benefits

The ratio of compensation and benefits expense to operating revenue measured 56.7% for 2006, compared to pro forma 57.0% for 2005. Compensation and benefits expense increased 15%, slightly below our operating revenue increase of 16%, to \$891.4 million for 2006, compared with \$774.2 million (pro forma) for 2005.

Non-Compensation

Non-compensation expenses were \$269.0 million for 2006 full year or 17.1% of operating revenue, compared to pro forma \$254.8 million or 18.8% of operating revenue for 2005, excluding effects of the provisions of our Tax Receivable Agreement(a) and also in 2005 one-time IPO-related costs. For the fourth quarter of 2006, non-compensation expenses were \$75.6 million or 15.4% of operating revenue, compared to \$70.9 million or 18.3% of operating revenue for the fourth quarter of 2005, excluding effects of the provisions of our Tax Receivable Agreement.

(a) Entered into in May 2005 with LFCM Holdings.

Provision for Income Taxes

The provision for income taxes was \$68.8 million and \$24.0 million for the 2006 full year and fourth quarter, respectively, compared with \$52.2 million (pro forma) and \$10.7 million (pro forma) for the corresponding 2005 periods. The effective tax rates for 2006 full year and fourth quarter were 21% and 21%, respectively, compared to 21% (pro forma) and 14% (pro forma) for the corresponding 2005 periods. On a pro forma fully exchanged basis, exclusive of LAM general partnership interests-related revenue, the effective tax rate for the 2006 and 2005 periods, including the effects of the provisions of our Tax Receivable Agreement, was 28.0%.

Minority Interest – Excluding LAZ-MD Interest

Minority interest expense was a \$5.1 million expense for 2006 full year, representing the elimination of the non-operating revenue from LAM general partnership interests held by certain of our managing directors which is reported in net revenue. In 2005, minority interest expense was a pro forma \$9.6 million expense, related primarily to our strategic alliance in Italy, which was terminated on May 15, 2006, and for which there were no comparable amounts in 2006. As a result of the termination of our joint venture relationship in Italy in the second quarter of 2006, we recorded a gain of \$13.7 million, excluding transaction and other costs, which is included in Corporate revenue in the 2006 full-year results.

Non-GAAP and Pro Forma Information

Lazard discloses certain non-GAAP financial information which management believes provides the most meaningful basis for comparison among present and historical periods. The following are non-GAAP measures used in the accompanying financial information:

- Net Income assuming full exchange of exchangeable interests
- Operating Revenue

The unaudited pro forma financial information for the full year and fourth quarter of 2005 is included for informational purposes only and does not purport to reflect the results of operations of Lazard Ltd that would have occurred had it operated as a separate, independent company during the periods presented. Actual results might have differed from pro forma results if Lazard Ltd had operated independently. The pro forma consolidated financial information should not be relied upon as being indicative of Lazard Ltd's results of operations had the transactions contemplated in connection with the separation and recapitalization transactions, including the IPO and the additional financing transactions, been completed on the date assumed. The pro forma financial information also does not project the results of operations for any future periods.

Historical Results

Historical net income is reported as a historical partnership until Lazard Ltd's IPO on May 10, 2005 and for periods prior to the IPO does not include payments for services rendered by managing directors as compensation expense, incremental interest expense relating to the financing transactions in connection with the IPO and recapitalization, a provision for U.S. federal income taxes and a charge for the minority interest relating to the outstanding exchangeable interests. Such payments, tax provisions and minority interest expense are included in subsequent periods. Therefore, historical results for periods prior to the IPO on May 10, 2005 and subsequent to the IPO are not comparable. Notwithstanding such lack of comparability, income from continuing operations decreased 42% to \$93.0 million for the 2006 full year from \$161.1 million for the 2005 full year, and increased 53% to \$36.6 million for the fourth quarter of 2006 from \$23.9 million for the fourth quarter of 2005, reflecting these significant differences in reporting payments for services rendered by managing directors, interest expense, income tax provisions and minority interest expense.

On an historical basis, compensation and benefits increased 28% to \$891.4 million for the full year 2006, compared with \$698.7 million for 2005. As described above, historical compensation and benefits are not on a comparable basis between periods prior to the IPO and subsequent to the IPO.

On an historical basis, the provision for income taxes for 2006 full year was \$68.8 million compared with a tax provision of \$59.0 million for 2005, and the provision for income taxes for fourth quarter 2006 was \$24.0 million compared to \$8.5 million for the fourth quarter of 2005.

Capital

On December 6, 2006, Lazard Ltd issued 14,050,400 shares of Class A common stock, of which 8,050,400 shares were sold by Lazard Ltd for net proceeds of \$349.1 million and 6,000,000 shares were sold by its selling shareholders, for which Lazard Ltd did not receive any proceeds. The issuance increased the total issued shares, on a fully exchanged basis, by 8,050,400.

