A global firm,
built over generations,
on a foundation of client service

Our Mission

Lazard's mission is to provide trusted financial advice and investment solutions to our clients. During our 170+ year history, we have built a global network of relationships with key decision makers in business, government and investing institutions. Lazard operates as a local firm in local markets, and serves clients with multinational resources and global perspective.

OUR BUSINESS

is a simple and powerful model, focused on two businesses, Financial Advisory and Asset Management

OUR REPUTATION

relies on the ability of our people to act responsibly, deliver the best outcomes, and prudently manage risk

OUR SUCCESS

creates a positive financial and social impact for all of our stakeholders

Financial Highlights—2020

ANNUAL OPERATING REVENUE	ASSETS UNDER MANAGEMENT	EMPLOYEES	YEARS SERVING CLIENTS
\$2.52bn	\$259bn	3,100+	170+

(\$mm, except per share data)	2020	2019	2018	2017	2016
Net Revenue	\$2,566	\$2,587	\$2,826	\$2,644	\$2,333
Operating Revenue	2,524	2,546	2,755	2,655	2,344
Net Income, As Adjusted	410	385	539	501	410
Net Income Per Diluted Share, As Adjusted	\$3.60	\$3.28	\$4.16	\$3.78	\$3.09
Dividend Per Share	1.88	2.35	3.03	2.81	2.69

This document uses non-GAAP measures for operating revenue and net income, as adjusted. Management believes such non-GAAP measures provide a more meaningful basis for assessing our operating results and comparisons between present, historical and future periods. See Schedule A and related notes (unaudited) for a detailed explanation of applicable adjustments to corresponding U.S. GAAP measures.

“In a year defined by pandemic and persistent uncertainty, Lazard’s commitment to excellence, our strong culture and our people’s dedication enabled us to successfully adapt to a rapidly changing business environment.”

— Kenneth M. Jacobs
Chairman and Chief Executive Officer

Lazard Today

UNIQUE CULTURE

Lazard’s purpose is to serve clients. From our beginning, this basic premise has shaped our culture. Our clients expect the best from us and we aim to surpass their expectations with the quality and diversity of our people. Our people are our greatest asset.

RESPONSIBLE BUSINESS

Lazard’s reputation is rooted in trust, and our commitment to the responsibilities and values we demonstrate and adhere to is critical to our success.

GOVERNANCE

Our robust foundation of governance practices and guidelines allows our employees to serve clients responsibly.

GUIDING PRINCIPLES

Our Guiding Principles—Excellence, Empowerment and Engagement—reflect Lazard’s distinctive culture and our aspiration to achieve the greatest impact for all Lazard stakeholders. Our character and values have underpinned our success more than 170 years and continue to guide our future growth.

SUSTAINABILITY

Lazard addresses evolving topics of importance to our stakeholders and to our business, including the diverse perspectives and entrepreneurial talent of our people, our sustainable investing strategy, our commitment to the environment, and our contribution toward creating a positive societal impact.

Part I

When we use the terms “Lazard”, “we”, “us”, “our” and “the Company”, we mean Lazard Ltd, a company incorporated under the laws of Bermuda, and its subsidiaries, including Lazard Group LLC, a Delaware limited liability company (“Lazard Group”), that is the current holding company for our businesses. Lazard Ltd’s primary operating asset is its indirect ownership as of December 31, 2020 of all of the common membership interests in Lazard Group and its controlling interest in Lazard Group. When we use the term “common stock”, we mean Class A common stock of Lazard Ltd, the only class of common stock of Lazard outstanding.

Item 1. Business

Lazard is one of the world’s preeminent financial advisory and asset management firms. We have long specialized in crafting solutions to the complex financial and strategic challenges of a diverse set of clients around the world, including corporations, governments, institutions, partnerships and individuals. Founded in 1848 in New Orleans, we currently operate from more than 40 cities and 25 countries across key business and financial centers in North America, Europe, Asia, Australia, and Central and South America.

Principal Business Lines

We focus primarily on two business segments: Financial Advisory and Asset Management. We believe that the mix of our activities across business segments, geographic regions, industries and investment strategies helps to diversify and stabilize our revenue stream.

Financial Advisory

Our Financial Advisory business offers corporate, partnership, institutional, government, sovereign and individual clients across the globe a wide array of financial advisory services regarding mergers and acquisitions (“M&A”), capital advisory, restructurings, shareholder advisory, sovereign advisory, capital raising and other strategic advisory matters. We focus on solving our clients’ most complex issues, providing advice to key decision-makers, senior management, boards of directors and business owners, as well as governments and governmental agencies, in transactions that typically are of significant strategic and financial importance to them.

We continue to build our Financial Advisory business by fostering long-term, senior-level relationships with existing and new clients as their independent advisor on strategic transactions and other matters. We seek to build and sustain long-term relationships with our clients rather than focusing simply on individual transactions, a practice that we believe enhances our access to senior management of major corporations and institutions around the world. We emphasize providing clients with senior-level focus during all phases of transaction analysis and execution.

While we strive to earn repeat business from our clients, we operate in a highly competitive environment in which there are no long-term contracted sources of revenue. Each revenue-generating engagement is separately negotiated and awarded. To develop new client relationships, and to develop new engagements from historical client relationships, we maintain an active dialogue with a large number of clients and potential clients, as well as with their financial and legal advisors, on an ongoing basis. We have gained a significant number of new clients each year through our business development initiatives, through recruiting additional senior investment banking professionals who bring with them client relationships and through referrals from directors, attorneys and other third parties with whom we have relationships. At the same time, we lose clients each year as a result of the sale or merger of a client, a change in a client’s senior management, competition from other investment banks and other causes.

We earned \$1 million or more from 261 clients for the year ended December 31, 2020. For the year ended December 31, 2020, the ten largest fee paying clients constituted approximately 19% of our Financial Advisory segment net revenue, with no client individually contributing more than 10% of segment net revenue.

We believe that we have been pioneers in offering financial advisory services on an international basis, with the establishment of our New York, Paris and London offices dating back to the nineteenth century. We maintain a major local presence in the United States (the “U.S.”), the United Kingdom (the “U.K.”) and France, including a

network of regional branch offices in the U.S., as well as a presence in Argentina, Australia, Belgium, Brazil, Canada, Chile, China, Colombia, Germany, Hong Kong, Italy, Japan, Mexico, the Netherlands, Panama, Singapore, Spain, Sweden, Switzerland and the Middle East region.

In addition to seeking business centered in the regions described above, we historically have focused in particular on advising clients with respect to cross-border transactions. We believe that we are particularly well known for our legacy of offering broad teams of professionals who are indigenous to their respective regions, who have long-term client relationships, capabilities and know-how in their respective regions and who will coordinate with our professionals who have global sector expertise. We also believe that this positioning affords us insight around the globe into key industry, economic, governmental and regulatory issues and developments, which we can bring to bear on behalf of our clients.

Services Offered

We advise clients on a wide range of strategic and financial issues. When we advise clients on the potential acquisition of another company, business or certain assets, our services include evaluating potential acquisition targets, providing valuation analyses, evaluating and proposing financial and structural alternatives and rendering, if appropriate, fairness opinions. We also may advise as to the timing, financing and pricing of a proposed acquisition and assist in negotiating and closing the acquisition. In addition, we may assist in executing an acquisition by acting as a dealer-manager in transactions structured as a tender or exchange offer.

When we advise clients that are contemplating the sale of certain businesses, assets or an entire company, our services include advising on the sale process for the situation, providing valuation analyses, assisting in preparing an information memorandum or other appropriate sale materials and rendering, if appropriate, fairness opinions. We also identify and contact selected qualified potential acquirors and assist in negotiating and closing the proposed sale. As appropriate, we also advise our clients regarding potential financial and strategic alternatives to a sale, including recapitalizations, spin-offs, carve-outs and split-offs. We frequently provide advice with respect to the structure, timing and pricing of these alternatives.

With respect to companies in financial distress, we provide services to the company, creditors or other interested parties, which services may include reviewing and analyzing the business, operations, properties, financial condition and prospects of the company, evaluating debt capacity, assisting in the determination of an appropriate capital structure, assisting in structuring and effecting the financial aspects of exchange offers, evaluating financial and strategic alternatives and assisting and participating in negotiations with affected entities or groups. If appropriate, we may provide financial advice and assistance in developing and seeking approval of a restructuring or reorganization plan, which may include a plan of reorganization under Chapter 11 of the U.S. Bankruptcy Code or other similar court administered processes in non-U.S. jurisdictions. In such cases, we may assist in certain aspects of the implementation of such a plan, including advising and assisting in structuring and effecting the financial aspects of a sale or recapitalization, structuring new securities, other consideration or other inducements to be offered or issued, as well as assisting and participating in negotiations with affected entities or groups.

When we assist clients in connection with shareholder advisory and corporate preparedness matters, our services may include reviewing and analyzing the business and financial condition of the company, providing insights on the company's shareholders, assisting in the evaluation of environmental, social and governance (ESG) matters, and advising on defense measures and strategic alternatives potentially available to the company. Our advice may relate to a broad range of matters including M&A and capital markets transactions and activist situations.

When we assist clients in connection with their capital structure, we typically review and analyze structural alternatives, assist in long-term capital planning and advise and assist with respect to rating agency discussions and relationships, among other things.

When we assist clients in raising private or public market financing or capital, our services include assisting clients in connection with securing, refinancing or restructuring bank loans or other debt, securing venture capital funding, originating and executing, or participating in, public underwritings and private placements of securities,

and originating and executing private placements of partnership and similar interests in alternative investment funds such as leveraged buyout, mezzanine or real estate focused funds.

We are at the forefront of providing independent advice to governments and governmental agencies in connection with economic developments. Lazard's Sovereign Advisory Group has advised a number of countries and institutions with respect to sovereign debt and other financial matters.

Staffing

We staff each of our assignments with a team of quality professionals who have appropriate product, industry and geographic expertise. We pride ourselves on, and we believe we differentiate ourselves from our competitors by, being able to offer a high level of attention from senior personnel to our clients and organizing ourselves in such a way that managing directors who are responsible for securing and maintaining client relationships also actively participate in providing related advice and services. Our managing directors have significant experience, and many of them are able to use this experience to advise on M&A, financings, restructurings, capital structure, shareholder advisory and other transactions or financial matters, depending on our clients' needs. Many of our managing directors and senior employees come from diverse backgrounds, such as senior leadership positions in corporations, government, law and strategic consulting, which we believe enhances our ability to offer sophisticated advice and customized solutions to our clients. As of December 31, 2020, our Financial Advisory segment had 171 managing directors and 1,384 other professionals and support staff.

Industries Served

We seek to offer our services across most major industry groups, including, in many cases, sub-industry specialties. Managing directors and professionals in our M&A practice are organized to provide advice in the following major industry practice areas:

- consumer;
- financial institutions;
- health care and life sciences;
- industrials;
- power and energy/infrastructure;
- real estate; and
- technology, media and telecommunications.

These groups are managed locally in each relevant geographic region and are coordinated globally, which allows us to bring local industry-specific knowledge to bear on behalf of our clients on a global basis. We believe that this enhances the scope and the quality of the advice that we can offer, which improves our ability to market our capabilities to clients.

In addition to our M&A and Restructuring practices, we also maintain specialties in the following distinct practice areas within our Financial Advisory business:

- government and sovereign advisory;
- capital structure and debt advisory;
- shareholder and corporate preparedness advisory;
- fundraising and arranging liquidity for third-party alternative investment funds; and
- corporate finance and other services, including private placements, underwritten offerings related to our Financial Advisory business and transactions involving the exchange or issuance of securities.

We endeavor to coordinate the activities of the professionals in these areas with our M&A industry specialists in order to offer clients customized teams of cross-functional expertise spanning both industry and practice area expertise.

Strategy

Our focus in our Financial Advisory business is on:

- investing in our intellectual capital through senior professionals who we believe have strong client relationships and industry expertise;
- increasing our contacts with existing clients to further enhance our long-term relationships and our efforts in developing new client relationships;
- developing new client relationships;
- expanding the breadth and depth of our industry expertise and selectively adding or reinforcing practice areas, such as our Capital Advisory, Shareholder Advisory and Sovereign Advisory groups;
- coordinating our industry specialty activities on a global basis and increasing the integration of our industry experts in M&A with our other professionals;
- selectively bolstering our existing presence in certain local markets;
- broadening our geographic presence by adding new offices where opportunities arise;
- investing in our technology infrastructure and data science capabilities to enhance our business; and
- deploying our intellectual capital, strong client relationships and other assets to generate new revenue streams.

In addition to the investments made as part of this strategy, we believe that our Financial Advisory business may benefit from external market factors, including:

- demand for independent, sophisticated financial advice;
- recapitalization and related activities in developed and emerging markets;
- relatively low interest rates and high corporate cash balances;
- favorable levels of cross-border M&A and large capitalization M&A, two of our areas of historical specialization; and
- possible M&A activity that may result from tax, regulatory and similar reform.

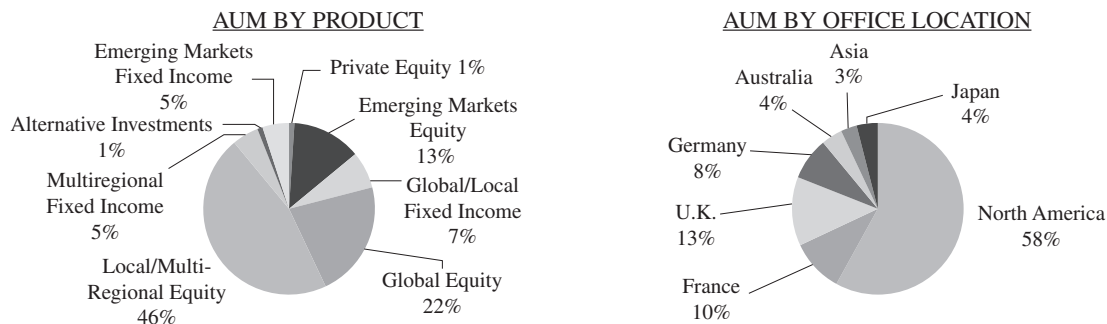

Going forward, our strategic emphasis in our Financial Advisory business is to leverage the investments we have made to grow our business and drive our productivity. We continue to seek to opportunistically attract outstanding individuals to our business. We routinely reassess our strategic position and may in the future seek opportunities to further enhance our competitive position.

Asset Management

Our Asset Management business offers a broad range of global investment solutions and investment management services in equity and fixed income strategies, asset allocation strategies, alternative investments and private equity funds to corporations, public funds, sovereign entities, endowments and foundations, labor funds, financial intermediaries and private clients. Our goal in our Asset Management business is to produce superior risk-adjusted investment returns and provide customized investment solutions for our clients through the active management of their portfolios. Our investment teams construct and manage portfolios using various techniques and investment philosophies, including traditional fundamental research and analysis and quantitative tools.

Our top ten clients accounted for 27% of our total assets under management (“AUM”) for the year ended December 31, 2020, with no client individually contributing more than 10% of our Asset Management segment net revenue. Approximately 87% of our AUM as of December 31, 2020 was managed on behalf of institutional clients, including corporations, labor unions, public pension funds, insurance companies and banks, and through sub-advisory relationships, mutual fund sponsors, broker-dealers and registered advisors, and approximately 13% of our AUM was managed on behalf of individual client relationships, which are principally with family offices and high-net worth individuals.

The charts below illustrate the mix of our AUM as of December 31, 2020, measured by broad product strategy and by office location.

Our Asset Management business maintains offices in New York, Amsterdam, Bordeaux, Boston, Brussels, Chicago, Dubai, Dublin, Frankfurt, Geneva, Hamburg, Hong Kong, London, Lyon, Madrid, Melbourne, Milan, Montreal, Nantes, Paris, San Francisco, Seoul, Singapore, Sydney, Tokyo, Toronto and Zurich. These operations, with 105 managing directors and 1,012 other professionals and support staff as of December 31, 2020, provide our Asset Management business with both a global presence and a local identity.

Primary distinguishing features of these operations include:

- a global footprint with global research, global mandates and global clients;
- a broad-based team of investment professionals, including focused, in-house investment analysts across all products and platforms, many of whom have substantial industry or sector specific expertise; and
- world-wide brand recognition and multi-channel distribution capabilities.

Our Investment Philosophy, Process and Research

Our investment philosophy is generally based upon a fundamental security selection approach to investing. Across many of our products, we apply three key principles to investment portfolios:

- select securities, not markets;
- evaluate a company’s financial position, outlook, opportunities and risks, together with its valuation; and
- manage risk.

In searching for investment opportunities, many of our investment professionals follow an investment process that incorporates several interconnected components that may include:

- fundamental analysis;
- quantitative analysis;
- accounting analysis;
- security selection and portfolio construction;
- risk management; and

- environmental, social and governance factors.

In our Asset Management business, we conduct investment research on a global basis to develop market, industry and company-specific insights and evaluate investment opportunities. Many of our global equity analysts, located in our worldwide offices, are organized around global industry sectors.

Investment Strategies

Our Asset Management business provides equity, fixed income, cash management and alternative investment strategies to our clients, paying close attention to our clients' varying and expanding investment needs. We offer the following product platform of investment strategies:

	Global	Multi-Regional	Local	Emerging Markets
Equity	<p>Global</p> <p>Large Capitalization Small Capitalization Thematic Listed Infrastructure Quantitative Multi-Asset Managed Volatility Real Assets Multi-Factor Sustainable</p> <p>Global Ex Global Ex-U.K. Global Ex-Japan Global Ex-Australia Global Ex-U.S.</p> <p>Thematic Robotics Health Gender Diversity</p>	<p>Pan-European</p> <p>Large Capitalization Small Capitalization Multi-Capitalization Value Quantitative</p> <p>Eurozone Large Capitalization Small Capitalization</p> <p>Continental European Small Capitalization Multi Capitalization Eurozone Euro-Trend (Thematic)</p> <p>Asian Asia Ex-Japan Quantitative</p> <p>Europe, Australasia and Far East Large Capitalization Small Capitalization Multi-Capitalization Quantitative Sustainable</p>	<p>U.S.</p> <p>Large Capitalization Small/Mid Capitalization Multi-Capitalization Sustainable Quantitative Small Capitalization</p> <p>U.K. U.K. (Large Capitalization) U.K. (Small Capitalization) U.K. Quantitative</p> <p>France France (Large Capitalization) France (Small Capitalization)</p> <p>Asia Pacific Australia Japan</p>	<p>Global</p> <p>Large Capitalization Small Capitalization Frontier Equities Quantitative Multi-Asset Managed Volatility</p> <p>Middle East North Africa Middle East North Africa</p>

In addition to the primary investment strategies listed above, we also provide other asset management services to our clients, including asset allocation and other investment advisory services, as well as locally customized investment solutions. In many cases, we also offer both diversified and more concentrated versions of our products. These products are generally offered on a separate account basis, as well as through pooled vehicles.

Distribution. We distribute our products through a broad array of marketing channels on a global basis. Marketing, sales and client service efforts are organized through a global market delivery and service network, with distribution professionals located in cities including New York, Amsterdam, Bordeaux, Boston, Brussels, Chicago, Dubai, Frankfurt, Geneva, Hamburg, Hong Kong, London, Lyon, Madrid, Melbourne, Milan, Montreal, Nantes, Paris, San Francisco, Seoul, Singapore, Sydney, Tokyo, Toronto and Zurich. We have developed a well-established presence in the institutional asset management arena, managing assets for corporations, labor unions, sovereign wealth funds and public pension funds around the world. In addition, we manage assets for insurance companies, savings and trust banks, endowments, foundations and charities.

We also have become a leading firm in managing mutual funds, sub-advisory funds and separately managed accounts for many of the world's largest broker-dealers, insurance companies, registered advisors and other financial intermediaries.

Strategy

Our strategic plan in our Asset Management business is to focus on delivering superior investment performance and client service and broadening our product offerings and distribution in selected areas in order to continue to drive improved business results. Over the past several years, in an effort to improve our Asset Management business' operations and expand our Asset Management business, we have:

- focused on enhancing our investment performance;
- improved our investment management platform by adding a number of senior investment professionals (including portfolio managers and analysts);
- continued to strengthen our marketing and consultant relations capabilities, including by expanding our marketing resources;
- expanded our product platform, including through the addition of long/short equity strategies, sustainable strategies, quantitative equity strategies, long/short credit capabilities and thematically oriented strategies;
- invested in our technology infrastructure and data science capabilities to enhance our business; and
- continued to expand the geographic reach of our Asset Management business, including expanding our offices in Switzerland, Italy and Asia.

We believe that our Asset Management business has long maintained an outstanding team of portfolio managers and global research analysts. We intend to maintain and supplement our intellectual capital to achieve our goals. We routinely reassess our strategic position and may in the future seek acquisitions or other transactions, including the opportunistic hiring of new employees, in order to further enhance our competitive position. We also believe that our specific investment strategies, global reach, unique brand identity and access to multiple distribution channels may allow us to expand into new investment products, strategies and geographic locations. In addition, we may expand our participation in alternative investment activities through investments in new and successor funds, and through organic growth, acquisitions or otherwise. We may also continue to expand our geographic reach where opportunities arise.

We engage in selected alternative investments and private equity activities. In 2009, we established a private equity business with The Edgewater Funds ("Edgewater"), a Chicago-based private equity firm, through the acquisition of Edgewater's management vehicles. As of December 31, 2020, Edgewater had approximately \$1.4 billion of AUM and unfunded fee-earning commitments.

Historically, Lazard also has made selected investments with its own capital, often alongside capital of qualified institutional and individual investors in connection with Lazard's selected alternative investments and private equity activities. These investments typically have been organized in funds that make substantial or controlling investments in private or public companies, generally through privately negotiated transactions and with a view to divest within two to seven years. While potentially risky and frequently illiquid, such investments, when successful, can yield investors substantial returns on capital and generate attractive management and performance-based incentive fees for the sponsor of such funds.

Human Capital

We believe that our people are our most important asset. Their talent, integrity and engagement have shaped our success in the past, and they are instrumental to our ability to achieve sustainable growth and deliver value for our shareholders in the future. We strive to create a culture that fosters excellence, collaboration, innovation, empowerment, inclusion and engagement.

Our human capital efforts are overseen by our Board of Directors, with a focus on cultivating a workplace environment that attracts a diversity of perspectives and exceptional talent. In February 2018, after several years of meeting on an ad hoc basis, our Board of Directors formally established its Workplace and Culture Committee to assist and advise management on cultivating and reinforcing a workplace culture that helps attract, motivate and retain talented people; fosters productivity and professional and personal development; values diversity and inclusion; and encourages its people to engage with each other and their communities. The Company has several areas of focus to support these objectives:

Attracting and Retaining Talent. We offer competitive compensation packages to recruit and retain exceptional talent. We offer a variety of employee benefits, including comprehensive health insurance coverage, flexible retirement and health care savings account plans and family planning and support services. We also invest in wellness programs that are broadly inclusive and support varied lifestyles. We further believe that the equity-based portion of our compensation program fosters a greater sense of ownership among our senior employees and aligns their interests with those of our shareholders.

Talent Development. We seek to hire talented and motivated individuals and prioritize their continued education and training. The Company works to support the success and growth of its employees through a collaborative and dynamic 360-degree performance management and review cycle. Furthermore, through investments in technology, we have enhanced knowledge management and collaboration tools across our businesses.

Diversity, Inclusion and Equality. We strive to cultivate a workforce comprised of people with different backgrounds and experiences, which we believe creates an environment of cognitive diversity that promotes new ideas and innovation. We seek to foster diversity through the creation and development of a variety of employee resource groups, which connect our employees with individuals across the firm, contribute to our inclusive culture and provide opportunities for individuals to give back to their communities through volunteering and educational outreach.

Personal Well-Being. The Company invests in the well-being of our employees by offering benefits intended to meet the varied and evolving needs of our diverse workforce across businesses and geographies. The Company addresses this through its Work to Wellness program, a global initiative that educates, motivates and empowers employees to maintain a healthy lifestyle in and out of the workplace. We offer a wide range of resources to support employees and their families' emotional and financial well-being. We have also made investments in technology that enable remote and hybrid working options.

Community. The Company promotes community engagement through our Work for Good initiative, which supports employee initiatives to volunteer with a variety of local charities. Volunteering through our Work for Good program allows employees to make a positive impact in their communities and share experiences with their colleagues outside of the workplace. In addition to Work for Good, the Company encourages participation in, among others, the Lazard Foundation in the U.S. and Give as You Earn in the U.K., which host additional volunteer opportunities and charitable fundraising events.

Employees. As of December 31, 2020, we employed approximately 3,100 full-time people based in 40 cities across 25 countries. We operate through two business segments: our Financial Advisory business included 171 managing directors and 1,384 professionals and support staff, and our Asset Management business included 105 managing directors and 1,012 professionals and support staff. Our Corporate segment included 21 managing directors and 413 professionals and support staff. Generally, our employees are not subject to collective bargaining agreements, except that our employees in certain of our offices, including France and Italy, are covered by national, industry-wide collective bargaining agreements. We believe that we have good relations with our employees.

Competition

The financial services industry, and all of the businesses in which we compete, are intensely competitive, and we expect them to remain so. Our competitors are other investment banking and financial advisory firms, broker-dealers, commercial and “universal” banks, insurance companies, investment management firms, hedge fund management firms, alternative investment firms, private banks and other financial institutions. We compete with some of them globally and with others on a regional, product or niche basis. We compete on the basis of a number of factors, including industry and product expertise, innovative insights of our people, transaction execution skills, investment track record, quality of client service, individual and institutional client relationships, absence of conflicts, range and price of products and services, innovation, brand recognition and business reputation.

While we believe our independent advisory perspective and global footprint offers a uniquely competitive position, many of our competitors are large, consolidated financial institutions that have the ability to offer a wider range of products, including loans, insurance, foreign exchange, hedging, research, brokerage and underwriting services, which may enhance their competitive position. They also may have the ability to support clients with other financial services in an effort to gain market share, which could result in pricing pressure in our business or loss of opportunities for us. At the same time, demand for independent financial advice has created opportunities for new entrants, including a number of boutique financial advisory firms. These boutique firms frequently compete, among other factors, on the basis of their independent financial advice, and their activities also could result in pricing and other competitive pressure in our businesses. In some circumstances, our competitors may offer financial products or services that we do not offer, such as low-cost passive or private investment vehicles. We compete based on the quality and breadth of our products and innovative solutions we offer, which is derived from our objectivity, differentiated insights and fundamental research orientation.

Competition is also intense in each of our businesses for the attraction and retention of qualified employees, and we compete, among other factors, on the level and nature of compensation and long-term incentives, workplace culture and opportunities for professional and personal development for our employees. Our ability to continue to compete effectively in our businesses will depend upon our ability to attract new employees and retain and motivate our existing employees, in each case, at appropriate compensation levels.

See Item 1A, “Risk Factors—The financial services industry, and all of the businesses in which we compete, are intensely competitive” below.

Regulation

Our businesses, like the financial services industry generally, are subject to extensive regulation throughout the world. As a matter of public policy, regulatory bodies are generally charged with safeguarding the integrity of the securities and other financial markets and with protecting the interests of customers participating in those markets, not with protecting the interests of our stockholders or creditors. Many of our affiliates that participate in securities markets are subject to comprehensive regulations that include some form of minimum capital retention requirements and customer protection rules. In the U.S., certain of our subsidiaries are subject to such regulations promulgated by the United States Securities and Exchange Commission (the “SEC”) and/or the Financial Industry Regulatory Authority (“FINRA”). Standards, requirements and rules implemented throughout the European Union are broadly comparable in scope and purpose to the regulatory capital and customer protection requirements imposed under the SEC and FINRA rules. European Union directives also permit local regulation in each jurisdiction, including those in which we operate, to be more restrictive than the requirements of such European Union-wide directives. These sometimes burdensome local requirements can result in certain competitive disadvantages to us.

In the U.S., the SEC is the federal agency responsible for the administration of the federal securities laws. FINRA is a voluntary, self-regulatory body composed of members, such as our broker-dealer subsidiaries, that have agreed to abide by FINRA’s rules and regulations. The SEC, FINRA and other U.S. and non-U.S. regulatory organizations may examine the activities of, and may expel, fine and otherwise discipline us and our employees. The laws, rules and regulations comprising this framework of regulation and the interpretation and enforcement of existing laws, rules and regulations are continually changing. The effect of any such changes cannot be predicted and may impact the manner of operation and profitability of our businesses.

Our principal U.S. broker-dealer subsidiary, Lazard Frères & Co. LLC (“LFNY”), through which we conduct most of our U.S. Financial Advisory business, is currently registered as a broker-dealer with the SEC and FINRA, and as a broker-dealer in all 50 U.S. states, the District of Columbia and Puerto Rico. As such, LFNY is subject to regulations governing most aspects of the securities business, including regulations regarding minimum capital retention requirements, record-keeping and reporting procedures, relationships with customers, experience and training requirements for certain employees and business procedures with firms that are not members of certain regulatory bodies. Lazard Asset Management Securities LLC (“LAM Securities”), a subsidiary of Lazard Asset Management LLC (“LAM LLC”), is registered as a broker-dealer with the SEC and FINRA and in all 50 U.S. states, the District of Columbia and Puerto Rico. Lazard Middle Market LLC is registered as a broker-dealer with the SEC and FINRA and as a broker-dealer in various U.S. states and territories.

Our U.S. broker-dealer subsidiaries, including LFNY, are subject to the SEC’s uniform net capital rule, Rule 15c3-1 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the net capital rules of FINRA, which may limit our ability to make withdrawals of capital from our broker-dealer subsidiaries. The uniform net capital rule sets the minimum level of net capital a broker-dealer must maintain and also requires that a portion of its assets be relatively liquid. FINRA may prohibit a member firm from expanding its business or paying cash dividends if it would result in net capital falling below FINRA’s requirements. In addition, our broker-dealer subsidiaries are subject to certain notification requirements related to withdrawals of excess net capital. Our broker-dealer subsidiaries are also subject to regulations, including the USA PATRIOT Act of 2001, which impose obligations regarding the prevention and detection of money-laundering activities, including the establishment of customer due diligence and other compliance policies and procedures. Failure to comply with these requirements may result in monetary, regulatory and, in certain cases, criminal penalties.

Certain U.K. subsidiaries of Lazard Group, including Lazard & Co., Limited (“LCL”), Lazard Fund Managers Limited and Lazard Asset Management Limited, which we refer to in this Annual Report on Form 10-K (this “Form 10-K”) as the “U.K. subsidiaries,” are authorized and regulated by the Financial Conduct Authority (the “FCA”), and are subject to various rules and regulations made by the FCA under the authorities conferred upon it by the Financial Services and Markets Act 2000, as amended by the Financial Services Act 2012.

Certain of our Asset Management subsidiaries are registered as investment advisors with the SEC. As a registered investment advisor, each is subject to the requirements of the Investment Advisers Act of 1940, as amended (the “Investment Advisers Act”), and the SEC’s regulations thereunder. Such requirements relate to, among other things, the relationship between an advisor and its advisory clients, as well as general anti-fraud prohibitions. LAM LLC serves as an investment advisor to several U.S. mutual funds which are registered under the Investment Company Act of 1940, as amended (the “Investment Company Act”). The Investment Company Act regulates, among other things, the relationship between a mutual fund and its investment advisor (and other service providers) and prohibits or severely restricts principal transactions between an advisor and its advisory clients, imposes record-keeping and reporting requirements, disclosure requirements, limitations on trades where a single broker acts as the agent for both the buyer and seller, and limitations on affiliated transactions and joint transactions. LAM Securities serves as an underwriter or distributor for mutual funds and private funds managed by LAM LLC and its subsidiaries (collectively, “LAM”), and as an introducing broker to Pershing LLC for unmanaged accounts of certain of LAM LLC’s private clients.

