TABLE OF CONTENTS

When we use the terms “Lazard Group”, “Lazard”, “we”, “us”, “our” and “the Company”, we mean Lazard Group LLC, a Delaware limited liability company that is the current holding company for the subsidiaries that conduct our businesses. Lazard Ltd is a Bermuda exempt company whose shares of Class A common stock (the “Class A common stock”) are publicly traded on the New York Stock Exchange under the symbol “LAZ”. Lazard Ltd’s subsidiaries include Lazard Group and their respective subsidiaries. Lazard Ltd’s primary operating asset is its indirect ownership as of March 31, 2017 of all of the common membership interests in Lazard Group and its controlling interest in Lazard Group. Lazard Ltd controls Lazard Group through two of its indirect wholly-owned subsidiaries that are co-managing members of Lazard Group.

Lazard Group has granted profit participation interests in Lazard Group to certain of its managing directors. The profit participation interests are discretionary profits interests that are intended to enable Lazard Group to compensate its managing directors in a manner consistent with historical practices.

LAZARD GROUP LLC
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)
(dollars in thousands, unless otherwise noted)

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

The accompanying condensed consolidated financial statements are those of Lazard Group LLC and its subsidiaries (collectively referred to as “Lazard Group” or the “Company”). Lazard Group is a Delaware limited liability company and is governed by an Amended and Restated Operating Agreement dated as of October 26, 2015, as amended (the “Operating Agreement”).

Lazard Ltd, a Bermuda holding company, and its subsidiaries (collectively referred to as “Lazard Ltd”), including its indirect investment in Lazard Group, is one of the world’s preeminent financial advisory and asset management firms and has long specialized in crafting solutions to the complex financial and strategic challenges of our clients. We serve a diverse set of clients around the world, including corporations, governments, institutions, partnerships and individuals.

Lazard Ltd indirectly held 100% of all outstanding Lazard Group common membership interests as of March 31, 2017 and December 31, 2016. Lazard Ltd, through its control of the managing members of Lazard Group, controls Lazard Group.

Lazard Group’s principal operating activities are included in two business segments:

- Financial Advisory, which offers corporate, partnership, institutional, government, sovereign and individual clients across the globe a wide array of financial advisory services regarding mergers and acquisitions (“M&A”) and other strategic matters, restructurings, capital structure, capital raising, corporate preparedness and various other financial matters, and
- Asset Management, which offers a broad range of global investment solutions and investment management services in equity and fixed income strategies, asset allocation strategies, alternative investments and private equity funds to corporations, public funds, sovereign entities, endowments and foundations, labor funds, financial intermediaries and private clients.

In addition, we record selected other activities in our Corporate segment, including management of cash, investments, deferred tax assets, outstanding indebtedness, certain contingent obligations, and assets and liabilities associated with Lazard Group’s Paris-based subsidiary Lazard Frères Banque SA (“LFB”).

Basis of Presentation

The accompanying condensed consolidated financial statements of Lazard Group have been prepared pursuant to the rules and regulations of the United States Securities and Exchange Commission (the “SEC”) regarding interim financial reporting. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America (“U.S. GAAP”) for complete financial statements and should be read in conjunction with the audited consolidated financial statements and notes thereto included in Lazard Group’s Annual Report on Form 10-K for the year ended December 31, 2016. The accompanying December 31, 2016 unaudited condensed consolidated statement of financial condition data was derived from audited consolidated financial statements, but does not include all disclosures required by U.S. GAAP for annual financial statement purposes. The accompanying condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods presented.

Preparing financial statements requires management to make estimates and assumptions that affect the amounts that are reported in the financial statements and the accompanying disclosures. For example, discretionary compensation and benefits expense for interim periods is accrued based on the year-to-date amount of revenue earned, and an assumed annual ratio of compensation and benefits expense to revenue, with the applicable amounts adjusted for certain items. Although these estimates are based on management’s knowledge of current events and actions that Lazard may undertake in the future, actual results may differ materially from the estimates.

The consolidated results of operations for the three month period ended March 31, 2017 are not indicative of the results to be expected for any future interim or annual period.

The condensed consolidated financial statements include Lazard Group and Lazard Group’s principal operating subsidiaries: Lazard Frères & Co. LLC (“LFNY”), a New York limited liability company, along with its subsidiaries, including Lazard Asset

Management LLC and its subsidiaries (collectively referred to as “LAM”); the French limited liability companies Compagnie Financière Lazard Frères SAS (“CFLF”) along with its subsidiaries, LFB and Lazard Frères Gestion SAS (“LFG”), and Maison Lazard SAS and its subsidiaries; and Lazard & Co., Limited (“LCL”), through Lazard & Co., Holdings Limited (“LCH”), an English private limited company, together with their jointly owned affiliates and subsidiaries.

The Company’s policy is to consolidate entities in which it has a controlling financial interest. The Company consolidates:

- Voting interest entities (“VOEs”) where the Company holds a majority of the voting interest in such VOEs, and
- Variable interest entities (“VIEs”) where the Company is the primary beneficiary having the power to direct the activities of the VIE that most significantly impact the VIE’s economic performance and the obligation to absorb losses of, or receive benefits from, the VIE that could be potentially significant to the VIE.

When the Company does not have a controlling interest in an entity, but exerts significant influence over such entity’s operating and financial decisions, the Company either (i) applies the equity method of accounting in which it records a proportionate share of the entity’s net earnings, or (ii) elects the option to measure at fair value. Intercompany transactions and balances have been eliminated.

2. RECENT ACCOUNTING DEVELOPMENTS

Compensation—Stock Compensation: Improvements to Employee Share-Based Payment Accounting—In March 2016, the Financial Accounting Standards Board (the “FASB”) issued new guidance regarding share-based incentive compensation. The new guidance includes several amendments which affect various aspects of the accounting for share-based incentive compensation transactions, including the income tax consequences, estimation of forfeitures, effect on earnings per share, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The new guidance is effective for annual and interim periods beginning after December 15, 2016. The Company adopted this new guidance on January 1, 2017. The new guidance has since January 1, 2017 affected, and the Company expects that in future periods the new guidance will affect, the provision for income taxes for the delivery of stock under share-based incentive compensation arrangements, as well as the effective tax rate in the relevant periods, which could be material to the condensed consolidated statements of operations and the classification of cash flows in the relevant periods. The inclusion of excess tax benefits as an operating activity within the statement of cash flows was adopted on a prospective basis, with prior periods unadjusted. Upon adoption of the new guidance, the Company also recorded deferred tax assets of \$4,945, net of a valuation allowance of \$12,090, for previously unrecognized excess tax benefits (including tax benefits from dividends or dividend equivalents) on share-based incentive compensation arrangements, with an offsetting adjustment to retained earnings. With respect to forfeiture rates, the Company will continue to estimate the number of awards expected to be forfeited, rather than electing the option to account for forfeitures as they occur. See Note 14.

Revenue from Contracts with Customers—In May 2014, the FASB issued comprehensive new revenue recognition guidance. The guidance requires a company to recognize revenue when it transfers promised services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those services and requires enhanced disclosures. The guidance also changes the accounting for certain contract costs, including whether they may be offset against revenue in the condensed consolidated statements of operations. On July 9, 2015, the FASB approved the deferral of the effective date of the new revenue guidance by one year to annual reporting periods beginning after December 15, 2017, with early adoption being permitted for annual periods beginning after December 15, 2016. The guidance may be adopted using a full retrospective approach or a modified cumulative effect approach. During 2016, the FASB issued additional clarifications for certain aspects of the new revenue recognition guidance. The Company currently expects to adopt the revenue recognition guidance in the first quarter of 2018. The Company’s implementation efforts include the identification of revenue within the scope of the guidance and the evaluation of revenue contracts. The Company also continues to evaluate both the timing of revenue recognition and the presentation of certain contract costs.

Classification of Certain Cash Receipts and Cash Payments—In August and November 2016, the FASB issued updated guidance which clarifies how a company should classify certain cash receipts and cash payments on the statement of cash flows and clarifies that restricted cash should be included in the total of cash and cash equivalents on the statement of cash flows. The new guidance for both updates is effective for annual and interim periods beginning after December 15, 2017 and early adoption is permitted. The new guidance is to be applied on a retrospective basis. The Company is currently evaluating the new guidance.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)
(UNAUDITED)

(dollars in thousands, unless otherwise noted)

Clarifying the Definition of a Business—In January 2017, the FASB issued updated guidance to clarify the definition of a business within the context of business combinations. The updated guidance requires that when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or a group of similar identifiable assets, the set is not a business. This updated guidance is expected to reduce the number of transactions that need to be further evaluated as business combinations. If further evaluation is necessary, the updated guidance will require that a business set include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. The updated guidance will remove the evaluation of whether a market participant could replace missing elements. The new guidance is effective for annual and interim periods beginning after December 15, 2017 and is to be applied on a prospective basis. The Company is currently evaluating the new guidance.

Compensation—Retirement Benefits—Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost—In March 2016, the FASB issued updated guidance on the presentation of net benefit cost in the statement of operations and the components eligible for capitalization. The new guidance requires that only the service cost component of net periodic pension cost and net periodic postretirement benefit cost be presented with other employee compensation costs in operating expenses. The other components of net benefit cost, including amortization of prior service cost, and gains and losses from settlements and curtailments, are to be included in non-operating expenses. The new guidance also stipulates that only the service cost component of net benefit cost is eligible for capitalization. This new guidance is effective for annual and interim periods beginning after December 15, 2017, with early adoption permitted. The Company is currently evaluating the new guidance.

Leases—In February 2016, the FASB issued updated guidance for leases. The guidance requires a lessee to (i) recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in the statement of financial condition, (ii) recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term on a generally straight-line basis, and (iii) classify all cash payments within operating activities in the statement of cash flows. The new guidance is effective for annual and interim periods beginning after December 15, 2018, with early adoption permitted. The new guidance is to be applied on a modified retrospective basis. The Company is currently evaluating the new guidance.

Financial Instruments—Credit Losses: Measurement of Credit Losses on Financial Instruments—In June 2016, the FASB issued new guidance regarding the measurement of credit losses on financial instruments. The new guidance replaces the incurred loss impairment methodology in the current guidance with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to determine credit loss estimates. The new guidance is effective for annual and interim periods beginning after December 15, 2019 with early adoption permitted for fiscal years beginning after December 15, 2018. The Company is currently evaluating the new guidance.

Intangibles—Goodwill and Other: Simplifying the Test for Goodwill Impairment—In January 2017, the FASB issued updated guidance which eliminated Step 2 from the goodwill impairment test. Step 2 is the process of measuring a goodwill impairment loss by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. The new guidance requires entities to measure a goodwill impairment loss as the amount by which a reporting unit's carrying value exceeds its fair value, limited to the carrying amount of goodwill. The FASB also eliminated the requirements for entities that have reporting units with zero or negative carrying amounts to perform a qualitative assessment for the goodwill impairment test. Instead, those entities would be required to disclose the amount of goodwill allocated to each reporting unit with a zero or negative carrying amount. The new guidance is effective for interim or annual goodwill impairment tests performed in fiscal years beginning after December 15, 2019, with early adoption permitted. The Company is currently evaluating the new guidance.

3. RECEIVABLES

The Company's receivables represent fee receivables, amounts due from customers and other receivables, and amounts due from Lazard Ltd subsidiaries.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)
(UNAUDITED)

(dollars in thousands, unless otherwise noted)

Receivables are stated net of an estimated allowance for doubtful accounts, for past due amounts and for specific accounts deemed uncollectible, which may include situations where a fee is in dispute.

Activity in the allowance for doubtful accounts for the three month periods ended March 31, 2017 and 2016 was as follows:

	Three Months Ended March 31,	
	2017	2016
Beginning Balance	\$ 16,386	\$ 12,882
Bad debt expense, net of recoveries	13,651	514
Charge-offs, foreign currency translation and other adjustments	(375)	(2,166)
Ending Balance	<u>\$ 29,662</u>	<u>\$ 11,230</u>

Bad debt expense, net of recoveries is included in "investment banking and other advisory fees" on the condensed consolidated statements of operations.

At March 31, 2017 and December 31, 2016, the Company had receivables past due or deemed uncollectible of \$42,489 and \$22,212, respectively.

Of the Company's fee receivables at March 31, 2017 and December 31, 2016, \$63,119 and \$76,133, respectively, represented interest-bearing financing receivables. In addition, at March 31, 2017 and December 31, 2016, the Company had interest-bearing receivables from Lazard Ltd subsidiaries of \$2,837 and \$20,365, respectively. Based upon our historical loss experience, the credit quality of the counterparties, and the lack of past due or uncollectible amounts, there was no allowance for doubtful accounts required at those dates related to such receivables.

The aggregate carrying amount of our non-interest bearing receivables of \$476,485 and \$570,486 at March 31, 2017 and December 31, 2016, respectively, approximates fair value.

4. INVESTMENTS

The Company's investments and securities sold, not yet purchased, consist of the following at March 31, 2017 and December 31, 2016:

	March 31, 2017	December 31, 2016
Interest-bearing deposits	\$ 483	\$ 456
Equities	42,962	41,017
Funds:		
Alternative investments (a)	31,046	32,441

Investments, at fair value	<u>\$ 381,369</u>	<u>\$ 458,744</u>
Securities sold, not yet purchased, at fair value (included in "other liabilities")	<u>\$ 4,293</u>	<u>\$ 4,482</u>

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)
(UNAUDITED)

(dollars in thousands, unless otherwise noted)

(a) Interests in alternative investment funds, debt funds and equity funds include investments with fair values of \$11,085, \$24,004 and \$71,552, respectively, at March 31, 2017 and \$13,080, \$37,869 and \$128,219, respectively, at December 31, 2016, held in order to satisfy the Company's liability upon vesting of previously granted Lazard Fund Interests ("LFI") and other similar deferred compensation arrangements. LFI represent grants by the Company to eligible employees of actual or notional interests in a number of Lazard-managed funds, subject to service-based vesting conditions (see Notes 6 and 12).

Interest-bearing deposits have original maturities of greater than three months but equal to or less than one year and are carried at cost that approximates fair value due to their short-term maturities.

Equities primarily consist of seed investments invested in marketable equity securities of large-, mid- and small-cap domestic, international and global companies held within separately managed accounts related to our Asset Management business.

Alternative investment funds primarily consist of interests in various Lazard-managed hedge funds, funds of funds and mutual funds.

Debt funds primarily consist of seed investments in funds related to our Asset Management business that invest in debt securities, amounts related to LFI discussed above and an investment in a Lazard-managed debt fund.

Equity funds primarily consist of seed investments in funds related to our Asset Management business that invest in equity securities, and amounts related to LFI discussed above.

Private equity investments include those owned by Lazard and those consolidated but not owned by Lazard. Private equity investments owned by Lazard are primarily comprised of investments in private equity funds. Such investments primarily include (i) Edgewater Growth Capital Partners III, L.P. ("EGCP III"), a fund primarily making equity and buyout investments in middle market companies, (ii) a mezzanine fund, which invests in mezzanine debt of a diversified selection of small- to mid-cap European companies, and (iii) a fund targeting significant noncontrolling-stake investments in established private companies.

