LAZARD

# Corporate Structure & Tax Considerations

---

## Corporate Structure

Bermuda corporation with common stock traded on the NYSE

- Corporate governance structure consistent with U.S. peers and files annual proxy statement
  - Files 10-Ks and 10-Qs with SEC, including IRS Employer Identification Number
- Partnership structure for U.S. tax purposes
  - K-1 issuer for dividends – no Unrelated Business Taxable Income (UBTI) or Effectively Connected Income (ECI)
  - No separate state filing requirements, appropriate for tax-exempt investors
  - Foreign investors only subject to withholding tax on U.S. portion of dividends

## Investor Diversification

Broadly diversified investor base includes key indexes, mutual funds and global institutions

- Included in Russell and CRSP market capitalization weighted indexes, and Dow Jones U.S. Select Dividend Index
  - Approximately 18% of Lazard holders identified as index investors, compared to generally de minimis for publicly traded partnerships
- Float approximately 97% held by a broad range of active and passive institutional investors
  - Representing approximately 239 mutual funds and 95 ETFs

## Tax Considerations

US tax provisions suggest conversion to a U.S. C-corporation would result in a significantly higher tax rate

- Recent analysis indicates a conversion under the current tax law could add significantly to our steady-state effective tax rate
- Net operating losses (NOLs) restrict our ability to use foreign tax credits and to access the special deduction for foreign earnings, resulting in double taxation for non-U.S. earnings
- Expansion of categories of foreign income to be taxed would result in increased tax payments

- 2 For the year ended December 31, 2012 represents charges pertaining to staff reductions including severance and benefit payments, acceleration of unrecognized amortization of deferred incentive compensation previously granted to individuals terminated, and other non-compensation related costs, and for purposes of net income, net of applicable tax benefits.
- 3 Represents changes in the fair value of the compensation liability recorded in connection with Lazard Fund Interests (“LFI”) and other similar deferred incentive compensation arrangements for which a corresponding equal amount is excluded from operating revenue.
- 4 Represents an adjustment to match the timing of the recognition of carried interest revenue subject to clawback to the recognition of the related incentive compensation expense, which is not aligned under U.S. GAAP. Such adjustment will reduce compensation expense prior to the recording of revenue and increase compensation expense in periods when revenue is recognized, generally at the end of the life of a fund.
- 5 Amounts related to the consolidation of noncontrolling interests which are excluded because the Company has no economic interest in such amounts.
- 6 For the year ended December 31, 2009, represents expenses in connection with the acceleration of unamortized restricted stock units granted to our former Chairman and Chief Executive Officer and the accelerated vesting of deferred cash awards previously granted; for the year ended December 31, 2010, represents expenses related to the accelerated vesting of restricted stock units in connection with the Company’s change in retirement policy.

The result reflects the cost associated with awards that are expected to vest. This calculation is undertaken in order to present awarded compensation on a similar basis to GAAP compensation. Amounts for 2013-2016 represent actual forfeiture experience. The 2017-2020 amounts represent estimated forfeitures.