Compagnie Financière Lazard Frères SAS (“CFLF”), our French subsidiary under which asset management and commercial banking activities are carried out in France, is subject to regulation by the Autorité de Contrôle Prudentiel et de Résolution (“ACPR”) for its banking activities conducted through our Paris-based banking subsidiary, Lazard Frères Banque SA (“LFB”). The investment services activities of the Paris group, exercised through LFB and other subsidiaries of CFLF, primarily Lazard Frères Gestion SAS (“LFG”), (asset management), also are subject to regulation and supervision by the Autorité des Marchés Financiers. In addition, pursuant to the consolidated supervision rules in the European Union, LFB, in particular, as a French credit institution, is required to be supervised by a regulatory body, either in the U.S. or in the European Union. In 2013, the Company and the ACPR agreed on terms for the consolidated supervision of LFB and certain other non-Financial Advisory European subsidiaries of the Company (referred to herein, on a combined basis, as the “combined European regulated group”) under such rules. Under this supervision, the combined European regulated group is required to comply with minimum requirements for regulatory net capital to be reported on a quarterly basis and satisfy periodic financial and other reporting obligations. Additionally, the combined European regulated group, together with our European Financial Advisory entities, is required to perform an annual risk assessment and provide certain other information on a periodic basis, including financial reports and information relating to financial performance, balance sheet data and capital structure.

As a result of certain changes effected by the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) related to the regulation of over-the-counter swaps and other derivative instruments, LAM and certain of its subsidiaries have registered with the U.S. Commodity Futures Trading Commission (the “CFTC”) and the National Futures Association (the “NFA”), and are subject to certain aspects of the U.S. Commodity Exchange Act and the regulations thereunder, and to the rules of the NFA. The CFTC and the NFA have authority over the laws, rules and regulations related to commodities (including the over-the-counter swaps and derivatives markets), and regulate our relationship with clients who trade in these instruments. The U.S. Commodity Exchange Act and the regulations thereunder also impose additional record-keeping and reporting requirements and disclosure requirements on LAM and its subsidiaries.

In addition, the Central Bank of Ireland, the Japanese Ministry of Finance and Financial Services Agency, the Korean Financial Supervisory Commission, the Securities and Futures Commission of Hong Kong, the Monetary Authority of Singapore, the Australian Securities & Investments Commission, the Dubai Financial Services Authority, the Swiss Financial Market Supervisory Authority, the Italian Companies and Stock Exchange Commission and the German Federal Financial Supervisory Authority, among others, regulate relevant operating subsidiaries of the Company and also have capital standards and other requirements broadly comparable to the rules of the SEC. Our business is also subject to regulation by other non-U.S. governmental and regulatory bodies and self-regulatory authorities in other countries in which we operate.

Regulators are empowered to conduct periodic examinations and initiate administrative proceedings that can result, among other things, in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion or other disciplining of a regulated entity or its directors, officers or employees.

We are also subject to various anti-bribery, anti-money laundering and counter-terrorist financing laws, rules and regulations in the jurisdictions in which we operate. The U.S. Foreign Corrupt Practices Act, for example, generally prohibits offering, promising or giving, or authorizing others to give, anything of value, either directly or indirectly, to a non-U.S. government official in order to influence official action or otherwise gain an unfair business advantage, such as to obtain or retain business. Similar rules and regulations exist in other jurisdictions in which we operate. In addition, we are required to comply with economic sanctions and embargo programs administered by the U.S. Treasury's Office of Foreign Assets Control and by similar governmental agencies and other authorities worldwide. Violations of any of these laws, rules, regulations and programs can give rise to administrative, civil or criminal penalties.

The U.S. and other governments and institutions have taken actions, and may continue to take further actions, that affect the global financial markets. Such further actions could include expanding current or enacting new standards, requirements and rules that may be applicable to us and our subsidiaries. The effect of any such expanded or new standards, requirements and rules is uncertain and could have adverse consequences to our business and results of operations. See Item 1A, "Risk Factors—Other Business Risks—Extensive regulation of our businesses limits our activities and results in ongoing exposure to the potential for significant penalties, including fines or limitations on our ability to conduct our businesses."

Executive Officers of the Registrant

Set forth below are the name, age, present title, principal occupation and certain biographical information for each of our executive officers as of February 16, 2021, all of whom have been appointed by, and serve at the discretion of, our board of directors.

Kenneth M. Jacobs, 62

Mr. Jacobs has served as Chairman of the Board of Directors and Chief Executive Officer of Lazard Ltd and Lazard Group since November 2009. Mr. Jacobs has served as a Managing Director of Lazard since 1991 and had been a Deputy Chairman of Lazard from January 2002 until November 2009. Mr. Jacobs also served as Chief Executive Officer of Lazard North America from January 2002 until November 2009. Mr. Jacobs initially joined Lazard in 1988. Mr. Jacobs is a member of the Board of Trustees of the University of Chicago and the Brookings Institution.

Evan L. Russo, 46

Mr. Russo has served as Chief Financial Officer of Lazard Ltd and Lazard Group since October 2017. Mr. Russo has served as a Managing Director of Lazard since 2009, and, prior to becoming Chief Financial Officer, was Co-Head of Lazard's Capital Markets and Capital Structure Advisory practice. Mr. Russo joined Lazard as a Director in 2007. Prior to joining Lazard, Mr. Russo worked for Goldman, Sachs & Co. in the Investment Banking Division, and prior to that, for Barclays Capital. Mr. Russo began his career as an attorney at Milbank, Tweed, Hadley & McCloy.

Ashish Bhutani, 60

Mr. Bhutani has served as a member of the Board of Directors of Lazard Ltd and Lazard Group since March 2010. Mr. Bhutani is a Vice Chairman and a Managing Director of Lazard and has been the Chief Executive Officer of LAM since March 2004. Mr. Bhutani previously served as Head of New Products and Strategic Planning for LAM from June 2003 to March 2004. Prior to joining Lazard, he was Co-Chief Executive Officer, North America, of Dresdner Kleinwort Wasserstein from 2001 to the end of 2002, and was a member of its Global Corporate and Markets Board, and a member of its Global Executive Committee. Mr. Bhutani worked at Wasserstein Perella Group (the predecessor to Dresdner Kleinwort Wasserstein) from 1989 to 2001, serving as Deputy Chairman of Wasserstein Perella Group and Chief Executive Officer of Wasserstein Perella Securities from 1994 to 2001. Mr. Bhutani began his career at Salomon Brothers in 1985, where he was a Vice President in Fixed Income. Mr. Bhutani is a member of the Board of Directors of four registered investment companies, which are part of the Lazard fund complex. Mr. Bhutani is also a member of the Board of Directors of City Harvest.

Scott D. Hoffman, 58

Mr. Hoffman has served as Chief Administrative Officer of Lazard Ltd and Lazard Group since July 2017 and as General Counsel of Lazard Ltd since May 2005. Mr. Hoffman has served as a Managing Director of Lazard since January 1999 and General Counsel of Lazard Group since January 2001. Mr. Hoffman previously served as Vice President and Assistant General Counsel from February 1994 to December 1997 and as a Director from January 1998 to December 1998. Prior to joining Lazard, Mr. Hoffman was an attorney at Cravath, Swaine & Moore LLP. Mr. Hoffman is a member of the Board of Trustees of the New York University School of Law and a member of the Board of Directors of Film at Lincoln Center.

Peter Orszag, 52

Mr. Orszag became Chief Executive Officer of Financial Advisory in June 2019. Prior to that he was Lazard's Head of North American Mergers & Acquisitions since July 2018 and Global Co-Head of Healthcare since November 2016. Mr. Orszag joined Lazard in May 2016 as a Vice Chairman of Investment Banking from Citigroup, where he was Vice Chairman of Corporate and Investment Banking and Chairman of the Financial Strategy and Solutions Group from January 2011 to February 2016. Mr. Orszag served as the Director of the Office of Management and Budget in the Obama Administration from January 2009 to July 2010, and was the Director of the

Congressional Budget Office from January 2007 to December 2008. Mr. Orszag is a member of the Board of Directors of the Peterson Institute for International Economics, the Mt. Sinai Medical Center and New Visions for Public Schools in New York, and is a member of the National Academy of Medicine.

Alexandra Soto, 51

Ms. Soto became Group Executive, Human Capital and Workplace Innovation, of Lazard Ltd and Lazard Group in June 2019. She became the Global Chief Operating Officer of Financial Advisory in July 2018 and has served as a Managing Director of Lazard since January 2001. Ms. Soto was previously Chief Operating Officer of Lazard Europe Financial Advisory from January 2006 to July 2018, and Chief Operating Officer of Lazard Paris Financial Advisory from October 2009 to August 2013. Prior to joining Lazard in June 1993, Ms. Soto worked for Morgan Stanley. She is a member of the Supervisory Board of Metro AG.

Alexander F. Stern, 54

Mr. Stern became President of Lazard Ltd and Lazard Group in June 2019. In addition, in December 2020, Mr. Stern became Executive Chairman and a director of Lazard Growth Acquisition Corp. I. Mr. Stern has served as a Managing Director of Lazard since January 2002, and prior to becoming President was Chief Executive Officer, Financial Advisory since April 2015, Chief Operating Officer of Lazard Ltd and Lazard Group since November 2008, and Global Head of Strategy since February 2006. Mr. Stern joined Lazard in 1994 and previously held various positions with Patricof & Co. Ventures and IBM. Mr. Stern is the chairman of the Board of Directors of LUNgevity Foundation and a member of the Board of Overseers for the School of Engineering and Applied Sciences of the University of Pennsylvania.

Where You Can Find Additional Information

Lazard Ltd files current, annual and quarterly reports, proxy statements and other information required by the Exchange Act with the SEC. The Company's SEC filings are available to the public from the SEC's internet site at <http://www.sec.gov>.

Our public website is <http://www.lazard.com> and the investor relations section thereof hosts our SEC filings. We will make available free of charge, on or through the investor relations section of our website, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and Forms 3, 4 and 5 filed on behalf of directors and executive officers and any amendments to those reports filed or furnished pursuant to the Exchange Act as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Also posted on our website, and available in print upon request of any Lazard Ltd shareholder to the Investor Relations Department, are charters for the Company's Audit Committee, Compensation Committee, Nominating & Governance Committee and Workplace and Culture Committee. Copies of these charters and our Corporate Governance Guidelines and Code of Business Conduct and Ethics governing our directors, officers and employees are also posted on the investor relations section of our website in the corporate governance subsection.

ITEM 1A. RISK FACTORS

You should carefully consider the following risks and all of the other information set forth in this Form 10-K, including our consolidated financial statements and related notes. The following risks comprise the material risks of which we are aware. If any of the events or developments described below actually occurred, our business, financial condition or results of operations would likely suffer.

Risk Factors Summary

The following is a summary of certain material risks of which we are aware. You should carefully consider this summary, together with the more detailed description of each risk factor contained below.

- Difficult market conditions can adversely affect our business in many ways, including by reducing the volume of transactions involving our Financial Advisory business and reducing the value or performance of the assets we manage in our Asset Management business.
- Fluctuations in foreign currency exchange rates could reduce our stockholders' equity and net income or negatively impact the portfolios of our Asset Management clients and may affect the levels of our AUM.
- Our results of operations may be affected by fluctuations in the fair value of positions held in our investment portfolios.
- Our business, financial condition and results of operations could be materially adversely affected by the COVID-19 pandemic.
- Due to the nature of our business, financial results could differ significantly from period to period, which may make it difficult for us to achieve steady earnings growth on a quarterly basis.
- Failure to retain our managing directors and other key professional employees, including maintaining compensation levels at an appropriate level, may materially adversely affect our results of operations and financial position.
- The financial services industry, and all of the businesses in which we compete, are intensely competitive.
- A substantial portion of our revenue is derived from Financial Advisory fees, which are not long-term contracted sources of revenue and are subject to intense competition.
- If the number of debt defaults, bankruptcies or other factors affecting demand for our Restructuring services declines, our Restructuring revenue could suffer.
- Potential underwriting activities may expose us to risk.

- Our investment style in our Asset Management business may underperform or generate less demand than other investment approaches, which may result in significant client or asset departures or a reduction in AUM.
- We could lose clients and suffer a decline in our Asset Management revenue and earnings if the investments we choose in our Asset Management business perform poorly, regardless of overall trends in the prices of securities.
- Because many of our Asset Management clients can remove the assets we manage on short notice, we may experience unexpected declines in revenue and profitability.
- For our Asset Management business, reductions in referrals to clients from intermediaries and consultants or poor reviews of our products or our organization by such intermediaries or consultants could materially reduce our revenue and impair our ability to attract new clients.
- Our Asset management business relies on non-affiliated third-party service providers.
- We may lose some or all of the principal amount of our investments in relatively high-risk, illiquid assets or fail to realize any profits from these investments for a considerable period of time.
- We may pursue growth or geographic expansion strategies that may result in additional risks and uncertainties in our business and could present unforeseen integration obstacles or costs.
- An inability to access the debt and equity capital markets as a result of our debt obligations, credit ratings or other factors could impair our liquidity, increase our borrowing costs or otherwise adversely affect our financial position or results of operations.
- The soundness of third parties, including our clients, as well as financial, governmental and other institutions, could adversely affect us.
- Other operational risks may disrupt our businesses, result in regulatory action against us or limit our growth.
- Extensive regulation of our businesses limits our activities and results in ongoing exposure to the potential for significant penalties, including fines or limitations on our ability to conduct our businesses.
- We may face damage to our professional reputation and legal liability if our services are not regarded as satisfactory or if conflicts of interest should arise.
- Employee misconduct, which is difficult to detect and deter, could harm us by impairing our ability to attract and retain clients and subjecting us to significant legal liability and reputational harm.
- A failure in or breach of our information systems or infrastructure, or those of third parties with which we do business, including as a result of cyber attacks, could disrupt our businesses, lead to reputational harm and legal liability or otherwise impact our ability to operate our business.
- Failure to maintain effective internal controls in accordance with Section 404 of the Sarbanes-Oxley Act could materially adversely affect our business.
- Uncertainty regarding the outcome of future arrangements between the European Union and the United Kingdom may adversely affect our business.
- In the event of a change or adverse interpretation of relevant income tax law, regulation or treaty, or a failure to qualify for treaty benefits, our overall tax rate may be substantially higher than the rate used for purposes of our consolidated financial statements.
- Tax authorities may challenge our tax computations and classifications, our transfer pricing methods and our application of related policies and methods.
- Our subsidiaries may be required to make payments under the Amended and Restated Tax Receivable Agreement. The IRS may challenge the tax benefits that give rise to such payments and, under certain circumstances, our subsidiaries may have made or could make payments under the Amended and Restated Tax Receivable Agreement in excess of our subsidiaries' cash tax savings.

- Lazard Ltd is a holding company and, accordingly, depends upon distributions from Lazard Group to pay dividends and taxes and other expenses.
- Lazard Group is a holding company and, accordingly, depends on its subsidiaries to make distributions to Lazard Group to enable it to service its obligations under its indebtedness.

Risks Related to Economic and Current Conditions Impacting Us and our Business

Difficult market conditions can adversely affect our business in many ways, including by reducing the volume of transactions involving our Financial Advisory business and reducing the value or performance of the assets we manage in our Asset Management business, which, in each case, could materially reduce our revenue or income and adversely affect our financial position.

As a financial services firm, our businesses are materially affected by conditions in the global financial markets and economic conditions throughout the world. Unfavorable economic and market conditions can adversely affect our financial performance in both the Financial Advisory and Asset Management businesses. The future market and economic climate may deteriorate because of many factors, such as a general slowing of economic growth globally or regionally, periods of disruption or volatility in securities markets, volatility and tightening of liquidity in credit markets, volatility or significant realignments in currency markets, increases in interest rates, inflation, corporate or sovereign defaults, natural disasters, terrorism or political uncertainty.

For example, revenue generated by our Financial Advisory business is directly related to the volume and value of the transactions in which we are involved. During periods of unfavorable or uncertain market or economic conditions, the volume and value of M&A transactions may decrease, thereby reducing the demand for our Financial Advisory services and increasing price competition among financial services companies seeking such engagements. Our results of operations would be adversely affected by any such reduction in the volume or value of M&A transactions. In addition, our profitability would be adversely affected due to our fixed costs and the possibility that we would be unable to reduce our variable costs without reducing revenue or within a timeframe sufficient to offset any decreases in revenue relating to changes in market and economic conditions.

Within our Financial Advisory business, we have typically seen that, during periods of economic strength and growth, our Mergers and Acquisitions practice historically has been more active and our Restructuring practice has been less active. Conversely, during periods of economic weakness and contraction, we typically have seen that our Restructuring practice has been more active and our Mergers and Acquisitions practice has been less active. As a result, revenue from our Restructuring practice has tended to correlate negatively to our revenue from our Mergers and Acquisitions practice over the course of business cycles. These trends are cyclical in nature and subject to periodic reversal. However, these trends do not cancel out the impact of economic conditions in our Financial Advisory business, which may be adversely affected by a downturn in economic conditions, leading to decreased Mergers and Acquisitions practice activity, notwithstanding improvements in our Restructuring practice. Moreover, revenue improvements in our Mergers and Acquisitions practice in strong economic conditions could be offset in whole or in part by any related revenue declines in our Restructuring practice. While we generally have experienced a counter-cyclical relationship between our Mergers and Acquisitions practice and our Restructuring practice, this relationship may not continue in the future, and there is no certainty that strength in one practice will offset, or partially offset, weakness in the other.

Our Asset Management business also would be expected to generate lower revenue in a market or general economic downturn. Under our Asset Management business's arrangements, investment advisory fees we receive typically are based on the market value of AUM. Accordingly, a decline in the prices of securities, or in specific geographic markets or sectors that constitute a significant portion of our AUM (e.g., our emerging markets strategies), would be expected to cause our revenue and income to decline by causing:

- the value of our AUM to decrease, which would result in lower investment advisory fees;
- some of our clients to withdraw funds from our Asset Management business due to the uncertainty or volatility in the market, or in favor of investments they perceive as offering greater opportunity or lower risk, which would also result in lower investment advisory fees;

- some of our clients or prospective clients to hesitate in allocating assets to our Asset Management business due to the uncertainty or volatility in the market, which would also result in lower investment advisory fees; or
- negative absolute performance returns for some accounts that have performance-based incentive fees, which would result in a reduction of revenue from such fees.

Our AUM has declined from time to time during recent periods. For example, average AUM for the year ended December 31, 2020 was \$225 billion, a decrease of 4% as compared to average AUM for the year ended December 31, 2019. If our Asset Management revenue declines without a commensurate reduction in our expenses, our net income would be reduced. In addition, in the event of a market or general economic downturn, our alternative investment and private equity practices also may be impacted by a difficult fund raising environment and reduced exit opportunities in which to realize the value of their investments. Fluctuations in foreign currency exchange rates may also affect the levels of our AUM and our investment advisory fees. See “Fluctuations in foreign currency exchange rates could reduce our stockholders’ equity and net income or negatively impact the portfolios of our Asset Management clients and may affect the levels of our AUM” below.

Fluctuations in foreign currency exchange rates could reduce our stockholders’ equity and net income or negatively impact the portfolios of our Asset Management clients and may affect the levels of our AUM.

We are exposed to fluctuations in foreign currencies, including through advisory fees paid to our Financial Advisory business and management fees paid to our Asset Management business. Our financial statements are denominated in U.S. Dollars and, for the year ended December 31, 2020, we received a portion of our consolidated net revenue in other currencies, predominantly in Euros, British Pounds and Australian Dollars. In addition, we pay a portion of our expenses in such other currencies. The exchange rates of these currencies versus the U.S. Dollar affect the carrying value of our assets and liabilities as well as our revenues, expenses and net income. We do not generally hedge such foreign currency exchange rate exposure arising in our subsidiaries outside of the U.S. Fluctuations in foreign currency exchange rates may also make period to period comparisons of our results of operations difficult.

Fluctuations in foreign currency exchange rates also can impact the portfolios of our Asset Management clients. Client portfolios are invested in securities across the globe, although most portfolios are funded in a single base currency. Foreign currency exchange rate fluctuations can adversely impact investment performance for a client’s portfolio and also may affect the levels of our AUM. As our AUM include significant assets that are denominated in currencies other than U.S. Dollars, an increase in the value of the U.S. Dollar relative to non-U.S. currencies, with all other factors held constant, generally would result in a decrease in the dollar value of our AUM, which, in turn, would result in lower U.S. Dollar-denominated revenue in our Asset Management business. As of December 31, 2020, AUM with foreign currency exposure represented approximately 69% of our total AUM.

See Note 15 of Notes to Consolidated Financial Statements for additional information regarding the impact on stockholders’ equity from currency translation adjustments and Note 2 of Notes to Consolidated Financial Statements for additional information regarding the impact on operating results from currency transaction adjustments.

Our results of operations may be affected by fluctuations in the fair value of positions held in our investment portfolios.

We invest capital in various types of equity and debt securities in order to seed equity, debt and alternative investment funds and for general corporate purposes. Such investments are subject to market fluctuations due to changes in the market prices of securities, interest rates or other market factors, such as liquidity. While we may seek to hedge the market risk for some of these investments, an effective hedge may not be available and, if available, may not be fully effective. These investments are adjusted for accounting purposes to fair value at the end of each quarter, regardless of our intended holding period, with any related gains or losses reflected in our results of operations and therefore may increase the volatility of our earnings, even though such gains or losses may not be realized.

Our business, financial condition and results of operations could be materially adversely affected by the COVID-19 pandemic.

The outbreak of a novel strain of coronavirus (“COVID-19”) continues to affect the global community and our business, financial condition and results of operations. The nature and severity of the impact remains highly uncertain, and the extent to which COVID-19 affects our operations and heightens the risks described in these Risk Factors will continue to depend largely on future developments, including the course of the pandemic; the manufacturing, global distribution and efficacy of vaccines developed to prevent the spread of COVID-19; and the extent of actions that have been or may be taken to contain or address its impact. These actions, many of which have been implemented in various jurisdictions worldwide, include, but are not limited to, declarations of states of emergency, business closures, restrictions on businesses’ ability to pay dividends or make distributions, restrictions on in-person meetings and travel or other similar restrictions and limitations. While such actions may be, or have been, relaxed or suspended, they may also be reinstated or enhanced as the pandemic continues to evolve, and the relaxation or suspension of such actions may not be successful in restarting economic activity. The scope and timing of any such actions or reinstatements remains difficult to predict.

Moreover, the COVID-19 pandemic has adversely affected the economies in impacted countries and regions, including those in which our businesses operate, and the global financial markets, including the global debt and equity capital markets, which have experienced, and may continue to experience, significant volatility. The pandemic resulted in an economic downturn, which included a sharp drop in aggregate demand and, particularly in the U.S., an increased level of unemployment, that could adversely affect our business, financial condition and results of operations and could have a negative impact on our Financial Advisory and Asset Management businesses. Disruptions to, and volatility in, the global financial markets as a result of the COVID-19 pandemic may result in a decrease in the volume and value of M&A transactions, thereby reducing the demand for our Financial Advisory services and increasing price competition among financial services companies seeking such engagements, which may adversely affect our financial condition and results of operations. Those same market disruptions may result in a decrease in our AUM resulting in lower investment advisory fees for our Asset Management business, may affect our ability to effect transactions for our Asset Management clients and may negatively impact the liquidity of the assets held in our client portfolios. Furthermore, any such disruptions to the global financial markets may affect our ability to incur debt or issue equity on acceptable terms, or at all, to fund our working capital requirements or refinance existing indebtedness or to make acquisitions and other investments. Additionally, we have exposure to many different industries and counterparties, and we routinely execute transactions with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, mutual and hedge funds and other institutional clients. Many of these transactions expose us to credit risk in the event our counterparty or client defaults, which defaults could become more frequent or widespread due to the impact of the COVID-19 pandemic.

Our efforts to mitigate the impact of the COVID-19 pandemic have required, and will continue to require, a significant investment of time and resources across our businesses. In response to recommendations or orders by governmental institutions limiting certain business or commercial activities in jurisdictions in which we operate around the world, we have taken, and may take further, preventative or protective actions, including instituting policies requiring employees who are capable of performing their functions remotely to do so. These arrangements may result in reduced productivity and limitations on the ability of our managing directors and employees to communicate or interact, which may adversely impact our business, financial condition and results of operations. Furthermore, given the unprecedented number of employees performing their functions remotely, we have reinforced policies, procedures and guidelines that we believe are reasonably designed to protect the confidentiality of our and our clients’ confidential information, but there can be no assurance that these measures will be adequate. Any unauthorized disclosure of such information could result in legal action, regulatory sanctions and reputational or financial harm.

Similarly, due to the unprecedented number of employees continuously deploying the remote working capabilities of our information systems, including on home networks or through increased use of mobile technologies, we face a heightened risk of operational interruptions and security breaches involving such systems. Additionally, such home and mobile technology resources could be more susceptible to interruptions and security breaches than our dedicated business resources. There can be no assurance that protective measures and policies we have instituted in an effort to reduce the likelihood and severity of such interruptions and breaches, including as a

result of cyber attacks, will be adequate. See “A failure in or breach of our information systems or infrastructure, or those of third parties with which we do business, including as a result of cyber attacks, could disrupt our businesses, lead to reputational harm and legal liability or otherwise impact our ability to operate our business” below.

Certain of our third party vendors or service providers may take, have taken or may take further preventative or protective actions, including instituting policies requiring their respective employees who are capable of performing their functions remotely to do so and implementing or expanding back-up procedures and capabilities, and may be experiencing a growing demand for their services. Any failure of or interruption to their systems or any back-up procedures and capabilities as a result of such actions or such growth in demand could materially adversely affect our business, financial condition and results of operations. See “Other operational risks may disrupt our businesses, result in regulatory action against us or limit our growth” below.

Risks Related to Our Business and Operations

Due to the nature of our business, financial results could differ significantly from period to period, which may make it difficult for us to achieve steady earnings growth on a quarterly basis.

We experience significant fluctuations in quarterly revenue and profits. These fluctuations generally can be attributed to the fact that we earn a substantial portion of our Financial Advisory revenue upon the successful completion of a transaction or a restructuring, the timing of which is uncertain and is not subject to our control. As a result, our Financial Advisory business is highly dependent on market conditions and the decisions and actions of our clients, interested third parties and governmental authorities. For example, a client or counterparty could delay or terminate an acquisition transaction because of a failure to agree upon final terms, failure to obtain necessary regulatory consents or board of directors, or acquirer’s or stockholder approval, failure to secure necessary financing, adverse market conditions or because the seller’s business is experiencing unexpected operating or financial problems. Anticipated bidders for assets of a client during a restructuring transaction may not materialize or our client may not be able to restructure its operations or indebtedness, for example, due to a failure to reach agreement with its principal creditors. In addition, a bankruptcy court may deny our right to collect a “success” or “completion” fee. In these circumstances, other than in engagements where we receive retainers, we often do not receive any advisory fees other than the reimbursement of certain expenses, despite the fact that we devote resources to these transactions. Accordingly, the failure of one or more transactions to close either as anticipated or at all could cause significant fluctuations in quarterly revenue and profits and could materially adversely affect our business, financial condition and results of operations. For more information, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations”.

In addition, our Asset Management revenue is particularly sensitive to fluctuations in our AUM. Asset Management fees are predominantly based on the daily, monthly or quarterly average AUM. As a result, a reduction in AUM at the end of a day, month or quarter (as a result of market depreciation, withdrawals, fluctuations in foreign currency exchange rates or otherwise) will result in a decrease in management fees. Similarly, the timing of flows, contributions and withdrawals are often out of our control and may be inconsistent from quarter to quarter. Incentive fees are driven by investment performance (either absolute performance or relative to an established benchmark), which is directly impacted by market movements, and may therefore fluctuate from period to period.

As a result of such fluctuations, it may be difficult for us to achieve steady revenue and earnings growth on a quarterly basis.

Our ability to retain our managing directors and other key professional employees is critical to the success of our business, including maintaining compensation levels at an appropriate level, and failure to do so may materially adversely affect our results of operations and financial position.

Our people are our most important asset. We must retain the services of our managing directors and other key professional employees, and strategically recruit and hire new talented employees, to obtain and successfully execute the Financial Advisory and Asset Management engagements that generate substantially all of our revenue.

In general, our industry continues to experience change and be subject to significant competitive pressures with respect to the retention of top talent, which makes it more difficult for us to retain professionals. Loss of key employees may occur due to perceived opportunity for promotion, compensation levels or composition of compensation, work environment, retirement or the pursuit of philanthropic, civic or similar service opportunities or other individual reasons, some of which may be beyond our control. If managing directors and other key professional employees were to retire, join an existing competitor, form a competing company or otherwise leave us, we could need to replace them, and some of our clients could eventually choose to use the services of that competitor or some other competitor instead of our services. In any such event, our financial advisory fees, asset management fees or AUM could decline. The employment arrangements, non-competition agreements and retention agreements we have or will enter into with our managing directors and other key professional employees may not sufficiently prevent our managing directors and other key professional employees from resigning from practice or competing against us. In addition, these arrangements and agreements have a limited duration and expire after a certain period of time. We continue to be subject to intense competition in the financial services industry regarding the recruitment and retention of key professionals, and have experienced departures from and added to our professional ranks as a result. Furthermore, we seek to align the interests of our managing directors and other key professional employees with that of our shareholders by awarding deferred compensation in the form of equity, and any change in our ability to grant such awards, including as a result of a shareholder vote against any of our equity incentive plans, could have a negative impact on our ability to promote such alignment.

Certain changes to our employee compensation arrangements may result in increased compensation and benefits expense. In addition, any changes to the mix of cash and deferred incentive compensation granted to our employees may affect certain financial measures applicable to our business, including ratios of compensation and benefits expense to revenue, and may result in the issuance of increased levels of common stock, par value \$0.01 per share, to our employees upon vesting of restricted stock units (“RSUs”), performance-based restricted stock units (“PRSUs”), restricted stock awards, profits interest participation rights or other equity-based awards in a particular year. Our compensation levels, results of operations and financial position may be significantly affected by many factors, including general economic and market conditions, our operating and financial performance, staffing levels and competitive pay conditions.

The financial services industry, and all of the businesses in which we compete, are intensely competitive.

The financial services industry is intensely competitive, and we expect it to remain so. We compete on the basis of a number of factors, including the quality of our advice, our employees and transaction execution, the range and price of our products and services, our innovation and our reputation. We have experienced intense fee competition in some of our businesses in recent years, and we believe that we may experience pricing pressures in these and other areas in the future as some of our competitors seek to obtain increased market share by reducing fees. A number of factors increase the competitive risks of our Financial Advisory and Asset Management businesses:

- there are relatively few barriers to entry impeding the launch of new asset management and financial advisory firms, including a relatively low cost of entering these businesses, and the successful efforts of new entrants, including major banks and other financial institutions, into our lines of business have resulted in increased competition;
- other industry participants will from time to time seek to recruit our employees away from us in order to compete in our lines of business; and
- certain of our practices and products are newly established and relatively small.

In addition, many of our competitors have the ability to offer a wide range of products, from loans, deposit-taking and insurance to brokerage, asset management and investment banking services, which may enhance their competitive position. They may also have the ability to support investment banking, including financial advisory services, with commercial banking, insurance and other financial services in an effort to gain market share, which could result in pricing pressure in our businesses.

Competitive pressure could adversely affect our ability to attract new or retain existing clients, make successful investments, retain our people or maintain AUM, any of which would adversely affect our results of operations and financial condition.

A substantial portion of our revenue is derived from Financial Advisory fees, which are not long-term contracted sources of revenue and are subject to intense competition, and declines in our Financial Advisory engagements could have a material adverse effect on our business, financial condition and results of operations.