Private equity investments consolidated but not owned by Lazard relate to the economic interests that are owned by the management team and other investors in the Edgewater Funds ("Edgewater").

During the three month periods ended March 31, 2017 and 2016, the Company reported in "revenue-other" on its condensed consolidated statements of operations net unrealized investment gains and losses pertaining to "trading" securities still held as of the reporting date as follows:

	Three Months Ended March 31,	
	2017	2016
Net unrealized investment gains	\$ 13,180	\$ 4,992

5. FAIR VALUE MEASUREMENTS

Fair Value Hierarchy of Investments and Certain Other Assets and Liabilities—Lazard categorizes its investments and certain other assets and liabilities recorded at fair value into a three-level fair value hierarchy as follows:

- Level 1.* Assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that Lazard has the ability to access.
- Level 2.* Assets and liabilities whose values are based on (i) quoted prices for similar assets or liabilities in an active market, or quoted prices for identical or similar assets or liabilities in non-active markets, or (ii) inputs other than quoted prices that are directly observable or derived principally from, or corroborated by, market data.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

(UNAUDITED)

(dollars in thousands, unless otherwise noted)

Level 3. Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect our own assumptions about the assumptions a market participant would use in pricing the asset or liability. Items included in Level 3 include securities or other financial assets whose trading volume and level of activity have significantly decreased when compared with normal market activity and there is no longer sufficient frequency or volume to provide pricing information on an ongoing basis.

The fair value of equities is classified as Level 1 or Level 3 as follows: marketable equity securities are classified as Level 1 and are valued based on the last trade price on the primary exchange for that security as provided by external pricing services; equity securities in private companies are generally classified as Level 3.

The fair value of investments in alternative investment funds, debt funds and equity funds is classified as Level 1 when the fair values are primarily based on the publicly reported closing price for the fund.

The fair value of investments in private equity funds is classified as Level 2 for certain investments that were valued based on a probable transaction value as of the reporting date that differs from net asset value ("NAV").

The fair value of securities sold, not yet purchased, is classified as Level 1 when the fair values are based on unadjusted quoted prices in active markets.

The fair value of the contingent consideration liability is classified as Level 3 and the estimated fair value of the liability is remeasured at each reporting period. The inputs used to derive the fair value of the contingent consideration include the application of probabilities when assessing certain performance thresholds for the relevant periods. Any change in the fair value is recognized in "amortization and other acquisition-related costs" in the condensed consolidated statement of operations. Our business acquisitions may involve the potential payment of contingent consideration upon the achievement of certain performance thresholds. The contingent consideration liability is initially recorded at the estimated fair value of the contingent payments on the acquisition date and is included in "other liabilities" on the condensed consolidated statements of financial condition. See Note 10.

The fair value of derivatives entered into by the Company is classified as Level 2 and is based on the values of the related underlying assets, indices or reference rates as follows: the fair value of forward foreign currency exchange rate contracts is a function of the spot rate and the interest rate differential of the two currencies from the trade date to settlement date; the fair value of total return swaps is based on the change in fair value of the related underlying equity security, financial instrument or index and a specified notional holding; the fair value of interest rate swaps is based on the interest rate yield curve; and the fair value of derivative liabilities related to LFI and other similar deferred compensation arrangements is based on the value of the underlying investments, adjusted for forfeitures. See Note 6.

Investments Measured at NAV—As a practical expedient, the Company uses NAV or its equivalent to measure the fair value of certain investments. NAV is primarily determined based on information provided by external fund administrators. The Company's investments valued at NAV as a practical expedient in (i) alternative investment funds, debt funds and equity funds are redeemable in the near term, and (ii) private equity funds are not redeemable in the near term as a result of redemption restrictions.

Investment Capital Funding Commitments—At March 31, 2017, the Company’s maximum unfunded commitments for capital contributions to investment funds primarily arose from commitments to EGCP III, which amounted to \$8,613. The investment period for EGCP III ended on October 12, 2016, after which point the Company’s obligation to fund capital contributions for new investments in EGCP III expired. The Company remains obligated until October 12, 2023 (or any earlier liquidation of EGCP III) to make capital contributions necessary to fund follow-on investments and to pay for fund expenses.

6. DERIVATIVES

The Company enters into forward foreign currency exchange rate contracts, interest rate swaps, interest rate futures, total return swap contracts on various equity and debt indices and other derivative contracts to economically hedge exposures to fluctuations in currency exchange rates, interest rates and equity and debt prices. The Company reports its derivative instruments separately as assets and liabilities unless a legal right of set-off exists under a master netting agreement enforceable by law. The Company’s derivative instruments are recorded at their fair value, and are included in “other assets” and “other liabilities” on the condensed consolidated statements of financial condition. Gains and losses on the Company’s derivative instruments are generally included in “interest income” and “interest expense”, respectively, or “revenue-other”, depending on the nature of the underlying item, in the condensed consolidated statements of operations.

In addition to the derivative instruments described above, the Company records derivative liabilities relating to its obligations pertaining to LFI and other similar deferred compensation arrangements, the fair value of which is based on the value of the underlying investments, adjusted for estimated forfeitures, and is included in “accrued compensation and benefits” in the condensed consolidated statements of financial condition. Changes in the fair value of the derivative liabilities are included in “compensation and benefits” in the condensed consolidated statements of operations, the impact of which equally offsets the changes in the fair value of investments which are currently expected to be delivered upon settlement of LFI and other similar deferred compensation arrangements, which are reported in “revenue-other” in the condensed consolidated statements of operations.

The table below presents the fair value of the Company’s derivative instruments reported within “other assets” and “other liabilities” and the fair value of the Company’s derivative liabilities relating to its obligations pertaining to LFI and other similar deferred compensation arrangements reported within “accrued compensation and benefits” (see Note 12) on the accompanying condensed consolidated statements of financial condition as of March 31, 2017 and December 31, 2016:

	March 31, 2017	December 31, 2016
Derivative Assets:		
Forward foreign currency exchange rate contracts	\$ 3,937	\$ 1,993
Total return swaps and other (a)	120	-
	<u>\$ 4,057</u>	<u>\$ 1,993</u>
Derivative Liabilities:

LFI and other similar deferred compensation arrangements	174,740	170,388
	<u>\$ 179,023</u>	<u>\$ 182,223</u>

(a) For total return swaps, amounts represent the netting of gross derivative assets and liabilities of \$197 and \$3,624 as of March 31, 2017, respectively, and \$357 and \$9,400 as of December 31, 2016, respectively, for contracts with the same counterparty under legally enforceable master netting agreements. Such amounts are recorded “net” in “other assets”, with receivables for net cash collateral under such contracts of \$12,376 and \$16,996 as of March 31, 2017 and December 31, 2016, respectively.

Property		<u>\$ 206,120</u>	<u>\$ 208,997</u>

8. GOODWILL AND OTHER INTANGIBLE ASSETS

The components of goodwill and other intangible assets at March 31, 2017 and December 31, 2016 are presented below:

	March 31, 2017	December 31, 2016
Goodwill	\$ 358,631	\$ 352,124
Other intangible assets (net of accumulated amortization)	6,425	6,858
	<u>\$ 365,056</u>	<u>\$ 358,982</u>

At March 31, 2017 and December 31, 2016, goodwill of \$294,090 and \$287,583, respectively, was attributable to the Company’s Financial Advisory segment and, at each such respective date, \$64,541 of goodwill was attributable to the Company’s Asset Management segment.

Changes in the carrying amount of goodwill for the three month periods ended March 31, 2017 and 2016 are as follows:

	Three Months Ended March 31,	
	2017	2016
Balance, January 1	\$ 352,124	\$ 320,761
Foreign currency translation adjustments	6,507	6,289
Balance, March 31	<u>\$ 358,631</u>	<u>\$ 327,050</u>

All changes in the carrying amount of goodwill for the three month periods ended March 31, 2017 and 2016 are attributable to the Company’s Financial Advisory segment.

Amortization expense of intangible assets, included in “amortization and other acquisition-related costs” in the condensed consolidated statements of operations, for the three month periods ended March 31, 2017 and 2016 was \$434 and \$644, respectively. Estimated future amortization expense is as follows:

Year Ending December 31,	Amortization Expense (a)
2017 (April 1 through December 31)	\$ 5,646
2018	779
Total amortization expense	<u>\$ 6,425</u>

(a) Approximately 33% of intangible asset amortization is attributable to a noncontrolling interest.

9. SENIOR DEBT

Senior debt is comprised of the following as of March 31, 2017 and December 31, 2016:

	Initial Principal Amount	Maturity Date	Annual Interest Rate(a)	Outstanding as of

(a) The effective interest rates of Lazard Group’s 4.25% senior notes due November 14, 2020 (the “2020 Notes”), Lazard Group’s 3.75% senior notes due February 13, 2025 (the “2025 Notes”) and Lazard Group’s 3.625% senior notes due March 1, 2027 (the “2027 Notes”) are 4.43%, 3.87% and 3.76%, respectively.

On September 25, 2015, Lazard Group entered into an Amended and Restated Credit Agreement for a five-year \$150,000 senior revolving credit facility with a group of lenders (the “Amended and Restated Credit Agreement”), which expires in September 2020. The Amended and Restated Credit Agreement amended and restated the previous credit agreement dated September 25, 2012. Borrowings under the Amended and Restated Credit Agreement generally will bear interest at LIBOR plus an applicable margin for specific interest periods determined based on Lazard Group’s highest credit rating from an internationally recognized credit agency. At March 31, 2017 and December 31, 2016, no amounts were outstanding under the Amended and Restated Credit Agreement.

The Amended and Restated Credit Agreement, the indenture and the supplemental indentures relating to Lazard Group’s senior notes contain certain covenants, events of default and other customary provisions, including a customary make-whole provision in the

event of early redemption, where applicable. As of March 31, 2017, the Company was in compliance with such provisions. All of the Company's senior debt obligations are unsecured.

As of March 31, 2017, the Company had approximately \$172,000 in unused lines of credit available to it, including the credit facility provided under the Amended and Restated Credit Agreement, and unused lines of credit available to LFB of approximately \$21,000 (at March 31, 2017 exchange rates).

The Company's senior debt at March 31, 2017 and December 31, 2016 is carried at historical amounts of \$1,189,043 and \$1,188,600, respectively. At those dates, the fair value of such senior debt was approximately \$1,219,000 and \$1,204,000, respectively. The fair value of the Company's senior debt is based on market quotations. The Company's senior debt would be categorized within Level 2 of the hierarchy of fair value measurements if carried at fair value.

10. COMMITMENTS AND CONTINGENCIES

Leases—The Company has various leases and other contractual commitments arising in the ordinary course of business.

Guarantees—In the normal course of business, LFB provides indemnifications to third parties to protect them in the event of non-performance by its clients. At March 31, 2017, LFB had \$3,174 of such indemnifications and held \$3,092 of collateral/counter-guarantees to secure these commitments. The Company believes the likelihood of loss with respect to these indemnities is remote. Accordingly, no liability is recorded in the condensed consolidated statement of financial condition.

Business Acquisitions—For a business acquired in 2016, consideration consists of (i) previously paid one-time cash payment and 60,817 shares of Class A common stock subject to non-compete provisions and (ii) up to 210,431 additional shares of Class A common stock that are subject to certain performance thresholds. As of March 31, 2017, none of the contingent shares had been earned.

Other Commitments—The Company has various other contractual commitments arising in the ordinary course of business. In addition, from time to time, each of LFB and LFNy may enter into underwriting commitments in which it will participate as an underwriter. At March 31, 2017, LFB and LFNy had no such underwriting commitments.

See Notes 5 and 13 for information regarding commitments relating to investment capital funding commitments and obligations to fund our pension plans, respectively.

In the opinion of management, the fulfillment of the commitments described herein will not have a material adverse effect on the Company's condensed consolidated financial position or results of operations.

Legal—The Company is involved from time to time in judicial, regulatory and arbitration proceedings and inquiries concerning matters arising in connection with the conduct of our businesses, including proceedings initiated by former employees alleging wrongful termination. The Company reviews such matters on a case-by-case basis and establishes any required accrual if a loss is probable and the amount of such loss can be reasonably estimated. The Company experiences significant variation in its revenue and earnings on a quarterly basis. Accordingly, the results of any pending matter or matters could be significant when compared to the Company's earnings in any particular fiscal quarter. The Company believes, however, based on currently available information, that the results of any pending matters, in the aggregate, will not have a material effect on its business or financial condition.

11. MEMBERS' EQUITY

Lazard Group Distributions—Distributions in respect of Lazard Group's common membership interests are allocated to the holders of such interests in accordance with the provisions of the Operating Agreement. Such distributions primarily represent amounts necessary to fund (i) any dividends Lazard Ltd may declare on its Class A common stock and (ii) tax distributions in respect of income taxes that Lazard Ltd's subsidiaries incur.

During the three month periods ended March 31, 2017 and 2016, Lazard Group distributed \$193,460 and \$153,090, respectively, to the subsidiaries of Lazard Ltd.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)
(UNAUDITED)

(dollars in thousands, unless otherwise noted)

Pursuant to Lazard Group's Operating Agreement, Lazard Group allocates and distributes to its members a substantial portion of its distributable profits in installments as soon as practicable after the end of each fiscal year. Such installment distributions usually begin in February.

Share Repurchase Program—During the three month period ended March 31, 2017 and since 2014, the Board of Directors of Lazard authorized the repurchase of Lazard Ltd Class A common stock as set forth in the table below:

<u>Date</u>	<u>Repurchase Authorization</u>	<u>Expiration</u>
April 2014	\$ 200,000	December 31, 2015
February 2015	\$ 150,000	December 31, 2016
January 2016	\$ 200,000	December 31, 2017
April 2016	\$ 113,182	December 31, 2017
November 2016	\$ 236,000	December 31, 2018

The Company expects that the share repurchase program will primarily be used to offset a portion of the shares that have been or will be issued under the Lazard Ltd 2008 Incentive Compensation Plan (the "2008 Plan"). Pursuant to the share repurchase program, purchases have been made in the open market or through privately negotiated transactions. The rate at which the Company purchases shares in connection with the share repurchase program may vary from quarter to quarter due to a variety of factors. Purchases with respect to such program are set forth in the table below:

<u>Three Months Ended March 31:</u>	<u>Number of Shares Purchased</u>	<u>Average Price Per Share</u>
2016	2,424,571	\$ 34.29
2017	2,464,967	\$ 43.02

During the three month periods ended March 31, 2017 and 2016, certain of our executive officers received Lazard Ltd Class A common stock in connection with the vesting of previously-granted deferred equity incentive awards. The vesting of such equity awards gave rise to a tax payable by the executive officers, and, consistent with our past practice, the Company purchased shares of Lazard Ltd Class A common stock from the executive officers equal in value to all or a portion of the estimated amount of such tax. In addition, during the three month period ended March 31, 2017, the Company purchased shares of Lazard Ltd Class A common stock from an executive officer. The aggregate value of all such purchases during the three month periods ended March 31, 2017 and 2016 was approximately \$14,700 and \$3,100, respectively.

As of March 31, 2017, a total of \$249,078 of share repurchase authorization remained available under Lazard Ltd's share repurchase program, \$13,078 of which will expire on December 31, 2017 and \$236,000 of which will expire on December 31, 2018.