Basis of Historical and Pro Forma Information

In connection with the IPO on May 10, 2005, Lazard Ltd and its subsidiaries entered into a series of separation and recapitalization transactions, including the separation of its Capital Markets and Other activities from Lazard Group LLC, a Delaware limited liability company that holds Lazard Ltd's businesses. As a result of completing the IPO, Lazard Ltd has no material operating assets other than its indirect ownership of the common membership interests of Lazard Group and its managing member interest in Lazard Group. As of December 31, 2006, the Lazard Group common membership interests were held 47.9% by Lazard Ltd and 52.1% by LAZ-MD Holdings, which are effectively exchangeable over time, on a one-for-one basis, for shares of Lazard Ltd common stock. LAZ-MD Holdings is a holding company owned by current and former managing directors of Lazard Group.

Under generally accepted accounting principles in the United States ("U.S. GAAP"), Lazard's historical consolidated financial statements reflect the historical results of operations of Lazard Group, including the separated businesses, until May 10, 2005, which was the effective date of the separation. The separated businesses are presented as discontinued operations as required under U.S. GAAP.

The historical financial statements for the period prior to the IPO do not reflect what the results of operations of Lazard Ltd or Lazard Group would have been had these companies operated as separate, independent public entities for the period prior to the IPO. In addition, the historical results of operations for periods prior to and subsequent to the IPO are not on a comparable basis. Specifically, for periods prior to the IPO the historical results of operations under U.S. GAAP do not give effect to the following matters:

- Payments for services rendered by Lazard's managing directors, which, as a result of Lazard operating as a limited liability company, had been accounted for prior to the IPO as distributions from members' capital, or, in some cases, as minority interest, rather than as compensation and benefits expense, and
- U.S. corporate federal income taxes, since Lazard has operated in the U.S. as a limited liability company that was treated as a partnership for U.S. federal income tax purposes.

For periods subsequent to the IPO, the historical results of operations under U.S. GAAP include:

- Payments for services rendered by managing directors within compensation and benefits expense,
- Incremental interest expense relating to the financing transactions in connection with the IPO and recapitalization,
- Provision for U.S. federal income taxes, and
- Allocation of profits to LAZ-MD Holdings' membership interests in Lazard Group as minority interest.

The unaudited pro forma condensed consolidated statements of income information contained in this press release present Lazard's historical financial information adjusted to reflect the separation and recapitalization transactions, including the IPO and the additional financing transactions, assuming they had been completed as of January 1, 2005. The adjustments also include:

- Payments for services rendered by managing directors,
- Income taxes Lazard expects to pay as a corporation,
- Minority interest expense reflecting LAZ-MD Holdings' ownership of the Lazard Group common membership interests, and
- Exclusion of one-time IPO-related costs.

UNAUDITED HISTORICAL CONDENSED CONSOLIDATED STATEMENTS OF INCOME

Historical net income is reported as a historical partnership until the IPO on May 10, 2005 and does not include payments for services rendered by managing directors as compensation expense and a provision for U.S. federal income taxes. In addition, historical net income for periods prior to the IPO do not include a charge for the minority interest in net income relating to the outstanding exchangeable interests. Such payments, tax provisions and minority interest in net income are included in subsequent periods. Therefore, historical results for periods prior to the IPO on May 10, 2005 and subsequent to the IPO are not comparable.

Notes to Unaudited Condensed Consolidated Statements of Income

- (a) LAM GP related revenue relates to interests in LAM general partnerships held directly by various of our managing directors which is also deducted in minority interests.
- (b) Interest expense includes a credit of \$8,000 for the year ended December 31, 2005 which represents accrued dividends relating to Lazard Group's mandatorily redeemable preferred stock which were cancelled in connection with the redemption of membership interests of historical partners.
- (c) Reflects net incremental interest expense related to the May 2005 separation and recapitalization transactions, including the financing transactions, the amortization of capitalized costs associated with the financing transactions, and one-time IPO-related costs.
- (d) Reflects payments for services rendered by our employee members of LAM and managing directors, which prior to the IPO were accounted for as either distributions from members' capital or as minority interest expense. Following the completion of the IPO, our policy is that our employee compensation and benefits expense, including that payable to our managing directors, will not exceed 57.5% of operating revenue each year (although we retain the ability to change this policy in the future).
- (e) Represents the exclusion of one-time IPO-related costs.
- (f) Represents (i) a tax benefit related to the reclassification of LAM minority interest, (ii) the net income tax impact associated with the separation and recapitalization transactions and (iii) an adjustment for Lazard Ltd entity-level taxes.

The LAZ-MD Holdings exchangeable interests on an as-if-exchanged basis are included for the three month period ended December 31, 2006 but were excluded for the year ended December 31, 2006 because, under the as-if-exchanged method of accounting, such securities were not dilutive for the full year period.