We historically have earned a substantial portion of our revenue from advisory fees paid to us by our Financial Advisory clients, which usually are payable upon the successful completion of a particular transaction or restructuring. For example, for the year ended December 31, 2020, Financial Advisory services accounted for approximately 55% of our consolidated net revenue. We expect that we will continue to rely on Financial Advisory fees for a substantial portion of our revenue for the foreseeable future, and a decline in our Financial Advisory engagements or the market for financial advisory services would adversely affect our business, financial condition and results of operations.

In addition, we operate in a highly competitive environment where typically there are no long-term contracted sources of revenue. Each revenue-generating engagement typically is separately awarded and negotiated. Furthermore, many businesses do not routinely engage in transactions requiring our services, and as a consequence, our fee paying engagements with many clients are not likely to be predictable. We also lose clients each year, including as a result of the sale or merger of a client, a change in a client's senior management and competition from other financial advisors and financial institutions. As a result, our engagements with clients are constantly changing, and our Financial Advisory fees could decline quickly due to the factors discussed above.

If the number of debt defaults, bankruptcies or other factors affecting demand for our Restructuring services declines, our Restructuring revenue could suffer.

We provide various restructuring and restructuring-related advice to companies in financial distress or to their creditors or other stakeholders. Historically, the fees from restructuring-related services have been a significant part of our Financial Advisory revenue. A number of factors could affect demand for these advisory services, including improving general economic conditions, the availability and cost of debt and equity financing and changes to laws, rules and regulations, including those that protect creditors, and the deregulation or privatization of particular industries.

Potential underwriting activities may expose us to risk.

In 2014, we took steps that have enabled us to act as an underwriter in public offerings and other distributions of securities in order to buttress our Financial Advisory business. While not an ordinary part of our business, if we act as an underwriter, we may incur losses and be subject to reputational harm to the extent that, for any reason, the underwriting syndicate in any given transaction is unable to sell the relevant securities at the anticipated price levels. In addition, if we act as an underwriter, we may also be subject to liability for material misstatements or omissions in prospectuses and other offering documents relating to offerings we underwrite. In such cases, any indemnification provisions in the applicable underwriting agreement may not be available to us or may not be sufficient to protect us against losses arising from such liability. Operational risk in connection with any offering we underwrite could arise in the form of errors, deficiencies or noncompliance and also could expose us to risk. We seek to manage the risks associated with underwriting activities through screening, internal review and diligence procedures and processes, but such efforts may not be effective in all cases.

Our investment style in our Asset Management business, including the mix of asset classes and investment strategies comprising our AUM, may underperform or generate less demand than other investment approaches, which may result in significant client or asset departures or a reduction in AUM.

Even when securities prices are rising generally, performance can be affected by investment style and mix of asset classes. For example, many of the equity investment strategies in our Asset Management business share a common investment orientation towards relative value investing. We believe this style tends to outperform the market in some market environments and underperform it in others. In particular, a prolonged growth environment, as we have seen over the last several years, may cause some of our investment strategies to go out of favor with

some clients, advisors, consultants or third-party intermediaries. In addition, all of our investment strategies are actively managed strategies which seek to outperform relative to a benchmark or generate an absolute return. Management fees for actively managed strategies tend to be higher than those charged for passively managed strategies. The perception that actively managed strategies have, on average, underperformed relative to passively managed strategies over time, combined with greater pressure on clients to acquire asset management services at lower costs, has contributed to increased trends toward passively managed investment strategies. This, in turn, may adversely affect demand for our strategies or result in fee pressure on our business overall. In combination with poor performance relative to peers, changes in personnel, challenging market environments or other difficulties, the underperformance of our investment style may result in significant client or asset departures or a reduction in AUM.

We could lose clients and suffer a decline in our Asset Management revenue and earnings if the investments we choose in our Asset Management business perform poorly, regardless of overall trends in the prices of securities.

Investment performance affects our AUM relating to existing clients and is one of the most important factors in retaining clients and competing for new Asset Management business. Poor investment performance could impair our revenue and growth because:

- existing clients might withdraw funds from our Asset Management business in favor of better performing products, which would result in lower investment advisory fees;
- our incentive fees, which provide us with a set percentage of returns on some alternative investment and private equity funds and other accounts, would decline;
- third-party financial intermediaries, rating services, advisors or consultants may rate our products poorly, which may result in client withdrawals and reduced asset flows; or
- firms with which we have strategic alliances may terminate such relationships with us, and future strategic alliances may be unavailable.

Over certain time periods, we may have a higher concentration of assets in certain strategies. To the extent that this is the case, underperformance, changes in investment personnel or other changes in these strategies, as well as changes in a variety of macroeconomic and other factors, may result in a withdrawal of assets. If a significant amount of clients withdraw from these strategies for any reason, our revenues would decline and our operating results would be adversely affected.

Because many of our Asset Management clients can remove the assets we manage on short notice, we may experience unexpected declines in revenue and profitability.

Our investment advisory contracts are generally terminable upon very short notice. Institutional and individual clients, and firms with which we have strategic alliances, can terminate their relationship with us, reduce the aggregate amount of AUM or shift their funds to other types of accounts with different rate structures or to other investment management firms for a number of reasons, including investment performance relative to the market, prior years or other investment management firms, departures from or changes to the teams that manage our investment products, changes in prevailing interest rates and financial market performance or for no stated reason. In addition, the ability to terminate relationships may allow clients to renegotiate for lower fees paid for asset management services.

In addition, in the U.S., as required by the Investment Company Act, each of our investment advisory contracts with the mutual funds we advise or sub-advise automatically terminates upon its “assignment.” Each of our other investment advisory contracts subject to the provisions of the Investment Advisers Act provide, as required by the Investment Advisers Act, that the contract may not be “assigned” without the consent of the customer. A sale of a sufficiently large block of shares of our voting securities or other transactions could be deemed an “assignment” in certain circumstances. An assignment, actual or constructive, would trigger these termination provisions and could adversely affect our ability to continue managing client accounts.

Access to clients through intermediaries and consultants is important to our Asset Management business, and reductions in referrals from such intermediaries or consultants or poor reviews of our products or our organization by such intermediaries or consultants could materially reduce our revenue and impair our ability to attract new clients.

Our ability to market our Asset Management services relies in part on receiving mandates from the client base of national and regional securities firms, banks, insurance companies, defined contribution plan administrators, investment consultants and other intermediaries. To an increasing extent, our Asset Management business uses referrals from accountants, lawyers, financial planners and other professional advisors. The inability to have this access could materially adversely affect our Asset Management business. In addition, many of these intermediaries and consultants review and evaluate our products and our organization. Poor reviews or evaluations of either the particular product or of us may result in client withdrawals or an inability to attract new clients through such intermediaries or consultants.

Our Asset Management business relies on non-affiliated third-party service providers.

Our Asset Management business has entered into service agreements with third-party service providers for client order management and the execution and settlement of client securities transactions. This business faces the risk of operational failure of any of our clearing agents, the exchanges, clearing houses or other intermediaries we use to facilitate our securities transactions. We oversee and manage these relationships. Poor oversight and control or inferior performance or service on the part of the service provider could result in loss of customers and violations of applicable rules and regulations. Any such failure could adversely affect our ability to effect transactions and to manage our exposure to risk.

We have investments, primarily through our private equity businesses, in relatively high-risk, illiquid assets, and we may lose some or all of the principal amount of these investments or fail to realize any profits from these investments for a considerable period of time.

We have made, and in the future may make, principal investments in public or private companies or in alternative investments (including private equity funds) established by us, and we continue to hold principal investments directly or through funds managed by certain affiliates of Lazard, including Edgewater, as well as third parties. Making principal investments is risky, and we may lose some or all of the principal amount of our investments. Certain of these types of investments may be in relatively high-risk, illiquid assets. Because it may take several years before attractive alternative investment opportunities are identified, some or all of the capital committed by us to these funds is likely to be invested in government securities, other short-term, highly-rated debt securities and money market funds that traditionally have offered investors relatively lower returns. In addition, these investments may be adjusted for accounting purposes to fair value at the end of each quarter, and any related gains or losses would affect our results of operations and could increase the volatility of our earnings, even though such fair value fluctuations may have no cash impact. It takes a substantial period of time to identify attractive alternative investment opportunities, to raise all the funds needed to make an investment and then to realize the cash value of an investment through resale. Even if an alternative investment proves to be profitable, it may be several years or longer before any profits can be realized in cash or other proceeds.

Our revenue from our private equity business is derived in part from management fees, which are calculated as a percentage of committed capital or invested capital depending on the stage of each respective fund. Transaction and advisory fees are also earned. Incentive fees are earned if investments are profitable over a specified threshold. Our ability to form new alternative investment funds is subject to a number of uncertainties, including past performance of our funds, market or economic conditions, competition from other fund managers and the ability to negotiate terms with major investors.

We may pursue new business lines, acquisitions, joint ventures, cooperation agreements or other growth or geographic expansion strategies that may result in additional risks and uncertainties in our business and could present unforeseen integration obstacles or costs.

We routinely assess our strategic position and may in the future pursue new business lines or seek acquisitions or other transactions or growth strategies to further enhance our competitive position. We have in the past pursued joint ventures and other transactions aimed at expanding the geography and scope of our operations. We expect to

continue to explore new business lines, acquisitions, growth strategies and partnership or strategic alliance opportunities that we believe to be attractive.

Acquisitions, growth strategies, joint ventures and new business lines involve a number of risks and present financial, managerial and operational challenges. These risks and challenges include potential disruption of our ongoing business and distraction of management, difficulty integrating personnel and financial and other systems, difficulty hiring additional management and other critical personnel and other challenges arising from the increased scope, geographic diversity and complexity of our operations.

To the extent that we pursue business opportunities outside of the U.S. and our other principal business locations, including through acquisitions, joint ventures or other geographic expansion of our existing businesses, we may become subject to political, economic, legal, operational, regulatory and other risks that are inherent in operating in a foreign country, including risks of potential price, capital and currency exchange controls, licensing requirements and other regulatory restrictions, as well as the risk of hostile actions against or affecting our business or people. Our ability to remain in compliance with local laws in a particular foreign jurisdiction could adversely affect our businesses and our reputation.

In addition, our clients and other stakeholders may react unfavorably to our acquisition, growth and joint venture strategies or new business lines; we may not realize any anticipated benefits from such actions, we may be exposed to additional liabilities of any new business line, acquired business or joint venture; we may be exposed to litigation in connection with a new business line, acquisition, growth or joint venture transaction; and we may not be able to renew on similar terms (or at all) previously successful joint ventures or similar arrangements, any of which could materially adversely affect our business, financial position and results of operations.

An inability to access the debt and equity capital markets as a result of our debt obligations, credit ratings or other factors could impair our liquidity, increase our borrowing costs or otherwise adversely affect our financial position or results of operations.

As of December 31, 2020, Lazard Group and its subsidiaries had approximately \$1.7 billion in debt outstanding, of which \$400 million, \$300 million, \$500 million and \$500 million relate to Lazard Group senior notes that mature in 2025, 2027, 2028 and 2029, respectively. This debt has certain mandated payment obligations, which may constrain our ability to operate our business. If we decide to redeem or retire this debt before maturity, we may be required to pay a significant premium to do so, which may adversely impact our earnings and affect our financial position. In addition, in the future we may need to incur debt or issue equity in order to fund our working capital requirements or refinance existing indebtedness, as well as to make acquisitions and other investments. The amount of our debt obligations may impair our ability to raise debt or issue equity for financing purposes. Our access to funds also may be impaired if regulatory or governmental authorities take significant action against us or for a variety of other possible reasons. In addition, our borrowing costs and our access to the debt capital markets depend significantly on our credit ratings. These ratings are assigned by rating agencies, which may reduce or withdraw their ratings or place us on “credit watch” with negative implications at any time.

The soundness of third parties, including our clients, as well as financial, governmental and other institutions, could adversely affect us.

We have exposure to many different industries, institutions, products and counterparties, and we routinely execute transactions with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, mutual and hedge funds and other institutions. Many of these transactions expose us to credit risk in the event of default of our counterparty or client. In addition, our credit and settlement risk may be exacerbated when the collateral held by us, if any, cannot be fully realized or is liquidated at prices not sufficient to recover the full amount of the loan or derivative exposure due to us.

Other operational risks may disrupt our businesses, result in regulatory action against us or limit our growth.

Our business is highly dependent on communications and information systems, including those of our vendors. Any failure or interruption of these systems, whether caused by fire, other natural disaster, power or telecommunications failure, act of terrorism or war, system modification or upgrade or a delay of any modification or upgrade or otherwise, could materially adversely affect our business. Although back-up systems are in place, our back-up procedures and capabilities in the event of a failure or interruption may not be adequate.

Particularly in our Asset Management business, we rely heavily on our financial, accounting, trading, compliance and other data processing systems and those of our third party vendors or service providers who support these functions. We expect that we will need to review whether to continue to upgrade and expand the capabilities of these systems in the future to avoid disruption of, or constraints on, our operations, and any such system upgrades or expansions could result in significant costs to us. We may need to hire additional staff in order to continue to upgrade or expand the capabilities of our systems, and failure to attract and retain staff with the proper skillset could disrupt or constrain our operations. Certain investment teams within our Asset Management business employ proprietary systems, including quantitative models, in connection with their investment processes. These systems and models are often designed and, with assistance from technology personnel, maintained by employees who are members of those investment teams. If any of the foregoing systems fail to operate properly or are disabled, including for reasons beyond our control, we could suffer financial loss, a disruption of our businesses, liability to clients, regulatory intervention or reputational damage. The inability of our systems (or those of our vendors or service providers) to accommodate an increasing volume of transactions also could constrain our ability to expand our businesses. In addition, errors resulting from these issues or from human error when conducting a trade or other transaction could expose us to significant risk.

In addition, if we were to experience a local or regional disaster or other business continuity problem, such as a pandemic or other man-made or natural disaster, our continued success will depend, in part, on the availability of our personnel and office facilities and the proper functioning of and remote accessibility to our computer, telecommunications, transaction processing and other information systems and operations, as well as those of third parties on whom we rely. Such events could lead us to experience operational challenges, and our inability to successfully recover could materially disrupt our businesses and cause material financial loss, regulatory actions, reputational harm or legal liability.

For additional information regarding operational risks with respect to our businesses, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Operational Risk” below.

Risks Related to Legal or Regulatory Factors and Taxation

Extensive regulation of our businesses limits our activities and results in ongoing exposure to the potential for significant penalties, including fines or limitations on our ability to conduct our businesses.

The financial services industry is subject to extensive regulation. We are subject to regulation by governmental and self-regulatory organizations in the jurisdictions in which we operate around the world. Many of these regulators, including U.S. and non-U.S. government agencies and self-regulatory organizations, as well as state securities commissions in the U.S., are empowered to conduct administrative proceedings that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a regulated entity from registration or membership. The requirements imposed by our regulators are generally designed to ensure the integrity of the financial markets and to protect customers and other third parties who deal with us and not to protect our stockholders. Consequently, these regulations often serve to limit our activities, including through net capital, customer protection and market conduct requirements.

We face the risk of significant intervention by regulatory and governmental authorities, including extended investigation and surveillance activity, adoption of costly or restrictive new regulations and judicial or administrative proceedings that may result in substantial penalties. Among other things, we could be fined or be prohibited from engaging in some of our business activities. In addition, the regulatory environment in which we operate is subject to modification and further regulation. Such changes may increase the expenses that we incur without necessarily leading to commensurate increases in revenue and income. Certain laws and regulations within

the U.S. and externally include extraterritorial application that may lead to overlapping or conflicting legal and regulatory burdens with additional risks and implementation expenses. New laws or regulations or changes in the enforcement of existing laws or regulations applicable to us and our clients also may adversely affect our business, and our ability to function in this environment will depend on our ability to continually monitor and react to these changes.

The U.S. and other governments and institutions have taken actions, and may in the future take further actions, in response to disruption and volatility in the global financial markets. Such further actions could include expanding current or enacting new standards, requirements and rules that may be applicable to us and our subsidiaries. The effect of any such expanded or new standards, requirements and rules is uncertain and could have adverse consequences to our business, financial condition and results of operations. While we continue to examine the requirements of new regulations that may become applicable to us in the U.S. and in the European Union (see “Business—Regulation” above), and previously announced actual or potential regulations that may be modified, we are not able to predict the ultimate effect on us.

The regulatory environment in which our clients operate may also impact our business. For example, changes in antitrust laws or the enforcement of antitrust laws could affect the level of M&A activity, and changes in state laws may limit investment activities of state pension plans. In addition, many tax laws and regulations have been modified, or are otherwise under review, in the U.S. and in many other jurisdictions in which we and our clients operate. Actual and proposed changes to these laws and regulations may affect the level of M&A activity, including cross-border M&A activity.

For asset management businesses in general, there have been a number of highly publicized cases involving fraud or other misconduct by employees of asset management firms, as well as industry-wide regulatory inquiries. These cases and inquiries have resulted in increased scrutiny in the industry and may result in new rules and regulations for mutual funds, hedge funds, private equity funds and their investment managers. This regulatory scrutiny and these rulemaking initiatives may result in an increase in operational and compliance costs or the risk of assessment of significant fines or penalties against our Asset Management business and may otherwise limit our ability to engage in certain activities.

Specific regulatory changes also may have a direct impact on the revenue of our Asset Management business. In addition to regulatory scrutiny and potential fines and sanctions, regulators continue to examine different aspects of the asset management industry. For example, the use of “soft dollars,” where a portion of commissions paid to broker-dealers in connection with the execution of client trades also pays for research and other eligible services that are used by investment advisors, has in the last several years been reexamined by different regulatory bodies and industry participants. Although a substantial portion of the research relied on by our Asset Management business in its investment decision-making processes is generated internally by our investment personnel, external research, including external research and other eligible services traditionally paid for with soft dollars, is also important to the process. This external research includes materials provided by broker-dealers and research firms, as well as eligible data and analytics services from various sources. In connection with the implementation of the EU Markets in Financial Instruments Directive II (“MiFID II”) in 2018, our Asset Management affiliates in France, Germany and the U.K. decided to pay for broker research services from their own resources. The ultimate impact of MiFID II and potential similar, future regulatory changes on our Asset Management business and on the financial industry as a whole remains uncertain, although it has reduced our ability to utilize commissions to pay for research services and other soft dollar services in certain European jurisdictions. Similar pressures may come from changes in the asset management industry itself, which may further increase our costs related to external research services. For the year ended December 31, 2020, our Asset Management business obtained research and other eligible services through third-party soft dollar arrangements, the total value of which we estimate to be approximately \$23 million.

In addition, new regulations affecting the asset management business, including those regarding the management of U.S. mutual funds, hedge funds, UCITS funds and the use of certain investment products may impact our Asset Management business and result in increased costs. For example, the European Union has adopted updated directives on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (“UCITS V”) with respect to various subjects. Among other things, UCITS V establishes remunerations policies that impact the structure of compensation for certain portfolio managers and other personnel within the Company. UCITS V also establishes certain regulations governing

oversight and independence of depository functions. While these rules have already been implemented, they could further impact our personnel or result in changes to our operations, resulting in increased costs to the business. In addition, many regulators around the world, including those in the U.S., continue to adopt disclosure requirements impacting the asset management business, as well as changes to the laws, rules and regulations relating to recordkeeping and reporting obligations.

Legislators and regulators around the world continue to explore changes to, and additional oversight of, the financial industry generally. The impact of the potential changes on us are uncertain and may result in an increase in costs or a reduction of revenue associated with our businesses.

See “Business—Regulation” above for a further discussion of the regulatory environment in which we conduct our businesses.

The financial services industry faces substantial litigation and regulatory risks, and we may face damage to our professional reputation and legal liability if our services are not regarded as satisfactory or if conflicts of interest should arise.

As a financial services firm, we depend to a large extent on our relationships with our clients and our reputation for integrity and high-caliber professional services to attract and retain clients. As a result, if a client is not satisfied with our services, such dissatisfaction may be more damaging to our business than to other types of businesses. Moreover, our role as advisor to our clients on important transactions involves complex analysis and the exercise of professional judgment, including, if appropriate, rendering fairness opinions in connection with mergers and other transactions. Our role as advisor to our sovereign and government clients in particular may occasionally result in increased publicity of our involvement with, and our advice to, such clients.

In recent years, the volume of claims and amount of damages claimed in litigation and regulatory proceedings against financial advisors has increased. The activities of our Financial Advisory business may subject us to the risk of significant legal actions by our clients and third parties, including our clients’ stockholders, under securities or other laws. Such legal actions may include allegations relating to aiding and abetting breaches of fiduciary duties and to materially false or misleading statements or misrepresentations made in connection with securities and other transactions, including private placements. We may also be exposed to potential liability for the fairness opinions and other advice provided to participants in corporate transactions. In our Asset Management business, we make investment decisions on behalf of our clients, which could result in substantial losses. Many of our business activities may subject us to the risk of legal actions alleging negligence, misconduct, breach of fiduciary duty or breach of contract.

We increasingly confront actual and potential conflicts of interest relating to our Financial Advisory business, as well as to the fact that we have both a Financial Advisory business and an Asset Management business. Additionally, our pursuit of new business lines or other growth opportunities could result in additional actual or potential conflicts of interest. It is possible that actual, potential or perceived conflicts of interest, including with respect to the use or disclosure of confidential information, could give rise to client dissatisfaction, litigation or regulatory or governmental enforcement actions, which could have the effect of limiting our business opportunities. Appropriately identifying and managing actual or perceived conflicts of interest is complex and difficult, and our reputation could be damaged if we fail, or appear to fail, to deal appropriately with one or more potential or actual conflicts of interest. We have adopted various policies, controls and procedures to address or limit actual or perceived conflicts of interest. However, these policies, controls and procedures may not be adhered to by our employees or be effective in reducing the applicable risks. Any failure of, or failure to adhere to, these policies, controls and procedures may result in regulatory or governmental sanctions or client litigation. We may also face competition from time to time from other financial services firms that do not operate under similar policies, controls and procedures.

Our Financial Advisory engagements typically include broad indemnities from our clients and provisions designed to limit our exposure to legal claims relating to our services, but these provisions may not protect us or may not be available or adhered to in all cases. We also are subject to claims arising from disputes with employees for alleged wrongful termination, discrimination or harassment, among other things. These risks often may be

difficult to assess or quantify, and their existence and magnitude often remain unknown for substantial periods of time.

We may incur significant legal expenses in defending ourselves against litigation or regulatory or governmental action. Substantial legal liability or significant regulatory or governmental action against us could materially adversely affect our business, financial condition or results of operations and cause significant reputational harm to us, which could seriously harm our business.

Employee misconduct, which is difficult to detect and deter, could harm us by impairing our ability to attract and retain clients and subjecting us to significant legal liability and reputational harm.

There have been a number of highly publicized cases involving fraud or other misconduct by employees in the financial services industry generally, and we run the risk that employee misconduct could occur in our business as well. For example, misconduct by employees could involve the improper use or disclosure of confidential information, which could result in legal action, regulatory sanctions and reputational or financial harm. Our Financial Advisory business often requires that we deal with confidences of great significance to our clients or their counterparties, improper use of which may harm our clients or our relationships with our clients. Any breach of confidences as a result of employee misconduct may adversely affect our reputation, impair our ability to attract and retain Financial Advisory clients and subject us to liability. Similarly, in our Asset Management business, we have authority over client assets, and we may, from time to time, have custody of such assets. In addition, we often have discretion to trade client assets on the client's behalf and must do so acting in the best interests of the client. As a result, we are subject to a number of obligations and standards, and the violation of those obligations or standards may adversely affect our clients and us. It is difficult to detect and deter employee misconduct, and the precautions we take to detect and prevent this activity may not be effective in all cases.

In recent years, the U.S. Department of Justice and the SEC have also devoted greater resources to the enforcement of the Foreign Corrupt Practices Act. In addition, the United Kingdom (the "U.K."), France and other jurisdictions have expanded the reach of their anti-bribery laws. While we have developed and implemented policies and procedures designed to ensure compliance with anti-bribery and other laws, such policies and procedures may not be effective in all instances to prevent violations. Any determination that we have violated these laws could subject us to, among other things, civil and criminal penalties, material fines, profit disgorgement, injunction against future conduct, securities litigation and reputational damage, any one of which could adversely affect our business, financial condition and results of operations.

A failure in or breach of our information systems or infrastructure, or those of third parties with which we do business, including as a result of cyber attacks, could disrupt our businesses, lead to reputational harm and legal liability or otherwise impact our ability to operate our business.

Our operations rely on the secure processing, storage and transmission of confidential and other information involving our computer systems, hardware, software and networks, which we refer to as information systems, and involving the information systems of third parties with which we do business. Such information systems, which frequently include "cloud"-based networks and services, may be subject to unauthorized or fraudulent access, computer viruses or other malicious code or other threats, including "phishing" attempts, that are constantly evolving and that could have a security impact on us. There can be no assurance that we will not suffer material losses relating to cyber attacks on, or other security breaches involving, our information systems, or the information systems of third parties with which we do business, despite taking protective measures to prevent such breaches. The increased use of mobile technologies can heighten these and other operational risks. If a successful cyber attack or other security breach were to occur, our confidential or proprietary information, or the confidential or proprietary information of our clients or their counterparties, that is stored in, or transmitted through, such information systems could be compromised or misappropriated. Any such cyber attack or other security breach, or any disruption of or failure in the physical or logical infrastructure or operating systems that support such information systems or our businesses, could significantly impact our ability to operate our businesses and could result in reputational damage, legal liability, the loss of clients or business opportunities and financial losses that are either not insured against or not fully covered through any insurance maintained by us. Additionally, as geopolitical tensions rise, cyber retaliation between nation states can impact the business of those countries, which could adversely affect our business. As cyber threats continue to multiply, become more sophisticated and threaten additional aspects of our businesses, we may also be required to expend additional resources on information security and compliance costs in

order to continue to modify or enhance our protective measures or to investigate and remediate any information security vulnerabilities or other exposures.

Failure to maintain effective internal controls in accordance with Section 404 of the Sarbanes-Oxley Act could materially adversely affect our business.

We have documented and tested our internal control procedures in order to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act, which requires annual management assessments of the effectiveness of our internal controls over financial reporting and a report by our independent auditors regarding our internal control over financial reporting. We are in compliance with Section 404 of the Sarbanes-Oxley Act as of December 31, 2020. However, if we fail to maintain the adequacy of our internal controls, as such standards are modified, supplemented or amended from time to time, we may not be able to ensure that we can conclude on an ongoing basis that we have effective internal controls over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act. Failure to maintain an effective internal control environment could materially adversely affect our business.

Uncertainty regarding the outcome of future arrangements between the European Union and the United Kingdom may adversely affect our business.

The Company has a significant presence in many European Union countries, including the U.K. The U.K. left the European Union on January 31, 2020. Prior to that date, the European Union and the U.K. entered into the EU-UK Trade and Cooperation Agreement (the “Trade and Cooperation Agreement”) and have stated that they intend to negotiate a Memorandum of Understanding to establish a framework of regulatory co-operation by the end of March 2021. The commercial, regulatory and legal environment that the Company’s U.K. and European Union operations would be subject to may be impacted by the substance of the anticipated Memorandum of Understanding. Further adjustments to how the Company operates its business in the U.K. or the European Union may be necessary as a result of the anticipated Memorandum of Understanding, and any such changes could result in increased costs for the Company.

In the event of a change or adverse interpretation of relevant income tax law, regulation or treaty, or a failure to qualify for treaty benefits, our overall tax rate may be substantially higher than the rate used for purposes of our consolidated financial statements.

Our effective tax rate is based upon the application of currently applicable income tax laws, regulations and treaties, and current judicial and administrative interpretations of those income tax laws, regulations and treaties, and upon our non-U.S. subsidiaries’ ability to qualify for benefits, including reduced withholding tax rates, among other things, under those treaties, and that a portion of their income is not subject to U.S. tax as effectively connected income. Those income tax laws, regulations and treaties, and the administrative and judicial interpretations of them, are subject to change at any time, and any such change may be retroactive.

On December 22, 2017, the Tax Cuts and Jobs Act (the “Tax Act”) was enacted. The Tax Act changed existing U.S. tax laws as applicable to us including several international provisions. These provisions are complex and subject to varying interpretations that could adversely impact us. In addition, if we were to convert into a U.S. corporation, we could be subject to additional U.S. taxes, and future payments required under our tax receivable agreement could be accelerated, both of which could reduce the amount of our cash available for distribution or reinvestment.

In addition, the eligibility of our non-U.S. subsidiaries for treaty benefits generally depends upon, among other things, at least 50% of the principal class of shares in such subsidiaries being “ultimately owned” by U.S. citizens and persons who are “qualified residents” for purposes of a tax treaty. It is possible that this requirement may not be met, and even if it is met, we may not be able to document that fact to the satisfaction of the IRS. If our non-U.S. subsidiaries are not treated as eligible for treaty benefits, such subsidiaries will be subject to additional U.S. taxes, including “branch profits tax” on their “effectively connected earnings and profits” (as determined for U.S. federal income tax purposes) at a rate of 30% rather than a treaty rate of 5%.

Multiple levels of government, foreign legislatures and international organizations, such as the Organization for Economic Co-operation and Development (“OECD”) and the European Union, are increasingly focused on tax reform and have proposed and implemented tax legislation and regulations that could affect the taxation of

multinational companies. For example, the enactment of all or part of the recommendations set forth or that may be introduced in the OECD project on Base Erosion and Profit Shifting by tax authorities in the countries in which we operate could unfavorably impact our overall tax rate. In addition, the Economic Substance Act came into effect in Bermuda on January 1, 2019. This new law requires companies registered in Bermuda carrying on one or more “relevant activities” to maintain a substantial economic presence in Bermuda and to satisfy economic substance requirements. The list of “relevant activities” includes carrying on as a business any one or more of: banking, insurance, fund management, financing, leasing, headquarters, shipping, distribution and service center, intellectual property and holding entities. At present, it is unclear which additional measures, if any, we would be required to take in order to satisfy the relevant requirements in Bermuda. Any implementation of, or changes to, any such laws, regulations and treaties that impact us could materially adversely affect our business, financial condition or results of operations.

Tax authorities may challenge our tax computations and classifications, our transfer pricing methods and our application of related policies and methods.

Our tax returns are subject to audit by federal, local and foreign tax authorities. These authorities may successfully challenge certain tax positions or deductions taken by our subsidiaries. For example, tax authorities may contest intercompany allocations of fee income, management charges or interest charges among affiliates in different tax jurisdictions. While we believe that we have provided the appropriate required reserves (see Note 2 of Notes to Consolidated Financial Statements), it is possible that a tax authority may disagree with all, or a portion, of the tax benefits claimed. If a tax authority were to successfully challenge our positions, it could result in significant additional tax costs or payments under the tax receivable agreement described below.

In addition, there are additional transfer pricing and standardized country-by-country reporting requirements being implemented. Additional information from country-by-country reporting, certain local information-sharing arrangements and other documentation held by tax authorities is expected to be subject to greater information-sharing arrangements, and any challenges from tax authorities reviewing such information could adversely impact our overall tax obligations or our business, financial condition or results of operations.

Our subsidiaries may be required to make payments under the Amended and Restated Tax Receivable Agreement. The IRS may challenge the tax benefits that give rise to such payments and, under certain circumstances, our subsidiaries may have made or could make payments under the Amended and Restated Tax Receivable Agreement in excess of our subsidiaries’ cash tax savings.