During the three month period ended March 31, 2017, Lazard Ltd had in place trading plans under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), pursuant to which it effected stock repurchases in the open market.

12. INCENTIVE PLANS

Share-Based Incentive Plan Awards

A description of Lazard Ltd's 2008 Plan and 2005 Equity Incentive Plan (the "2005 Plan") and activity with respect thereto during the three month periods ended March 31, 2017 and 2016 is presented below.

Shares Available Under the 2008 Plan and 2005 Plan

The 2008 Plan authorizes the issuance of shares of Class A common stock pursuant to the grant or exercise of stock options, stock appreciation rights, restricted stock units ("RSUs"), performance-based restricted stock units ("PRSUs") and other share-based awards. Under the 2008 Plan, the maximum number of shares available is based on a formula that limits the aggregate number of shares that may, at any time, be subject to awards that are considered "outstanding" under the 2008 Plan to 30% of the then-outstanding shares of Class A common stock.

The 2005 Plan authorized the issuance of up to 25,000,000 shares of Class A common stock pursuant to the grant or exercise of stock options, stock appreciation rights, RSUs and other share-based awards. Each RSU or similar award granted under the 2005 Plan represents a contingent right to receive one share of Class A common stock, at no cost to the recipient. The fair value of such awards is generally determined based on the closing market price of Class A common stock at the date of grant. The 2005 Plan expired in the second quarter of 2015, although unvested awards granted under the 2005 Plan remain outstanding and continue to be subject to its terms.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)
(UNAUDITED)

(dollars in thousands, unless otherwise noted)

The following reflects the amortization expense recorded with respect to share-based incentive plans within “compensation and benefits” expense (with respect to RSUs, PRSUs and restricted stock awards) and “professional services” expense (with respect to deferred stock units (“DSUs”)) within the Company’s accompanying condensed consolidated statements of operations for the three month periods ended March 31, 2017 and 2016:

	Three Months Ended	
	March 31,	
	2017	2016
Share-based incentive awards:		
RSUs	\$ 55,941	\$ 54,408
PRSUs	11,782	16,689
Restricted Stock	9,649	23,476
DSUs	77	33
Total	<u>\$ 77,449</u>	<u>\$ 94,606</u>

The ultimate amount of compensation and benefits expense relating to share-based awards is dependent upon the actual number of shares of Class A common stock that vest. The Company periodically assesses the forfeiture rates used for such estimates, including as a result of any applicable performance conditions. A change in estimated forfeiture rates or performance results in a cumulative adjustment to previously recorded compensation and benefits expense and also would cause the aggregate amount of compensation expense recognized in future periods to differ from the estimated unrecognized compensation expense described below.

The Company’s share-based incentive plans and awards are described below.

RSUs and DSUs

RSUs generally require future service as a condition for the delivery of the underlying shares of Class A common stock (unless the recipient is then eligible for retirement under the Company’s retirement policy) and convert into shares of Class A common stock on a one-for-one basis after the stipulated vesting periods. PRSUs, which are RSUs that are also subject to service-based vesting conditions, have additional performance conditions, and are described below. The grant date fair value of the RSUs, net of an estimated forfeiture rate, is amortized over the vesting periods or requisite service periods (generally one-third after two years, and the remaining two-thirds after the third year), and is adjusted for actual forfeitures over such period.

RSUs generally include a dividend participation right that provides that during vesting periods each RSU is attributed additional RSUs (or fractions thereof) equivalent to any dividends paid on Class A common stock during such period. During the three month periods ended March 31, 2017 and 2016, dividend participation rights required the issuance of 613,795 and 700,651 RSUs, respectively.

Non-executive members of the Board of Directors of Lazard Group, who are the same Non-Executive Directors of Lazard Ltd (“Non-Executive Directors”), receive approximately 55% of their annual compensation for service on the Board of Directors and its committees in the form of DSUs, which resulted in 1,551 DSUs granted during the three month period ended March 31, 2017. Their remaining compensation is payable in cash, which they may elect to receive in the form of additional DSUs under the Directors’ Fee Deferral Unit Plan described below. DSUs are convertible into shares of Class A common stock at the time of cessation of service to the Board of Directors. DSUs include a cash dividend participation right equivalent to dividends paid on Class A common stock.

The Company’s Directors’ Fee Deferral Unit Plan permits the Non-Executive Directors to elect to receive additional DSUs in lieu of some or all of their cash fees. The number of DSUs granted to a Non-Executive Director pursuant to this election will equal the value of cash fees that the applicable Non-Executive Director has elected to forego pursuant to such election, divided by the market value of a share of Class A common stock on the date immediately preceding the date of the grant. During the three month periods ended March 31, 2017 and 2016, 3,555 and 2,110 DSUs, respectively, had been granted pursuant to such Plan.

DSU awards are expensed at their fair value on their date of grant, inclusive of amounts related to the Directors’ Fee Deferral Unit Plan.

In connection with RSUs that vested during the three month periods ended March 31, 2017 and 2016, the Company satisfied its minimum statutory tax withholding requirements in lieu of delivering 1,229,531 and 1,327,399 shares of Class A common stock during such respective three month periods. Accordingly, 2,391,923 and 2,772,793 shares of Class A common stock held by the Company were delivered during the three month periods ended March 31, 2017 and 2016, respectively.

As of March 31, 2017, estimated unrecognized RSU compensation expense was approximately \$260,079, with such expense expected to be recognized over a weighted average period of approximately 1.0 year subsequent to March 31, 2017.

Restricted Stock

The following is a summary of activity related to shares of restricted Class A common stock associated with compensation arrangements during the three month periods ended March 31, 2017 and 2016:

	Restricted Shares	Weighted Average Grant Date Fair Value

Vested	(627,110)	\$ 36.61
Balance, March 31, 2016	<u>1,856,224</u>	\$ 40.77

In connection with shares of restricted Class A common stock that vested during the three month periods ended March 31, 2017 and 2016, the Company satisfied its minimum statutory tax withholding requirements in lieu of delivering 108,239 and 77,795 shares of Class A common stock during such respective three month periods. Accordingly, 155,218 and 549,315 shares of Class A common stock held by the Company were delivered during the three month periods ended March 31, 2017 and 2016, respectively.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)
(UNAUDITED)

(dollars in thousands, unless otherwise noted)

The restricted stock awards include a cash dividend participation right equivalent to dividends paid on Class A common stock during the period, which will vest concurrently with the underlying restricted stock award. At March 31, 2017, estimated unrecognized restricted stock expense was approximately \$55,675, with such expense to be recognized over a weighted average period of approximately 0.9 years subsequent to March 31, 2017.

PRsUs

PRsUs are RSUs that are subject to both performance-based and service-based vesting conditions. The number of shares of Class A common stock that a recipient will receive upon vesting of a PRsU will be calculated by reference to certain performance metrics that relate to Lazard Ltd's performance over a three-year period. The target number of shares of Class A common stock subject to each PRsU is one; however, based on the achievement of the performance criteria, the number of shares of Class A common stock that may be received in connection with each PRsU generally can range from zero to two times the target number. PRsUs will vest on a single date three years following the date of the grant, provided the applicable service and performance conditions are satisfied. In addition, the performance metrics applicable to each PRsU will be evaluated on an annual basis at the end of each fiscal year during the performance period and, if Lazard Ltd has achieved a threshold level of performance with respect to the fiscal year, 25% of the target number of shares of Class A common stock subject to each PRsU will no longer be at risk of forfeiture based on the achievement of performance criteria. PRsUs include dividend participation rights that provide that during vesting periods, the target number of PRsUs (or, following the relevant performance period, the actual number of shares of Class A common stock that are no longer subject to performance conditions) receive dividend equivalents at the same rate that dividends are paid on Class A common stock during such periods. These dividend equivalents are credited as RSUs that are not subject to the performance-based vesting criteria but are otherwise subject to the same restrictions as the underlying PRsUs to which they relate.

The following is a summary of activity relating to PRsUs during the three month periods ended March 31, 2017 and 2016:

	PRsUs	Weighted Average Grant Date Fair Value
Balance, January 1, 2017	1,590,756	\$ 40.76

Vested	(417,018)	\$ 38.43
Balance, March 31, 2016	1,229,976	\$ 40.63

(a) Represents PRsU awards granted during the relevant year at the target payout level.

In connection with certain PRsUs that vested during the three month periods ended March 31, 2017 and 2016, the Company satisfied its minimum statutory tax withholding requirements in lieu of delivering 85,629 and 64,169 shares of Class A common stock during such respective three month periods. Accordingly, 667,141 and 352,849 shares of Class A common stock held by the Company were delivered during the three month periods ended March 31, 2017 and 2016, respectively.

Compensation expense recognized for PRsU awards is determined by multiplying the number of shares of Class A common stock underlying such awards that, based on the Company's estimate, are considered probable of vesting, by the grant date fair value. As of March 31, 2017, the total estimated unrecognized compensation expense was approximately \$20,853, and the Company expects to amortize such expense over a weighted-average period of approximately 0.7 years subsequent to March 31, 2017.

LFI and Other Similar Deferred Compensation Arrangements

Commencing in February 2011, the Company granted LFI to eligible employees. In connection with LFI and other similar deferred compensation arrangements, which generally require future service as a condition for vesting, the Company recorded a prepaid compensation asset and a corresponding compensation liability on the grant date based upon the fair value of the award. The

(UNAUDITED)

(dollars in thousands, unless otherwise noted)

prepaid asset is amortized on a straight-line basis over the applicable vesting periods or requisite service periods (which are generally similar to the comparable periods for RSUs), and is charged to “compensation and benefits” expense within the Company’s condensed consolidated statement of operations. LFI and similar deferred compensation arrangements that do not require future service are expensed immediately. The related compensation liability is accounted for at fair value as a derivative liability, which contemplates the impact of estimated forfeitures, and is adjusted for changes in fair value primarily related to changes in value of the underlying investments.

The following is a summary of activity relating to LFI and other similar deferred compensation arrangements during the three month periods ended March 31, 2017 and 2016:

13. EMPLOYEE BENEFIT PLANS

The Company provides retirement and other post-retirement benefits to certain of its employees through defined benefit pension plans (the “pension plans”) and, until December 2016, in the U.S., a partially funded contributory medical post-retirement plan covering certain qualifying U.S. employees (the “medical plan” and together with the pension plans, the “post-retirement plans”). The Company also offers defined contribution plans to its employees. The post-retirement plans generally provide benefits to participants based on average levels of compensation. Expenses related to the Company’s employee benefit plans are included in “compensation and benefits” expense on the condensed consolidated statements of operations.

Employer Contributions to Pension Plans—The Company’s funding policy for its U.S. and non-U.S. pension plans is to fund when required or when applicable upon an agreement with the plans’ trustees (the “Trustees”). Management also evaluates from time to time whether to make voluntary contributions to the plans.

The following table summarizes the components of net periodic benefit cost (credit) related to the Company’s post-retirement plans for the three month periods ended March 31, 2017 and 2016:

	Pension Plans		Medical Plan	
	Three Months Ended March 31,

14. INCOME TAXES

Although a portion of Lazard Group’s income is subject to U.S. federal income taxes, Lazard Group primarily operates in the U.S. as a limited liability company that is treated as a partnership for U.S. federal income tax purposes. As a result, Lazard Group’s income from its U.S. operations is generally not subject to U.S. federal income taxes because such income is attributable to its partners. Lazard Group, through its subsidiaries, is subject to state and local taxes on its income apportioned to various state and local jurisdictions. Outside the U.S., Lazard Group operates principally through subsidiary corporations that are subject to local income taxes in foreign jurisdictions. Lazard Group is also subject to New York City Unincorporated Business Tax (“UBT”) attributable to its operations apportioned to New York City.

The Company recorded income tax provisions of \$21,995 and \$11,735 for the three month periods ended March 31, 2017 and 2016, respectively, representing effective tax rates of 14.4% and 12.0%, respectively. The difference between the U.S. federal statutory rate of 35.0% and the effective tax rates reflected above principally relates to (i) Lazard Group primarily operating as a limited liability company in the U.S., (ii) change in the valuation allowance affecting the provision for income taxes, (iii) taxes payable to foreign jurisdictions, (iv) excess net tax benefit for share-based incentive compensation, and (v) U.S. state and local taxes, which are incremental to the U.S. federal statutory tax rate.

On January 1, 2017, the Company adopted new accounting guidance on share-based incentive compensation. Upon adoption, the Company recognized excess tax benefits of \$2,003 from the vesting of share-based incentive compensation in the provision for income taxes in the condensed consolidated statements of operations for the three month period ended March 31, 2017. The Company also recorded deferred tax assets of \$4,945, net of a valuation allowance of \$12,090, as of January 1, 2017, for previously unrecognized excess tax benefits (including tax benefits from dividends or dividend equivalents) on share-based incentive compensation, with an offsetting adjustment to retained earnings. See Note 2 for further information on the adoption of this new guidance.

(dollars in thousands, unless otherwise noted)

Substantially all of Lazard's operations outside the U.S. are conducted in "pass-through" entities for U.S. income tax purposes. The Company provides for U.S. income taxes on a current basis for the relevant portion of those earnings. The repatriation of prior earnings attributable to "non-pass-through" entities would not result in the recognition of a material amount of additional U.S. income taxes.

15. RELATED PARTIES

Receivable from and Payable to Lazard Ltd Subsidiaries

Lazard Group's receivables from subsidiaries of Lazard Ltd at March 31, 2017 and December 31, 2016 included interest-bearing loans of \$2,837 and \$20,365, respectively, including accrued interest thereon. Interest income relating to interest-bearing loans with subsidiaries of Lazard Ltd amounted to \$133 and \$185 for the three month periods ended March 31, 2017 and 2016, respectively.

Lazard Group's payables to subsidiaries of Lazard Ltd at March 31, 2017 and December 31, 2016 included interest-bearing loans, including interest thereon, of approximately \$65,000 and \$60,500, respectively. Interest expense relating to interest-bearing loans with subsidiaries of Lazard Ltd amounted to \$944 and \$867 for the three month periods ended March 31, 2017 and 2016.

Sponsored Funds

The Company serves as an investment advisor for certain affiliated investment companies and fund entities and receives management fees and, for the alternative investment funds, performance fees for providing such services. Investment advisory fees relating to such services were \$140,577 and \$118,910 for the three month periods ended March 31, 2017 and 2016, respectively, and are included in "asset management fees" on the condensed consolidated statements of operations. Of such amounts, \$52,867 and \$49,944 remained as receivables at March 31, 2017 and December 31, 2016, respectively, and are included in "fees receivable" on the condensed consolidated statements of financial condition.

16. REGULATORY AUTHORITIES

LFNY is a U.S. registered broker-dealer and is subject to the net capital requirements of Rule 15c3-1 under the Exchange Act. Under the basic method permitted by this rule, the minimum required net capital, as defined, is a specified fixed percentage ($6\frac{2}{3}\%$) of total aggregate indebtedness recorded in LFNY's Financial and Operational Combined Uniform Single ("FOCUS") report filed with the Financial Industry Regulatory Authority ("FINRA"), or \$100, whichever is greater. In addition, the ratio of aggregate indebtedness (as defined) to net capital may not exceed 15:1. At March 31, 2017, LFNY's regulatory net capital was \$79,663, which exceeded the minimum requirement by \$74,877. LFNY's aggregate indebtedness to net capital ratio was 0.90:1 as of March 31, 2017.