As further discussed in “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates—Income Taxes” and Note 21 of Notes to Consolidated Financial Statements, the Second Amended and Restated Tax Receivable Agreement, dated as of October 26, 2015 (the “Amended and Restated Tax Receivable Agreement”), between Lazard and LTBP Trust, a Delaware statutory trust (the “Trust”), provides for the payment by our subsidiaries to the Trust of a significant portion of the cash savings, if any, in U.S. federal, state and local income tax or franchise tax that we actually realize as a result of certain tax benefits that are subject to the Amended and Restated Tax Receivable Agreement. Any amount paid by our subsidiaries to the Trust will generally be distributed to the owners of the Trust, including certain of our executive officers, in proportion to their beneficial interests in the Trust. If the IRS successfully challenges the tax benefits described above, under certain circumstances, our subsidiaries may have made or could make payments under the Amended and Restated Tax Receivable Agreement in excess of our subsidiaries’ cash tax savings.

Risks Relating to Our Capital Structure

Lazard Ltd is a holding company and, accordingly, depends upon distributions from Lazard Group to pay dividends and taxes and other expenses.

Lazard Ltd is a holding company and has no independent means of generating significant revenue. We control Lazard Group through our indirect control of both of the managing members of Lazard Group. Our subsidiaries incur income taxes on the net taxable income of Lazard Group in their respective tax jurisdictions. We intend to continue to cause Lazard Group to make distributions to our subsidiaries in an amount sufficient to cover all applicable taxes payable by us and dividends, if any, declared by us. To the extent that our subsidiaries need funds to pay taxes on their share of Lazard Group's net taxable income, or if Lazard Ltd needs funds for any other purpose, and Lazard Group is restricted from making such distributions under applicable law or regulation, or is otherwise unable to provide such funds, it could materially adversely affect our business, financial condition or results of operations.

Lazard Group is a holding company and therefore depends on its subsidiaries to make distributions to Lazard Group to enable it to service its obligations under its indebtedness.

Lazard Group depends on its subsidiaries, which conduct the operations of its businesses, for distributions, dividends and other payments to generate the funds necessary to meet its financial obligations, including payments of principal and interest on its indebtedness. However, none of Lazard Group's subsidiaries is obligated to make funds available to it for servicing such financial obligations, and the group of entities that constitute Lazard Group's subsidiaries may change over time. The earnings from, or other available assets of, Lazard Group's subsidiaries may not be sufficient to pay dividends or make distributions or loans to enable Lazard Group to make payments with respect to its financial obligations when such payments are due. In addition, even if such earnings were sufficient, the agreements governing the current and future obligations of Lazard Group's subsidiaries, regulatory requirements, including regulatory capital requirements, with respect to our broker-dealer and other regulated subsidiaries, foreign exchange controls and a variety of other factors may impede our subsidiaries' ability to provide Lazard Group with sufficient dividends, distributions or loans to fund its financial obligations, when due.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

We have made statements under the captions “Business,” “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and in other sections of this Form 10-K that are forward-looking statements. In some cases, you can identify these statements by forward-looking words such as “may,” “might,” “will,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “target,” “goal” or “continue,” and the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies, business plans and initiatives and anticipated trends in our business. These statements, including with respect to the ongoing COVID-19 pandemic, are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. These factors include, but are not limited to, the numerous risks and uncertainties outlined in “Risk Factors,” including the following:

- a decline in general economic conditions or the global or regional financial markets;
- a decline in our revenues, for example due to a decline in overall M&A activity, our share of the M&A market or our AUM;
- losses caused by financial or other problems experienced by third parties;
- losses due to unidentified or unanticipated risks;
- a lack of liquidity, *i.e.*, ready access to funds, for use in our businesses; and
- competitive pressure on our businesses and on our ability to retain and attract employees at current compensation levels.

These risks and uncertainties are not exhaustive. Other sections of this Form 10-K describe additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for our management to predict all risks and uncertainties, nor can management assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. You should not rely upon forward-looking statements as predictions of future events. We are under no duty to update any of these forward-looking statements after the date of this Form 10-K to conform our prior statements to actual results or revised expectations and we do not intend to do so.

Forward-looking statements include, but are not limited to, statements about:

- financial goals, including ratios of compensation and benefits expense to operating revenue;
- ability to deploy surplus cash through dividends, share repurchases and debt repurchases;
- ability to offset stockholder dilution through share repurchases;
- possible or assumed future results of operations and operating cash flows;
- strategies and investment policies;
- financing plans and the availability of short-term borrowing;
- competitive position;
- future acquisitions, including the consideration to be paid and the timing of consummation;

- potential growth opportunities available to our businesses;
- potential impact of investments in our technology infrastructure and data science capabilities;
- recruitment and retention of our managing directors and employees;
- potential levels of compensation expense, including awarded compensation and benefits expense and adjusted compensation and benefits expense, and non-compensation expense;
- potential operating performance, achievements, productivity improvements, efficiency and cost reduction efforts;
- likelihood of success and impact of litigation;
- expected tax rates, including effective tax rates;
- changes in interest and tax rates;
- availability of certain tax benefits, including certain potential deductions;
- potential impact of certain events or circumstances on our financial statements and operations, including the ongoing COVID-19 pandemic;
- changes in foreign currency exchange rates;
- expectations with respect to the economy, the securities markets, the market for mergers, acquisitions, restructuring and other financial advisory activity, the market for asset management activity and other macroeconomic, regional and industry trends;
- effects of competition on our business; and
- impact of new or future legislation and regulation, including tax laws and regulations, on our business.

The Company is committed to providing timely and accurate information to the investing public, consistent with our legal and regulatory obligations. To that end, the Company uses its website, its twitter account (twitter.com/Lazard) and other social media sites to convey information about our businesses, including the anticipated release of quarterly financial results, quarterly financial, statistical and business-related information, and the posting of updates of AUM in our Asset Management business. Investors can link to Lazard Ltd, Lazard Group and their operating company websites through <http://www.lazard.com>. Our websites and social media sites and the information contained therein or connected thereto shall not be deemed to be incorporated into this Form 10-K.

Item 1B. Unresolved Staff Comments

There are no unresolved written comments that were received from the SEC staff 180 days or more before December 31, 2020 relating to our periodic or current reports under the Exchange Act.

Item 2. Properties

Lazard has offices located around the world. The following table lists the principal properties used for the Lazard organization as of December 31, 2020. As a general matter, one or both of our Financial Advisory and Asset Management segments (as well as our Corporate segment) uses the following properties. Our London office subleases 71,207 square feet to third parties. Our Paris office has entered into a lease agreement with a third party with respect to 96,132 square feet of owned property, which is expected to commence no earlier than November 2022. We remain fully liable for the subleased space to the extent that the subtenants fail to perform their obligations under the subleases for any reason.

<u>Location</u>	<u>Square Footage</u>	<u>Offices</u>
New York City	438,870 square feet of leased space	Principal office located at 30 Rockefeller Plaza
Paris	270,994 square feet of owned and leased space	Principal offices located at 175 Boulevard Haussmann and 25 rue de Courcelles
London.....	142,471 square feet of leased space	Principal office located at 50 Stratton Street

Item 3. Legal Proceedings

The Company is involved from time to time in judicial, governmental, regulatory and arbitration proceedings and inquiries concerning matters arising in connection with the conduct of our businesses, including proceedings initiated by former employees alleging wrongful termination. The Company reviews such matters on a case-by-case basis and establishes any required accrual if a loss is probable and the amount of such loss can be reasonably estimated. The Company experiences significant variation in its revenue and earnings on an annual basis. Accordingly, the results of any pending matter or matters could be significant when compared to the Company's earnings in any particular fiscal year. The Company believes, however, based on currently available information, that the results of any pending matters, in the aggregate, will not have a material effect on its business or financial condition.

Item 4. Mine Safety Disclosures

Not applicable.

Part II

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock is traded on The New York Stock Exchange under the symbol “LAZ.”

As of January 29, 2021, there were approximately 21 holders of record of our common stock. This does not include the number of shareholders that hold shares in “street-name” through banks or broker-dealers.

On January 29, 2021, the last reported sales price for our common stock on the New York Stock Exchange was \$41.20 per share.

Share Repurchases in the Fourth Quarter of 2020

The following table sets forth information regarding Lazard’s purchases of its common stock on a monthly basis during the fourth quarter of 2020. Share repurchases are recorded on a trade date basis.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (3)
October 1 – October 31, 2020				
Share Repurchase Program (1).....	-	\$ -	-	\$ 305.6 million
Employee Transactions (2)	27,897	\$ 36.47		
November 1 – November 30, 2020				
Share Repurchase Program (1).....	-	\$ -	-	\$ 305.6 million
Employee Transactions (2)	11	\$ 36.45		
December 1 – December 31, 2020				
Share Repurchase Program (1).....	-	\$ -	-	\$ 300.0 million
Employee Transactions (2)	2,945	\$ 37.31		
Total				
Share Repurchase Program (1).....	-	\$ -	-	\$ 300.0 million
Employee Transactions (2)	30,853	\$ 36.55		

(1) Since 2018 and through the year ended December 31, 2020, the Board of Directors of Lazard authorized the repurchase of common stock as set forth in the table below.

Date	Repurchase Authorization (\$ in thousands)	Expiration
April 2018.....	\$ 300,000	December 31, 2020
October 2018.....	\$ 300,000	December 31, 2020
February 2019	\$ 300,000	December 31, 2020
October 2019.....	\$ 300,000	December 31, 2021

A significant portion of the Company’s purchases under the share repurchase program are used to offset a portion of the shares that have been or will be issued under Lazard Ltd’s 2008 Incentive Compensation Plan (the “2008 Plan”) and 2018 Incentive Compensation Plan (the “2018 Plan”). Purchases under the share repurchase program may be made in the open market or through privately negotiated transactions. The rate at which the Company purchases shares in connection with the share repurchase program may vary from quarter to quarter due to a variety of factors. Amounts shown in this line item include repurchases of common stock and exclude the shares of common stock withheld by the Company to meet the minimum statutory tax withholding requirements as described below.

- (2) Under the terms of the 2008 Plan and the 2018 Plan, upon the vesting of RSUs, PRSUs, deferred stock units (“DSUs”) and delivery of restricted common stock, shares of common stock may be withheld by the Company to meet the minimum statutory tax withholding requirements. During the three month period ended December 31, 2020, the Company satisfied such obligations in lieu of issuing (i) 5,821 shares of common stock upon the vesting or settlement of 11,428 RSUs and (ii) 25,032 shares of common stock upon the vesting of 51,118 shares of restricted common stock.
- (3) Reflects expiration of \$5.6 million share repurchase authorization on December 31, 2020.

During the year ended December 31, 2020, the Company had in place trading plans under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), pursuant to which it effected stock repurchases in the open market.

Equity Compensation Plan Information

See Item 12, “Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters—Equity Compensation Plan Information.”

Stock Performance

The stock performance graph below compares the performance of an investment in our common stock, from December 31, 2015 through December 31, 2020, with that of the S&P 500 Index and the S&P Financial Index. The graph assumes \$100 was invested at the close of business on December 31, 2015 in each of our common stock, the S&P 500 Index and the S&P Financial Index. It also assumes that dividends were reinvested on the date of payment without payment of any commissions. The performance shown in the graph represents past performance and should not be considered an indication of future performance.

Other Matters

None.

Item 6. Selected Financial Data

Not applicable due to early adoption of amendment to Regulation S-K, Item 301.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with Lazard Ltd’s consolidated financial statements and the related notes included elsewhere in this Annual Report on Form 10-K (this “Form 10-K”). This discussion contains forward-looking statements that are subject to known and unknown risks and uncertainties. Actual results and the timing of events may differ significantly from those expressed or implied in such forward-looking statements due to a number of factors, including those set forth in the sections entitled “Risk Factors” and “Special Note Regarding Forward-Looking Statements” and elsewhere in this Form 10-K.

Business Summary

Lazard is one of the world’s preeminent financial advisory and asset management firms. We have long specialized in crafting solutions to the complex financial and strategic challenges of a diverse set of clients around the world, including corporations, governments, institutions, partnerships and individuals. Founded in 1848 in New Orleans, we currently operate from more than 40 cities and 25 countries across key business and financial centers in North America, Europe, Asia, Australia, and Central and South America.

Our primary business purpose is to serve our clients. Our deep roots in business centers around the world form a global network of relationships with key decision-makers in corporations, governments and investing institutions. This network is both a competitive strength and a powerful resource for Lazard and our clients. As a firm that competes on the quality of our advice, we have two fundamental assets: our people and our reputation.

We operate in cyclical businesses across multiple geographies, industries and asset classes. In recent years, we have expanded our geographic reach, bolstered our industry expertise and continued to build in growth areas. Companies, government bodies and investors seek independent advice with a geographic perspective, deep understanding of capital structure, informed research and knowledge of global, regional and local economic conditions. We believe that our business model as an independent advisor will continue to create opportunities for us to attract new clients and key personnel.

Our principal sources of revenue are derived from activities in the following business segments:

- Financial Advisory, which offers corporate, partnership, institutional, government, sovereign and individual clients across the globe a wide array of financial advisory services regarding mergers and acquisitions (“M&A”), capital advisory, restructurings, shareholder advisory, sovereign advisory, capital raising and other strategic advisory matters, and
- Asset Management, which offers a broad range of global investment solutions and investment management services in equity and fixed income strategies, asset allocation strategies, alternative investments and private equity funds to corporations, public funds, sovereign entities, endowments and foundations, labor funds, financial intermediaries and private clients.

In addition, we record selected other activities in our Corporate segment, including management of cash, investments, deferred tax assets, outstanding indebtedness, certain contingent obligations, and assets and liabilities associated with Lazard Group’s Paris-based subsidiary, Lazard Frères Banque SA (“LFB”).

Our consolidated net revenue was derived from the following segments:

	Year Ended December 31,		
	2020	2019	2018
Financial Advisory	55%	53%	55%
Asset Management	46	48	47
Corporate	(1)	(1)	(2)
Total.....	<u>100%</u>	<u>100%</u>	<u>100%</u>

We also invest our own capital from time to time, generally alongside capital of qualified institutional and individual investors in alternative investments or private equity investments, and, since 2005, we have engaged in a number of alternative investments and private equity activities, including, historically, investments through (i)

Edgewater, our Chicago-based private equity firm and (ii) a fund targeting significant noncontrolling-stake investments in established private companies. We also make investments to seed our Asset Management strategies.

Business Environment and Outlook

Economic and global financial market conditions can materially affect our financial performance. As described above, our principal sources of revenue are derived from activities in our Financial Advisory and Asset Management business segments. As our Financial Advisory revenues are primarily dependent on the successful completion of merger, acquisition, restructuring, capital raising or similar transactions, and our Asset Management revenues are primarily driven by the levels of assets under management (“AUM”), weak economic and global financial market conditions can result in a challenging business environment for M&A and capital-raising activity as well as our Asset Management business, but may provide opportunities for our restructuring business.

During the year ended December 31, 2020, the coronavirus (“COVID-19”) pandemic had a negative impact on economic activity around the world. Governments and central banks have taken extraordinary measures to support local economies and capital markets, but the macroeconomic outlook remains uncertain while significant health risks persist.

Lazard’s offices around the world have continued to operate in the context of applicable local regulations and guidelines regarding business activity, and during the year ended December 31, 2020, the majority of our employees worked remotely.

While the global M&A market strengthened in the fourth quarter of 2020, we continue to expect a challenging business environment in the near term due to elevated uncertainty and capital markets volatility.

Our outlook with respect to our Financial Advisory and Asset Management businesses is described below.

- **Financial Advisory**—During this period of financial stress and uncertainty, we are focused on serving clients with our depth of expertise in capital structure, capital raising, debt negotiations and restructuring and exchange offers. Announced M&A transaction volumes are recovering in both the U.S. and Europe, particularly in France and the U.K., but we still expect there to be elevated uncertainty in the near term due to the ongoing health crisis. However, fiscal and monetary stimulus in developed countries and the rollout of vaccines globally are creating some optimism and increased CEO confidence. The global scale and breadth of our Financial Advisory business allows us to advise on a wide range of strategic and restructuring transactions across a variety of industries. In addition, we continue to invest in our Financial Advisory business by selectively hiring talented senior professionals and continuing to focus on our M&A, restructuring and other advisory services.
- **Asset Management**—In the short to intermediate term, we normally would expect most investor demand to come through financial institutions, and from defined benefit and defined contribution plans in developed economies because of their sheer scope and size. However, continued uncertainties in capital markets arising from the COVID-19 pandemic may negatively impact our business in a manner that we cannot predict. Over the longer term, and depending upon local and global market conditions, we would expect an increasing share of our AUM to come from the developing economies around the globe, as their retirement systems evolve and individual wealth is increasingly deployed in the financial markets. Given our diversified investment platform and our ability to provide investment solutions for a global mix of clients, we believe we are positioned to benefit from opportunities across the asset management industry despite the current challenges that markets have created for that industry. We are continually developing new investment strategies that extend our existing platforms and assessing potential product acquisitions or other inorganic growth opportunities. Among other efforts, we have been particularly focused on continuing to incorporate environmental, social and corporate governance (“ESG”) considerations, as appropriate, into our investment research and launching strategies that use ESG and sustainability factors to drive long-term investment returns. In addition to these new ESG and sustainable strategies, recent examples of growth initiatives include the following: various Quantitative Equity strategies, new convertible bond strategies, thematically oriented strategies and a new long/short credit strategy.

We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge continuously, and it is not possible for our management to predict all risks and uncertainties, nor can we assess the impact of all potentially applicable factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. See Item 1A, “Risk Factors” in this Form 10-K. Furthermore, net income and revenue in any period may not be indicative of full-year results or the results of any other period and may vary significantly from year to year and quarter to quarter.

Overall, we continue to focus on the development of our business, including the generation of stable revenue growth, earnings growth and shareholder returns, the evaluation of potential growth opportunities, the investment in new technology to support the development of existing and new business opportunities, the prudent management of our costs and expenses, the efficient use of our assets and the return of capital to our shareholders.

Certain market data with respect to our Financial Advisory and Asset Management businesses is included below.

Financial Advisory

As reflected in the following table, which sets forth global M&A industry statistics, the value and number of all completed transactions, including the subset of completed transactions involving values greater than \$500 million, decreased in 2020 as compared to 2019. With respect to announced M&A transactions, the value and number of all transactions, including the subset of announced transactions involving values greater than \$500 million, decreased in 2020 as compared to 2019.

	Year Ended December 31,		
	2020	2019	%
	(\$ in billions)		Incr / (Decr)
Completed M&A Transactions:

Source: Dealogic as of January 8, 2021.

Global restructuring activity during 2020, as measured by the number of corporate defaults, increased as compared to 2019. The number of defaulting issuers increased to 209 in 2020, according to Moody’s Investors Service, Inc., as compared to 105 in 2019.

Net revenue trends in Financial Advisory are generally correlated to the level of completed industry-wide M&A transactions and restructuring transactions occurring subsequent to corporate debt defaults, respectively. However, deviations from this relationship can occur in any given year for a number of reasons. For instance, our results can diverge from industry-wide activity where there are material variances from the level of industry-wide M&A activity in a particular market where Lazard has significant market share, or regarding the relative number of

our advisory engagements with respect to larger-sized transactions, and where we are involved in non-public or sovereign advisory assignments.

Asset Management

Equity market indices for major markets at December 31, 2020 generally increased as compared to such indices at December 31, 2019. Equity market indices for major markets at December 31, 2019 generally increased as compared to such indices at December 31, 2018.

The percentage change in major equity market indices (i) at December 31, 2020, as compared to such indices at December 31, 2019, and (ii) at December 31, 2019, as compared to such indices at December 31, 2018, is shown in the table below.

	Percentage Changes	
	December 31,	
	2020 vs. 2019	2019 vs. 2018
MSCI World Index	16%	28%
Euro Stoxx	(3)%	29%
MSCI Emerging Market	19%	19%
S&P 500	18%	31%

The fees that we receive for providing investment management and advisory services are primarily driven by the level of AUM and the nature of the AUM product mix. Accordingly, market movements, foreign currency exchange rate volatility and changes in our AUM product mix will impact the level of revenues we receive from our Asset Management business when comparing periodic results. A substantial portion of our AUM is invested in equities. Movements in AUM during the period generally reflect the changes in equity market indices.

Financial Statement Overview

Net Revenue

The majority of Lazard’s Financial Advisory net revenue historically has been earned from the successful completion of M&A transactions, capital advisory services, capital raising, restructuring, shareholder advisory, sovereign advisory and other strategic advisory matters. The main drivers of Financial Advisory net revenue are overall M&A activity, the level of corporate debt defaults and the environment for capital raising activities, particularly in the industries and geographic markets in which Lazard focuses. In some client engagements, often those involving financially distressed companies, revenue is earned in the form of retainers and similar fees that are contractually agreed upon with each client for each assignment and are not necessarily linked to the completion of a transaction. In addition, Lazard also earns fees from providing strategic advice to clients, with such fees not being dependent on a specific transaction, and may also earn fees in connection with public and private securities offerings. Significant fluctuations in Financial Advisory net revenue can occur over the course of any given year, because a significant portion of such net revenue is earned upon the successful completion of a transaction, restructuring or capital raising activity, the timing of which is uncertain and is not subject to Lazard’s control.

Lazard’s Asset Management segment principally includes LAM, LFG and Edgewater. Asset Management net revenue is derived from fees for investment management and advisory services provided to clients. As noted above, the main driver of Asset Management net revenue is the level and product mix of AUM, which is generally influenced by the performance of the global equity markets and, to a lesser extent, fixed income markets as well as Lazard’s investment performance, which impacts its ability to successfully attract and retain assets. As a result, fluctuations (including timing thereof) in financial markets and client asset inflows and outflows have a direct effect on Asset Management net revenue and operating income. Asset Management fees are generally based on the level of AUM measured daily, monthly or quarterly, and an increase or reduction in AUM, due to market price fluctuations, currency fluctuations, changes in product mix, or net client asset flows will result in a corresponding increase or decrease in management fees. The majority of our investment advisory contracts are generally terminable at any time or on notice of 30 days or less. Institutional and individual clients, and firms with which we have strategic alliances, can terminate their relationship with us, reduce the aggregate amount of AUM or shift their funds to other

types of accounts with different rate structures for a number of reasons, including investment performance, changes in prevailing interest rates and financial market performance. In addition, as Lazard's AUM includes significant amounts of assets that are denominated in currencies other than U.S. Dollars, changes in the value of the U.S. Dollar relative to foreign currencies will impact the value of Lazard's AUM and the overall amount of management fees generated by the AUM. Fees vary with the type of assets managed and the vehicle in which they are managed, with higher fees earned on equity assets and alternative investment funds, such as hedge funds and private equity funds, and lower fees earned on fixed income and cash management products.

The Company earns performance-based incentive fees on various investment products, including traditional products and alternative investment funds, such as hedge funds and private equity funds.

For hedge funds, incentive fees are calculated based on a specified percentage of a fund's net appreciation, in some cases in excess of established benchmarks or thresholds. The Company records incentive fees on traditional products and hedge funds at the end of the relevant performance measurement period, when potential uncertainties regarding the ultimate realizable amounts have been determined. The incentive fee measurement period is generally an annual period (unless an account terminates or redemption occurs during the year). The incentive fees received at the end of the measurement period are not subject to reversal or payback. Incentive fees on hedge funds are often subject to loss carryforward provisions in which losses incurred by the hedge funds in any year are applied against certain gains realized by the hedge funds in future periods before any incentive fees can be earned.

For private equity funds, incentive fees may be earned in the form of a "carried interest" if profits arising from realized investments exceed a specified threshold. Typically, such carried interest is ultimately calculated on a whole-fund basis and, therefore, clawback of carried interest during the life of the fund can occur. As a result, incentive fees earned on our private equity funds are not recognized until potential uncertainties regarding the ultimate realizable amounts have been determined, including any potential for clawback.

Corporate segment net revenue consists primarily of investment gains and losses on the Company's "seed investments" related to our Asset Management business and principal investments in private equity funds, net of hedging activities, as well as gains and losses on investments held in connection with Lazard Fund Interests ("LFI") and interest income and interest expense. Corporate net revenue also can fluctuate due to changes in the fair value of debt and equity securities, as well as due to changes in interest and currency exchange rates and in the levels of cash, investments and indebtedness.

Corporate segment total assets represented 64% of Lazard's consolidated total assets as of December 31, 2020, which are attributable to cash and cash equivalents, investments in debt and equity securities, interests in alternative investment, debt, equity and private equity funds, deferred tax assets and certain assets associated with LFB.

Operating Expenses

The majority of Lazard's operating expenses relate to compensation and benefits for managing directors and employees. Our compensation and benefits expense includes (i) salaries and benefits, (ii) amortization of the relevant portion of previously granted deferred incentive compensation awards, including (a) share-based incentive compensation under the Lazard Ltd 2018 Incentive Compensation Plan (the "2018 Plan") and the Lazard Ltd 2008 Incentive Compensation Plan (the "2008 Plan"), and (b) LFI and other similar deferred compensation arrangements (see Note 16 of Notes to Consolidated Financial Statements), (iii) a provision for discretionary or guaranteed cash bonuses and profit pools and (iv) when applicable, severance payments. Compensation expense in any given period is dependent on many factors, including general economic and market conditions, our actual and forecasted operating and financial performance, staffing levels, estimated forfeiture rates, competitive pay conditions and the nature of revenues earned, as well as the mix between current and deferred compensation.

We believe that "awarded compensation and benefits expense" and the ratio of "awarded compensation and benefits expense" to "operating revenue," both non-GAAP measures, when presented in conjunction with U.S. GAAP measures are appropriate measures to assess the annual cost of compensation and provide a meaningful and useful basis for comparison of compensation and benefits expense between present, historical and future years.

“Awarded compensation and benefits expense” for a given year is calculated using “adjusted compensation and benefits expense,” also a non-GAAP measure, as modified by the following items:

- we deduct amortization expense recorded for accounting principles generally accepted in the United States of America (“U.S. GAAP”) purposes in the fiscal year associated with deferred incentive compensation awards;
- we add incentive compensation with respect to the fiscal year, which is comprised of:
 - (i) the deferred incentive compensation awards granted in the year-end compensation process with respect to the fiscal year (*e.g.*, deferred incentive compensation awards granted in 2021 related to the 2020 year-end compensation process), including performance-based restricted stock unit (“PRSU”) and performance-based restricted participation unit (“PRPU”) awards (based on the target payout level);
 - (ii) the portion of investments in people (*e.g.*, “sign-on” bonuses or retention awards) and other special deferred incentive compensation awards that is applicable to the fiscal year the award becomes effective; and
 - (iii) amounts in excess of the target payout level for PRSU and PRPU awards at the end of their respective performance periods; and
- we reduce the amounts in (i), (ii) and (iii) above by an estimate of future forfeitures with respect to such awards.

We also use “adjusted compensation and benefits expense” and the ratio of “adjusted compensation and benefits expense” to “operating revenue,” both non-GAAP measures, for comparison of compensation and benefits expense between periods. For the reconciliations and calculations with respect to “adjusted compensation and benefits expense” and “awarded compensation and benefits expense” and related ratios to “operating revenue,” see the table under “Consolidated Results of Operations” below.

Compensation and benefits expense is the largest component of our operating expenses. We seek to maintain discipline with respect to compensation, including the rate at which we award deferred compensation. Our goal is to maintain a ratio of awarded compensation and benefits expense to operating revenue and a ratio of adjusted compensation and benefits expense to operating revenue over the cycle in the mid- to high-50s percentage range. While we have implemented policies and initiatives that we believe will assist us in maintaining ratios within this range, there can be no guarantee that we will continue to maintain such ratios, or that our policies or initiatives will not change in the future. We may benefit from pressure on compensation costs within the financial services industry in future periods; however, increased competition for senior professionals, changes in the macroeconomic environment or the financial markets generally, lower operating revenue resulting from, for example, a decrease in M&A activity, our share of the M&A market or our AUM levels, changes in the mix of revenues from our businesses, investments in our businesses or various other factors could prevent us from achieving this goal.

Our operating expenses also include “non-compensation expense”, which includes costs for occupancy and equipment, marketing and business development, technology and information services, professional services, fund administration and outsourced services and other expenses. Our occupancy costs represent a significant portion of our aggregate operating expenses and are subject to change from time to time, particularly as leases for real property expire and are renewed or replaced with new, long-term leases for the same or other real property.

We believe that “adjusted non-compensation expense”, a non-GAAP measure, when presented in conjunction with U.S. GAAP measures provides a meaningful and useful basis for our investors to assess our operating results. For calculations with respect to “adjusted non-compensation expense”, see the table under “Consolidated Results of Operations” below.

Our operating expenses also include our “benefit pursuant to the tax receivable agreement” and “amortization and other acquisition-related costs (benefits)”, which includes, in 2019 and 2018, the change in fair value of the contingent consideration associated with business acquisitions.

Business Realignment

We conducted a review of our business in 2019, which resulted in a realignment that included employee reductions and the closing of subscale offices and investment strategies, most of which were completed during the third quarter of 2019. We believe these actions better align the business with changes in the marketplace and create greater flexibility to focus on strategic growth opportunities. These actions resulted in expenses of \$68 million in 2019. See Note 18 of Notes to Consolidated Financial Statements.

Provision for Income Taxes

Lazard Ltd, through its subsidiaries, is subject to U.S. federal income taxes on all of its U.S. operating income, as well as on the portion of non-U.S. income attributable to its U.S. subsidiaries. In addition, Lazard Ltd, through its subsidiaries, is subject to state and local taxes on its income apportioned to various state and local jurisdictions. Outside the U.S., Lazard Group operates principally through subsidiary corporations that are subject to local income taxes in foreign jurisdictions. Lazard Group is also subject to Unincorporated Business Tax (“UBT”) attributable to its operations apportioned to New York City.

See “Critical Accounting Policies and Estimates—Income Taxes” below and Notes 19 and 21 of Notes to Consolidated Financial Statements for additional information regarding income taxes, our deferred tax assets and the tax receivable agreement obligation.

Noncontrolling Interests

Noncontrolling interests primarily consist of amounts related to Edgewater’s management vehicles that the Company is deemed to control but not own, profits interest participation rights and consolidated VIE interests held by employees. See Notes 15 and 24 of Notes to Consolidated Financial Statements for information regarding the Company’s noncontrolling interests and consolidated VIEs.

Consolidated Results of Operations

Lazard’s consolidated financial statements are presented in U.S. Dollars. Many of our non-U.S. subsidiaries have a functional currency (*i.e.*, the currency in which operational activities are primarily conducted) that is other than the U.S. Dollar, generally the currency of the country in which the subsidiaries are domiciled. Such subsidiaries’ assets and liabilities are translated into U.S. Dollars using exchange rates as of the respective balance sheet date, while revenue and expenses are translated at average exchange rates during the respective periods based on the daily closing exchange rates. Adjustments that result from translating amounts from a subsidiary’s functional currency are reported as a component of stockholders’ equity. Foreign currency remeasurement gains and losses on transactions in non-functional currencies are included in the consolidated statements of operations.

The consolidated financial statements are prepared in conformity with U.S. GAAP. Selected financial data derived from the Company's reported consolidated results of operations is set forth below, followed by a more detailed discussion of both the consolidated and business segment results.

	Year Ended December 31,		
	2020	2019	2018
	(\$ in thousands)		
Net Revenue	\$ 2,566,138	\$ 2,586,773	\$ 2,826,352

Operating revenue	<u>\$ 2,523,540</u>	<u>\$ 2,545,962</u>	<u>\$ 2,754,782</u>

- (a) Interest expense (excluding interest expense incurred by LFB) is added back in determining operating revenue because such expense relates to corporate financing activities and is not considered to be a cost directly related to the revenue of our business.
- (b) Represents certain distribution fees, reimbursable deal costs paid to third parties and bad debt expense relating to fees that are deemed uncollectible for which an equal amount is excluded for purposes of determining adjusted non-compensation expense.
- (c) Revenue or loss related to the consolidation of noncontrolling interests is excluded from operating revenue because the Company has no economic interest in such amount.
- (d) Represents changes in the fair value of investments held in connection with LFI and other similar deferred compensation arrangements for which a corresponding equal amount is excluded from compensation and benefits expense.
- (e) Represents the write-down of a private equity investment to its potential transaction value.

- (f) Represents losses associated with the closing of certain offices as part of the business realignment.

A review of our operating results for the year ended December 31, 2020 compared to our operating results for the year ended December 31, 2019 appears below. A detailed review of our operating results for the year ended December 31, 2019 compared to the year ended December 31, 2018 is set forth in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2019 under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Operating Results”.

Operating Results

Year Ended December 31, 2020 versus December 31, 2019

The Company reported net income attributable to Lazard Ltd of \$402 million, as compared to net income attributable to Lazard Ltd of \$287 million in 2019.

Net revenue decreased \$21 million, or 1%, with operating revenue decreasing \$22 million, or 1%, as compared to 2019. Fee revenue from investment banking and other advisory activities increased \$47 million, or 3%, as compared to 2019. Asset management fees, including incentive fees, decreased \$63 million, or 5%, as compared to 2019. In the aggregate, interest income, other revenue and interest expense decreased \$5 million, or 11%, as compared to 2019.

Compensation and benefits expense (which included \$57 million associated with the business realignment in 2019) decreased \$13 million, or 1%, as compared to 2019.

Adjusted compensation and benefits expense was \$1,502 million, an increase of \$38 million, or 3%, as compared to \$1,464 million in 2019. The ratio of adjusted compensation and benefits expense to operating revenue was 59.5% for 2020, as compared to 57.5% for 2019. Awarded compensation and benefits expense in 2020 was \$1,510 million, an increase of \$41 million, or 3%, when compared to \$1,469 million in 2019. The ratio of awarded compensation and benefits expense to operating revenue was 59.8%, as compared to 57.7% for 2019. The year-end deferred incentive compensation awarded for 2020 was \$364 million, representing an increase of \$3 million, or 1%, as compared to 2019. As described above, when analyzing compensation and benefits expense on a full-year basis, we believe that awarded compensation and benefits expense provides the most meaningful basis for comparison of compensation and benefits expense between present, historical and future years.

Non-compensation expense decreased \$100 million, or 16%, as compared to 2019, primarily due to decreased marketing and business development expenses due to lower travel expenses. Adjusted non-compensation expense decreased \$67 million, or 13%, as compared to 2019. The ratio of adjusted non-compensation expense to operating revenue was 17.1% for 2020, as compared to 19.6% in 2019.

Amortization and other acquisition-related costs decreased \$18 million as compared to 2019, primarily due to the change in the fair market value of contingent consideration in 2019.

Operating income increased \$109 million, or 28%, as compared to 2019.

Earnings from operations increased \$6 million, or 1%, as compared to 2019, and, as a percentage of operating revenue, was 23.4%, as compared to 22.9% in 2019.

The provision for income taxes reflects an effective tax rate of 19.8%, as compared to 24.2% in 2019. See Note 19 of Notes to Consolidated Financial Statements.

Net income attributable to noncontrolling interests decreased \$11 million as compared to 2019.

Business Segments

The following is a discussion of net revenue and operating income for the Company's segments: Financial Advisory, Asset Management and Corporate. Each segment's operating expenses include (i) compensation and benefits expenses that are incurred directly in support of the segment and (ii) other operating expenses, which include directly incurred expenses for occupancy and equipment, marketing and business development, technology and information services, professional services, fund administration and outsourcing, and indirect support costs (including compensation and benefits expense and other operating expenses related thereto) for administrative services. Such administrative services include, but are not limited to, accounting, tax, human resources, legal, information technology, facilities management and senior management activities. Such support costs are allocated to the relevant segments based on various statistical drivers such as revenue, headcount, square footage and other factors.

Financial Advisory

The following table summarizes the reported operating results attributable to the Financial Advisory segment:

	Year Ended December 31,		
	2020	2019	2018
		(\$ in thousands)	
Net Revenue.....	\$ 1,420,501	\$ 1,374,036	\$ 1,555,526
Operating Expenses.....	1,130,850	1,225,795	1,198,807
Operating Income.....	<u>\$ 289,651</u>	<u>\$ 148,241</u>	<u>\$ 356,719</u>
Operating Income, as a % of net revenue.....	<u>20.4%</u>	<u>10.8%</u>	<u>22.9%</u>

Certain Lazard fee and transaction statistics for the Financial Advisory segment are set forth below:

	Year Ended December 31,		
	2020	2019	2018
Lazard Statistics:			
Number of clients with fees greater than \$1 million:			
Financial Advisory.....	261	288	287
Percentage of total Financial Advisory net revenue			
from top 10 clients (a).....	19%	17%	19%
Number of M&A transactions completed with			
values greater than \$500 million (b).....	65	74	89

- (a) No individual client constituted more than 10% of our Financial Advisory segment net revenue in the years ended December 31, 2020, 2019 and 2018.
- (b) Source: Dealogic as of January 8, 2021.

The geographical distribution of Financial Advisory net revenue is set forth below in percentage terms and is based on the Lazard offices that generate Financial Advisory net revenue, which are located in the Americas (U.S., Canada, and Latin America), EMEA (primarily in the U.K., France, Germany, Italy and Spain) and the Asia Pacific region (primarily in Australia) and therefore may not be reflective of the geography in which the clients are located.

	<u>Year Ended December 31,</u>		
	<u>2020</u>	<u>2019</u>	<u>2018</u>
Americas.....	67%	66%	60%
EMEA.....	31	32	36
Asia Pacific.....	2	2	4
Total.....	<u>100%</u>	<u>100%</u>	<u>100%</u>

The Company's managing directors and many of its professionals have significant experience, and many of them are able to use this experience to advise on M&A, restructuring and other strategic advisory matters, depending on clients' needs. This flexibility allows Lazard to better match its professionals with the counter-cyclical business cycles of mergers and acquisitions and restructurings. While Lazard measures revenue by practice area, Lazard does not separately measure the costs or profitability of M&A services as compared to restructuring or other services. Accordingly, Lazard measures performance in its Financial Advisory segment based on overall segment operating revenue and operating income margins.

Financial Advisory Results of Operations

Year Ended December 31, 2020 versus December 31, 2019

Financial Advisory net revenue increased \$46 million, or 3%, as compared to 2019. The increase in Financial Advisory net revenue was primarily a result of an increase in the value of fees greater than \$10 million as compared to 2019.

Operating expenses decreased \$95 million, or 8%, as compared to 2019 primarily due to decreases in compensation and benefits expense and marketing and business development expenses. Operating expenses in 2019 included \$40 million associated with the business realignment.

Financial Advisory operating income was \$290 million, an increase of \$142 million, or 95%, as compared to operating income of \$148 million in 2019 and, as a percentage of net revenue, was 20.4%, as compared to 10.8% in 2019.

Asset Management

The following table shows the composition of AUM for the Asset Management segment (see Item 1, “Business—Principal Business Lines—Asset Management—Investment Strategies”):

	As of December 31,		
	2020	2019	2018
	(\$ in millions)		
AUM by Asset Class:			
Equity:			
Emerging Markets	\$ 33,254	\$ 40,612	\$ 41,899
Global	56,246	49,759	41,490
Local	48,672	48,985	36,020
Multi-Regional	71,560	66,185	57,589
Total Equity	<u>209,732</u>	<u>205,541</u>	<u>176,998</u>
Fixed Income:			
Emerging Markets	13,651	14,387	14,980
Global	11,962	9,233	4,851
Local	5,600	5,450	6,113
Multi-Regional	12,571	9,193	6,994
Total Fixed Income	<u>43,784</u>	<u>38,263</u>	<u>32,938</u>
Alternative Investments	2,748	2,149	2,430
Private Equity	1,420	1,385	1,469
Cash Management	958	901	899
Total AUM	<u>\$ 258,642</u>	<u>\$ 248,239</u>	<u>\$ 214,734</u>

Total AUM at December 31, 2020 was \$259 billion, an increase of \$11 billion, or 4%, as compared to total AUM of \$248 billion at December 31, 2019, due to market appreciation and foreign exchange appreciation, partially offset by net outflows. Average AUM for the year ended December 31, 2020 decreased \$9 billion, or 4%, as compared to 2019.

As of December 31, 2020 approximately 87% of our AUM was managed on behalf of institutional clients, including corporations, labor unions, public pension funds, insurance companies and banks, and through sub-advisory relationships, mutual fund sponsors, broker-dealers and registered advisors as compared to approximately 86% as of December 31, 2019. As of December 31, 2020, approximately 13% of our AUM was managed on behalf of individual client relationships, which are principally with family offices and individuals, as compared to approximately 14% as of December 31, 2019.

As of December 31, 2020, AUM with foreign currency exposure represented approximately 69% of our total AUM, as compared to 67% at December 31, 2019. AUM with foreign currency exposure generally declines in value with the strengthening of the U.S. Dollar and increases in value as the U.S. Dollar weakens, with all other factors held constant.

The following is a summary of changes in AUM by asset class for the years ended December 31, 2020, 2019 and 2018:

	Year Ended December 31, 2020						
	AUM Beginning Balance	Inflows	Outflows	Net Flows	Market Value Appreciation/ (Depreciation)	Foreign Exchange Appreciation/ (Depreciation)	AUM Ending Balance
	(\$ in millions)						
Equity	\$205,541	\$ 30,514	\$(43,973)	\$(13,459)	\$ 13,613	\$ 4,037	\$209,732
Fixed Income.....	38,263	11,255	(9,509)	1,746	2,550	1,225	43,784
Other.....	4,435	1,075	(730)	345	235	111	5,126
Total	<u>\$248,239</u>	<u>\$ 42,844</u>	<u>\$(54,212)</u>	<u>\$(11,368)</u>	<u>\$ 16,398</u>	<u>\$ 5,373</u>	<u>\$258,642</u>

Inflows in the Equity asset class were primarily attributable to the Global, Multi-Regional and Local platforms, and inflows in the Fixed Income asset class were primarily attributable to the Global, Multi-Regional and Emerging Markets platforms. Outflows in the Equity asset class were primarily attributable to the Emerging Markets, Multi-Regional and Local equity platforms, and outflows in the Fixed Income asset class were primarily attributable to the Emerging Markets, Global and Multi-Regional platforms.

	Year Ended December 31, 2019						
	AUM Beginning Balance	Inflows	Outflows	Net Flows	Market Value Appreciation/ (Depreciation)	Foreign Exchange Appreciation/ (Depreciation)	AUM Ending Balance
	(\$ in millions)						
Equity	\$176,998	\$ 29,078	\$(38,722)	\$(9,644)	\$ 38,421	\$ (234)	\$205,541
Fixed Income.....	32,938	8,743	(7,787)	956	4,526	(157)	38,263
Other.....	4,798	1,143	(1,529)	(386)	32	(9)	4,435
Total	<u>\$214,734</u>	<u>\$ 38,964</u>	<u>\$(48,038)</u>	<u>\$(9,074)</u>	<u>\$ 42,979</u>	<u>\$ (400)</u>	<u>\$248,239</u>

	Year Ended December 31, 2018						
	AUM Beginning Balance	Inflows	Outflows	Net Flows	Market Value Appreciation/ (Depreciation)	Foreign Exchange Appreciation/ (Depreciation)	AUM Ending Balance
	(\$ in millions)						
Equity	\$209,358	\$ 31,657	\$(37,211)	\$(5,554)	\$ (19,967)	\$ (6,839)	\$176,998
Fixed Income.....	35,080	7,720	(6,725)	995	(1,475)	(1,662)	32,938
Other.....	5,021	563	(902)	(339)	144	(28)	4,798
Total	<u>\$249,459</u>	<u>\$ 39,940</u>	<u>\$(44,838)</u>	<u>\$(4,898)</u>	<u>\$ (21,298)</u>	<u>\$ (8,529)</u>	<u>\$214,734</u>

As of February 12, 2021, AUM was \$267.0 billion, an \$8.4 billion increase since December 31, 2020. The increase in AUM was due to market appreciation of \$9.4 billion, offset by foreign exchange depreciation of \$0.9 billion and net outflows of \$0.1 billion.

Average AUM for the years ended December 31, 2020, 2019 and 2018 for each significant asset class is set forth below. Average AUM generally represents the average of the monthly ending AUM balances for the period.

	Year Ended December 31,		
	2020	2019	2018
	(\$ in millions)		
Average AUM by Asset Class:			
Equity	\$ 182,308	\$ 193,091	\$ 201,404

Total Average AUM.....	<u>\$ 225,361</u>	<u>\$ 234,374</u>	<u>\$ 241,247</u>

The following table summarizes the reported operating results attributable to the Asset Management segment:

	Year Ended December 31,		
	2020	2019	2018
	(\$ in thousands)		
Net Revenue	\$ 1,167,466	\$ 1,237,390	\$ 1,331,801
Operating Expenses	<u>861,031</u>	<u>887,522</u>	<u>912,110</u>
Operating Income	<u>\$ 306,435</u>	<u>\$ 349,868</u>	<u>\$ 419,691</u>
Operating Income, as a % of net revenue.....	<u>26.2%</u>	<u>28.3%</u>	<u>31.5%</u>

Our top ten clients accounted for 27%, 28% and 26% of our total AUM at December 31, 2020, 2019 and 2018, respectively, and no individual client constituted more than 10% of our Asset Management segment net revenue during any of the respective years.

The geographical distribution of Asset Management net revenue is set forth below in percentage terms, and is based on the Lazard offices that manage and distribute the respective AUM amounts. Such geographical distribution may not be reflective of the geography of the investment products or clients.

	Year Ended December 31,		
	2020	2019	2018
Americas	52%	55%	56%
EMEA	37	33	34
Asia Pacific	11	12	10
Total	<u>100%</u>	<u>100%</u>	<u>100%</u>

Asset Management Results of Operations

Year Ended December 31, 2020 versus December 31, 2019

Asset Management net revenue decreased \$70 million, or 6%, as compared to 2019. Management fees and other revenue was \$1,109 million, a decrease of \$107 million, or 9%, as compared to \$1,216 million in 2019, primarily due to a decrease in average AUM and change in asset mix. Incentive fees were \$58 million, an increase of \$37 million, as compared to \$21 million in 2019.

Operating expenses decreased \$26 million, or 3%, as compared to 2019, primarily due to decreases in marketing and business development expenses and fund distribution related fees. Operating expenses in 2019 included \$16 million associated with the business realignment.

Asset Management operating income was \$306 million, a decrease of \$44 million, or 12%, as compared to operating income of \$350 million in 2019 and, as a percentage of net revenue, was 26.2%, as compared to 28.3% in 2019.

Corporate

The following table summarizes the reported operating results attributable to the Corporate segment:

	Year Ended December 31,		
	2020	2019	2018
	(\$ in thousands)		
Interest Income	\$ 3,623	\$ 12,030	\$ 11,152
Interest Expense	(75,623)	(75,593)	(55,021)
Net Interest (Expense)	(72,000)	(63,563)	(43,869)
Other Revenue (Expense)	50,171	38,910	(17,106)
Net Revenue (Expense)	(21,829)	(24,653)	(60,975)
Operating Expenses (Benefit)	72,116	80,758	34,669
Operating Income (Loss)	<u>\$ (93,945)</u>	<u>\$ (105,411)</u>	<u>\$ (95,644)</u>

Corporate Results of Operations

Year Ended December 31, 2020 versus December 31, 2019

Net interest expense increased \$8 million, or 13%, as compared to 2019.

Other revenue increased \$11 million, or 29%, as compared to 2019, primarily due to higher income in 2020 attributable to investments held in connection with LFI.

Operating expenses decreased \$9 million, or 11%, as compared to 2019. Operating expenses in 2019 included \$8 million associated with business realignment.

Cash Flows

The Company's cash flows are influenced primarily by the timing of the receipt of Financial Advisory and Asset Management fees, the timing of distributions to shareholders, payments of incentive compensation to managing directors and employees and purchases of common stock. Cash flows were also affected: (i) in 2019, by Lazard Group's issuance of \$500 million aggregate principal amount of its 4.375% senior notes maturing in 2029 (the "2029 Notes"); (ii) in 2018, by Lazard Group's issuance of \$500 million aggregate principal amount of its 4.50% senior notes maturing in 2028 (the "2028 Notes") and (iii) in 2019 and 2018, the redemption of the 2020 Notes.

M&A and other advisory and Asset Management fees are generally collected within 60 days of billing, while Restructuring fee collections may extend beyond 60 days, particularly those that involve bankruptcies with court-ordered holdbacks. Fees from our Private Capital Advisory activities are generally collected over a four-year period from billing and typically include an interest component.

The Company makes cash payments for, or in respect of, a significant portion of its incentive compensation during the first three months of each calendar year with respect to the prior year's results. The Company also paid a special dividend in 2019 and 2018.

Summary of Cash Flows:

	Year Ended December 31,

Total	<u>\$ 495</u>	<u>\$ 512</u>	<u>\$ 435</u>

- (b) Includes net changes in operating assets and liabilities.
- (c) Consists primarily of purchases of shares of common stock, tax withholdings related to the settlement of vested RSUs, vested restricted stock awards and vested PRSUs, common stock dividends, changes in customer deposits, distributions to noncontrolling interest holders, and activity relating to borrowings (including, in 2019 and 2018, the redemption of the 2020 Notes and the issuance of the 2029 and 2028 Notes, respectively).
- (d) Cash and cash equivalents and restricted cash consists of cash and cash equivalents, deposits with banks and short-term investments and cash deposited with clearing organizations and other segregated cash.

Liquidity and Capital Resources

The Company's liquidity and capital resources are derived from operating activities, financing activities and equity offerings.

Operating Activities

Net revenue, operating income and cash receipts fluctuate significantly between periods and could be affected by various risks and uncertainties, including, but not limited to, the ongoing effects of the COVID-19 pandemic. In

the case of Financial Advisory, fee receipts are generally dependent upon the successful completion of client transactions, the occurrence and timing of which is irregular and not subject to Lazard's control.

Liquidity is significantly impacted by cash payments for, or in respect of, incentive compensation, a significant portion of which are made during the first three months of the year. As a consequence, cash on hand generally declines in the beginning of the year and gradually builds over the remainder of the year. We also pay certain tax advances during the year on behalf of certain managing directors, which serve to reduce their respective incentive compensation payments. We expect this seasonal pattern of cash flow to continue.

Liquidity is also affected by the level of deposits and other customer payables, principally at LFB. To the extent that such deposits and other customer payables rise or fall, this has a corresponding impact on liquidity held at LFB, with the majority of such amounts generally being recorded in "deposits with banks and short-term investments". In the year ended December 31, 2020, as reflected on the consolidated statements of financial condition, both "deposits with banks and short-term investments" and "deposits and other customer payables" decreased as compared to December 31, 2019, and reflect the level of LFB customer-related demand deposits, primarily from clients and funds managed by LFG.

Lazard's consolidated financial statements are presented in U.S. Dollars. Many of Lazard's non-U.S. subsidiaries have a functional currency (*i.e.*, the currency in which operational activities are primarily conducted) that is other than the U.S. Dollar, generally the currency of the country in which such subsidiaries are domiciled. Such subsidiaries' assets and liabilities are translated into U.S. Dollars at the respective balance sheet date exchange rates, while revenue and expenses are translated at average exchange rates during the year based on the daily closing exchange rates. Adjustments that result from translating amounts from a subsidiary's functional currency are reported as a component of stockholders' equity. Foreign currency remeasurement gains and losses on transactions in non-functional currencies are included on the consolidated statements of operations.

We regularly monitor our liquidity position, including cash levels, investments in U.S. Treasury securities, credit lines, principal investment commitments, interest and principal payments on debt, capital expenditures, dividend payments, purchases of shares of common stock and matters relating to liquidity and to compliance with regulatory net capital requirements. At December 31, 2020, Lazard had approximately \$1,390 million of cash, with such amount including approximately \$642 million held at Lazard's operations outside the U.S. Lazard provides for income taxes on substantially all of its foreign earnings. We expect that no material amount of additional taxes would be recognized upon receipt of dividends or distributions of such earnings from our foreign operations.

As of December 31, 2020, Lazard had approximately \$213 million in unused lines of credit available to it, including a \$200 million, three-year, senior revolving credit facility with a group of lenders that expires in July 2023 (the "Amended and Restated Credit Agreement") and unused lines of credit available to LFB of approximately \$12 million.

The Amended and Restated Credit Agreement contains customary terms and conditions, including limitations on consolidations, mergers, indebtedness and certain payments, as well as financial condition covenants relating to leverage and interest coverage ratios. Lazard Group's obligations under the Amended and Restated Credit Agreement may be accelerated upon customary events of default, including non-payment of principal or interest, breaches of covenants, cross-defaults to other material debt, a change in control and specified bankruptcy events. Borrowings under the Amended and Restated Credit Agreement generally will bear interest at LIBOR plus an applicable margin for specific interest periods determined based on Lazard Group's highest credit rating from an internationally recognized credit agency.

As long as the lenders' commitments remain in effect, any loan pursuant to the Amended and Restated Credit Agreement remains outstanding and unpaid or any other amount is due to the lending bank group, the Amended and Restated Credit Agreement includes financial covenants that require that Lazard Group not permit (i) its Consolidated Leverage Ratio (as defined in the Amended and Restated Credit Agreement) for the 12-month period ending on the last day of any fiscal quarter to be greater than 3.25 to 1.00, provided that the Consolidated Leverage Ratio may be greater than 3.25 to 1.00 for two (consecutive or nonconsecutive) quarters so long as it is not greater than 3.50 to 1.00 on the last day of any such quarter, or (ii) its Consolidated Interest Coverage Ratio (as defined in the Amended and Restated Credit Agreement) for the 12-month period ending on the last day of any fiscal quarter to be less than 3.00 to 1.00. For the 12-month period ended December 31, 2020, Lazard Group was in compliance with such ratios, with its Consolidated Leverage Ratio being 1.80 to 1.00 and its Consolidated Interest Coverage Ratio being 12.83 to 1.00. In any event, no amounts were outstanding under the Amended and Restated Credit Agreement as of December 31, 2020.

In addition, the Amended and Restated Credit Agreement, contains certain other covenants (none of which relate to financial condition), events of default and other customary provisions and also contains customary LIBOR-replacement mechanics. At December 31, 2020, the Company was in compliance with all of these provisions.

Lazard's annual cash flow generated from operations historically has been sufficient to enable it to meet its annual obligations. We believe that our cash flows from operating activities should be sufficient for us to fund our current obligations for the next 12 months.

Financing Activities

The table below sets forth our corporate indebtedness as of December 31, 2020 and 2019. The agreements with respect to this indebtedness are discussed in more detail in our consolidated financial statements and related notes included elsewhere in this Form 10-K.

Senior Debt	Maturity Date	Outstanding as of					
		December 31, 2020			December 31, 2019		
		Principal	Unamortized Debt Costs	Carrying Value	Principal	Unamortized Debt Costs	Carrying Value
(\$ in millions)							
Lazard Group 2025 Senior Notes	2025	\$ 400.0	\$ 2.0	\$ 398.0	\$ 400.0	\$ 2.4	\$ 397.6
Lazard Group 2027 Senior Notes	2027	300.0	2.4	297.6	300.0	2.8	297.2
Lazard Group 2028 Senior Notes	2028	500.0	6.6	493.4	500.0	7.8	492.2
Lazard Group 2029 Senior Notes	2029	500.0	6.3	493.7	500.0	7.4	492.6
		<u>\$1,700.0</u>	<u>\$ 17.3</u>	<u>\$1,682.7</u>	<u>\$1,700.0</u>	<u>\$ 20.4</u>	<u>\$1,679.6</u>

During March 2019, Lazard Group completed an offering of the 2029 Notes. Lazard Group used a portion of the net proceeds of the 2029 Notes to redeem or otherwise retire the remaining 2020 Notes in transactions that occurred during March 2019 and April 2019.

The indenture and supplemental indentures relating to Lazard Group's senior notes contain certain covenants (none of which relate to financial condition), events of default and other customary provisions. At December 31, 2020, the Company was in compliance with all of these provisions. We may, to the extent required and subject to restrictions contained in our financing arrangements, use other financing sources, which may cause us to be subject to additional restrictions or covenants.

See Note 13 of Notes to Consolidated Financial Statements for additional information regarding senior debt.

Stockholders' Equity

At December 31, 2020, total stockholders' equity was \$999 million, as compared to \$682 million and \$970 million at December 31, 2019 and 2018, respectively, including \$912 million, \$610 million and \$917 million

attributable to Lazard Ltd on the respective dates. The net activity in stockholders' equity during the years ended December 31, 2020 and 2019 is reflected in the table below:

	<u>Year Ended December 31,</u>	
	<u>2020</u>	<u>2019</u>
	(\$ in millions)	
Stockholders' Equity - Beginning of Year	\$ 682	\$ 970
Adjustment for cumulative effect on prior years from the adoption of new accounting guidance	(8)	-
Balance as adjusted, January 1, 2020.....	674	970
Increase (decrease) due to:		
Net income.....	403	298
Other comprehensive income (loss)	55	(20)
Amortization of share-based incentive compensation	218	253
Purchase of common stock	(95)	(495)
Settlement of share-based incentive compensation (a)	(72)	(96)
Common stock dividends.....	(197)	(255)
Other - net.....	13	27
Stockholders' Equity - End of Year.....	<u>\$ 999</u>	<u>\$ 682</u>

(a) The tax withholding portion of share-based compensation is settled in cash, not shares.

The Board of Directors of Lazard has issued a series of authorizations to repurchase common stock, which help offset the dilutive effect of our share-based incentive compensation plans. During a given year the Company intends to repurchase at least as many shares as it expects to ultimately issue pursuant to such compensation plans in respect of year-end incentive compensation attributable to the prior year. The rate at which the Company purchases shares in connection with this annual objective may vary from period to period due to a variety of factors. Purchases with respect to such program are set forth in the table below:

<u>Year Ended December 31:</u>	<u>Number of Shares</u>	<u>Average Price Per Share</u>
2018.....	12,206,652	\$ 45.29
2019.....	13,674,439	\$ 36.18
2020.....	2,912,035	\$ 32.70

As of December 31, 2020, a total of \$300 million of share repurchase authorization remained available under the Company's share repurchase program, which will expire on December 31, 2021.

During the year ended December 31, 2020, the Company had in place trading plans under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), pursuant to which it effected stock repurchases in the open market.

On October 31, 2019, Lazard Group distributed to its managing members, which are subsidiaries of Lazard Ltd, 17,000,000 shares of common stock that were held by Lazard Group. These shares were ultimately received by Lazard Ltd and cancelled. There was no impact on total stockholders' equity as a result of the share cancellation.

On February 4, 2021, the Board of Directors of Lazard declared a quarterly dividend of \$0.47 per share on our common stock. The dividend is payable on March 2, 2021, to stockholders of record on February 19, 2021.

See Notes 15 and 16 of Notes to Consolidated Financial Statements for additional information regarding Lazard's stockholders' equity and incentive plans, respectively.

Regulatory Capital

We actively monitor our regulatory capital base. Our principal subsidiaries are subject to regulatory requirements in their respective jurisdictions to ensure their general financial soundness and liquidity, which require, among other things, that we comply with rules regarding certain minimum capital requirements, record-keeping, reporting procedures, relationships with customers, experience and training requirements for employees and certain other requirements and procedures. These regulatory requirements may restrict the flow of funds to and from affiliates. See Note 22 of Notes to Consolidated Financial Statements for further information. These regulations differ in the U.S., the U.K., France and other countries in which we operate. Our capital structure is designed to provide each of our subsidiaries with capital and liquidity consistent with its business and regulatory requirements. For a discussion of regulations relating to us, see Item 1, “Business—Regulation” included in this Form 10-K.

Contractual Obligations

The following table sets forth information relating to Lazard’s contractual obligations as of December 31, 2020:

	Contractual Obligations Payment Due by Period				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
	(\$ in thousands)				
Senior debt (including interest)	\$2,203,417	\$ 70,250	\$ 140,500	\$ 532,292	\$1,460,375
Operating leases (exclusive of \$12,066 of committed sublease income)	736,478	91,931	142,105	124,592	377,850
Investment capital funding commitments (a)	5,865	5,865	-	-	-
Total (b)	<u>\$2,945,760</u>	<u>\$ 168,046</u>	<u>\$ 282,605</u>	<u>\$ 656,884</u>	<u>\$1,838,225</u>

- (a) Unfunded commitments to private equity investments consolidated but not owned by Lazard of \$10,022 are excluded. Such commitments are required to be funded by capital contributions from noncontrolling interest holders. See Note 7 of Notes to Consolidated Financial Statements. These amounts are generally due on demand and therefore are presented in the “less than 1 year” category.
- (b) The table above excludes contingent obligations, given the inability to make a reasonably reliable estimate of the timing of the amounts of any such payments. The table above also excludes any possible payments for uncertain tax positions and payments pursuant to the Company’s tax receivable agreement, given that the actual amount and timing of payments under the tax receivable agreement could differ materially from our estimates. At December 31, 2020, a tax receivable agreement obligation of \$221,451 was recorded on the consolidated statements of financial condition, of which the Company currently expects that approximately \$10,300 will be paid within the next 12 months. See “Critical Accounting Policies and Estimates—Income Taxes” below. See also Notes 14, 16, 17, 19 and 21 of Notes to Consolidated Financial Statements regarding information in connection with commitments, incentive plans, employee benefit plans, income taxes and tax receivable agreement obligations, respectively.

Effect of Inflation

We do not believe inflation will significantly affect our compensation costs as they are substantially variable in nature. However, the rate of inflation may affect certain of our other expenses, such as information technology and occupancy costs. To the extent inflation results in rising interest rates and has other effects upon the securities markets or general macroeconomic conditions, it may adversely affect our financial position and results of operations by impacting overall levels of M&A activity, reducing our AUM or net revenue, or otherwise. See Item 1A, “Risk Factors—Other Business Risks—Difficult market conditions can adversely affect our business in many ways, including by reducing the volume of the transactions involving our Financial Advisory business and reducing the value or performance of the assets we manage in our Asset Management business, which, in each case, could materially reduce our revenue or income and adversely affect our financial position”.

Critical Accounting Policies and Estimates

Management's discussion and analysis of our consolidated financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in conformity with U.S. GAAP. The preparation of Lazard's consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, Lazard evaluates its estimates, including those related to revenue recognition, income taxes (including the impact on the tax receivable agreement obligation), investing activities and goodwill. Lazard bases these estimates on historical experience and various other assumptions that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments, including judgments regarding the carrying values of assets and liabilities, that are not readily apparent from other sources. Actual results may differ from these estimates.

Lazard believes that the critical accounting policies set forth below comprise the most significant estimates and judgments used in the preparation of its consolidated financial statements.

Revenue Recognition

Lazard generates substantially all of its net revenue from providing Financial Advisory and Asset Management services to clients. Lazard recognizes revenue when the following criteria are met:

- a contract with a client has been identified;
- the performance obligations in the contract have been identified;
- the fee or other transaction price has been determined;
- the fee or other transaction price has been allocated to each performance obligation in the contract; and
- the Company has satisfied the applicable performance obligation.

The Company earns performance-based incentive fees on various investment products, including traditional products and alternative investment funds such as hedge funds and private equity funds. See "Financial Statement Overview" for a description of our revenue recognition policies on such fees. If, in Lazard's judgment, collection of a fee is not probable, Lazard will not recognize revenue until the uncertainty is removed. We maintain an allowance for doubtful accounts to provide coverage for estimated losses from our receivables. We determine the adequacy of the allowance under CECL by (i) applying a bad debt charge-off rate based on historical charge-off experience; (ii) estimating the probability of loss based on our analysis of the client's creditworthiness and specifically reserve against exposures where we determine the receivables are impaired, which may include situations where a fee is in dispute or litigation has commenced; and (iii) performing qualitative assessments to monitor economic risks that may require additional adjustments.