Certain U.K. subsidiaries of the Company, including LCL, Lazard Fund Managers Limited and Lazard Asset Management Limited (collectively, the "U.K. Subsidiaries") are regulated by the Financial Conduct Authority. At March 31, 2017, the aggregate regulatory net capital of the U.K. Subsidiaries was \$128,206, which exceeded the minimum requirement by \$112,123.

CFLF, under which asset management and commercial banking activities are carried out in France, is subject to regulation by the Autorité de Contrôle Prudentiel et de Résolution ("ACPR") for its banking activities conducted through its subsidiary, LFB. LFB, as a registered bank, is engaged primarily in commercial and private banking services for clients and funds managed by LFG and other clients, and asset-liability management. The investment services activities of the Paris group, exercised through LFB and other subsidiaries of CFLF, primarily LFG (asset management), also are subject to regulation and supervision by the Autorité des Marchés Financiers. At March 31, 2017, the consolidated regulatory net capital of CFLF was \$133,162, which exceeded the minimum requirement set for regulatory capital levels by \$88,708. In addition, pursuant to the consolidated supervision rules in the European Union, LFB, in particular, as a French credit institution, is required to be supervised by a regulatory body, either in the U.S. or in the European Union. During the third quarter of 2013, the Company and the ACPR agreed on terms for the consolidated supervision of LFB and certain other non-Financial Advisory European subsidiaries of the Company (referred to herein, on a combined basis, as the

“combined European regulated group”) under such rules. Under this supervision, the combined European regulated group is required to comply with minimum requirements for regulatory net capital to be reported on a quarterly basis and satisfy periodic financial and other reporting obligations. At December 31, 2016, the regulatory net capital of the combined European regulated group was \$159,102, which exceeded the minimum requirement set for regulatory capital levels by \$84,949. Additionally, the combined European regulated group, together with our European Financial Advisory entities, is required to perform an annual risk assessment and provide certain other information on a periodic basis, including financial reports and information relating to financial performance, balance sheet data and capital structure.

Certain other U.S. and non-U.S. subsidiaries are subject to various capital adequacy requirements promulgated by various regulatory and exchange authorities in the countries in which they operate. At March 31, 2017, for those subsidiaries with regulatory capital requirements, their aggregate net capital was \$120,725, which exceeded the minimum required capital by \$94,924.

At March 31, 2017, each of these subsidiaries individually was in compliance with its regulatory capital requirements.

Any new or expanded rules and regulations that may be adopted in countries in which we operate (including regulations that have not yet been proposed) could affect us in other ways.

17. SEGMENT INFORMATION

The Company’s reportable segments offer different products and services and are managed separately as different levels and types of expertise are required to effectively manage the segments’ transactions. Each segment is reviewed to determine the allocation of resources and to assess its performance. The Company’s principal operating activities are included in its Financial Advisory and Asset Management business segments as described in Note 1 above. In addition, as described in Note 1, the Company records selected other activities in its Corporate segment.

The Company’s segment information for the three month periods ended March 31, 2017 and 2016 is prepared using the following methodology:

- Revenue and expenses directly associated with each segment are included in determining operating income.
- Expenses not directly associated with specific segments are allocated based on the most relevant measures applicable, including headcount, square footage and other factors.
- Segment assets are based on those directly associated with each segment, and include an allocation of certain assets relating to various segments, based on the most relevant measures applicable, including headcount, square footage and other factors.

The Company allocates investment gains and losses, interest income and interest expense among the various segments based on the segment in which the underlying asset or liability is reported.

Each segment’s operating expenses include (i) compensation and benefits expenses incurred directly in support of the businesses and (ii) other operating expenses, which include directly incurred expenses for occupancy and equipment, marketing and business development, technology and information services, professional services, fund administration and outsourced services and indirect support costs (including compensation and other operating expenses related thereto) for administrative services. Such administrative services include, but are not limited to, accounting, tax, human resources, legal, facilities management and senior management activities.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with Lazard Group’s condensed consolidated financial statements and the related notes included elsewhere in this Quarterly Report on Form 10-Q (the “Form 10-Q”), as well as Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) included in our Annual Report on Form 10-K for the year ended December 31, 2016 (the “Form 10-K”). All references to “2017,” “2016,” “first quarter,” “three months” or “the period” refer to, as the context requires, the three month periods ended March 31, 2017 and March 31, 2016.

Forward-Looking Statements and Certain Factors that May Affect Our Business

Management has included in Parts I and II of this Form 10-Q, including in its MD&A, statements that are forward-looking statements. In some cases, you can identify these statements by forward-looking words such as “may,” “might,” “will,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “target,” “goal” or “continue,” and the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies, business plans and initiatives and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. These factors include, but are not limited to, those discussed in our Form 10-K under the caption “Risk Factors,” including the following:

- a decline in general economic conditions or global or regional financial markets;
- a decline in our revenues, for example due to a decline in overall mergers and acquisitions (“M&A”) activity, our share of the M&A market or our assets under management (“AUM”);
- losses caused by financial or other problems experienced by third parties;
- losses due to unidentified or unanticipated risks;
- a lack of liquidity, *i.e.*, ready access to funds, for use in our businesses; and
- competitive pressure on our businesses and on our ability to retain and attract employees at current compensation levels.

These risks and uncertainties are not exhaustive. Other sections of the Form 10-K and this Form 10-Q describe additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for our management to predict all risks and uncertainties, nor can management assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. You should not rely upon forward-looking statements as predictions of future events. We are under no duty to update any of these forward-looking statements after the date of this Form 10-Q to conform our prior statements to actual results or revised expectations and we do not intend to do so.

Forward-looking statements include, but are not limited to, statements about:

- financial goals, including the ratio of awarded compensation and benefits expense to operating revenue;
- ability to deploy surplus cash through distributions to members, purchases of Lazard Ltd Class A common stock and debt repurchases;
- possible or assumed future results of operations and operating cash flows;
- strategies and investment policies;
- financing plans and the availability of short-term borrowing;
- competitive position;
- future acquisitions, including the consideration to be paid and the timing of consummation;
- potential growth opportunities available to our businesses;
- recruitment and retention of our managing directors and employees;

- potential levels of compensation expense, including awarded compensation and benefits expense and adjusted compensation and benefits expense, and non-compensation expense;
- potential operating performance, achievements, productivity improvements, efficiency and cost reduction efforts;
- likelihood of success and impact of litigation;
- expected tax rates, including effective tax rates;
- changes in interest and tax rates;
- availability of certain tax benefits, including certain potential deductions;
- potential impact of certain events or circumstances on our financial statements;
- changes in foreign currency exchange rates;
- expectations with respect to the economy, the securities markets, the market for mergers, acquisitions and strategic advisory and restructuring activity, the market for asset management activity and other macroeconomic and industry trends;
- effects of competition on our business; and
- impact of future legislation and regulation on our business.

The Company is committed to providing timely and accurate information to the investing public, consistent with our legal and regulatory obligations. To that end, the Company uses its website, its twitter account (twitter.com/Lazard) and other social media sites to convey information about our businesses, including the anticipated release of quarterly financial results, quarterly financial, statistical and business-related information, and the posting of updates of AUM in various mutual funds, hedge funds and other investment products managed by our Asset Management business. Investors can link to Lazard Ltd, Lazard Group and their operating company websites through <http://www.lazard.com>. Our websites and social media sites and the information contained therein or connected thereto shall not be deemed to be incorporated into this Form 10-Q.

Business Summary

Lazard is one of the world's preeminent financial advisory and asset management firms. We have long specialized in crafting solutions to the complex financial and strategic challenges of a diverse set of clients around the world, including corporations, governments, institutions, partnerships and individuals. Founded in 1848 in New Orleans, we currently operate from 43 cities in key business and financial centers across 27 countries throughout North America, Europe, Asia, Australia, the Middle East, and Central and South America.

Our primary business purpose is to serve our clients. Our deep roots in business centers around the world form a global network of relationships with key decision-makers in corporations, governments and investing institutions. This network is both a competitive strength and a powerful resource for Lazard and our clients. As a firm that competes on the quality of our advice, we have two fundamental assets: our people and our reputation.

We operate in cyclical businesses across multiple geographies, industries and asset classes. In recent years, we have expanded our geographic reach, bolstered our industry expertise and continued to build in growth areas. Companies, government bodies and investors seek independent advice with a geographic perspective, deep understanding of capital structure, informed research and knowledge of global, regional and local economic conditions. We believe that our business model as an independent advisor will continue to create opportunities for us to attract new clients and key personnel.

Our principal sources of revenue are derived from activities in the following business segments:

- Financial Advisory, which offers corporate, partnership, institutional, government, sovereign and individual clients across the globe a wide array of financial advisory services regarding M&A and other strategic matters, restructurings, capital structure, capital raising, corporate preparedness and various other financial matters, and
- Asset Management, which offers a broad range of global investment solutions and investment management services in equity and fixed income strategies, asset allocation strategies, alternative investments and private equity funds to corporations, public funds, sovereign entities, endowments and foundations, labor funds, financial intermediaries and private clients.

In addition, we record selected other activities in our Corporate segment, including management of cash, investments, deferred tax assets, outstanding indebtedness, certain contingent obligations, and assets and liabilities associated with Lazard Group’s Paris-based subsidiary, Lazard Frères Banque SA (“LFB”).

Our consolidated net revenue was derived from the following segments:

	Three Months Ended March 31,	
	2017	2016
Financial Advisory	54%	53%
Asset Management	45	49
Corporate	1	(2)
Total	100%	100%

We also invest our own capital from time to time, generally alongside capital of qualified institutional and individual investors in alternative investments or private equity investments, and, since 2005, we have engaged in a number of alternative investments and private equity activities, including, historically, investments through (i) Edgewater, our Chicago-based private equity firm, (ii) a mezzanine fund, which invests in mezzanine debt of a diversified selection of small- to mid-cap European companies and (iii) a fund targeting significant noncontrolling-stake investments in established private companies. We also make investments to seed our Asset Management strategies.

Business Environment and Outlook

Economic and global financial market conditions can materially affect our financial performance. As described above, our principal sources of revenue are derived from activities in our Financial Advisory and Asset Management business segments. As our Financial Advisory revenues are primarily dependent on the successful completion of merger, acquisition, restructuring, capital raising or similar transactions, and our Asset Management revenues are primarily driven by the levels of AUM, weak economic and global financial market conditions can result in a challenging business environment for M&A and capital-raising activity as well as our Asset Management business, but may provide opportunities for our restructuring business.

Equity market indices for developed and emerging markets at March 31, 2017 generally increased as compared to such indices at March 31, 2016 and December 31, 2016. In the global M&A markets during the first quarter of 2017, the value and number of all completed M&A transactions decreased as compared to the same period in the prior year, as did the value of the subset of such transactions involving values greater than \$500 million. During the same time, the value of all announced M&A transactions, including the subset of such transactions involving values greater than \$500 million, increased. During the first quarter of 2017, global restructuring activity, as measured by the number of corporate defaults, decreased as compared to the first quarter of 2016, primarily due to a lower level of defaults in the commodity sectors.

On an ongoing basis, regional, macroeconomic and geopolitical factors, including any potential regional tax or regulatory reform, may impact our business. However, despite political uncertainties, overall, the global macroeconomic outlook for the near- to mid-term appears positive. The U.S. economy appears to be healthy, and the European economy seems to continue to recover. Corporate cash balances remain high, and interest rates remain low for companies with strong credit ratings. Although market volatility may affect our business from time to time, the longer-term trends appear to remain favorable for both of our businesses.

Our outlook with respect to our Financial Advisory and Asset Management businesses is described below.

- **Financial Advisory**—The fundamentals for continued M&A activity appear to remain in place. Demand continues for expert, independent strategic advice that can be levered across geographies and our range of advisory capabilities. The global scale and breadth of our Financial Advisory business allows us to advise on large, complex cross-border transactions across a variety of industries. In addition, we believe our businesses throughout the emerging markets position us for growth in these markets, while enhancing our relationships with, and the services that we can provide to, clients in other economies. In the third quarter of 2016, Lazard Ltd expanded its North American Financial Advisory business through the acquisition of an independent financial advisory firm based in Canada. In addition, in October 2016, we acquired the portion of MBA Lazard that we did not previously own, thereby fully integrating our Latin American operations. We believe that these transactions have augmented the strength of our Financial Advisory business throughout the Americas.

- **Asset Management**—In the short to intermediate term, we expect most investor demand will come from defined benefit and defined contribution plans in the developed economies because of their sheer scope and size. Over the longer term, we expect an increasing share of our AUM to come from the developing economies in Asia, Latin America and the Middle East, as their retirement systems evolve and individual wealth is increasingly deployed in the financial markets. Our global footprint is already well established in the developed economies and we expect our business in the developing economies will slowly expand. Given our diversified investment platform and our ability to provide investment solutions for a global mix of clients, we believe we are positioned to benefit from growth that may occur in the asset management industry. We are continually developing and seeding new investment strategies that extend our existing platforms. Recent examples of growth initiatives include the following investment strategies: European Long/Short Equity, various Quantitative Equity strategies, various Multi-Asset strategies, a Real Assets strategy, and a Global Equity Franchise strategy.

We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge continuously, and it is not possible for our management to predict all risks and uncertainties, nor can we assess the impact of all potentially applicable factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. See Item 1A, “Risk Factors” in our Form 10-K. Furthermore, net income and revenue in any period may not be indicative of full-year results or the results of any other period and may vary significantly from year to year and quarter to quarter.

Overall, we continue to focus on the development of our business, including the generation of stable revenue growth, earnings growth and member returns, the prudent management of our costs and expenses, the efficient use of our assets and the return of equity to our members.

Certain data with respect to our Financial Advisory and Asset Management businesses is included below.

Financial Advisory

As reflected in the following table, which sets forth global M&A industry statistics, the value and number of all completed transactions, including the value of completed transactions with values greater than \$500 million, decreased in the first quarter of 2017 as compared to 2016. With respect to announced M&A transactions, the value of all transactions, including announced transactions with values greater than \$500 million, increased in the first quarter of 2017 as compared to 2016.

Source: Dealogic as of April 5, 2017.

Global restructuring activity during the first quarter of 2017, as measured by the number of corporate defaults, decreased as compared to the first quarter of 2016. The number of defaulting issuers decreased to 21 in the first quarter of 2017, according to Moody’s Investors Service, Inc., as compared to 33 in the first quarter of 2016, primarily due to a lower level of defaults in the commodity sectors.