With respect to fees receivable from Financial Advisory activities, such receivables are generally deemed past due when they are outstanding 60 days from the date of invoice, except for certain transactions that include specific contractual payment terms which may vary from approximately one month to four years following the invoice date (as is the case for Private Capital Advisory fees) or may be subject to court approval (as is the case with restructuring activities that include bankruptcy proceedings). In such cases, receivables are deemed past due when payment is not received by the agreed-upon contractual date or the court approval date, respectively. Financial Advisory fee receivables past due, from the date of the invoice or specific contractual payment terms, in excess of 180 days are fully provided for unless there is evidence that the balance is collectible. Notwithstanding our policy for receivables past due, any receivables that we determine are impaired result in specific reserves against such exposures. Asset Management fees are fully provided for when such receivables are outstanding 12 months after the invoice date. In addition, the Company specifically reserves against exposures relating to Asset Management fees where we determine receivables are impaired prior to being outstanding for 12 months.

Income Taxes

As part of the process of preparing our consolidated financial statements, we estimate our income taxes for each of our tax-paying entities in its respective jurisdiction. In addition to estimating actual current tax liabilities for these jurisdictions, we also must account for the tax effects of differences between the financial reporting and tax reporting of items, such as basis adjustments, compensation and benefits expense, and depreciation and amortization. Differences which are temporary in nature result in deferred tax assets and liabilities. Significant judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities, any valuation allowance recorded against our deferred tax assets and our unrecognized tax benefits.

We recognize a deferred tax asset if it is more likely than not (defined as a likelihood of greater than 50%) that a tax benefit will be accepted by a taxing authority. The measurement of deferred tax assets and liabilities is based upon currently enacted tax rates in the applicable jurisdictions. At December 31, 2020, on a consolidated basis, we recorded gross deferred tax assets of approximately \$717 million, with such amount partially offset by a valuation allowance of approximately \$82 million (as described below).

Subsequent to the initial recognition of deferred tax assets, we also must continually assess the likelihood that such deferred tax assets will be realized. If we determine that we may not fully derive the benefit from a deferred tax asset, we consider whether it would be appropriate to apply a valuation allowance against the applicable deferred tax asset, taking into account all available information. The ultimate realization of a deferred tax asset for a particular entity depends, among other things, on the generation of taxable income by such entity in the applicable jurisdiction.

We consider multiple possible sources of taxable income when assessing a valuation allowance against a deferred tax asset, including:

- future reversals of existing taxable temporary differences;
- future taxable income exclusive of reversing temporary differences and carryforwards;
- taxable income in prior carryback years; and
- tax-planning strategies.

The assessment regarding whether a valuation allowance is required or should be adjusted also considers all available information, including the following:

- nature, frequency, magnitude and duration of any past losses and current operating results;
- duration of statutory carryforward periods;
- historical experience with tax attributes expiring unused; and
- near-term and medium-term financial outlook.

The weight we give to any particular item is, in part, dependent upon the degree to which it can be objectively verified. We give greater weight to the recent results of operations of a relevant entity. Pre-tax operating losses on a three year cumulative basis or lack of sustainable profitability are considered objectively verifiable evidence and will generally outweigh a projection of future taxable income.

Certain of our tax-paying entities have individually experienced losses on a cumulative three year basis or have tax attributes that may expire unused. In addition, one of our tax-paying entities has recorded a valuation allowance on substantially all of its deferred tax assets due to the combined effect of operating losses in certain subsidiaries of that entity as well as foreign taxes that together substantially offset any U.S. tax liability. Taking into account all available information, we cannot determine that it is more likely than not that deferred tax assets held by these entities will be realized. Consequently, we have recorded valuation allowances on \$82 million of deferred tax assets held by these entities as of December 31, 2020.

We record tax positions taken or expected to be taken in a tax return based upon our estimates regarding the amount that is more likely than not to be realized or paid, including in connection with the resolution of any related appeals or other legal processes. Accordingly, we recognize liabilities for certain unrecognized tax benefits based on the amounts that are more likely than not to be settled with the relevant taxing authority. Such liabilities are evaluated periodically as new information becomes available and any changes in the amounts of such liabilities are recorded as adjustments to “income tax expense.” Liabilities for unrecognized tax benefits involve significant judgment and the ultimate resolution of such matters may be materially different from our estimates.

On December 22, 2017, the Tax Cuts and Jobs Act (the “Tax Act”) was enacted, which significantly changed U.S. tax law and included several provisions applicable to us, such as the reduction of the corporate income tax rate from 35% to 21%, the limitations on the deductibility of interest expense and certain international provisions. The international provisions of the Tax Act that impact us include the tax on global intangible low-tax income (GILTI) and the base erosion and anti-abuse tax (BEAT). The GILTI provisions impose a tax on certain income from foreign operations and we have elected to account for the tax on GILTI as a current period expense.

In addition to the discussion above regarding deferred tax assets and associated valuation allowances, as well as unrecognized tax benefit liability estimates, other factors affect our provision for income taxes, including changes in the geographic mix of our business, the level of our annual pre-tax income, transfer pricing and intercompany transactions.

See Item 1A, “Risk Factors” and Note 19 of Notes to Consolidated Financial Statements for additional information related to income taxes.

Amended and Restated Tax Receivable Agreement

During the period ended June 30, 2015, we released substantially all of our valuation allowance against deferred tax assets. As a result, we accrued a corresponding liability during the period ended June 30, 2015 for amounts relating to the Second Amended and Restated Tax Receivable Agreement, dated as of October 26, 2015 (the “Amended and Restated Tax Receivable Agreement”), between Lazard and LTBP Trust (the “Trust”). See Note 21 of Notes to Consolidated Financial Statements for additional information regarding the Amended and Restated Tax Receivable Agreement.

The amount of the Amended and Restated Tax Receivable Agreement liability is an undiscounted amount based upon currently enacted tax laws, the current structure of the Company and various assumptions regarding potential future operating profitability. The assumptions reflected in the estimate involve significant judgment, and if our structure were to change or our annual taxable income were to increase, we could be required to accelerate payments under the Amended and Restated Tax Receivable Agreement. As such, the actual amount and timing of payments under the Amended and Restated Tax Receivable Agreement could differ materially from our estimates. Any changes in the amount of the estimated liability would be recorded as a non-compensation expense in the consolidated statement of operations. Adjustments, if necessary, to the related deferred tax assets would be recorded through income tax expense.

The cumulative liability relating to our obligations under the Amended and Restated Tax Receivable Agreement recorded as of December 31, 2020 and 2019 was \$221 million and \$247 million, respectively, and is recorded in “tax receivable agreement obligation” on the consolidated statements of financial condition.

Investments

Investments consist primarily of interest-bearing deposits, debt and equity securities, and interests in alternative investment, debt, equity and private equity funds.

These investments, with the exception of interest-bearing deposits, are carried at fair value on the consolidated statements of financial condition, and any increases or decreases in the fair value of these investments are reflected in earnings. The fair value of investments is generally based upon market prices or the net asset value (“NAV”) or

its equivalent for investments in funds. See Note 7 of Notes to Consolidated Financial Statements for additional information on the measurement of the fair value of investments.

Lazard is subject to market and credit risk on investments held. As such, gains and losses on investment positions held, which arise from sales or changes in the fair value of the investments, are not predictable and can cause periodic fluctuations in net income.

Data relating to investments is set forth below:

	December 31,	
	2020	2019
	(\$ in thousands)	
Seed investments by asset class:		
Equities (a).....	\$ 82,699	\$ 93,535
Fixed income.....	10,977	13,923
Alternative investments	<u>22,113</u>	<u>5,850</u>
Total seed investments.....	<u>115,789</u>	<u>113,308</u>
Other investments owned:		
Private equity (b).....	20,675	23,588
Interest-bearing deposits	-	517
Fixed income and other (c)	<u>125,565</u>	<u>124,670</u>
Total other investments owned.....	<u>146,240</u>	<u>148,775</u>
Subtotal.....	<u>262,029</u>	<u>262,083</u>
Add:		
Private equity consolidated, not owned (d).....	16,892	10,774
LFI (e).....	<u>379,611</u>	<u>259,138</u>
Total investments.....	<u>\$ 658,532</u>	<u>\$ 531,995</u>

- (a) At December 31, 2020 and 2019, seed investments in directly owned equity securities were invested as follows:

	December 31,	
	2020	2019
Percentage invested in:		
Financials	16%	26%
Consumer	38	32
Industrial	12	15
Technology.....	21	16
Other.....	<u>13</u>	<u>11</u>
Total	<u>100%</u>	<u>100%</u>

- (b) Private equity investments include investments related to certain legacy businesses and co-investments in private equity funds managed by our Asset Management business. Co-investments owned were \$17 million and \$20 million as of December 31, 2020 and 2019, respectively.
- (c) At both December 31, 2020 and 2019, includes investments in U.S. Treasury securities of \$100 million, with original maturities of greater than three months and less than one year.
- (d) Represents private equity investments that are consolidated but owned by noncontrolling interests, and therefore do not subject the Company to market or credit risk. The applicable noncontrolling interests are presented within “stockholders’ equity” on the consolidated statements of financial condition.

- (e) Composed of investments held in connection with LFI and other similar deferred compensation arrangements. The market risk associated with such investments is equally offset by the market risk associated with the derivative liability with respect to awards expected to vest. The Company is subject to market risk associated with any portion of such investments that employees may forfeit. See “—Risk Management—Risks Related to Derivatives” for risk management information relating to derivatives. LFI investments held in entities in which the Company maintained a controlling interest were \$155 million in nine entities as of December 31, 2020, as compared to \$93 million in eight entities as of December 31, 2019.

At December 31, 2020 and 2019, total investments with a fair value of \$659 million and \$531 million, respectively, included \$53 million and \$34 million, respectively, or 8% and 6%, respectively, of investments that were classified using NAV or its equivalent as a practical expedient. See Notes 6 and 7 of Notes to Consolidated Financial Statements for additional information regarding investments measured at fair value, including the levels of fair value within which such measurements of fair value fall.

As of December 31, 2020 and 2019, the Company held seed investments of approximately \$116 million and \$113 million, respectively. Seed investments held in entities in which the Company maintained a controlling interest were \$59 million in seven entities as of December 31, 2020, as compared to \$47 million in seven entities as of December 31, 2019.

As of December 31, 2020 and 2019, the Company did not consolidate or deconsolidate any seed investment entities or LFI investment entities, with the exception of the consolidation of certain LFI funds (see Note 24 of Notes to Consolidated Financial Statements). As such, 100% of the recorded balance of seed investments and substantially all of LFI investments as of December 31, 2020 and 2019 represented the Company’s economic interest in the seed and LFI investments. See “—Consolidation of Variable Interest Entities” below for more information on the Company’s policy regarding the consolidation of seed and LFI investment entities.

For additional information regarding risks associated with our investments, see “Risk Management—Investments” below as well as Item 1A, “Risk Factors—Other Business Risks—Our results of operations may be affected by fluctuations in the fair value of positions held in our investment portfolios”.

Assets Under Management

AUM primarily consists of debt and equity instruments, which have a value that is readily available based on either prices quoted on a recognized exchange or prices provided by external pricing services.

Prices of equity and debt securities and other instruments that comprise our AUM are provided by well-recognized, independent, third-party vendors. Such third-party vendors rely on prices provided by external pricing services which are obtained from recognized exchanges or markets, or, for certain fixed income securities, from an evaluated bid or other similarly sourced price.

Either directly, or through our third-party vendors, we perform a variety of regular due diligence procedures on our pricing service providers. Those procedures include oversight by our internal operations group, review of the pricing service providers’ internal control frameworks, review of the pricing service providers’ valuation methodologies, reconciliation to client custodial account values and comparison of significant pricing differences.

Goodwill

In accordance with current accounting guidance, goodwill has an indefinite life and is tested for impairment annually, as of November 1, or more frequently if circumstances indicate impairment may have occurred. The Company performs a qualitative evaluation about whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount in lieu of actually calculating the fair value of the reporting unit. The goodwill impairment test as of November 1, 2020 indicated that no reporting units were at risk of impairment. See Note 11 of Notes to Consolidated Financial Statements for additional information regarding goodwill.

Consolidation

The consolidated financial statements include the accounts of Lazard Group and entities in which it has a controlling interest. Lazard determines whether it has a controlling interest in an entity by first evaluating whether the entity is a voting interest entity (“VOE”) or a variable interest entity (“VIE”) under U.S. GAAP.

- **Voting Interest Entities.** VOEs are entities in which (i) the total equity investment at risk is sufficient to enable the entity to finance itself independently and (ii) the equity holders have the obligation to absorb losses, the right to receive residual returns and the right to make decisions about the entity’s activities. Lazard is required to consolidate a VOE if it holds a majority of the voting interest in such VOE.
- **Variable Interest Entities.** VIEs are entities that lack one or more of the characteristics of a VOE. If Lazard has a variable interest, or a combination of variable interests, in a VIE, it is required to analyze whether it needs to consolidate such VIE. Lazard is required to consolidate a VIE if we are the primary beneficiary having (i) the power to direct the activities of the VIE that most significantly impact the VIE’s economic performance and (ii) the obligation to absorb losses of, or receive benefits from, the VIE that could be potentially significant to the VIE.

Lazard’s involvement with various entities that are VOEs or VIEs primarily arises from LFI investments and investment management contracts with fund entities in our Asset Management business. Lazard is not required to consolidate such entities because, with the exception of certain seed and LFI investments, as discussed below, we do not hold more than an inconsequential equity interest in such entities and we do not hold other variable interests (including our investment management agreements, which do not meet the definition of variable interests) in such entities.

Lazard makes seed and LFI investments in certain entities that are considered VOEs and VIEs and often require consolidation as a result of our investment. The impact of seed and LFI investment entities that require consolidation on the consolidated financial statements, including any consolidation or deconsolidation of such entities, is not material to our financial statements. Our exposure to loss from entities in which we have made such investments is limited to the extent of our investment in, or investment commitment to, such entities. See “Critical Accounting Policies and Estimates—Investments” above for more information regarding our investments.

Generally, when the Company initially invests to seed an investment entity, the Company is the majority owner of the entity. Our majority ownership in seed investment entities represents a controlling interest, except when we are the general partner in such entities and the third-party investors have the right to replace the general partner. To the extent material, we consolidate seed and LFI investment entities in which we own a controlling interest, and we would deconsolidate any such entity when we no longer have a controlling interest in such entity.

Risk Management

Investments

The Company has investments in a variety of asset classes, primarily debt and equity securities, and interests in alternative investments, debt, equity and private equity funds. The Company makes investments primarily to seed strategies in our Asset Management business or to reduce exposure arising from LFI and other similar deferred compensation arrangements. The Company measures its net economic exposure to market and other risks arising from investments that it owns, excluding (i) investments held in connection with LFI and other similar deferred compensation arrangements, (ii) investments in funds owned entirely by the noncontrolling interest holders of

certain acquired entities and (iii) interest-bearing deposits with maturities over 90 days that allow daily withdrawals without principal penalties.

Risk sensitivities include the effects of economic hedging. For equity market price risk, investment portfolios and their corresponding hedges are beta-adjusted to the All-Country World equity index. Fair value and sensitivity measurements presented herein are based on various portfolio exposures at a particular point in time and may not be representative of future results. Risk exposures may change as a result of ongoing portfolio activities and changing market conditions, among other things.

Equity Market Price Risk—At December 31, 2020 and 2019, the Company’s exposure to equity market price risk in its investment portfolio, which primarily relates to investments in equity securities, equity funds and hedge funds, was approximately \$95 million and \$85 million, respectively. The Company hedges market exposure arising from a significant portion of our equity investment portfolios by entering into total return swaps. The Company estimates that a hypothetical 10% adverse change in market prices would result in a net decrease of approximately \$0.2 million and \$1.0 million in the carrying value of such investments as of December 31, 2020 and 2019, respectively, including the effect of the hedging transactions.

Interest Rate/Credit Spread Risk—At December 31, 2020 and 2019, the Company’s exposure to interest rate and credit spread risk in its investment portfolio related to investments in debt securities or funds which invest primarily in debt securities was \$139 million and \$153 million, respectively. The Company hedges market exposure arising from a portion of our debt investment portfolios by entering into total return swaps. The Company estimates that a hypothetical 100 basis point adverse change in interest rates or credit spreads would result in a decrease of approximately \$1.0 million in the carrying value of such investments as of both December 31, 2020 and 2019, including the effect of the hedging transactions.

Foreign Exchange Rate Risk—At December 31, 2020 and 2019, the Company’s exposure to foreign exchange rate risk in its investment portfolio, which primarily relates to investments in foreign currency denominated equity and debt securities, was \$48 million and \$37 million, respectively. A significant portion of the Company’s foreign currency exposure related to our equity and debt investment portfolios is hedged through the aforementioned total return swaps. The Company estimates that a 10% adverse change in foreign exchange rates versus the U.S. Dollar would result in a decrease of approximately \$0.4 million and \$0.2 million in the carrying value of such investments as of December 31, 2020 and 2019, respectively, including the effect of the hedging transactions.

Private Equity—The Company invests in private equity primarily as a part of its co-investment activities and in connection with certain legacy businesses. At December 31, 2020 and 2019, the Company’s exposure to changes in fair value of such investments was approximately \$21 million and \$24 million, respectively. The Company estimates that a hypothetical 10% adverse change in fair value would result in a decrease of approximately \$2.1 million and \$2.4 million in the carrying value of such investments as of December 31, 2020 and 2019, respectively.

Risks Related to Receivables

We maintain an allowance for doubtful accounts to provide coverage for probable losses from our receivables. We determine the adequacy of the allowance by estimating the probability of loss based on our analysis of the client’s creditworthiness, among other things, and specifically provide for exposures where we determine the receivables are impaired. At December 31, 2020, total receivables amounted to \$743 million, net of an allowance for doubtful accounts of \$37 million. As of that date, Financial Advisory and Asset Management fees, and customers and other receivables comprised 84% and 16% of total receivables, respectively. At December 31, 2019, total receivables amounted to \$663 million, net of an allowance for doubtful accounts of \$27 million. As of that date, Financial Advisory and Asset Management fees, and customers and other receivables comprised 81% and 19% of total receivables, respectively. See also “Critical Accounting Policies and Estimates—Revenue Recognition” above and Note 5 of Notes to Consolidated Financial Statements for additional information regarding receivables.

LFB engages in lending activities, including commitments to extend credit (primarily for clients of LFG). At December 31, 2020 and 2019, customer receivables included \$100 million and \$76 million, respectively, of LFB loans, with such loans being fully collateralized and closely monitored for counterparty creditworthiness.

Credit Concentrations

To reduce the exposure to concentrations of credit, the Company monitors large exposures to individual counterparties.

Risks Related to Derivatives

Lazard enters into forward foreign currency exchange contracts and interest rate swaps to hedge exposures to currency exchange rates and interest rates and uses total return swap contracts on various equity and debt indices to hedge a portion of its market exposure with respect to certain seed investments related to our Asset Management business. Derivative contracts are recorded at fair value. Derivative assets amounted to \$1 million at both December 31, 2020 and 2019, and derivative liabilities, excluding the derivative liability arising from the Company's obligation pertaining to LFI and other similar deferred compensation arrangements, amounted to \$3 million and \$10 million at such respective dates.

The Company also records derivative liabilities relating to its obligations pertaining to LFI awards and other similar deferred compensation arrangements, the fair value of which is based on the value of the underlying investments, adjusted for estimated forfeitures. Changes in the fair value of the derivative liabilities are equally offset by the changes in the fair value of investments which are expected to be delivered upon settlement of LFI awards. Derivative liabilities relating to LFI amounted to \$311 million and \$226 million at December 31, 2020 and 2019, respectively.

Risks Related to Cash and Cash Equivalents and Corporate Indebtedness

A significant portion of the Company's indebtedness has fixed interest rates, while its cash and cash equivalents generally have market interest rates. Based on account balances as of December 31, 2020, Lazard estimates that its annual operating income relating to cash and cash equivalents would increase by approximately \$14 million in the event interest rates were to increase by 1% and decrease by approximately \$14 million if rates were to decrease by 1%.

As of December 31, 2020, the Company's cash and cash equivalents totaled approximately \$1,390 million. Substantially all of the Company's cash and cash equivalents were invested in (i) highly liquid institutional money market funds (a significant majority of which were invested solely in U.S. Government or agency money market funds), (ii) in short-term interest bearing and non-interest bearing accounts at a number of leading banks throughout the world, and (iii) in short-term certificates of deposit from such banks. Cash and cash equivalents are constantly monitored. On a regular basis, management reviews its investment profile as well as the credit profile of its list of depositor banks in order to adjust any deposit or investment thresholds as necessary.

Operational Risk

Operational risk is inherent in all of our businesses and may, for example, manifest itself in the form of errors, breaches in the system of internal controls, employee misconduct, business interruptions, fraud, including fraud perpetrated by third parties, or legal actions due to operating deficiencies or noncompliance. The Company maintains a framework including policies and a system of internal controls designed to monitor and manage operational risk and provide management with timely and accurate information. Management within each of the operating companies is primarily responsible for its operational risk programs. The Company has in place business continuity and disaster recovery programs that manage its capabilities to provide services in the case of a disruption. We purchase insurance policies designed to help protect the Company against accidental loss and losses that may significantly affect our financial objectives, personnel, property or our ability to continue to meet our responsibilities to our various stakeholder groups. See Item 1A, "Risk Factors" above for more information regarding operational risk in our business.

Recent Accounting Developments

For a discussion of recently issued accounting developments and their impact or potential impact on Lazard's consolidated financial statements, see Note 3 of Notes to Consolidated Financial Statements.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of Lazard Ltd and its subsidiaries (the "Company") is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed under the supervision of the Company's principal executive and principal financial officers to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's consolidated financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

Our internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with U.S. generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of the Company's management and directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the consolidated financial statements.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2020. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control-Integrated Framework (2013)*. Based on management's assessment and those criteria, management concluded that the Company maintained effective internal control over financial reporting as of December 31, 2020.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's independent registered public accounting firm, Deloitte & Touche LLP, audited the Company's internal control over financial reporting as of December 31, 2020, as stated in their report which appears under "Report of Independent Registered Public Accounting Firm."

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the stockholders and the Board of Directors of Lazard Ltd:

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of Lazard Ltd and subsidiaries (the "Company") as of December 31, 2020, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2020, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements and financial statement schedule as listed in the Index at Item 8 as of and for the year ended December 31, 2020, of the Company and our report dated February 26, 2021, expressed an unqualified opinion on those consolidated financial statements and financial statement schedule.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying "Management's Report on Internal Control Over Financial Reporting". Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the stockholders and the Board of Directors of Lazard Ltd:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated statements of financial condition of Lazard Ltd and subsidiaries (the "Company") as of December 31, 2020 and 2019, and the related consolidated statements of operations, comprehensive income, cash flows, and changes in stockholders' equity for each of the three years in the period ended December 31, 2020, the related notes and the schedule listed in the Index at Item 8 (collectively the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2020 and 2019, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2020, in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2020, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 26, 2021, expressed an unqualified opinion on the Company's internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current-period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Investment banking and other advisory fees—Refer to Note 4 to the consolidated financial statements

Critical Audit Matter Description

The Company generally recognizes investment banking and other advisory fees as the benefits of these advisory services are provided to the Company's clients. These advisory services typically include transaction

announcement and transaction completion fees. These fees are not typically recognized until there is an announcement or completion, respectively, due to the uncertainty associated with those events. However, earlier recognition is appropriate if it is probable that significant reversal of the applicable revenue will not occur.

We identified the recognition of investment banking and other advisory fees as a critical audit matter because of the judgment required in determining the appropriate period to recognize transaction announcement and transaction completion fees, including obtaining and evaluating appropriate supporting documentation. As such, auditing these transactions required a high degree of auditor judgment when performing audit procedures and evaluating the results of those procedures.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to investment banking and other advisory fees included the following, among others:

- We tested the effectiveness of controls over the recognition of investment banking and other advisory fees, including those over the timing of revenue recognition.
- We selected a sample of contracts with clients and performed the following:
 - Evaluated the terms and conditions of the respective contract to verify the Company appropriately identified its performance obligations and the related fees.
 - Evaluated the accuracy of management’s calculation of investment banking and other advisory fees recognized by recalculating the revenue amounts and comparing our expectation to the amount recorded by management.
 - Evaluated third party and the Company’s evidence, including, but not limited to, confirmations, court and regulatory approvals, press releases, executed agreements, communications, cash received and underlying transaction closing documents, to verify that the revenue recognition criteria were met and revenue was recognized in accordance with U.S. GAAP, including in the appropriate period.
- On a sample basis, we performed the above procedures on investment banking and other advisory fees recognized in the subsequent year to determine if such revenue should have been recorded in the current year.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (dollars in thousands, except for per share data, unless otherwise noted)

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

Lazard Ltd, a Bermuda holding company, and its subsidiaries (collectively referred to as “Lazard Ltd”, “Lazard”, “we” or the “Company”), including Lazard Ltd’s indirect investment in Lazard Group LLC, a Delaware limited liability company (collectively referred to, together with its subsidiaries, as “Lazard Group”), is one of the world’s preeminent financial advisory and asset management firms and has long specialized in crafting solutions to the complex financial and strategic challenges of our clients. We serve a diverse set of clients around the world, including corporations, governments, institutions, partnerships and individuals.

Lazard Ltd indirectly held 100% of all outstanding Lazard Group common membership interests as of December 31, 2020 and 2019. Lazard Ltd, through its control of the managing members of Lazard Group, controls Lazard Group, which is governed by an Amended and Restated Operating Agreement dated as of February 4, 2019 (the “Operating Agreement”).

Lazard Ltd’s primary operating asset is its indirect ownership of the common membership interests of, and managing member interests in, Lazard Group, whose principal operating activities are included in two business segments:

- Financial Advisory, which offers corporate, partnership, institutional, government, sovereign and individual clients across the globe a wide array of financial advisory services regarding mergers and acquisitions (“M&A”), capital advisory, restructurings, shareholder advisory, sovereign advisory, capital raising and other strategic advisory matters, and
- Asset Management, which offers a broad range of global investment solutions and investment management services in equity and fixed income strategies, asset allocation strategies, alternative investments and private equity funds to corporations, public funds, sovereign entities, endowments and foundations, labor funds, financial intermediaries and private clients.

In addition, we record selected other activities in our Corporate segment, including management of cash, investments, deferred tax assets, outstanding indebtedness, certain contingent obligations, and assets and liabilities associated with Lazard Group’s Paris-based subsidiary Lazard Frères Banque SA (“LFB”).

Basis of Presentation

The consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company’s policy is to consolidate entities in which it has a controlling financial interest. The Company consolidates:

- Voting interest entities (“VOEs”) where the Company holds a majority of the voting interest in such VOEs, and
- Variable interest entities (“VIEs”) where the Company is the primary beneficiary having the power to direct the activities of the VIE that most significantly impact the VIE’s economic performance and the obligation to absorb losses of, or receive benefits from, the VIE that could be potentially significant to the VIE (see Note 24).

When the Company does not have a controlling interest in an entity, but exerts significant influence over such entity’s operating and financial decisions, the Company either (i) applies the equity method of accounting in which it records a proportionate share of the entity’s net earnings, or (ii) elects the option to measure its investment at fair value. Intercompany transactions and balances have been eliminated.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued) (dollars in thousands, except for per share data, unless otherwise noted)

The consolidated financial statements include Lazard Ltd, Lazard Group and Lazard Group's principal operating subsidiaries: Lazard Frères & Co. LLC ("LFNY"), a New York limited liability company, along with its subsidiaries, including Lazard Asset Management LLC and its subsidiaries (collectively referred to as "LAM"); the French limited liability companies Compagnie Financière Lazard Frères SAS ("CFLF") along with its subsidiaries, LFB and Lazard Frères Gestion SAS ("LFG"), and Maison Lazard SAS and its subsidiaries; and Lazard & Co., Limited ("LCL"), through Lazard & Co., Holdings Limited ("LCH"), an English private limited company, together with their jointly owned affiliates and subsidiaries.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies below relate to reported amounts and disclosures in the consolidated financial statements.

Foreign Currency Translation—The consolidated financial statements are presented in U.S. Dollars. Many of the Company's non-U.S. subsidiaries have a functional currency (*i.e.*, the currency in which operational activities are primarily conducted) that is other than the U.S. Dollar, generally the currency of the country in which such subsidiaries are domiciled. Such subsidiaries' assets and liabilities are translated into U.S. Dollars at year-end exchange rates, while revenue and expenses are translated at average exchange rates during the year based on the daily closing exchange rates. Adjustments that result from translating amounts from a subsidiary's functional currency to U.S. Dollars are reported in "accumulated other comprehensive income (loss), net of tax" ("AOCI"). Foreign currency remeasurement gains and losses on transactions in non-functional currencies are included on the consolidated statements of operations. Foreign currency remeasurement gains (losses), net of hedge transactions (see Note 8) amounted to \$(721), \$3,443 and \$(2,880) for the years ended December 31, 2020, 2019 and 2018, respectively, and are included in "revenue-other" on the respective consolidated statements of operations.

Use of Estimates—The preparation of consolidated financial statements in conformity with U.S. GAAP requires the use of management's estimates. In preparing the consolidated financial statements, management makes estimates and assumptions regarding:

- valuations of assets and liabilities requiring fair value estimates including, but not limited to, investments, derivatives and assumptions used to value pension and other post-retirement plans;
- the assessment of probability with respect to recognizing revenue;
- the discount rate used to measure operating lease right-of-use assets and operating lease liabilities;
- the adequacy of the allowance for doubtful accounts;
- the realization of deferred tax assets and adequacy of tax reserves for uncertain tax positions;
- the measurement of our tax receivable agreement obligation;
- the outcome of litigation;
- the carrying amount of goodwill and other intangible assets;
- the vesting of share-based and other deferred compensation plan awards; and
- other matters that affect the reported amounts and disclosure of contingencies in the consolidated financial statements.

Estimates, by their nature, are based on judgment and available information. Therefore, actual results could differ from those estimates and could have a material impact on the consolidated financial statements.

Cash and Cash Equivalents—The Company defines cash equivalents as short-term, highly liquid securities and cash deposits with original maturities of 90 days or less when purchased.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Deposits with Banks and Short-Term Investments—Represents LFB’s short-term deposits, including with the Banque de France and amounts placed by LFB in short-term, highly liquid securities with original maturities of 90 days or less when purchased. The level of these deposits and investments may be driven by the level of LFB time and demand deposits (which can fluctuate significantly on a daily basis) and by changes in asset allocation.

Cash Deposited with Clearing Organizations and Other Segregated Cash—Primarily represents restricted cash deposits made by the Company, including those to satisfy the requirements of clearing organizations.

Receivables and Allowance for Doubtful Accounts— See Notes 3 and 5 for additional information regarding the Company’s receivables and allowance for doubtful accounts.

Investments—Investments in debt and marketable equity securities held either directly, or indirectly through asset management funds, at the Company’s broker-dealer and non broker-dealer subsidiaries are accounted for at fair value, with any increase or decrease in fair value recorded in earnings. Such amounts are reflected in “revenue-other” in the consolidated statements of operations.

Investments also include interests in alternative investment funds and private equity funds, each accounted for at fair value. Any increases or decreases in the carrying value of those investments accounted for at fair value are reflected in “revenue-other” in the consolidated statements of operations.

Dividend income is reflected in “revenue-other” in the consolidated statements of operations. Securities transactions and the related revenue and expenses are recorded on a “trade date” basis.

See Notes 6 and 7 for additional information regarding the Company’s investments.

Property-net—Property is stated at cost less accumulated depreciation and amortization. Buildings are depreciated on a straight-line basis over their estimated useful lives. Leasehold improvements are capitalized and are amortized over the lesser of the economic useful life of the improvement or the term of the lease. Depreciation of furniture and equipment, including computer hardware and software, is determined on a straight-line basis using estimated useful lives. Depreciation and amortization expense aggregating \$35,095, \$35,572 and \$34,103 for the years ended December 31, 2020, 2019 and 2018, respectively, is included on the respective consolidated statements of operations in “occupancy and equipment” or “technology and information services”, depending on the nature of the underlying asset. Repairs and maintenance are expensed as incurred.

Operating Lease Right-of-use Assets and Operating Lease Liabilities—The Company determines if an arrangement is, or contains, a lease at its inception and reevaluates the arrangement if the terms are modified. Operating lease right-of-use assets (“ROU assets”) represent the right to use an underlying asset for the lease term and operating lease liabilities reflect the obligation to make lease payments arising from the lease. At any given time during the lease term, the operating lease liability represents the present value of the remaining lease payments and the operating lease ROU asset is measured at the amount of the lease liability, adjusted for rent prepayments, unamortized initial direct costs and the remaining balance of lease incentives received. Both the operating lease ROU asset and the operating lease liability are reduced to zero at the end of the lease.

See Note 10 for additional information regarding the Company’s ROU assets and operating lease liabilities.

Goodwill and Other Intangible Assets—As goodwill has an indefinite life, it is required to be tested for impairment annually, as of November 1, or more frequently if circumstances indicate impairment may have occurred. The Company performs a qualitative evaluation about whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount in lieu of actually calculating the fair value of the reporting unit.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Intangible assets that are not deemed to have an indefinite life are amortized over their estimated useful lives and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. The pattern of amortization reflects the timing of the realization of the economic benefits of such intangible assets. For acquired customer contracts, the period of realization is deemed to be the period when the related revenue is recognized. This analysis is performed by comparing the carrying value of the intangible asset being reviewed for impairment to the current and expected future cash flows expected to be generated from such asset on an undiscounted basis, including eventual disposition. An impairment loss would be measured for the amount by which the carrying amount of the intangible asset exceeds its fair value.

See Note 11 with respect to goodwill and other intangible assets.

Derivative Instruments—A derivative is typically defined as a financial instrument whose value is “derived” from underlying assets, indices or reference rates, such as a future, forward, swap, or option contract, or other financial instrument with similar characteristics. Derivative contracts often involve future commitments to exchange interest payment streams or currencies based on a notional or contractual amount (*e.g.*, interest rate swaps or currency forwards) or to purchase or sell other financial instruments at specified terms on a specified date (*e.g.*, options to buy or sell securities or currencies).

The Company enters into forward foreign currency exchange rate contracts, interest rate swaps, interest rate futures, total return swap contracts on various equity and debt indices and other derivative contracts to economically hedge exposures to fluctuations in currency exchange rates, interest rates and equity and debt prices. The Company reports its derivative instruments separately as assets and liabilities unless a legal right of set-off exists under a master netting agreement enforceable by law in which case, the Company would net the applicable assets and liabilities and related receivable and payable for net cash collateral under such contracts. The Company’s derivative instruments are recorded at their fair value, and are included in “other assets” and “other liabilities” on the consolidated statements of financial condition. Gains and losses on the Company’s derivative instruments are generally included in “interest income” and “interest expense”, respectively, or “revenue-other”, depending on the nature of the underlying item, in the consolidated statements of operations.

In addition to the derivative instruments described above, the Company records derivative liabilities relating to its obligations pertaining to Lazard Fund Interests (“LFI”) and other similar deferred compensation arrangements, the fair value of which is based on the value of the underlying investments, adjusted for estimated forfeitures, and is included in “accrued compensation and benefits” in the consolidated statements of financial condition. Changes in the fair value of the derivative liabilities are included in “compensation and benefits” in the consolidated statements of operations, the impact of which equally offsets the changes in the fair value of investments which are currently expected to be delivered upon settlement of LFI and other similar deferred compensation arrangements, which are reported in “revenue-other” in the consolidated statements of operations. For information regarding LFI and other similar deferred compensation arrangements, see Notes 6, 8 and 16.

Deposits and Other Customer Payables—Primarily relates to LFB customer-related demand deposits.

Securities Sold, Not Yet Purchased—Securities sold, not yet purchased represents liabilities for securities sold for which payment has been received and the obligations to deliver such securities are included within “other liabilities” in the consolidated statements of financial condition. These securities are accounted for at fair value, with any increase or decrease in fair value recorded in earnings in accordance with standard securities industry practices. Such gains and losses are reflected in “revenue-other” in the consolidated statements of operations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Contingent Consideration Liabilities—The contingent consideration liabilities of businesses acquired in a business combination are initially recorded at fair value, and any change in the fair value is recognized in “amortization and other acquisition-related costs (benefits)” in the consolidated statements of operations. The contingent consideration liability is included in “other liabilities” on the consolidated statements of financial condition.

Fair Value of Financial Assets and Liabilities—The majority of the Company’s financial assets and liabilities are recorded at fair value or at amounts that approximate fair value. Such assets and liabilities include cash and cash equivalents, deposits with banks and short-term investments, cash deposited with clearing organizations and other segregated cash, receivables, investments (excluding investments accounted for at amortized cost or interest-bearing deposits), derivative instruments, deposits and other customer payables.

Investment Banking and Other Advisory Fees—Fees for Financial Advisory services are recorded when: (i) a contract with a client has been identified, (ii) the performance obligations in the contract have been identified, (iii) the fee or other transaction price has been determined, (iv) the fee or other transaction price has been allocated to each performance obligation in the contract, and (v) the Company has satisfied the applicable performance obligation. The expenses that are directly related to such transactions are recorded as incurred and presented within operating expenses when the Company is primarily responsible for fulfilling the promise of the arrangement. Revenues associated with the reimbursement of such expenses are recorded when the Company is contractually entitled to reimbursement and presented within investment banking and other advisory fees.

Asset Management Fees—Fees for Asset Management services are primarily comprised of management fees and incentive fees. Management fees are derived from fees for investment management and other services provided to clients. Revenue is recorded in accordance with the same five criteria as Financial Advisory fees, which generally results in management fees being recorded on a daily, monthly or quarterly basis, primarily based on a percentage of client assets managed. Fees vary with the type of assets managed, with higher fees earned on equity assets, alternative investment (such as hedge fund) and private equity funds, and lower fees earned on fixed income and money market products. Expenses that are directly related to the sale or distribution of fund interests are recorded as incurred and presented within operating expenses when the Company is primarily responsible for fulfilling the promise of the arrangement. Revenues associated with the reimbursement of such expenses are recorded when the Company is contractually entitled to reimbursement and presented within asset management fees.

In addition, the Company earns performance-based incentive fees on various investment products, including traditional products and alternative investment funds such as hedge funds and private equity funds.

For hedge funds, incentive fees are calculated based on a specific percentage of a fund’s net appreciation, in some cases in excess of established benchmarks or thresholds. The Company records incentive fees on traditional products and hedge funds when a significant reversal in the amount of the cumulative revenue to be recognized is not probable, which is typically at the end of the relevant performance measurement period. The incentive fee measurement period is generally an annual period (unless an account is terminated during the year). The incentive fees received at the end of the measurement period are not subject to reversal or payback. Incentive fees on hedge funds generally are subject to loss carryforward provisions in which losses incurred by the hedge funds in any year are applied against certain gains realized by the hedge funds in future periods before any incentive fees can be earned.

For private equity funds, incentive fees may be earned in the form of a “carried interest” if profits arising from realized investments exceed a specified threshold. Typically, such carried interest is ultimately calculated on a whole-fund basis and, therefore, clawback of carried interests during the life of the fund can occur. As a result, the Company records incentive fees earned on our private equity funds when a significant reversal in the amount of the cumulative revenue to be recognized is not probable, which is typically at the end of the relevant performance period.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued) (dollars in thousands, except for per share data, unless otherwise noted)

Receivables relating to asset management and incentive fees are reported in “fees receivable” on the consolidated statements of financial condition.

Soft Dollar Arrangements—Certain entities within the Company’s Asset Management business obtain research and other services through commission-sharing arrangements with broker-dealers, which are also known as “soft dollar” arrangements. Consistent with the “soft dollar” safe harbor established by Section 28(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), the Asset Management business does not have any contractual obligation or arrangement requiring it to pay for research and other eligible services obtained through soft dollar arrangements with brokers. Instead, the provider is obligated to pay for the services. Consequently, the Company does not incur any liability and does not accrue any expenses in connection with any research or other eligible services obtained by the Asset Management business pursuant to such soft dollar arrangements. For the year ended December 31, 2020, the Company obtained research and other eligible services through soft dollar arrangements valued at approximately \$23,000. The use of soft dollars is limited by regulations in the European Union and the U.K. and, as such, the Company intends to directly pay a portion of the costs of such research and other eligible services going forward.

Equity-Based Incentive Compensation Awards—Equity-based incentive compensation awards that do not require future service are expensed immediately. Equity-based compensation awards that require future service are amortized over the applicable vesting period, or requisite service period, based on the fair value of the Company’s Class A common stock (“common stock”), the only class of common stock of Lazard Ltd outstanding, on the date of grant. Compensation expense recognized for equity-based incentive compensation is determined based on the number of awards that in the Company’s estimate are considered probable of vesting (including as a result of any applicable performance conditions). Equity-based incentive compensation is recognized in “compensation and benefits” expense.

Income Taxes—Deferred income taxes reflect the net tax effects of temporary differences between the financial reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when such differences are expected to reverse. Such temporary differences are reflected as deferred tax assets and deferred tax liabilities on the consolidated statements of financial condition. A deferred tax asset is recognized if it is more likely than not (defined as a likelihood of greater than 50%) that a tax benefit will be accepted by a taxing authority.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will be realized and, when necessary, a valuation allowance is established. The ultimate realization of the deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences become deductible. Management considers the following possible sources of taxable income when assessing the realization of deferred tax assets:

- future reversals of existing taxable temporary differences;
- future taxable income exclusive of reversing temporary differences and carryforwards;
- taxable income in prior carryback years; and
- tax-planning strategies.

The assessment regarding whether a valuation allowance is required or should be adjusted also considers all available information, including the following:

- nature, frequency, magnitude and duration of any past losses and current operating results;
- duration of statutory carryforward periods;
- historical experience with tax attributes expiring unused; and
- near-term and medium-term financial outlook.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The Company records tax positions taken or expected to be taken in a tax return based upon the Company's estimates regarding the amount that is more likely than not to be realized or paid, including in connection with the resolution of any related appeals or other legal processes. Accordingly, the Company recognizes liabilities for certain unrecognized tax benefits based on the amounts that are more likely than not to be settled with the relevant taxing authority.

The Company recognizes interest and/or penalties related to unrecognized tax benefits in "provision for income taxes". See Note 19 for additional information relating to income taxes.

3. RECENT ACCOUNTING DEVELOPMENTS

Financial Instruments—Credit Losses: Measurement of Credit Losses on Financial Instruments—In June 2016, the Financial Accounting Standards Board (the "FASB") issued new guidance regarding the measurement of credit losses on financial instruments. The new guidance replaces the incurred loss impairment methodology in the current guidance with a methodology that reflects current expected credit losses ("CECL") and requires consideration of a broader range of reasonable and supportable information to determine credit loss estimates.

The Company adopted the new guidance on January 1, 2020 using a modified retrospective approach and recorded a \$7,575 cumulative-effect adjustment to retained earnings upon adoption. The impact of the new guidance primarily relates to the Company's fee receivables.

To comply with the CECL model, the Company applies a bad debt charge-off rate, determined based on historical charge-off experience and adjusted for specific allowance based on current conditions of individual customers, to measure the expected credit loss for fee receivables. The Company also performs a qualitative assessment, on a quarterly basis, to monitor economic factors and other uncertainties that may require additional adjustment to the expected credit loss allowance.

See Note 5 for further details on the Company's receivables and allowance for doubtful accounts.

Intangibles—Goodwill and Other: Simplifying the Test for Goodwill Impairment—In January 2017, the FASB issued updated guidance that eliminated Step 2 from the goodwill impairment test. Step 2 is the process of measuring a goodwill impairment loss by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. The new guidance requires entities to measure a goodwill impairment loss as the amount by which a reporting unit's carrying value exceeds its fair value, limited to the carrying amount of goodwill. The FASB also eliminated the requirements for entities that have reporting units with zero or negative carrying amounts to perform a qualitative assessment for the goodwill impairment test. Instead, those entities would be required to disclose the amount of goodwill allocated to each reporting unit with a zero or negative carrying amount. The Company adopted the new guidance on January 1, 2020 and, in accordance with the new guidance, applied it prospectively to goodwill impairment tests performed after the adoption date.

Intangibles—Internal-Use Software: Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract—In August 2018, the FASB issued updated guidance on the accounting for implementation costs incurred in a cloud computing arrangement. The new guidance requires the capitalization of the implementation costs incurred in a cloud computing arrangement to be aligned with the requirements for capitalizing costs incurred to develop or obtain internal-use software. The Company adopted the new guidance as of January 1, 2020 and, in accordance with the new guidance, applied it prospectively to implementation costs incurred after the adoption date.

Related Party Guidance for Variable Interest Entities—In October 2018, the FASB issued updated guidance that requires consideration of indirect interest held through related parties under common control for determining whether fees paid to decision makers and service providers are variable interests. The amendments are required to be applied retrospectively with a cumulative-effect adjustment. The Company adopted the new guidance as of January 1, 2020 and its application did not have a material impact to the Company's financial statements.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Fair Value Measurement: Changes to the Disclosure Requirements for Fair Value Measurement—In August 2018, the FASB issued updated guidance which modifies the disclosure requirements on fair value measurement. The updated guidance eliminates or modifies various required disclosures under the current guidance and includes additional requirements. The additional disclosures related to Level 3 fair value measurements are to be applied prospectively and other amendments are to be applied retrospectively. The Company adopted the new guidance on January 1, 2020 and its application did not have a material impact to the Company’s financial statements.

Compensation—Retirement Benefits: Changes to the Disclosure Requirements for Defined Benefit Plans—In August 2018, the FASB issued updated guidance which modifies the disclosure requirements regarding defined benefit plans and other postretirement plans. The updated guidance eliminates or clarifies certain existing required disclosures and includes additional requirements. The Company adopted the new guidance on January 1, 2020 and updated its annual disclosures in Note 17 in accordance with the amended requirements.

Simplifying the Accounting for Income Taxes—In December 2019, the FASB issued new guidance to simplify the accounting for income taxes. The amendments include the removal of certain exceptions and various improvements. These improvements are related to the accounting for franchise tax based on income, evaluation of step up in tax basis of goodwill, allocation of consolidated tax expense to standalone legal entities, recognition of enacted change in tax laws or rates, and other minor changes. The new guidance is effective for annual and interim reporting periods beginning after December 15, 2020. The Company will adopt the new guidance effective January 1, 2021. The Company has evaluated each of the amendments and does not expect the adoption of the amendments to have a material impact to the Company’s financial statements.

4. REVENUE RECOGNITION

The Company disaggregates revenue based on its business segment results and believes that the following information provides a reasonable representation of how performance obligations relate to the nature, amount, timing and uncertainty of revenue and cash flows:

	Year Ended December 31,		
	2020	2019	2018
Net Revenue:			
Financial Advisory (a)	\$ 1,420,501	\$ 1,374,036	\$ 1,555,526
Asset Management:			
Management Fees and Other (b).....	\$ 1,109,439	\$ 1,216,115	\$ 1,311,286
Incentive Fees (c).....	58,027	21,275	20,515
Total Asset Management	\$ 1,167,466	\$ 1,237,390	\$ 1,331,801

(a) Financial Advisory is comprised of M&A Advisory, Capital Advisory, Capital Raising, Restructuring, Shareholder Advisory, Sovereign Advisory, and other strategic advisory work for clients. The benefits of these advisory services are generally transferred to the Company’s clients over time, and consideration for these advisory services typically includes transaction completion, transaction announcement and retainer fees. Retainer fees are generally fixed and recognized over the period in which the advisory services are performed. However, transaction announcement and transaction completion fees are variable and subject to constraints, and they are typically not recognized until there is an announcement date or a completion date, respectively, due to the uncertainty associated with those events. Therefore, in any given period, advisory fees recognized for certain transactions will relate to services performed in prior periods. The advisory fees that may be unrecognized as of the end of a reporting period, primarily comprised of fees associated with transaction announcements and transaction completions, generally remain unrecognized due to the uncertainty associated with those events.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

- (b) Management fees and other is primarily comprised of management services. The benefits of these management services are transferred to the Company’s clients over time. Consideration for these management services generally includes management fees, which are based on assets under management and recognized over the period in which the management services are performed. The selling or distribution of fund interests is a separate performance obligation within management fees and other, and the benefits of such services are transferred to the Company’s clients at the point in time that such fund interests are sold or distributed.
- (c) Incentive fees is primarily comprised of management services. The benefits of these management services are transferred to the Company’s clients over time. Consideration for these management services is generally variable and includes performance or incentive fees. The fees allocated to these management services that are unrecognized as of the end of the reporting period are generally amounts that are subject to constraints due to the uncertainty associated with performance targets and clawbacks.

In addition to the above, contracts with clients include trade-based commission income, which is recognized at the point in time of execution and presented within other revenue. Such income may be earned by providing trade facilitation, execution, clearance and settlement, custody, and trade administration services to clients.

With regard to the disclosure requirement for remaining performance obligations, the Company elected the practical expedients permitted in the guidance to (i) exclude contracts with a duration of one year or less; and (ii) exclude variable consideration, such as transaction completion and transaction announcement fees, that is allocated entirely to unsatisfied performance obligations. Excluded variable consideration typically relates to contracts with a duration of one year or less, and is generally constrained due to uncertainties. Therefore, when applying the practical expedients, amounts related to remaining performance obligations are not material to the Company’s financial statements.

5. RECEIVABLES

The Company’s receivables represent fee receivables, amounts due from customers and other receivables. The fee receivables are generally due within 60 days from the date of invoice except as related to certain Restructuring services and certain Capital Raising activities, specifically Private Capital Advisory services, which have fee receivables due upon specified contractual payment terms. For customer loans within customer and other receivables, the Company has elected to apply the practical expedient, in accordance with CECL guidance, for financial assets with collateral maintenance provisions, which results in no expected credit losses given that these loans are maintained with collateral having a fair value in excess of the carrying amount of the loans as of December 31, 2020.

Receivables are stated net of an estimated allowance for doubtful accounts determined in accordance with the CECL model, for general credit risk of the overall portfolio and for specific accounts deemed uncollectible, which may include situations where a fee is in dispute.

For fee receivables, the allowance for doubtful accounts is determined together for all Financial Advisory fees, except for Private Capital Advisory given the different nature of the business, client composition, and risk characteristics. In addition, a separate allowance for doubtful accounts is determined for all Asset Management fees. The allowance is measured by the application of an average charge-off rate, determined annually based on historical bad debt charge-off experience, to the fee receivable balance of the respective services, adjusted for specific allowance recognized based on current conditions of individual clients. The current factors are considered on a quarterly basis and include the aging of the receivables, the clients’ ability to make payments, and the Company’s relationship with the client. In addition, the Company also performs a qualitative assessment on a quarterly basis to monitor economic factors and other uncertainties that may require additional adjustment to the expected credit loss allowance.

With respect to fees receivable from Financial Advisory activities, such receivables are generally deemed past due when they are outstanding 60 days from the date of invoice, except for certain transactions that include specific

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

contractual payment terms that may vary from approximately one month to four years following the invoice date (as is the case for Private Capital Advisory fees) or may be subject to court approval (as is the case with Restructuring activities that include bankruptcy proceedings). In such cases, receivables are deemed past due when payment is not received by the agreed-upon contractual date or the court approval date, respectively. Financial Advisory fee receivables past due, from the date of invoice or the specific contractual payment terms, in excess of 180 days are fully provided for unless there is evidence that the balance is collectible. Notwithstanding our policy for receivables past due, any receivables that we determine are impaired result in specific reserves against such exposures. Asset Management fees are fully provided for when such receivables are outstanding 12 months after the invoice date. In addition, the Company specifically reserves against exposures relating to Asset Management fees where we determine receivables are impaired prior to being outstanding for 12 months.

Activity in the allowance for doubtful accounts for the years ended December 31, 2020, 2019 and 2018 was as follows:

	Year Ended December 31,		
	2020	2019	2018
Beginning Balance.....	\$ 27,130	\$ 40,164	\$ 23,746
Adjustment for adoption of new accounting guidance.....	7,575	-	-
Bad debt expense, net of reversals.....	3,991	(5,080)	27,164
Charge-offs, foreign currency translation and other adjustments.....	(2,047)	(7,954)	(10,746)
Ending Balance *.....	<u>\$ 36,649</u>	<u>\$ 27,130</u>	<u>\$ 40,164</u>

*The allowance for doubtful accounts balances are substantially all related to M&A and Restructuring fee receivables that include recoverable expense receivables.

Bad debt expense, net of reversals represents the current period provision of expected credit losses and is included in “operating expenses—other” on the consolidated statements of operations.

Of the Company’s fee receivables at December 31, 2020 and 2019, \$90,521 and \$77,052, respectively, represented interest-bearing financing receivables for our Private Capital Advisory fees. Based upon our historical loss experience, the credit quality of the counterparties, and the lack of uncollectible amounts, there was no allowance for doubtful accounts required at those dates related to such receivables.

The aggregate carrying amount of our non-interest-bearing receivables of \$652,620 and \$586,086 at December 31, 2020 and 2019, respectively, approximates fair value.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

6. INVESTMENTS

The Company’s investments and securities sold, not yet purchased, consist of the following at December 31, 2020 and 2019:

	December 31,	
	2020	2019
Interest-bearing deposits	\$ -	\$ 517
Debt	99,987	100,000
Equities	37,365	48,521
Funds:		
Alternative investments (a)	34,264	16,581
Debt (a)	123,554	113,579
Equity (a)	325,795	218,435
Private equity	37,567	34,362
	521,180	382,957
Total investments	658,532	531,995
Less:		
Interest-bearing deposits	-	517
Investments, at fair value	\$ 658,532	\$ 531,478
Securities sold, not yet purchased, at fair value (included in “other liabilities”)	\$ 1,176	\$ 12,894

(a) Interests in alternative investment funds, debt funds and equity funds include investments with fair values of \$11,128, \$90,758 and \$277,725, respectively, at December 31, 2020 and \$9,881, \$78,360 and \$170,897, respectively, at December 31, 2019, held in order to satisfy the Company’s liability upon vesting of previously granted LFI and other similar deferred compensation arrangements. LFI represent grants by the Company to eligible employees of actual or notional interests in a number of Lazard-managed funds, subject to service-based vesting conditions (see Notes 8 and 16).

Interest-bearing deposits have original maturities of greater than three months but equal to or less than one year and are carried at cost that approximates fair value due to their short-term maturities.

Debt primarily consists of U.S. Treasury securities with original maturities of greater than three months and less than one year.

Equities primarily consist of seed investments invested in marketable equity securities of large-, mid- and small-cap domestic, international and global companies held within separately managed accounts related to our Asset Management business.

Alternative investment funds primarily consist of interests in various Lazard-managed hedge funds, funds of funds and mutual funds. Such amounts primarily consist of seed investments in funds related to our Asset Management business and amounts related to LFI discussed above.

Debt funds primarily consist of seed investments in funds related to our Asset Management business that invest in debt securities, amounts related to LFI discussed above and an investment in a Lazard-managed debt fund.

Equity funds primarily consist of seed investments in funds related to our Asset Management business that invest in equity securities, and amounts related to LFI discussed above.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Private equity investments include those owned by Lazard and those consolidated but not owned by Lazard. Private equity investments owned by Lazard are primarily comprised of investments in private equity funds. Such investments primarily include (i) Edgewater Growth Capital Partners III, L.P. (“EGCP III”), a fund primarily making equity and buyout investments in middle market companies and (ii) a fund targeting significant noncontrolling-stake investments in established private companies.

Private equity investments consolidated but not owned by Lazard relate to the economic interests that are owned by the management team and other investors in the Edgewater Funds (“Edgewater”).

During the years ended December 31, 2020, 2019 and 2018, the Company reported in “revenue-other” on its consolidated statements of operations net unrealized investment gains and losses pertaining to “equity securities and trading debt securities” still held as of the reporting date as follows:

	Year Ended December 31,		
	2020	2019	2018
Net unrealized investment gains (losses)	\$ 49,719	\$ 36,610	\$ (43,009)

7. FAIR VALUE MEASUREMENTS

Fair Value Hierarchy of Investments and Certain Other Assets and Liabilities—Lazard categorizes its investments and certain other assets and liabilities recorded at fair value into a three-level fair value hierarchy as follows:

Level 1. Assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that Lazard has the ability to access.

Level 2. Assets and liabilities whose values are based on (i) quoted prices for similar assets or liabilities in an active market, or quoted prices for identical or similar assets or liabilities in non-active markets, or (ii) inputs other than quoted prices that are directly observable or derived principally from, or corroborated by, market data.

Level 3. Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect our own assumptions about the assumptions a market participant would use in pricing the asset or liability. Items included in Level 3 include securities or other financial assets whose trading volume and level of activity have significantly decreased when compared with normal market activity and there is no longer sufficient frequency or volume to provide pricing information on an ongoing basis.

The fair value of debt is classified as Level 1 when the fair values are based on unadjusted quoted prices in active markets.

The fair value of equities is classified as Level 1 or Level 3 as follows: marketable equity securities are classified as Level 1 and are valued based on the last trade price on the primary exchange for that security as provided by external pricing services; equity interests in private companies are generally classified as Level 3.

The fair value of investments in alternative investment funds, debt funds and equity funds is classified as Level 1 when the fair values are primarily based on the publicly reported closing price for the fund.

The fair value of investments in private equity funds is classified as Level 3 for certain investments that are valued based on the potential transaction value.

The fair value of securities sold, not yet purchased, is classified as Level 1 when the fair values are based on unadjusted quoted prices in active markets.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The fair value of the contingent consideration liability is classified as Level 3 and the fair value of the liability is remeasured at each reporting period. The inputs used to derive the fair value of the contingent consideration include the application of probabilities when assessing certain performance thresholds for the relevant periods. Any change in the fair value is recognized in “amortization and other acquisition-related costs (benefits)” in the consolidated statement of operations. Our business acquisitions may involve the potential payment of contingent consideration upon the achievement of certain performance thresholds. The contingent consideration liability is initially recorded at fair value of the contingent payments on the acquisition date and is included in “other liabilities” on the consolidated statements of financial condition.

The fair value of derivatives entered into by the Company is classified as Level 2 and is based on the values of the related underlying assets, indices or reference rates as follows: the fair value of forward foreign currency exchange rate contracts is a function of the spot rate and the interest rate differential of the two currencies from the trade date to settlement date; the fair value of total return swaps is based on the change in fair value of the related underlying equity security, financial instrument or index and a specified notional holding; the fair value of interest rate swaps is based on the interest rate yield curve; and the fair value of derivative liabilities related to LFI and other similar deferred compensation arrangements is based on the value of the underlying investments, adjusted for forfeitures. See Note 8.

Investments Measured at Net Asset Value (“NAV”)—As a practical expedient, the Company uses NAV or its equivalent to measure the fair value of certain investments. NAV is primarily determined based on information provided by external fund administrators. The Company’s investments valued at NAV as a practical expedient in (i) alternative investment funds, debt funds and equity funds are redeemable in the near term, and (ii) private equity funds are not redeemable in the near term as a result of redemption restrictions.

The following tables present, as of December 31, 2020 and 2019, the classification of (i) investments and certain other assets and liabilities measured at fair value on a recurring basis within the fair value hierarchy and (ii) investments measured at NAV or its equivalent as a practical expedient:

	December 31, 2020				
	Level 1	Level 2	Level 3	NAV	Total
Assets:					
Investments:					
Debt.....	\$ 99,987	\$ -	\$ -	\$ -	\$ 99,987

Total Level 3 Liabilities.....	<u>\$ 28,941</u>	<u>\$ (18,932)</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 10,009</u>

- (a) Earnings recorded in “other revenue” for investments in Level 3 assets for the years ended December 31, 2020, 2019 and 2018 include net unrealized gains (losses) of \$(117), \$(781) and \$61, respectively. Earnings recorded in “amortization and other acquisition-related costs (benefits)” for the contingent consideration liability for the years ended December 31, 2019 and 2018 include unrealized (gains) losses of \$17,170 and \$(18,932), respectively.
- (b) Certain investments that were valued at NAV as of December 31, 2018 were transferred to Level 3 during the year ended December 31, 2019 as these investments are valued based on a potential transaction value that differs from NAV.

There were no other transfers into or out of Level 3 within the fair value hierarchy during the years ended December 31, 2020 and 2019.

Financial Instruments Not Measured at Fair Value—The tables below present the carrying value, fair value and fair value hierarchy category of certain financial instruments as of December 31, 2020 and 2019 that are not measured at fair value in the Company’s consolidated statement of financial condition.

	December 31, 2020				
	Carrying Value	Fair Value Measurements Using:			
Fair Value		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Financial Assets:					
Cash and cash equivalents.....	\$ 1,389,876	\$ 1,389,876	\$ 1,389,876	\$ -	\$ -

Interest-bearing financing receivables	90,521	92,584	-	-	92,584
Financial Liabilities:					
Deposits and other customer payables	\$ 1,201,150	\$ 1,201,150	\$ 1,201,150	\$ -	\$ -
Senior debt.....	1,682,741	1,954,145	-	1,954,145	-

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

	December 31, 2019				
	Carrying Value	Fair Value Measurements Using:			
Fair Value		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Financial Assets:					
Cash and cash equivalents.....	\$ 1,231,593	\$ 1,231,593	\$ 1,231,593	\$ -	\$ -
Deposits with banks and short-term investments.....	1,180,686	1,180,686	1,180,686	-	-
Cash deposited with clearing organizations and other segregated cash.....	43,280	43,280	43,280	-	-
Interest-bearing financing receivables	77,052	78,940	-	-	78,940
Interest-bearing deposits (included within investments).....	517	517	517	-	-
Financial Liabilities:					
Deposits and other customer payables	\$ 1,246,200	\$ 1,246,200	\$ 1,246,200	\$ -	\$ -
Senior debt.....	1,679,562	1,838,716	-	1,838,716	-

Cash and cash equivalents are carried at either cost or amortized cost that approximates fair value due to their short-term maturities.

The carrying value of deposits with banks and short-term investments, and cash deposited with clearing organizations and other segregated cash, approximates fair value because of the relatively short period of time between their origination and expected maturity.

Fair values of interest-bearing financing receivables were generally determined by discounting both principal and interest cash flows expected to be collected, using a discount rate approximating current market interest rates for comparable financial instruments and based on unobservable inputs.

The carrying value of deposits and other customer payables and investments accounted for at amortized cost, such as interest-bearing deposits, approximate fair value due to their short-term nature.

The Company's senior debt is carried at historical amounts. The fair value of the Company's senior debt is based on market quotations.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The following tables present, at December 31, 2020 and 2019, certain investments that are valued using NAV or its equivalent as a practical expedient in determining fair value:

	December 31, 2020				
	Fair Value	Unfunded Commitments	% of Fair Value Not Redeemable	Redemption Frequency	Redemption Notice Period
Alternative investment funds:

- (c) daily (100%)
- (d) monthly (34%) and annually (66%)
- (e) Unfunded commitments to private equity investments consolidated but not owned by Lazard of \$11,155 are excluded. Such commitments are required to be funded by capital contributions from noncontrolling interest holders.
- (f) Distributions from each fund will be received as the underlying investments of the funds are liquidated.