Net revenue trends in Financial Advisory for M&A and Strategic Advisory and Restructuring are generally correlated to the level of completed industry-wide M&A transactions and restructuring transactions occurring subsequent to corporate debt defaults, respectively. However, deviations from this relationship can occur in any given year for a number of reasons. For instance, our results can diverge from industry-wide activity where there are material variances from the level of industry-wide M&A activity in a particular market where Lazard has significant market share, or regarding the relative number of our advisory engagements with respect to larger-sized transactions, and where we are involved in non-public or sovereign advisory assignments. For example, our M&A and Strategic Advisory revenue, which includes M&A Advisory, Capital Advisory, Capital Raising and Sovereign Advisory revenue, increased 11% in the first quarter of 2017 as compared to 2016. The industry statistics for global M&A transactions described above reflect a 12% and 9% decrease in the value and number, respectively, of all completed transactions in the first quarter of 2017 as compared to 2016. For M&A deals with values greater than \$500 million, the value and number of completed transactions in the first quarter of 2017 decreased 12% and was unchanged, respectively, as compared to 2016. In addition, with respect to our restructuring activity, revenue increased 105% in the first quarter of 2017 as compared to 2016, in contrast to a 36% decrease in global default activity in the first quarter of 2017 as compared to 2016.

Asset Management

The percentage change in major equity market indices at March 31, 2017, as compared to such indices at December 31, 2016, and at March 31, 2016, is shown in the table below.

	Percentage Changes March 31, 2017 vs.	
	December 31, 2016	March 31, 2016
MSCI World Index	6%	12%
Euro Stoxx	6%	17%
MSCI Emerging Market	11%	15%
S&P 500	6%	15%

The fees that we receive for providing investment management and advisory services are primarily driven by the level of AUM and the nature of the AUM product mix. Accordingly, market movements, foreign currency exchange rate volatility and changes in our AUM product mix will impact the level of revenues we receive from our Asset Management business when comparing periodic results. A substantial portion of our AUM is invested in equities. Movements in AUM during the period generally reflect the changes in equity market indices. Our AUM at March 31, 2017 increased 9% versus AUM at December 31, 2016, primarily due to market and foreign exchange appreciation and net inflows. Average AUM for the first quarter of 2017 increased 12% as compared to average AUM in the first quarter of 2016 and 3% as compared to the fourth quarter of 2016.

Financial Statement Overview

Net Revenue

The majority of Lazard's Financial Advisory net revenue historically has been earned from the successful completion of M&A transactions, strategic advisory matters, restructuring and capital structure advisory services, capital raising and similar transactions. The main drivers of Financial Advisory net revenue are overall M&A activity, the level of corporate debt defaults and the environment for capital raising activities, particularly in the industries and geographic markets in which Lazard focuses. In some client engagements, often those involving financially distressed companies, revenue is earned in the form of retainers and similar fees that are contractually agreed upon with each client for each assignment and are not necessarily linked to the completion of a transaction. In addition, Lazard also earns fees from providing strategic advice to clients, with such fees not being dependent on a specific transaction, and may also earn fees in connection with public and private securities offerings. Significant fluctuations in Financial Advisory net revenue can occur over the course of any given year, because a significant portion of such net revenue is earned upon the successful completion of a transaction, restructuring or capital raising activity, the timing of which is uncertain and is not subject to Lazard's control.

Lazard's Asset Management segment principally includes Lazard Asset Management LLC (together with its subsidiaries, "LAM"), Lazard Frères Gestion SAS ("LFG") and Edgewater. Asset Management net revenue is derived from fees for investment management and advisory services provided to clients. As noted above, the main driver of Asset Management net revenue is the level and product mix of AUM, which is generally influenced by the performance of the global equity markets and, to a lesser extent, fixed income markets as well as Lazard's investment performance, which impacts its ability to successfully attract and retain assets. As a result, fluctuations (including timing thereof) in financial markets and client asset inflows and outflows have a direct effect on Asset Management net revenue and operating income. Asset Management fees are generally based on the level of AUM measured daily, monthly or quarterly, and an increase or reduction in AUM, due to market price fluctuations, currency fluctuations, changes in product

mix, or net client asset flows will result in a corresponding increase or decrease in management fees. The majority of our investment advisory contracts are generally terminable at any time or on notice of 30 days or less. Institutional and individual clients, and firms with which we have strategic alliances, can terminate their relationship with us, reduce the aggregate amount of AUM or shift their funds to other types of accounts with different rate structures for a number of reasons, including investment performance, changes in prevailing interest rates and financial market performance. In addition, as Lazard's AUM includes significant amounts of assets that are denominated in currencies other than U.S. Dollars, changes in the value of the U.S. Dollar relative to foreign currencies will impact the value of Lazard's AUM. Fees vary with the type of assets managed and the vehicle in which they are managed, with higher fees earned on equity assets and alternative investment funds, such as hedge funds and private equity funds, and lower fees earned on fixed income and cash management products.

The Company earns performance-based incentive fees on various investment products, including traditional products and alternative investment funds, such as hedge funds and private equity funds.

For hedge funds, incentive fees are calculated based on a specified percentage of a fund's net appreciation, in some cases in excess of established benchmarks or thresholds. The Company records incentive fees on traditional products and hedge funds at the end of the relevant performance measurement period, when potential uncertainties regarding the ultimate realizable amounts have been determined. The incentive fee measurement period is generally an annual period (unless an account terminates or a redemption occurs during the year). The incentive fees received at the end of the measurement period are not subject to reversal or payback. Incentive fees on hedge funds are often subject to loss carryforward provisions in which losses incurred by the hedge funds in any year are applied against certain gains realized by the hedge funds in future periods before any incentive fees can be earned.

For private equity funds, incentive fees may be earned in the form of a "carried interest" if profits arising from realized investments exceed a specified threshold. Typically, such carried interest is ultimately calculated on a whole-fund basis and, therefore, clawback of carried interest during the life of the fund can occur. As a result, incentive fees earned on our private equity funds are not recognized until potential uncertainties regarding the ultimate realizable amounts have been determined, including any potential for clawback.

Corporate segment net revenue consists primarily of investment gains and losses on the Company's "seed investments" related to our Asset Management business, principal investments in private equity funds and "equity method" investments, net of hedging activities, as well as gains and losses on investments held in connection with Lazard Fund Interests ("LFI") and interest income and interest expense. Corporate net revenue also can fluctuate due to changes in the fair value of investments classified as "trading", as well as due to changes in interest and currency exchange rates and in the levels of cash, investments and indebtedness.

Although Corporate segment net revenue during 2017 is not significant compared to Lazard's net revenue, total assets in the Corporate segment represented 58% of Lazard's consolidated total assets as of March 31, 2017, which are attributable to cash and cash equivalents, investments in debt and equity securities, interests in alternative investment, debt, equity and private equity funds, deferred tax assets and certain assets associated with LFB. LFB, as a registered bank, is engaged primarily in commercial and private banking services for clients and funds managed by LFG and other clients, and asset-liability management.

Operating Expenses

The majority of Lazard's operating expenses relate to compensation and benefits for managing directors and employees. Our compensation and benefits expense includes (i) salaries and benefits, (ii) amortization of the relevant portion of previously granted deferred incentive compensation awards, including (a) share-based incentive compensation under the Lazard Ltd 2008 Incentive Compensation Plan (the "2008 Plan"), and (b) LFI and other similar deferred compensation arrangements (see Note 12 of Notes to Condensed Consolidated Financial Statements), (iii) a provision for discretionary or guaranteed cash bonuses and profit pools and (iv) when applicable, severance payments. Compensation expense in any given period is dependent on many factors, including general economic and market conditions, our actual and forecasted operating and financial performance, staffing levels, estimated forfeiture rates, competitive pay conditions and the nature of revenues earned, as well as the mix between current and deferred compensation.

For interim periods, we use "adjusted compensation and benefits expense" and the ratio of "adjusted compensation and benefits expense" to "operating revenue," both non-U.S. GAAP measures, for comparison of compensation and benefits expense between periods. For the reconciliations and calculations with respect to "adjusted compensation and benefits expense" and related ratios to "operating revenue," see the table under "Consolidated Results of Operations" below.

We believe that "awarded compensation and benefits expense" and the ratio of "awarded compensation and benefits expense" to "operating revenue," both non-U.S. GAAP measures, are the most appropriate measures to assess the annual cost of compensation and provide the most meaningful basis for comparison of compensation and benefits expense between present, historical and future years.

“Awarded compensation and benefits expense” for a given year is calculated using “adjusted compensation and benefits expense,” also a non-U.S. GAAP measure, as modified by the following items:

- we deduct amortization expense recorded for accounting principles generally accepted in the United States of America (“U.S. GAAP”) purposes in the fiscal year associated with deferred incentive compensation awards;
- we add incentive compensation with respect to the fiscal year, which is comprised of:
 - (i) the deferred incentive compensation awards granted in the year-end compensation process with respect to the fiscal year (*e.g.*, deferred incentive compensation awards granted in 2017 related to the 2016 year-end compensation process), including Performance-based restricted stock unit (“PRSU”) awards (based on the target payout level);
 - (ii) the portion of investments in people (*e.g.*, “sign-on” bonuses or retention awards) and other special deferred incentive compensation awards that is applicable to the fiscal year the award becomes effective; and
 - (iii) amounts in excess of the target payout level for PRSU awards at the end of their respective performance periods;
- we reduce the amounts in (i), (ii) and (iii) above by an estimate of future forfeitures with respect to such awards; and
- we adjust for year-end foreign exchange fluctuations.

Compensation and benefits expense is the largest component of our operating expenses. We seek to maintain discipline with respect to compensation, including the rate at which we award deferred compensation. Our goal is to maintain a ratio of awarded compensation and benefits expense to operating revenue and a ratio of adjusted compensation and benefits expense to operating revenue over the cycle in the mid-to-high-50s percentage range, which compares to 55.8% and 56.5%, respectively, for the year ended December 31, 2016. While we have implemented policies and initiatives that we believe will assist us in maintaining ratios within this range, there can be no guarantee that we will continue to maintain such ratios, or that our policies or initiatives will not change, in the future. We may benefit from pressure on compensation costs within the financial services industry in future periods; however, increased competition for senior professionals, changes in the macroeconomic environment or the financial markets generally, lower operating revenue resulting from, for example, a decrease in M&A activity, our share of the M&A market or our AUM levels, changes in the mix of revenues from our businesses or various other factors could prevent us from achieving this goal.

Our operating expenses also include “non-compensation expense,” which includes costs for occupancy and equipment, marketing and business development, technology and information services, professional services, fund administration and outsourced services and other expenses.

We believe that “adjusted non-compensation expense,” a non-U.S. GAAP measure, provides a more meaningful basis for our investors to assess our operating results. For calculations with respect to “adjusted non-compensation expense”, see the table under “Consolidated Results of Operations” below.

Our operating expenses also include “amortization and other acquisition-related costs”, which includes the change in fair value of the contingent consideration associated with business acquisitions.

Provision for Income Taxes

Lazard Group primarily operates in the U.S. as a limited liability company that is treated as a partnership for U.S. federal income tax purposes. As a result, Lazard Group’s income pertaining to the limited liability company is not subject to U.S. federal income tax because taxes associated with such income represent obligations of the individual partners. Lazard Group, through its subsidiaries, is subject to state and local taxes on its income apportioned to various state and local jurisdictions. Outside the U.S., Lazard Group operates principally through subsidiary corporations that are subject to local income taxes in foreign jurisdictions. Lazard Group is also subject to Unincorporated Business Tax (“UBT”) attributable to its operations apportioned to New York City (see Note 14 of Notes to Condensed Consolidated Financial Statements for additional information).

Noncontrolling Interests

Noncontrolling interests primarily consist of amounts related to Edgewater’s management vehicles that the Company is deemed to control but not own. See Note 11 of Notes to Condensed Consolidated Financial Statements for information regarding the Company’s noncontrolling interests.

Consolidated Results of Operations

Lazard's condensed consolidated financial statements are presented in U.S. Dollars. Many of our non-U.S. subsidiaries have a functional currency (*i.e.*, the currency in which operational activities are primarily conducted) that is other than the U.S. Dollar, generally the currency of the country in which the subsidiaries are domiciled. Such subsidiaries' assets and liabilities are translated into U.S. Dollars using exchange rates as of the respective balance sheet date, while revenue and expenses are translated at average exchange rates during the respective periods based on the daily closing exchange rates. Adjustments that result from translating amounts from a subsidiary's functional currency are reported as a component of members' equity. Foreign currency remeasurement gains and losses on transactions in non-functional currencies are included in the condensed consolidated statements of operations.

A portion of our net revenue is derived from transactions that are denominated in currencies other than the U.S. Dollar. Since the middle of 2014, the value of the U.S. Dollar has strengthened against many other major currencies. As a result, net revenue for the three month period ended March 31, 2017 was negatively impacted in comparison to the prior year period. The majority of the negative impact was offset by the positive impact of the exchange rate movements on our operating expenses denominated in currencies other than the U.S. Dollar.

The condensed consolidated financial statements are prepared in conformity with U.S. GAAP. Selected financial data from the Company's reported condensed consolidated results of operations is set forth below, followed by a more detailed discussion of both the consolidated and business segment results.

The tables below describe the components of operating revenue, adjusted compensation and benefits expense, adjusted non-compensation expense, earnings from operations and related key ratios, which are non-U.S. GAAP measures used by the Company to manage its business. We believe such non-U.S. GAAP measures provide the most meaningful basis for comparison between present, historical and future periods, as described above.

Operating Results

The Company's quarterly revenue and profits can fluctuate materially depending on the number, size and timing of completed transactions on which it advised, as well as seasonality, the performance of equity markets and other factors. Accordingly, the revenue and profits in any particular quarter may not be indicative of future results. Lazard management believes that annual results are the most meaningful basis for comparison among present, historical and future periods.

Three Months Ended March 31, 2017 versus March 31, 2016

The Company reported net income attributable to Lazard Group of \$128 million, as compared to net income of \$82 million in the 2016 period. The changes in the Company's operating results during these periods are described below.

Net revenue increased \$125 million, or 25%, with operating revenue increasing \$118 million, or 23%, as compared to the 2016 period. Fee revenue from investment banking and other advisory activities increased \$70 million, or 26%, as compared to the 2016 period, due to an increase in Restructuring and M&A and Strategic Advisory revenue. Asset management fees, including incentive fees, increased \$39 million, or 17%, as compared to the 2016 period, primarily due to an increase in average AUM. In the aggregate, interest income, other revenue and interest expense increased \$16 million as compared to the 2016 period, primarily due to gains in the 2017 period attributable to investments held in connection with LFI.

Compensation and benefits expense increased \$64 million, or 22%, as compared to the 2016 period, primarily due to an increase in discretionary compensation associated with increased operating revenue and an increase in charges pertaining to LFI.

Adjusted compensation and benefits expense (which excludes certain items and which we believe allows for improved comparability between periods, as described above) was \$352 million, an increase of \$54 million, or 18%, as compared to \$298 million in the 2016 period. The ratio of adjusted compensation and benefits expense to operating revenue was 56.4% for the 2017 period, as compared to 58.9% for the 2016 period and 56.5% for full-year 2016.

Non-compensation expense increased \$5 million, or 5%, as compared to the 2016 period. Adjusted non-compensation expense, which excludes non-compensation costs relating to noncontrolling interests, increased \$5 million, or 5%, as compared to the 2016 period. The ratio of adjusted non-compensation expense to operating revenue was 17.1% for the 2017 period, as compared to 20.0% in the 2016 period.

Amortization and other acquisition-related costs increased \$1 million as compared to the 2016 period, primarily due to the change in the fair market value of contingent consideration.

Operating income increased \$55 million, or 56%, as compared to the 2016 period.

Earnings from operations increased \$58 million, or 55%, as compared to the 2016 period, and, as a percentage of operating revenue, was 26.5%, as compared to 21.1% in the 2016 period.

The provision for income taxes reflects an effective tax rate of 14.4%, as compared to 12.0% for the 2016 period. The effective tax rate increased primarily reflecting a change in the geographic mix of earnings, partially offset by the Company's adoption of new

accounting guidance on share-based incentive compensation. See Notes 2 and 14 of Notes to Condensed Consolidated Financial Statements.

Net income attributable to noncontrolling interests decreased \$1 million, or 26%, as compared to the 2016 period.

Business Segments

The following is a discussion of net revenue and operating income for the Company's segments: Financial Advisory, Asset Management and Corporate. Each segment's operating expenses include (i) compensation and benefits expenses that are incurred directly in support of the segment and (ii) other operating expenses, which include directly incurred expenses for occupancy and equipment, marketing and business development, technology and information services, professional services, fund administration and outsourcing, and indirect support costs (including compensation and benefits expense and other operating expenses related thereto) for administrative services. Such administrative services include, but are not limited to, accounting, tax, human resources, legal, information technology, facilities management and senior management activities. Such support costs are allocated to the relevant segments based on various statistical drivers such as revenue, headcount, square footage and other factors.

Effective January 1, 2017, the Company's reporting by geographic region was transitioned from the Company's previously disclosed North America, Europe and rest of the world regions to the Americas; Europe, Middle East and Africa ("EMEA"); and Asia Pacific. Comparable prior year information has been recast to reflect our revised geographic presentation.

Financial Advisory

The following table summarizes the reported operating results attributable to the Financial Advisory segment:

	Three Months Ended March 31,

(a) Source: Dealogic as of April 5, 2017.

The geographical distribution of Financial Advisory net revenue is set forth below in percentage terms and is based on the Lazard offices that generate Financial Advisory net revenue, which are located in the Americas (primarily in the U.S. and Latin America), EMEA (primarily in the U.K., France, Italy, Spain and Germany) and the Asia Pacific region (primarily in Australia) and therefore may not be reflective of the geography in which the clients are located.

The Company's managing directors and many of its professionals have significant experience, and many of them are able to use this experience to advise on M&A, strategic advisory matters and restructuring transactions, depending on clients' needs. This flexibility allows Lazard to better match its professionals with the counter-cyclical business cycles of mergers and acquisitions and restructurings. While Lazard measures revenue by practice area, Lazard does not separately measure the costs or profitability of M&A services as compared to restructuring services. Accordingly, Lazard measures performance in its Financial Advisory segment based on overall segment operating revenue and operating income margins.

Financial Advisory Results of Operations

Financial Advisory's quarterly revenue and profits can fluctuate materially depending on the number, size and timing of completed transactions on which it advised, as well as seasonality and other factors. Accordingly, the revenue and profits in any particular quarter or period may not be indicative of future results. Lazard management believes that annual results are the most meaningful basis for comparison among present, historical and future periods.

Three Months Ended March 31, 2017 versus March 31, 2016

Financial Advisory net revenue increased \$70 million, or 26%, as compared to the 2016 period. M&A and Strategic Advisory net revenue was \$248 million, an increase of \$25 million, or 11%, as compared to \$223 million in the 2016 period. Restructuring revenue was \$88 million, an increase of \$45 million, or 105%, as compared to \$43 million in the 2016 period. The increase in M&A and Strategic Advisory revenue was primarily due to an increase in the average transaction fee with respect to completed transactions involving fees greater than \$1 million as compared to the 2016 period. Clients which in the aggregate represented a significant portion of our M&A and Strategic Advisory revenue in the 2017 period included Air Products, Harman, Sanofi and Värde Partners.

Restructuring revenue in the 2017 period primarily reflected the closing of large assignments, including a continued high level of activity in the U.S energy sector. Clients which in the aggregate represented a significant portion of our Restructuring revenue in the 2017 period included Linn Energy, Peabody Energy, Shelf Drilling and Stone Energy.

Operating expenses increased \$32 million, or 14%, as compared to the 2016 period, primarily due to an increase in discretionary compensation and benefits expense associated with increased operating revenue.

Financial Advisory operating income was \$76 million, an increase of \$37 million, or 96%, as compared to operating income of \$39 million in the 2016 period and, as a percentage of net revenue, was 22.7%, as compared to 14.6% in the 2016 period.

Asset Management

The following table shows the composition of AUM for the Asset Management segment:

	276	239
Total AUM	\$ 215,178	\$ 197,910

Total AUM at March 31, 2017 was \$215 billion, an increase of \$17 billion, or 9%, as compared to total AUM of \$198 billion at December 31, 2016, primarily due to market and foreign exchange appreciation and net inflows. Average AUM for the first quarter of 2017 increased 12% as compared to the first quarter of 2016 and 3% as compared to the fourth quarter of 2016.

As of March 31, 2017, approximately 88% of our AUM was managed on behalf of institutional clients, including corporations, labor unions, public pension funds, insurance companies and banks, and through sub-advisory relationships, mutual fund sponsors, broker-dealers and registered advisors, and approximately 12% of our AUM was managed on behalf of individual client relationships, which are principally with family offices and individuals, and was unchanged from the corresponding percentages at December 31, 2016.

As of March 31, 2017, AUM with foreign currency exposure represented approximately 72% of our total AUM as compared to 70% at December 31, 2016. AUM with foreign currency exposure generally declines in value with the strengthening of the U.S. Dollar and increases in value as the U.S. Dollar weakens, with all other factors held constant.

The following is a summary of changes in AUM by asset class for the three month periods ended March 31, 2017 and 2016:

Asset Management Results of Operations

Asset Management's quarterly revenue and profits in any particular quarter or period may not be indicative of future results and may fluctuate based on the performance of the equity and other capital markets. Lazard management believes that annual results are the most meaningful basis for comparison among present, historical and future periods.

Three Months Ended March 31, 2017 versus March 31, 2016

Asset Management net revenue increased \$38 million, or 15%, as compared to the 2016 period. Management fees and other revenue was \$276 million, an increase of \$32 million, or 13%, as compared to \$244 million in the 2016 period, primarily due to an increase in average AUM. Incentive fees were \$7 million, an increase of \$5 million as compared to \$2 million in the 2016 period.

Operating expenses increased \$14 million, or 8%, as compared to the 2016 period, primarily due to increases in compensation and benefits expense related to an increase in discretionary compensation associated with increased operating revenue.

Asset Management operating income was \$95 million, an increase of \$24 million, or 34%, as compared to operating income of \$71 million in the 2016 period and, as a percentage of net revenue, was 33.4%, as compared to 28.7% in the 2016 period.

Corporate

The following table summarizes the reported operating results attributable to the Corporate segment:

Operating Expenses (Credit)	21,352	(2,682)
Operating Income (Loss)	\$ (17,922)	\$ (11,487)

Corporate Results of Operations

Corporate operating results in any particular quarter or period may not be indicative of future results and may fluctuate based on a variety of factors. Lazard management believes that annual results are the most meaningful basis for comparison among present, historical and future periods.

Three Months Ended March 31, 2017 versus March 31, 2016

Net interest expense increased \$2 million, or 16%, as compared to the 2016 period.

Other revenue increased \$19 million as compared to the 2016 period, primarily due to gains in the 2017 period attributable to investments held in connection with LFI.

Operating expenses increased \$24 million as compared to the 2016 period, primarily due to an increase in compensation and benefits expense, including an increase in charges pertaining to LFI.

Cash Flows

The Company's cash flows are influenced primarily by the timing of the receipt of Financial Advisory and Asset Management fees, the timing of distributions to members, payments of incentive compensation to managing directors and employees and purchases of Lazard Ltd Class A common stock. M&A and Strategic Advisory and Asset Management fees are generally collected within 60 days of billing, while Restructuring fee collections may extend beyond 60 days, particularly those that involve bankruptcies with court-ordered holdbacks. Fees from our Private Capital Advisory (which we historically referred to as Private Fund Advisory) activities are generally collected over a four-year period from billing and typically include an interest component.

The Company makes cash payments for, or in respect of, a significant portion of its incentive compensation during the first three months of each calendar year with respect to the prior year's results.

Liquidity and Capital Resources

The Company's liquidity and capital resources are derived from operating activities, financing activities and equity offerings.

Operating Activities

Net revenue, operating income and cash receipts fluctuate significantly between periods. In the case of Financial Advisory, fee receipts are generally dependent upon the successful completion of client transactions, the occurrence and timing of which is irregular and not subject to Lazard's control.

Liquidity is significantly impacted by cash payments for, or in respect of, incentive compensation, a significant portion of which are made during the first three months of the year. As a consequence, cash on hand generally declines in the beginning of the year and gradually builds over the remainder of the year. We also pay certain tax advances during the year on behalf of our managing directors, which serve to reduce their respective incentive compensation payments. We expect this seasonal pattern of cash flow to continue.

Liquidity is also affected by the level of deposits and other customer payables, principally at LFB. To the extent that such deposits and other customer payables rise or fall, this has a corresponding impact on liquidity held at LFB, with the majority of such

amounts generally being recorded in “deposits with banks and short-term investments”, or in “investments” for interest-bearing deposits having original maturities of greater than three months. In the three month period ended March 31, 2017, as reflected on the condensed consolidated statements of financial condition, both “deposits with banks and short-term investments” and “deposits and other customer payables” increased as compared to December 31, 2016, due to a higher level of LFB customer-related demand deposits, primarily from clients and funds managed by LFG.

Lazard’s condensed consolidated financial statements are presented in U.S. Dollars. Many of Lazard’s non-U.S. subsidiaries have a functional currency (*i.e.*, the currency in which operational activities are primarily conducted) that is other than the U.S. Dollar, generally the currency of the country in which such subsidiaries are domiciled. Such subsidiaries’ assets and liabilities are translated into U.S. Dollars at the respective balance sheet date exchange rates, while revenue and expenses are translated at average exchange rates during the year based on the daily closing exchange rates. Adjustments that result from translating amounts from a subsidiary’s functional currency are reported as a component of members’ equity. Foreign currency remeasurement gains and losses on transactions in non-functional currencies are included on the condensed consolidated statements of operations.

We regularly monitor our liquidity position, including cash levels, credit lines, principal investment commitments, interest and principal payments on debt, capital expenditures, distributions to members, purchases of shares of Lazard Ltd Class A common stock and matters relating to liquidity and to compliance with regulatory net capital requirements. At March 31, 2017, Lazard had approximately \$884 million of cash, with such amount including approximately \$445 million held at Lazard’s operations outside the U.S. Since Lazard provides for U.S. income taxes on substantially all of its unrepatriated foreign earnings, we expect that no material amount of additional U.S. income taxes would be recognized upon receipt of dividends or distributions of such earnings from our foreign operations.

We maintain lines of credit in excess of anticipated liquidity requirements. As of March 31, 2017, Lazard had approximately \$172 million in unused lines of credit available to it, including a \$150 million, five-year, senior revolving credit facility with a group of lenders that expires in September 2020 (the “Amended and Restated Credit Agreement”) (see “—Financing Activities” below) and unused lines of credit available to LFB of approximately \$21 million (at March 31, 2017 exchange rates).

The Amended and Restated Credit Agreement contains customary terms and conditions, including limitations on consolidations, mergers, indebtedness and certain payments, as well as financial condition covenants relating to leverage and interest coverage ratios. Lazard Group’s obligations under the Amended and Restated Credit Agreement may be accelerated upon customary events of default, including non-payment of principal or interest, breaches of covenants, cross-defaults to other material debt, a change in control and specified bankruptcy events.

Financing Activities

The table below sets forth our corporate indebtedness as of March 31, 2017 and December 31, 2016. The agreements with respect to this indebtedness are discussed in more detail in our condensed consolidated financial statements and related notes included elsewhere in this Form 10-Q and in our Form 10-K.

Lazard Group 2025 Senior Notes	2025	400.0	3.7	396.3	400.0	3.8	396.2
Lazard Group 2027 Senior Notes	2027	300.0	3.9	296.1	300.0	4.0	296.0
		<u>\$ 1,200.0</u>	<u>\$ 11.0</u>	<u>\$ 1,189.0</u>	<u>\$ 1,200.0</u>	<u>\$ 11.4</u>	<u>\$ 1,188.6</u>

Lazard’s annual cash flow generated from operations historically has been sufficient to enable it to meet its annual obligations. We believe that our cash flows from operating activities, along with the use of our credit lines as needed, should be sufficient for us to fund our current obligations for the next 12 months.

As long as the lenders’ commitments remain in effect, any loan pursuant to the Amended and Restated Credit Agreement remains outstanding and unpaid or any other amount is due to the lending bank group, the Amended and Restated Credit Agreement includes financial covenants that require that Lazard Group not permit (i) its Consolidated Leverage Ratio (as defined in the Amended and Restated Credit Agreement) for the 12-month period ending on the last day of any fiscal quarter to be greater than 3.25 to 1.00 or (ii) its Consolidated Interest Coverage Ratio (as defined in the Amended and Restated Credit Agreement) for the 12-month period ending on the last day of any fiscal quarter to be less than 3.00 to 1.00. For the 12-month period ended March 31, 2017, Lazard Group

was in compliance with such ratios, with its Consolidated Leverage Ratio being 1.27 to 1.00 and its Consolidated Interest Coverage Ratio being 19.35 to 1.00. In any event, no amounts were outstanding under the Amended and Restated Credit Agreement as of March 31, 2017.

In addition, the Amended and Restated Credit Agreement, indenture and supplemental indentures relating to Lazard Group's senior notes contain certain other covenants (none of which relate to financial condition), events of default and other customary provisions. At March 31, 2017, the Company was in compliance with all of these provisions. We may, to the extent required and subject to restrictions contained in our financing arrangements, use other financing sources, which may cause us to be subject to additional restrictions or covenants.

See Note 9 of Notes to Condensed Consolidated Financial Statements for additional information regarding senior debt.

Members' Equity

At March 31, 2017, total members' equity was \$599 million, as compared to \$736 million at December 31, 2016, including \$539 million and \$679 million attributable to Lazard Group on the respective dates. The net activity in members' equity during the three month period ended March 31, 2017 is reflected in the table below (in millions of dollars):

Members' Equity - January 1, 2017	\$	736
Adjustment for the cumulative effect on prior years from the adoption of new accounting guidance related to share-based incentive compensation		5
Balance, as adjusted - January 1, 2017		741
Increase (decrease) due to:		
Net income		131
Other comprehensive income		14
Amortization of share-based incentive compensation		77
Purchase of Lazard Ltd Class A common stock		(106)
Settlement of share-based incentive compensation (a)		(61)
Distributions to members and noncontrolling interests, net		(194)
Other - net		(3)
Members' Equity - March 31, 2017	\$	599

(a) The tax withholding portion of share-based compensation is settled in cash, not shares.

The Board of Directors of Lazard has issued a series of authorizations to repurchase Lazard Ltd Class A common stock, which help offset the dilutive effect of our share-based incentive compensation plans. During a given year Lazard Ltd intends to repurchase at least as many shares as it expects to ultimately issue pursuant to such compensation plans in respect of year-end incentive compensation attributable to the prior year. The rate at which Lazard Ltd purchases shares in connection with this annual objective may vary from quarter to quarter due to a variety of factors. Purchases with respect to such program are set forth in the table below:

<u>Three Months Ended March 31,</u>	<u>Number of Shares</u>	<u>Average Price Per Share</u>
2016	2,424,571	\$ 34.29
2017	2,464,967	\$ 43.02

As of March 31, 2017, a total of \$249 million of share repurchase authorization remained available under Lazard Ltd's share repurchase program, \$13 million of which will expire on December 31, 2017 and \$236 million of which will expire on December 31, 2018.

During the three month period ended March 31, 2017, Lazard Ltd had in place trading plans under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), pursuant to which it effected stock repurchases in the open market.

The Company plans to continue to deploy excess cash and may do so in a variety of ways, which may include repurchasing outstanding shares of Lazard Ltd Class A common stock, distributions to members and noncontrolling interest holders and repurchasing its outstanding debt.

See Notes 11 and 12 of Notes to Condensed Consolidated Financial Statements for additional information regarding Lazard’s members’ equity and incentive plans, respectively.

Regulatory Capital

We actively monitor our regulatory capital base. Our principal subsidiaries are subject to regulatory requirements in their respective jurisdictions to ensure their general financial soundness and liquidity, which require, among other things, that we comply with certain minimum capital requirements, record-keeping, reporting procedures, relationships with customers, experience and training requirements for employees and certain other requirements and procedures. These regulatory requirements may restrict the flow of funds to and from affiliates. See Note 16 of Notes to Condensed Consolidated Financial Statements for further information. These regulations differ in the U.S., the U.K., France and other countries in which we operate. Our capital structure is designed to provide each of our subsidiaries with capital and liquidity consistent with its business and regulatory requirements. For a discussion of regulations relating to us, see Item 1, “Business—Regulation” included in our Form 10-K.

Contractual Obligations

The following table sets forth information relating to Lazard’s contractual obligations as of March 31, 2017:

	Contractual Obligations Payment Due by Period				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
			(\$ in thousands)		
Senior debt (including interest) (a)	\$ 1,513,042	\$ 47,125	\$ 94,250	\$ 573,000	\$ 798,667
Operating leases (exclusive of \$44,471 of committed sublease income)	813,649	76,432	138,506	124,312	474,399
Capital leases (including interest)	6,947	6,893	54	-	-
Investment capital funding commitments (b)	9,183	9,183	-	-	-
Total (c)	<u>\$ 2,342,821</u>	<u>\$ 139,633</u>	<u>\$ 232,810</u>	<u>\$ 697,312</u>	<u>\$ 1,273,066</u>

(a) See Note 9 of Notes to Condensed Consolidated Financial Statements.

(b) Unfunded commitments to private equity investments consolidated but not owned by Lazard of \$6,904 are excluded. Such commitments are required to be funded by capital contributions from noncontrolling interest holders. See Note 5 of Notes to Condensed Consolidated Financial Statements. These amounts are generally due on demand and therefore are presented in the “less than 1 year” category.

(c) The table above excludes contingent obligations, as well as any possible payments for uncertain tax positions given the inability to make a reasonably reliable estimate of the timing of the amounts of any such payments. See also Notes 10, 12, 13 and 14 of Notes to Condensed Consolidated Financial Statements regarding information in connection with commitments, incentive plans, employee benefit plans and income taxes, respectively.

Critical Accounting Policies and Estimates

Management’s discussion and analysis of our condensed consolidated financial condition and results of operations is based upon our condensed consolidated financial statements, which have been prepared in conformity with U.S. GAAP. The preparation of Lazard’s condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, Lazard evaluates its estimates, including those related to revenue recognition, income taxes, investing activities and goodwill. Lazard bases these estimates on historical experience and various other assumptions that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments, including judgments regarding the carrying values of assets and liabilities, that are not readily apparent from other sources. Actual results may differ from these estimates.

Lazard believes that the critical accounting policies set forth below comprise the most significant estimates and judgments used in the preparation of its condensed consolidated financial statements.

Revenue Recognition

Lazard generates substantially all of its net revenue from providing Financial Advisory and Asset Management services to clients. Lazard recognizes revenue when the following criteria are met:

- there is persuasive evidence of an arrangement with a client;
- the agreed-upon services have been provided;
- fees are fixed or determinable; and
- collection is reasonably assured.

The Company earns performance-based incentive fees on various investment products, including traditional products and alternative investment funds such as hedge funds and private equity funds. See “Financial Statement Overview” for a description of our revenue recognition policies on such fees.

If, in Lazard’s judgment, collection of a fee is not probable, Lazard will not recognize revenue until the uncertainty is removed. We maintain an allowance for doubtful accounts to provide coverage for estimated losses from our receivables. We determine the adequacy of the allowance by estimating the probability of loss based on our analysis of the client’s creditworthiness and specifically reserve against exposures where we determine the receivables are impaired, which may include situations where a fee is in dispute or litigation has commenced.

With respect to fees receivable from Financial Advisory activities, such receivables are generally deemed past due when they are outstanding 60 days from the date of invoice. However, some Financial Advisory transactions include specific contractual payment terms that may vary from one month to four years (as is the case for our Private Capital Advisory fees) following the invoice date or may be subject to court approval (as is the case with restructuring assignments that include bankruptcy proceedings). In such cases, receivables are deemed past due when payment is not received by the agreed-upon contractual date or the court approval date, respectively. Financial Advisory fee receivables past due in excess of 180 days are fully provided for unless there is evidence that the balance is collectible. Asset Management fees are deemed past due and fully provided for when such receivables are outstanding 12 months after the invoice date. Notwithstanding our policy for receivables past due, we specifically reserve against exposures relating to Financial Advisory and Asset Management fees where we determine receivables are impaired.

Compensation Liabilities

Annual discretionary compensation represents a significant portion of our annual compensation and benefits expense. We allocate the estimated amount of such annual discretionary compensation to interim periods in proportion to the amount of operating revenue earned in such periods based on an assumed annual ratio of awarded compensation and benefits expense to operating revenue. See “Financial Statement Overview—Operating Expenses” for more information on our periodic compensation and benefits expense.

Income Taxes

As part of the process of preparing our consolidated financial statements, we estimate our income taxes for each of our tax-paying entities in its respective jurisdiction. In addition to estimating actual current tax liabilities for these jurisdictions, we also must account for the tax effects of differences between the financial reporting and tax reporting of items, such as basis adjustments, compensation and benefits expense, and depreciation and amortization. Differences which are temporary in nature result in deferred tax assets and liabilities. Significant judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities, any valuation allowance recorded against our deferred tax assets and our unrecognized tax benefits.

We recognize a deferred tax asset if it is more likely than not (defined as a likelihood of greater than 50%) that a tax benefit will be accepted by a taxing authority. The measurement of deferred tax assets and liabilities is based upon currently enacted tax rates in the applicable jurisdictions. At December 31, 2016, on a consolidated basis, we recorded gross deferred tax assets of approximately \$138 million, with such amount partially offset by a valuation allowance of approximately \$55 million (as described below).

Subsequent to the initial recognition of deferred tax assets, we also must continually assess the likelihood that such deferred tax assets will be realized. If we determine that we may not fully derive the benefit from a deferred tax asset, we consider whether it would be appropriate to apply a valuation allowance against the applicable deferred tax asset, taking into account all available information. The ultimate realization of a deferred tax asset for a particular entity depends, among other things, on the generation of taxable income by such entity in the applicable jurisdiction.

We consider multiple possible sources of taxable income when assessing a valuation allowance against a deferred tax asset, including:

- future reversals of existing taxable temporary differences;
- future taxable income exclusive of reversing temporary differences and carryforwards;
- taxable income in prior carryback years; and
- tax-planning strategies.

The assessment regarding whether a valuation allowance is required or should be adjusted also considers all available information, including the following:

- nature, frequency, magnitude and duration of any past losses and current operating results;
- duration of statutory carryforward periods;
- historical experience with tax attributes expiring unused; and
- near-term and medium-term financial outlook.

The weight we give to any particular item is, in part, dependent upon the degree to which it can be objectively verified. We give greater weight to the recent results of operations of a relevant entity. Pre-tax operating losses on a three year cumulative basis or lack of sustainable profitability are considered objectively verifiable evidence and will generally outweigh a projection of future taxable income.

Certain of our tax-paying entities have individually experienced losses on a cumulative three year basis. In addition, one of our tax-paying entities has recorded a valuation allowance on substantially all of its deferred tax assets due to the combined effect of operating losses in certain subsidiaries of that entity as well as foreign taxes that together substantially offset any U.S. tax liability. Taking into account all available information, we cannot determine that it is more likely than not that deferred tax assets held by these entities will be realized. Consequently, we have recorded valuation allowances on \$55 million of deferred tax assets held by these entities as of December 31, 2016.

We record tax positions taken or expected to be taken in a tax return based upon our estimates regarding the amount that is more likely than not to be realized or paid, including in connection with the resolution of any related appeals or other legal processes. Accordingly, we recognize liabilities for certain unrecognized tax benefits based on the amounts that are more likely than not to be settled with the relevant taxing authority. Such liabilities are evaluated periodically as new information becomes available and any changes in the amounts of such liabilities are recorded as adjustments to “income tax expense.” Liabilities for unrecognized tax benefits involve significant judgment and the ultimate resolution of such matters may be materially different from our estimates.

On January 1, 2017, we adopted new accounting guidance on share-based incentive compensation. Upon adoption, we recognized excess tax benefits of \$2.0 million from the vesting of share-based incentive compensation in the provision for income taxes in the condensed consolidated statements of operations for the three month period ended March 31, 2017. Upon adoption of the new guidance, we also recorded deferred tax assets of \$4.9 million, net of a valuation allowance of \$12.1 million, for previously unrecognized excess tax benefits (including tax benefits from dividends or dividend equivalents) on share-based incentive compensation, with an offsetting adjustment to retained earnings. See Notes 2 and 14 of Notes to Condensed Consolidated Financial Statements for further information on the adoption of this new guidance. The new guidance has since January 1, 2017 affected, and the Company expects that in future periods the new guidance will affect, the provision for income taxes for the delivery of stock under share-based incentive compensation arrangements, as well as the effective tax rate in the relevant periods, which could be material to the condensed consolidated statements of operations and the classification of cash flows in the relevant periods.

In addition to the discussion above regarding deferred tax assets and associated valuation allowances, as well as unrecognized tax benefit liability estimates, other factors affect our provision for income taxes, including changes in the geographic mix of our business, the level of our annual pre-tax income, transfer pricing and intercompany transactions.

See Item 1A, “Risk Factors” in our Form 10-K and Note 14 of Notes to Condensed Consolidated Financial Statements for additional information related to income taxes.

Investments

Investments consist primarily of interest-bearing deposits, debt and equity securities, interests in alternative investment, debt, equity and private equity funds and investments accounted for under the equity method of accounting.

These investments, with the exception of interest-bearing deposits and equity method investments, are carried at fair value on the condensed consolidated statements of financial condition, and any increases or decreases in the fair value of these investments are reflected in earnings. The fair value of investments is generally based upon market prices or the net asset value (“NAV”) or its equivalent for investments in funds. See Note 5 of Notes to Condensed Consolidated Financial Statements for additional information on the measurement of the fair value of investments.

Lazard is subject to market and credit risk on investments held. As such, gains and losses on investment positions held, which arise from sales or changes in the fair value of the investments, are not predictable and can cause periodic fluctuations in net income.

Data relating to investments is set forth below:

- (b) Private equity investments include investments related to certain legacy businesses and co-investments in private equity funds managed by our Asset Management business. Co-investments owned were \$39 million and \$34 million as of March 31, 2017 and December 31, 2016, respectively.
- (c) Short- to medium-term interest rates generally turned negative in Europe during 2014 and remain very low in many other countries and regions throughout the world. In the normal course of asset and liability management activities, the Company attempts to minimize negative interest rates on its cash investments. Interest-bearing deposits generally provide positive yields when held to maturity, while also generally allowing immediate penalty-free withdrawal at any time (with less or no interest earned in such case).
- (d) Represents investments accounted for under the equity method of accounting.

- (e) Represents private equity investments that are consolidated but owned by noncontrolling interests, and therefore do not subject the Company to market or credit risk. The applicable noncontrolling interests are presented within “members’ equity” on the condensed consolidated statements of financial condition.
- (f) Composed of investments held in connection with LFI and other similar deferred compensation arrangements. The market risk associated with such investments is equally offset by the market risk associated with the derivative liability with respect to awards expected to vest. The Company is subject to market risk associated with any portion of such investments that employees may forfeit. See “—Risk Management—Risks Related to Derivatives” for risk management information relating to derivatives.

At March 31, 2017 and December 31, 2016, total investments with a fair value of \$381 million and \$459 million, respectively, included \$89 million and \$130 million, respectively, or 23% and 28%, respectively, of investments that were classified using NAV or its equivalent as a practical expedient. See Notes 4 and 5 of Notes to Condensed Consolidated Financial Statements for additional information regarding investments measured at fair value, including the levels of fair value within which such measurements of fair value fall.

As of March 31, 2017 and December 31, 2016, the Company held seed investments of approximately \$141 million and \$134 million, respectively. Seed investments held in entities in which the Company maintained a controlling interest were \$34 million in six entities as of March 31, 2017, as compared to \$41 million in six entities as of December 31, 2016.

As of March 31, 2017 and December 31, 2016, the Company did not consolidate or deconsolidate any seed investment entities. As such, 100% of the recorded balance of seed investments as of March 31, 2017 and December 31, 2016 represented the Company’s economic interest in the seed investments. See “—Consolidation of Variable Interest Entities” below for more information on the Company’s policy regarding the consolidation of seed investment entities.

For additional information regarding risks associated with our investments, see “Risk Management—Investments” below as well as Item 1A, “Risk Factors—Other Business Risks—Our results of operations may be affected by fluctuations in the fair value of positions held in our investment portfolios” in our Form 10-K.

Assets Under Management

AUM primarily consists of debt and equity instruments, which have a value that is readily available based on either prices quoted on a recognized exchange or prices provided by external pricing services.

Prices of equity and debt securities and other instruments that comprise our AUM are provided by well-recognized, independent, third-party vendors. Such third-party vendors rely on prices provided by external pricing services which are obtained from recognized exchanges or markets, or, for certain fixed income securities, from an evaluated bid or other similarly sourced price.

Either directly, or through our third-party vendors, we perform a variety of regular due diligence procedures on our pricing service providers. Those procedures include oversight by our internal operations group, review of the pricing service providers’ internal control frameworks, review of the pricing service providers’ valuation methodologies, reconciliation to client custodial account values and comparison of significant pricing differences.

Goodwill

In accordance with current accounting guidance, goodwill has an indefinite life and is tested for impairment annually, as of November 1, or more frequently if circumstances indicate impairment may have occurred. The Company performs a qualitative evaluation about whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount in lieu of actually calculating the fair value of the reporting unit. See Note 8 of Notes to Condensed Consolidated Financial Statements for additional information regarding goodwill.

Consolidation

The condensed consolidated financial statements include the accounts of Lazard Group and entities in which it has a controlling interest. Lazard determines whether it has a controlling interest in an entity by first evaluating whether the entity is a voting interest entity (“VOE”) or a variable interest entity (“VIE”) under U.S. GAAP.

- Voting Interest Entities. VOEs are entities in which (i) the total equity investment at risk is sufficient to enable the entity to finance itself independently and (ii) the equity holders have the obligation to absorb losses, the right to receive residual

returns and the right to make decisions about the entity's activities. Lazard is required to consolidate a VOE if it holds a majority of the voting interest in such VOE.

- **Variable Interest Entities.** VIEs are entities that lack one or more of the characteristics of a VOE. If Lazard has a variable interest, or a combination of variable interests, in a VIE, it is required to analyze whether it needs to consolidate such VIE. Lazard is required to consolidate a VIE if we are the primary beneficiary having (i) the power to direct the activities of the VIE that most significantly impact the VIE's economic performance and (ii) the obligation to absorb losses of, or receive benefits from, the VIE that could be potentially significant to the VIE.

Lazard's involvement with various entities that are VOEs or VIEs primarily arises from investment management contracts with fund entities in our Asset Management business. Lazard is not required to consolidate such entities because, with the exception of certain seed investments, as discussed below, we do not hold more than an inconsequential equity interest in such entities and we do not hold other variable interests (including our investment management agreements, which do not meet the definition of variable interests) in such entities.

Lazard makes seed investments in certain entities that are considered VOEs and often require consolidation as a result of our investment. The impact of seed investment entities that require consolidation on the condensed consolidated financial statements, including any consolidation or deconsolidation of such entities, is not material to our financial statements. Our exposure to loss from entities in which we have made seed investments is limited to the extent of our investment in, or investment commitment to, such entities. See "Critical Accounting Policies and Estimates—Investments" above for more information regarding our investments.

Generally, when the Company initially invests to seed an investment entity, the Company is the majority owner of the entity. Our majority ownership in seed investment entities represents a controlling interest, except when we are the general partner in such entities and the third-party investors have the right to replace the general partner. To the extent material, we consolidate seed investment entities in which we own a controlling interest, and we would deconsolidate any such entity when we no longer have a controlling interest in such entity.

Risk Management

Investments

The Company has investments in a variety of asset classes, primarily debt and equity securities, and interests in alternative investments, debt, equity and private equity funds. The Company makes investments primarily to seed strategies in our Asset Management business or to reduce exposure arising from LFI and other similar deferred compensation arrangements. The Company measures its net economic exposure to market and other risks arising from investments that it owns, excluding (i) investments held in connection with LFI and other similar deferred compensation arrangements, (ii) investments in funds owned entirely by the noncontrolling interest holders of certain acquired entities and (iii) interest-bearing deposits over 90 days that allow daily withdrawals without principal penalties.

Risk sensitivities include the effects of economic hedging. For equity market price risk, investment portfolios and their corresponding hedges are beta-adjusted to the All-Country World equity index. Fair value and sensitivity measurements presented herein are based on various portfolio exposures at a particular point in time and may not be representative of future results. Risk exposures may change as a result of ongoing portfolio activities and changing market conditions, among other things.

Equity Market Price Risk—At March 31, 2017 and December 31, 2016, the Company's exposure to equity market price risk in its investment portfolio, which primarily relates to investments in equity securities, equity funds and hedge funds, was approximately \$112 million and \$110 million, respectively. The Company hedges market exposure arising from a significant portion of our equity investment portfolios by entering into total return swaps. The Company estimates that a hypothetical 10% adverse change in market prices would result in a net decrease of approximately \$0.8 million and \$1.0 million in the carrying value of such investments as of March 31, 2017 and December 31, 2016, respectively, including the effect of the hedging transactions.

Interest Rate/Credit Spread Risk—At March 31, 2017 and December 31, 2016, the Company's exposure to interest rate and credit spread risk in its investment portfolio related to investments in debt securities or funds which invest primarily in debt securities was \$57 million and \$53 million, respectively. The Company hedges market exposure arising from a portion of our debt investment portfolios by entering into total return swaps. The Company estimates that a hypothetical 100 basis point adverse change in interest rates or credit spreads would result in a decrease of approximately \$1.1 million and \$0.9 million in the carrying value of such investments as of March 31, 2017 and December 31, 2016, respectively, including the effect of the hedging transactions.

Foreign Exchange Rate Risk—At March 31, 2017 and December 31, 2016, the Company's exposure to foreign exchange rate risk in its investment portfolio, which primarily relates to investments in foreign currency denominated equity and debt securities, was

\$68 million and \$64 million, respectively. A significant portion of the Company's foreign currency exposure related to our equity and debt investment portfolios is hedged through the aforementioned total return swaps. The Company estimates that a 10% adverse change in foreign exchange rates versus the U.S. Dollar would result in a decrease of approximately \$2.0 million and \$1.7 million in the carrying value of such investments as of March 31, 2017 and December 31, 2016, respectively, including the effect of the hedging transactions.

Private Equity—The Company invests in private equity primarily as a part of its co-investment activities and in connection with certain legacy businesses. At March 31, 2017 and December 31, 2016, the Company's exposure to changes in fair value of such investments was approximately \$90 million and \$96 million, respectively. The Company estimates that a hypothetical 10% adverse change in fair value would result in a decrease of approximately \$9.0 million and \$9.6 million in the carrying value of such investments as of March 31, 2017 and December 31, 2016, respectively.

Risks Related to Receivables

We maintain an allowance for doubtful accounts to provide coverage for probable losses from our receivables. We determine the adequacy of the allowance by estimating the probability of loss based on our analysis of the client's creditworthiness, among other things, and specifically provide for exposures where we determine the receivables are impaired. At March 31, 2017, total receivables amounted to \$542 million, net of an allowance for doubtful accounts of \$30 million. As of that date, Financial Advisory and Asset Management fees, receivables from Lazard Ltd subsidiaries and customer receivables comprised 81%, 3% and 16% of total receivables, respectively. At December 31, 2016, total receivables amounted to \$667 million, net of an allowance for doubtful accounts of \$16 million. As of that date, Financial Advisory and Asset Management fees, receivables from Lazard Ltd subsidiaries and customer receivables comprised 85%, 4% and 11% of total receivables, respectively. At March 31, 2017 and December 31, 2016, the Company had receivables past due or deemed uncollectible of approximately \$42 million and \$22 million, respectively. See also "Critical Accounting Policies and Estimates—Revenue Recognition" above and Note 3 of Notes to Condensed Consolidated Financial Statements for additional information regarding receivables.

LFB engages in lending activities, including commitments to extend credit (primarily for clients of LFG). At March 31, 2017 and December 31, 2016, customer receivables included \$47 million and \$51 million of LFB loans, respectively, with such loans being fully collateralized and closely monitored for counterparty creditworthiness.

Credit Concentrations

To reduce the exposure to concentrations of credit, the Company monitors large exposures to individual counterparties.

Risks Related to Derivatives

Lazard enters into forward foreign currency exchange contracts and interest rate swaps to hedge exposures to currency exchange rates and interest rates and uses total return swap contracts on various equity and debt indices to hedge a portion of its market exposure with respect to certain seed investments related to our Asset Management business. Derivative contracts are recorded at fair value. Derivative assets amounted to \$4 million and \$2 million at March 31, 2017 and December 31, 2016, respectively, and derivative liabilities, excluding the derivative liability arising from the Company's obligation pertaining to LFI and other similar deferred compensation arrangements, amounted to \$4 million and \$12 million at such respective dates.

The Company also records derivative liabilities relating to its obligations pertaining to LFI awards and other similar deferred compensation arrangements, the fair value of which is based on the value of the underlying investments, adjusted for estimated forfeitures. Changes in the fair value of the derivative liabilities are equally offset by the changes in the fair value of investments which are expected to be delivered upon settlement of LFI awards. Derivative liabilities relating to LFI amounted to \$175 million and \$170 million at March 31, 2017 and December 31, 2016, respectively.

Risks Related to Cash and Cash Equivalents and Corporate Indebtedness

A significant portion of the Company's indebtedness has fixed interest rates, while its cash and cash equivalents generally have market interest rates. Based on account balances as of March 31, 2017, Lazard estimates that its annual operating income relating to cash and cash equivalents would increase by approximately \$9 million in the event interest rates were to increase by 1% and decrease by approximately \$9 million if rates were to decrease by 1%.

As of March 31, 2017, the Company's cash and cash equivalents totaled approximately \$884 million. Substantially all of the Company's cash and cash equivalents were invested in (i) highly liquid institutional money market funds (a significant majority of which were invested solely in U.S. Government or agency money market funds), (ii) in short-term interest bearing and non-interest

bearing accounts at a number of leading banks throughout the world, and (iii) in short-term certificates of deposit from such banks. Cash and cash equivalents are constantly monitored. On a regular basis, management reviews its investment profile as well as the credit profile of its list of depositor banks in order to adjust any deposit or investment thresholds as necessary.

Operational Risk

Operational risk is inherent in all our business and may, for example, manifest itself in the form of errors, breaches in the system of internal controls, employee misconduct, business interruptions, fraud, including fraud perpetrated by third parties, or legal actions due to operating deficiencies or noncompliance. The Company maintains a framework including policies and a system of internal controls designed to monitor and manage operational risk and provide management with timely and accurate information. Management within each of the operating companies is primarily responsible for its operational risk programs. The Company has in place business continuity and disaster recovery programs that manage its capabilities to provide services in the case of a disruption. We purchase insurance policies designed to help protect the Company against accidental loss and losses that may significantly affect our financial objectives, personnel, property or our ability to continue to meet our responsibilities to our various stakeholder groups.

Recent Accounting Developments

For a discussion of recently issued accounting developments and their impact or potential impact on Lazard's consolidated financial statements, see Note 2 of Notes to Condensed Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Risk Management

Quantitative and qualitative disclosures about market risk are included under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations—Risk Management".

Item 4. Controls and Procedures

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act as of the end of the period covered by this quarterly report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this quarterly report, our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) are effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

In addition, no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during our most recent fiscal quarter that has materially affected, or is likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved from time to time in judicial, regulatory and arbitration proceedings and inquiries concerning matters arising in connection with the conduct of our businesses, including proceedings initiated by former employees alleging wrongful termination. The Company reviews such matters on a case-by-case basis and establishes any required accrual if a loss is probable and the amount of such loss can be reasonably estimated. The Company experiences significant variation in its revenue and earnings on a quarterly basis. Accordingly, the results of any pending matter or matters could be significant when compared to the Company's earnings in any particular fiscal quarter. The Company believes, however, based on currently available information, that the results of any pending matters, in the aggregate, will not have a material effect on its business or financial condition.

Item 1A. Risk Factors

There were no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

LAZARD GROUP LLC

COMPUTATION OF RATIO OF EARNINGS TO FIXED CHARGES (a)

The following table sets forth the ratio of earnings to fixed charges for Lazard Group LLC and its subsidiaries on a consolidated basis.

	Three Months Ended	Year Ended December 31,					
	March 31, 2017	2016	2015	2014	2013	2012	
			(dollars in thousands)				
Operating income (loss)	\$ 153,012	\$ 521,993	\$ 530,845	\$ 540,975	\$ 219,009	\$ 121,593	
Add—Fixed charges	20,889	77,071	78,826	91,691	111,317	116,255	
Operating income before fixed charges	<u>\$ 173,901</u>	<u>\$ 599,064</u>	<u>\$ 609,671</u>	<u>\$ 632,666</u>	<u>\$ 330,326</u>	<u>\$ 237,848</u>	
Fixed Charges:							
Interest (b)	\$ 14,824	\$ 53,730	\$ 54,885	\$ 68,205	\$ 87,039	\$ 91,359	
Other (c)	6,065	23,341	23,941	23,486	24,278	24,896	
Total fixed charges	<u>\$ 20,889</u>	<u>\$ 77,071</u>	<u>\$ 78,826</u>	<u>\$ 91,691</u>	<u>\$ 111,317</u>	<u>\$ 116,255</u>	
Ratio of earnings to fixed charges	<u>8.33</u> (d)	<u>7.77</u> (e)	<u>7.73</u> (f)	<u>6.90</u>	<u>2.97</u> (g)	<u>2.05</u> (h)	

Notes (dollars in thousands):

(a) For purposes of computing the ratio of earnings to fixed charges:

- earnings for the periods presented represent income before income taxes and fixed charges, and
- fixed charges represent the interest expense and the portion of rental expense which represents an appropriate interest factor.

(b) The Company's policy is to include interest expense on unrecognized tax benefits in income tax expense. Accordingly, such interest expense is not included in the computations of the ratio of earnings to fixed charges.

(c) Other fixed charges consist of the interest factor in rentals.

(d) Operating income for the three months ended March 31, 2017 is presented after giving effect to a charge of \$714 of acquisition-related costs. Excluding the impact of such charges, the ratio of earnings to fixed charges would have been 8.36.

(e) Operating income for the year ended December 31, 2016 is presented after giving effect to a charge of (i) \$3,148 associated with the redemption of the remaining portion of the 2017 Notes, (ii) \$599 excess interest expense due to the period of time between the issuance of the 2027 Notes and the settlement of the redemption of the 2017 Notes, (iii) \$30,991 of acquisition-related costs and (iv) \$12,668 gain on the acquisition of MBA Lazard (which resulted from the increase in the fair value of the Company's investment in MBA Lazard prior to the acquisition). Excluding the impact of such charges, the ratio of earnings to fixed charges would have been 8.11.

(f) Operating income for the year ended December 31, 2015 is presented after giving effect to a charge of (i) \$60,219 associated with the redemption of \$450 million of the 2017 Notes, (ii) \$2,655 excess interest expense due to the period of time between the issuance of the 2025 Notes and the settlement of the redemption of the 2017 Notes and (iii) \$12,203 relating to a private equity revenue adjustment. Excluding the impact of such items, the ratio of earnings to fixed charges would have been 8.64.

(g) Operating income for the year ended December 31, 2013 is presented after giving effect to a charge of (i) \$64,703 associated with the cost saving initiatives announced by the Company in October 2012, (ii) \$54,087 pertaining to the refinancing of the 2015 Notes and the issuance of the 2020 Notes and (iii) \$12,203 relating to private equity incentive compensation. Excluding the impact of such charge, the ratio of earnings to fixed charges would have been 4.14.

(h) Operating income for the year ended December 31, 2012 is presented after giving effect to (i) a charge in the first quarter of \$24,659 relating to severance costs and benefit payments associated with staff reductions, including the acceleration of unrecognized amortization expense of deferred incentive compensation previously granted to individuals being terminated, and (ii) a charge in the fourth quarter of \$102,576 associated with the cost saving initiatives announced by the Company in October 2012. Excluding the impact of such items, the ratio of earnings to fixed charges would have been 3.14.

I, Kenneth M. Jacobs, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended March 31, 2017 of Lazard Group LLC (the “Registrant”);

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;

4. The Registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the Registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the Registrant’s internal control over financial reporting that occurred during the Registrant’s most recent fiscal quarter (the Registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant’s internal control over financial reporting; and

5. The Registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant’s auditors and the audit committee of the Registrant’s board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant’s ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant’s internal control over financial reporting.