Investment Capital Funding Commitments—At December 31, 2020, the Company’s maximum unfunded commitments for capital contributions to investment funds primarily arose from commitments to EGCP III, which amounted to \$5,370. The investment period for EGCP III ended on October 12, 2016, after which point the

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Company’s obligation to fund capital contributions for new investments in EGCP III expired. The Company remains obligated until October 12, 2023 (or any earlier liquidation of EGCP III) to make capital contributions necessary to fund follow-on investments and to pay for fund expenses.

8. DERIVATIVES

The table below presents the fair value of the Company’s derivative instruments reported within “other assets” and “other liabilities” and the fair value of the Company’s derivative liabilities relating to its obligations pertaining to LFI and other similar deferred compensation arrangements reported within “accrued compensation and benefits” (see Note 16) on the accompanying consolidated statements of financial condition as of December 31, 2020 and 2019:

	December 31,	
	2020	2019
Derivative Assets:		
Forward foreign currency exchange rate contracts.....	\$ 536	\$ 1,395
	\$ 536	\$ 1,395
Derivative Liabilities:		
Forward foreign currency exchange rate contracts.....	\$ 333	\$ 1,720
Total return swaps and other (a).....	2,752	8,527
LFI and other similar deferred compensation arrangements.....	311,400	226,026
	\$ 314,485	\$ 236,273

- (a) For total return swaps and for contracts with the same counterparty under legally enforceable master netting agreements, (i) as of December 31, 2020 amounts represent the netting of gross derivative assets and liabilities of \$152 and \$9,797, respectively, and receivables for net cash collateral under such contracts of \$6,893, and (ii) as of December 31, 2019 amounts represent the netting of gross derivative assets and liabilities of \$152 and \$8,679, respectively. Such amounts are recorded “net” by counterparty in “other assets” and “other liabilities”.

Net gains (losses) with respect to derivative instruments (included in “revenue-other”) and the Company’s derivative liabilities relating to its obligations pertaining to LFI and other similar deferred compensation arrangements (included in “compensation and benefits” expense) as reflected on the accompanying consolidated statements of operations for the years ended December 31, 2020, 2019 and 2018, were as follows:

	Year Ended December 31,		
	2020	2019	2018

Construction in progress		42,824	32,477
Total		660,058	587,387
Less - Accumulated depreciation and amortization		402,471	367,545
Property.....		<u>\$ 257,587</u>	<u>\$ 219,842</u>

10. LEASES

The Company leases office space and equipment under non-cancelable lease agreements, which expire on various dates through 2033. Substantially all of these arrangements are operating leases relating to office space. Certain leases have renewal options that can be exercised at the discretion of the Company. The Company only includes renewal options in the lease term when it is reasonably certain to exercise the option. The Company does not record leases with a lease term of 12 months or less on the consolidated statements of financial condition; lease expense for these leases is recognized over the lease term on a straight-line basis.

The operating lease liabilities at commencement reflect total lease payments discounted using an incremental borrowing rate (on a collateralized basis) based on the lease term (the “Discount”), as an implicit rate was not readily determinable for any of the Company’s existing operating leases. The Company determines its Discount with consideration of the Company’s public debt issuances as well as publicly available data for instruments with similar characteristics.

For leases commencing on January 1, 2019 or thereafter that relate to office space and equipment, the Company accounts for the lease and non-lease components as a single lease component.

In addition to rent payments, operating leases for office space generally contain payments for real estate taxes, insurance costs, common area maintenance, and utilities that are not fixed. The Company accounts for these costs as variable payments and does not include them in the lease component. There are certain office leases outside of the U.S. that have annual rent increases based on a year-over-year change in an index that are also accounted for as variable payments and are excluded from the lease component.

The following table summarizes the components of operating lease expense reflected on the accompanying consolidated statements of operations for the years ended December 31, 2020 and 2019:

	Year Ended December 31,	
	2020	2019
Operating lease cost.....	\$ 85,857	\$ 80,610
Variable lease cost.....	21,284	19,488
Less - sublease income	6,827	6,809
Total	<u>\$ 100,314</u>	<u>\$ 93,289</u>

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The following table summarizes the supplemental cash flow information and certain other information related to operating leases for the years ended December 31, 2020 and 2019:

	<u>Year Ended December 31,</u>	
	<u>2020</u>	<u>2019</u>
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases.....	\$ 91,643	\$ 84,948

Weighted average remaining lease term	11 years	11 years
Weighted average discount rate.....	3.6%	3.6%

Maturities of the operating lease liabilities outstanding at December 31, 2020 for each of the years in the period ending December 31, 2025 and thereafter are set forth in the table below.

<u>Year Ending December 31,</u>	
2021.....	\$ 91,931
2022.....	74,048
2023.....	68,057
2024.....	65,205
2025.....	59,387
Thereafter.....	<u>377,850</u>
Total lease payments	736,478
Less - Discount.....	<u>129,515</u>
Operating lease liabilities.....	<u><u>\$ 606,963</u></u>

11. GOODWILL AND OTHER INTANGIBLE ASSETS

The components of goodwill and other intangible assets at December 31, 2020 and 2019 are presented below:

	<u>December 31,</u>	
	<u>2020</u>	<u>2019</u>
Goodwill.....	\$ 383,861	\$ 371,773
Other intangible assets (net of accumulated amortization).....	210	1,821
	<u>\$ 384,071</u>	<u>\$ 373,594</u>

At December 31, 2020 and 2019, goodwill of \$319,320 and \$307,232, respectively, was attributable to the Company's Financial Advisory segment and, at each such respective date, \$64,541 of goodwill was attributable to the Company's Asset Management segment.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Changes in the carrying amount of goodwill for the years ended December 31, 2020, 2019 and 2018 are as follows:

	Year Ended December 31,		
	2020	2019	2018
Balance, January 1	\$ 371,773	\$ 371,561	\$ 385,292
Foreign currency translation adjustments	12,088	212	(13,731)
Balance, December 31	\$ 383,861	\$ 371,773	\$ 371,561

All changes in the carrying amount of goodwill for the years ended December 31, 2020, 2019 and 2018 are attributable to the Company's Financial Advisory segment.

The Company evaluates goodwill for impairment annually or more frequently if circumstances indicate that impairment may have occurred. Pursuant to the Company's goodwill impairment review for the years ended December 31, 2020, 2019 and 2018, the Company determined that no impairment existed.

The gross cost and accumulated amortization of other intangible assets as of December 31, 2020 and 2019, by major intangible asset category, are as follows:

	December 31, 2020			December 31, 2019		
	Gross Cost	Accumulated Amortization	Net Carrying Amount	Gross Cost	Accumulated Amortization	Net Carrying Amount
Success/incentive fees	\$ 35,385	\$ 35,385	\$ -	\$ 35,338	\$ 33,840	\$ 1,498
Management fees, customer relationships and non-compete agreements.....	34,980	34,770	210	34,788	34,465	323
	\$ 70,365	\$ 70,155	\$ 210	\$ 70,126	\$ 68,305	\$ 1,821

Amortization expense of intangible assets, included in "amortization and other acquisition-related costs (benefits)" in the consolidated statements of operations, for the years ended December 31, 2020, 2019 and 2018 was \$1,795, \$2,240 and \$3,035, respectively. Estimated future amortization expense is as follows:

Year Ending December 31,	Amortization Expense
2021	\$ 60
2022	60
2023	60
2024	30
Total amortization expense	\$ 210

12. OTHER ASSETS AND OTHER LIABILITIES

The following table sets forth the Company's other assets, by type, as of December 31, 2020 and 2019:

	December 31,	
	2020	2019
Current income and other tax receivables	\$ 49,147	\$ 59,048
Prepaid compensation (see Note 16).....	101,631	74,597
Other advances and prepayments	82,224	43,099
Other	74,330	80,455
Total.....	\$ 307,332	\$ 257,199

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The following table sets forth the Company’s other liabilities, by type, as of December 31, 2020 and 2019:

	December 31,	
	2020	2019
Accrued expenses	\$ 180,724	\$ 179,275
Current income taxes and other taxes	139,705	138,363
Employee benefit-related liabilities	60,599	51,370
Unclaimed funds at LFB	18,967	17,405
Deferred revenue (a)	90,715	97,964
Securities sold, not yet purchased	1,176	12,894
Other	32,652	36,997
Total	\$ 524,538	\$ 534,268

(a) The change in deferred revenue during the year ended December 31, 2020 principally relates to the recognition of previously deferred revenue.

13. SENIOR DEBT

Senior debt is comprised of the following as of December 31, 2020 and 2019:

	Initial Principal Amount	Annual Maturity Date	Annual Interest Rate(b)	Outstanding as of					
				December 31, 2020			December 31, 2019		
				Principal	Unamortized Debt Costs	Carrying Value	Principal	Unamortized Debt Costs	Carrying Value
Lazard Group 2025 Senior Notes	\$400,000	2/13/25	3.75%	\$ 400,000	\$ 1,948	\$ 398,052	\$ 400,000	\$ 2,416	\$ 397,584
Lazard Group 2027 Senior Notes	300,000	3/1/27	3.625%	300,000	2,405	297,595	300,000	2,822	297,178
Lazard Group 2028 Senior Notes	500,000	9/19/28	4.50%	500,000	6,568	493,432	500,000	7,814	492,186
Lazard Group 2029 Senior Notes (a)	500,000	3/11/29	4.375%	500,000	6,338	493,662	500,000	7,386	492,614
Total				\$1,700,000	\$ 17,259	\$1,682,741	\$1,700,000	\$ 20,438	\$1,679,562

- (a) During March 2019, Lazard Group completed an offering of \$500,000 aggregate principal amount of 4.375% senior notes due 2029 (the “2029 Notes”). Interest on the 2029 Notes is payable semi-annually on March 11 and September 11 of each year, beginning September 11, 2019. Lazard Group used a portion of the net proceeds of the 2029 Notes to redeem or otherwise retire \$250,000 aggregate principal amount of the 4.25% senior notes due 2020 (the “2020 Notes”). In March 2019, \$167,943 aggregate principal amount was redeemed or otherwise retired, and the remaining \$82,057 was redeemed or otherwise retired in April 2019.
- (b) The effective interest rates of Lazard Group’s 3.75% senior notes due February 13, 2025 (the “2025 Notes”), Lazard Group’s 3.625% senior notes due March 1, 2027 (the “2027 Notes”), Lazard Group’s 4.50% senior notes due September 19, 2028 (the “2028 Notes”) and the 2029 Notes are 3.87%, 3.76%, 4.67% and 4.53%, respectively.

On July 22, 2020, Lazard Group entered into an Amended and Restated Credit Agreement for a three-year, \$200,000 senior revolving credit facility with a group of lenders, which expires in July 2023 (the “Amended and Restated Credit Agreement”). The Amended and Restated Credit Agreement amended and restated Lazard Group’s

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued) (dollars in thousands, except for per share data, unless otherwise noted)

amended and restated credit agreement, dated September 25, 2015 (the “Previous Credit Agreement”), in its entirety. Borrowings under the Amended and Restated Credit Agreement generally will bear interest at LIBOR plus an applicable margin for specific interest periods determined based on Lazard Group’s highest credit rating from an internationally recognized credit agency. The Amended and Restated Credit Agreement contains certain covenants, events of default and other customary provisions, including customary LIBOR-replacement mechanics. At December 31, 2020 and 2019, no amounts were outstanding under the Amended and Restated Credit Agreement or the Previous Credit Agreement, respectively.

As of December 31, 2020, the Company had approximately \$213,400 in unused lines of credit available to it, including the credit facility provided under the Amended and Restated Credit Agreement and unused lines of credit available to LFB of approximately \$12,000.

The Amended and Restated Credit Agreement and the indenture and the supplemental indentures relating to Lazard Group’s senior notes contain certain covenants, events of default and other customary provisions, including a customary make-whole provision in the event of early redemption, where applicable. As of December 31, 2020, the Company was in compliance with such provisions. All of the Company’s senior debt obligations are unsecured.

Debt maturities relating to senior borrowings outstanding at December 31, 2020 for each of the five years in the period ending December 31, 2025 and thereafter are set forth in the table below.

<u>Year Ending December 31,</u>	
2021 - 2024	\$ -
2025	400,000
Thereafter	<u>1,300,000</u>
Total	<u>\$ 1,700,000</u>

The Company’s senior debt at December 31, 2020 and 2019 is carried at historical amounts. See Note 7 for information regarding the fair value and fair value hierarchy category of the Company’s senior debt.

14. COMMITMENTS AND CONTINGENCIES

Other Commitments—The Company has various other contractual commitments arising in the ordinary course of business. In addition, from time to time, LFB and LFNy may enter into underwriting commitments in which it will participate as an underwriter. At December 31, 2020, LFB and LFNy had no such underwriting commitments.

See Notes 7 and 17 for information regarding commitments relating to investment capital funding commitments and obligations to fund our pension plans, respectively.

In the opinion of management, the fulfillment of the commitments described herein will not have a material adverse effect on the Company’s consolidated financial position or results of operations.

Legal—The Company is involved from time to time in judicial, governmental, regulatory and arbitration proceedings and inquiries concerning matters arising in connection with the conduct of our businesses, including proceedings initiated by former employees alleging wrongful termination. The Company reviews such matters on a case-by-case basis and establishes any required accrual if a loss is probable and the amount of such loss can be reasonably estimated. The Company experiences significant variation in its revenue and earnings on an annual basis. Accordingly, the results of any pending matter or matters could be significant when compared to the Company’s earnings in any particular year. The Company believes, however, based on currently available information, that the results of any pending matters, in the aggregate, will not have a material effect on its business or financial condition.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

15. STOCKHOLDERS' EQUITY

Class A Common Stock Cancellation—On October 31, 2019, Lazard Group distributed to its managing members, which are subsidiaries of Lazard Ltd, 17,000,000 shares of common stock that were held by Lazard Group. These shares were ultimately received by Lazard Ltd and cancelled. There was no impact on total stockholders' equity as a result of the share cancellation.

Share Repurchase Program—Since 2018 and through the year ended December 31, 2020, the Board of Directors of Lazard authorized the repurchase of common stock as set forth in the table below.

<u>Date</u>	<u>Repurchase Authorization</u>	<u>Expiration</u>
April 2018.....	\$ 300,000	December 31, 2020
October 2018.....	\$ 300,000	December 31, 2020
February 2019.....	\$ 300,000	December 31, 2020
October 2019.....	\$ 300,000	December 31, 2021

The Company expects that the share repurchase program will continue to be used to offset a portion of the shares that have been or will be issued under the Lazard Ltd 2008 Incentive Compensation Plan (the “2008 Plan”) and the Lazard Ltd 2018 Incentive Compensation Plan (the “2018 Plan”). Pursuant to the share repurchase program, purchases have been made in the open market or through privately negotiated transactions. The rate at which the Company purchases shares in connection with the share repurchase program may vary from period to period due to a variety of factors. Purchases with respect to such program are set forth in the table below:

<u>Years Ended December 31:</u>	<u>Number of Shares Purchased</u>	<u>Average Price Per Share</u>
2018.....	12,206,652	\$ 45.29
2019.....	13,674,439	\$ 36.18
2020.....	2,912,035	\$ 32.70

There were 7,728,387 and 8,513,493 shares of common stock held by our subsidiaries at December 31, 2020 and 2019, respectively. Such shares of common stock are reported, at cost, as “Class A common stock held by subsidiaries” on the accompanying consolidated statements of financial condition.

During 2020, 2019 and 2018, certain of our executive officers received common stock in connection with the vesting or settlement of previously-granted deferred equity incentive awards. The vesting or settlement of such equity awards gave rise to a tax payable by the executive officers, and, consistent with our past practice, the Company purchased shares of common stock from certain of our executive officers equal in value to all or a portion of the estimated amount of such tax. In addition, during the years ended December 31, 2020 and 2018, the Company purchased shares of common stock from certain of our executive officers. The aggregate value of all such purchases in 2020, 2019 and 2018 was approximately \$10,000, \$14,600 and \$17,700, respectively. Such shares of common stock are reported at cost.

As of December 31, 2020, a total of \$300,000 of share repurchase authorization remained available under the Company’s share repurchase program, which will expire on December 31, 2021.

During the year ended December 31, 2020, the Company had in place trading plans under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), pursuant to which it effected stock repurchases in the open market.

Preferred Stock—Lazard Ltd has 15,000,000 authorized shares of preferred stock, par value \$0.01 per share, inclusive of its Series A and Series B preferred stock. Series A and Series B preferred shares were issued in

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

connection with certain prior year business acquisitions and were each non-participating securities convertible into common stock, and had no voting or dividend rights. As of December 31, 2020, 2019 and 2018, no shares of Series A or Series B preferred stock were outstanding.

Accumulated Other Comprehensive Income (Loss), Net of Tax—The tables below reflect the balances of each component of AOCI at December 31, 2020, 2019 and 2018 and activity during the years then ended:

	Currency Translation Adjustments	Employee Benefit Plans	Total AOCI	Amount Attributable to Noncontrolling Interests	Total Lazard Ltd AOCI

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The table below reflects adjustments for items reclassified out of AOCI, by component, for the years ended December 31, 2020, 2019 and 2018:

	Year Ended December 31,		
	2020	2019	2018
Amortization relating to employee benefit plans (a).....	\$ 7,522	\$ 5,884	\$ 13,070
Less - related income taxes	1,476	1,167	2,335
Total reclassifications, net of tax.....	<u>\$ 6,046</u>	<u>\$ 4,717</u>	<u>\$ 10,735</u>

(a) Included in the computation of net periodic benefit cost (see Note 17). Such amounts are included in “operating expenses—other” on the consolidated statements of operations.

Noncontrolling Interests—Noncontrolling interests principally represent (i) interests held in Edgewater’s management vehicles that the Company is deemed to control, but does not own, (ii) profits interest participation rights (see Note 16) and (iii) consolidated VIE interests held by employees (see Note 24).

The tables below summarize net income (loss) attributable to noncontrolling interests for the years ended December 31, 2020, 2019 and 2018 and noncontrolling interests as of December 31, 2020 and 2019, in the Company’s consolidated financial statements:

	Net Income (Loss)		
	Attributable to Noncontrolling Interests		
	Year Ended December 31,

Dividends Declared, February 4, 2021—On February 4, 2021, the Board of Directors of Lazard declared a quarterly dividend of \$0.47 per share on our common stock. The dividend is payable on March 2, 2021, to stockholders of record on February 19, 2021.

16. INCENTIVE PLANS

Share-Based Incentive Plan Awards

A description of Lazard Ltd’s 2018 Plan, 2008 Plan and 2005 Equity Incentive Plan (the “2005 Plan”) and activity with respect thereto during the years ended December 31, 2020, 2019 and 2018 is presented below.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Shares Available Under the 2018 Plan, 2008 Plan and 2005 Plan

The 2018 Plan became effective on April 24, 2018 and replaced the 2008 Plan, which was terminated on April 24, 2018. The 2018 Plan authorizes the issuance of up to 30,000,000 shares of common stock pursuant to the grant or exercise of stock options, stock appreciation rights, restricted stock units (“RSUs”), performance-based restricted stock units (“PRSUs”), profits interest participation rights, including performance-based restricted participation units (“PRPUs”), and other share-based awards.

The 2008 Plan authorized the issuance of shares of common stock pursuant to the grant or exercise of stock options, stock appreciation rights, RSUs, PRSUs and other share-based awards. Under the 2008 Plan, the maximum number of shares available was based on a formula that limited the aggregate number of shares that could, at any time, be subject to awards that were considered “outstanding” under the 2008 Plan to 30% of the then-outstanding shares of common stock. The 2008 Plan was terminated on April 24, 2018, and no additional awards have been or will be granted under the 2008 Plan after its termination, although outstanding awards granted under the 2008 Plan before its termination continue to be subject to its terms.

The 2005 Plan authorized the issuance of up to 25,000,000 shares of common stock pursuant to the grant or exercise of stock options, stock appreciation rights, RSUs and other share-based awards. The 2005 Plan expired in the second quarter of 2015, although outstanding deferred stock unit (“DSU”) awards granted under the 2005 Plan before its expiration continue to be subject to its terms.

The following reflects the amortization expense recorded with respect to share-based incentive plans within “compensation and benefits” expense (with respect to RSUs, PRSUs, restricted stock, profits interest participation rights, including PRPUs, and other share-based awards) and “professional services” expense (with respect to DSUs) within the Company’s accompanying consolidated statements of operations:

	Year Ended December 31,		
	2020	2019	2018
Share-based incentive awards:			
RSUs	\$ 140,556	\$ 168,338	\$ 193,924
PRSUs	6,264	8,742	34,114
Restricted Stock	27,976	29,322	37,261
Profits interest participation rights	41,293	44,537	-
DSUs	2,360	2,345	2,274
Total	<u>\$ 218,449</u>	<u>\$ 253,284</u>	<u>\$ 267,573</u>

The ultimate amount of compensation and benefits expense relating to share-based awards is dependent upon the actual number of shares of common stock that vest. The Company periodically assesses the forfeiture rates used for such estimates, including as a result of any applicable performance conditions. A change in estimated forfeiture rates or performance results in a cumulative adjustment to compensation and benefits expense and also would cause the aggregate amount of compensation expense recognized in future periods to differ from the estimated unrecognized compensation expense described below.

The Company’s share-based incentive plans and awards are described below.

RSUs and DSUs

RSUs generally require future service as a condition for the delivery of the underlying shares of common stock (unless the recipient is then eligible for retirement under the Company’s retirement policy) and convert into shares of common stock on a one-for-one basis after the stipulated vesting periods. The grant date fair value of the RSUs, net of an estimated forfeiture rate, is amortized over the vesting periods or requisite service periods (generally, one-third after two years and the remaining two-thirds after the third year), and is adjusted for actual forfeitures over such period.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

RSUs generally include a dividend participation right that provides that, during the applicable vesting period, each RSU is attributed additional RSUs equivalent to any dividends paid on common stock during such period. During the year ended December 31, 2020, dividend participation rights required the issuance of 608,328 RSUs and the associated charge to “retained earnings”, net of estimated forfeitures (with corresponding credits to “additional paid-in-capital”) was \$19,082.

Non-executive members of the Board of Directors (“Non-Executive Directors”) receive approximately 55% of their annual compensation for service on the Board of Directors and its committees in the form of DSUs, which resulted in 60,022 DSUs being granted during the year ended December 31, 2020. Their remaining compensation is payable in cash, which they may elect to receive in the form of additional DSUs under the Directors’ Fee Deferral Unit Plan described below. DSUs are convertible into shares of common stock at the time of cessation of service to the Board of Directors. DSUs include a cash dividend participation right equivalent to dividends paid on common stock.

Lazard Ltd’s Directors’ Fee Deferral Unit Plan permits the Non-Executive Directors to elect to receive additional DSUs in lieu of some or all of their cash fees. The number of DSUs granted to a Non-Executive Director pursuant to this election will equal the value of cash fees that the applicable Non-Executive Director has elected to forego pursuant to such election, divided by the market value of a share of common stock on the date immediately preceding the date of the grant. During the year ended December 31, 2020, 22,805 DSUs had been granted pursuant to such Plan.

DSU awards are expensed at their fair value on their date of grant, inclusive of amounts related to the Directors’ Fee Deferral Unit Plan.

The following is a summary of activity relating to RSUs and DSUs for the year ended December 31, 2020:

	RSUs		DSUs	
	Units	Weighted Average Grant Date Fair Value	Units	Weighted Average Grant Date Fair Value
Balance, January 1, 2020	10,387,566	\$ 44.66	395,973	\$ 38.01
Granted (including 608,328 RSUs relating to dividend participation)	3,481,980	\$ 42.60	82,827	\$ 28.49
Forfeited.....	(122,098)	\$ 41.55	-	-
Settled	(4,481,104)	\$ 46.67	-	-
Balance, December 31, 2020.....	9,266,344	\$ 42.96	478,800	\$ 36.36

In connection with RSUs that settled during the year ended December 31, 2020, the Company satisfied its minimum statutory tax withholding requirements in lieu of delivering 1,629,174 shares of common stock during the year. Accordingly, 2,851,930 shares of common stock held by the Company were delivered during the year ended December 31, 2020.

As of December 31, 2020, estimated unrecognized RSU compensation expense was \$100,429, with such expense expected to be recognized over a weighted average period of approximately 0.8 years subsequent to December 31, 2020.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Restricted Stock

The following is a summary of activity related to shares of restricted common stock associated with compensation arrangements during year ended December 31, 2020:

	Restricted Shares	Weighted Average Grant Date Fair Value
Balance, January 1, 2020	1,039,306	\$ 41.79
Granted (including 35,288 relating to dividend participation)..	697,140	\$ 42.89
Forfeited.....	(26,577)	\$ 39.79
Settled	(564,910)	\$ 44.65
Balance, December 31, 2020.....	1,144,959	\$ 41.09

In connection with shares of restricted common stock that settled during the year ended December 31, 2020, the Company satisfied its minimum statutory tax withholding requirements in lieu of delivering 200,364 shares of common stock during the year. Accordingly, 364,546 shares of common stock held by the Company were delivered during the year ended December 31, 2020.

Restricted stock awards granted in 2020 generally include a dividend participation right that provides that during the applicable vesting period each restricted stock award is attributed additional shares of restricted common stock equivalent to any dividends paid on common stock during such period. During the year ended December 31, 2020, dividend participation rights required the issuance of 35,288 shares of restricted common stock and the associated charge to “retained earnings”, net of estimated forfeitures (with corresponding credits to “additional paid-in-capital”) was \$1,106. With respect to awards granted prior to 2020, the restricted stock awards include a cash dividend participation right equivalent to dividends paid on common stock during the period, which will vest concurrently with the underlying restricted stock award. At December 31, 2020, estimated unrecognized restricted stock expense was \$17,045, with such expense to be recognized over a weighted average period of approximately 0.8 years subsequent to December 31, 2020.

PRSU's

PRSU's are RSUs that are subject to both performance-based and service-based vesting conditions. The number of shares of common stock that a recipient will receive upon vesting of a PRSU will be calculated by reference to certain performance metrics that relate to Lazard Ltd's performance over a three-year period. The target number of shares of common stock subject to each PRSU is one; however, based on the achievement of the performance criteria, the number of shares of common stock that may be received in connection with each PRSU generally can range from zero to two times the target number. PRSU's will vest on a single date approximately three years following the date of the grant, provided the applicable service and performance conditions are satisfied. In addition, the performance metrics applicable to each PRSU will be evaluated on an annual basis at the end of each fiscal year during the performance period and, if Lazard Ltd has achieved a threshold level of performance with respect to the fiscal year, 25% of the target number of shares of common stock subject to each PRSU will no longer be at risk of forfeiture based on the achievement of performance criteria. PRSU's include dividend participation rights that provide that during vesting periods the target number of PRSU's (or, following the relevant performance period, the actual number of shares of common stock that are no longer subject to performance conditions) receive dividend equivalents at the same rate that dividends are paid on common stock during such periods. These dividend equivalents are credited as RSUs that are not subject to the performance-based vesting criteria but are otherwise subject to the same restrictions as the underlying PRSU's to which they relate.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The following is a summary of activity relating to PRSUs during the year ended December 31, 2020:

	PRSUs	Weighted Average Grant Date Fair Value
Balance, January 1, 2020	797,705	\$ 47.65
Performance units earned (a).....	299,904	\$ 50.74
Settled.....	(550,650)	\$ 43.54
Balance, December 31, 2020.....	546,959	\$ 53.48

- (a) Represents shares of common stock earned during the fiscal year under the performance criteria of previously-granted PRSU awards in excess of the target payout level of such awards.

In connection with certain PRSUs that settled during the year ended December 31, 2020, the Company satisfied its minimum statutory tax withholding requirements in lieu of delivering 91,314 shares of common stock during the year. Accordingly, 459,336 shares of common stock held by the Company were delivered during the year ended December 31, 2020.

Compensation expense recognized for PRSU awards is determined by multiplying the number of shares of common stock underlying such awards that, based on the Company's estimate, are considered probable of vesting, by the grant date fair value. As of December 31, 2020, the total estimated unrecognized compensation expense was \$415, and the Company expects to amortize such expense over a weighted-average period of approximately 0.1 years subsequent to December 31, 2020.

Profits Interest Participation Rights

In early 2019, the Company established a new long-term incentive compensation program consisting of profits interest participation rights, which are equity incentive awards that, subject to certain conditions, may be exchanged for shares of common stock pursuant to the 2018 Plan. Pursuant to the program, in February 2019 and February 2020, the Company granted profits interest participation rights subject to service-based and performance-based vesting criteria and other conditions, which we refer to as performance-based restricted participation units ("PRPUs"), to each of the Company's named executive officers. The Company also granted profits interest participation rights subject to service-based vesting criteria and other conditions, but not the performance-based vesting criteria associated with PRPUs, to a limited number of other senior employees, pursuant to profits interest participation right agreements in February 2019 and February 2020. Profits interest participation rights generally provide for vesting approximately three years following the grant date, so long as applicable conditions have been satisfied.

Profits interest participation rights are a class of membership interests in Lazard Group that are intended to qualify as "profits interests" for U.S. federal income tax purposes, and are recorded as noncontrolling interests within stockholders' equity in the Company's consolidated statements of financial condition until they are exchanged into common stock, at which time there is a reclassification to additional paid-in-capital. The profits interest participation rights generally allow the recipient to realize value only to the extent that both (i) the service-based vesting conditions and, if applicable, the performance conditions, are satisfied, and (ii) an amount of economic appreciation in the assets of Lazard Group occurs as necessary to satisfy certain partnership tax rules (referred to as the "Minimum Value Condition") before the fifth anniversary of the grant date, otherwise the profits interest participation rights will be forfeited. Upon satisfaction of such conditions, profits interest participation rights that are in parity with the value of common stock will be exchanged on a one-for-one basis for shares of common stock. If forfeited based solely on failing to meet the Minimum Value Condition, the associated compensation expense would not be reversed. With regard to the profits interest participation rights granted in February 2019 and February 2020, the Minimum Value Condition was met during the year ended December 31, 2020 and during February 2021, respectively.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Like outstanding RSUs and similar awards, profits interest participation rights are subject to continued employment and other conditions and restrictions and are forfeited if those conditions and restrictions are not fulfilled. More specifically, vesting of profits interest participation rights are subject to compliance with restrictive covenants including non-compete, non-solicitation of clients, no hire of employees and confidentiality, which are similar to those applicable to PRSUs and RSUs. In addition, profits interest participation rights must satisfy the Minimum Value Condition. PRPUs, like outstanding PRSUs, are also subject to the achievement of incremental pre-established performance conditions and financial metrics and only result in value to the recipient to the extent the conditions are satisfied.

The number of shares of common stock that a recipient will receive upon the exchange of a PRPU award is calculated by reference to applicable financial metrics. The target number of shares of common stock subject to each PRPU is one. Based on the achievement of performance criteria, as determined by the Compensation Committee, the number of shares of common stock that may be received in connection with each PRPU award will range from zero to two times the target number. Unless applicable performance conditions are satisfied during the three year performance period, and the Minimum Value Condition is satisfied within five years following the grant date, all PRPUs will be forfeited, and the recipients will not be entitled to any such awards.

In addition, the performance metrics applicable to each PRPU will be evaluated on an annual basis at the end of each fiscal year during the performance period, and, if Lazard Ltd has achieved a threshold level of performance with respect to the fiscal year, 25% of the target number of PRPUs will no longer be at risk of forfeiture based on the achievement of performance criteria. Profits interest participation rights are allocated income, subject to vesting and settled in cash, in respect of dividends paid on common stock.

The following is a summary of activity relating to profits interest participation rights, including PRPUs, during the year ended December 31, 2020:

	Profits Interest Participation Rights	Weighted Average Grant Date Fair Value
Balance, January 1, 2020	1,462,702	\$ 38.65
Granted	1,060,373	\$ 42.89
Balance, December 31, 2020 (a)	<u>2,523,075</u>	<u>\$ 40.43</u>

(a) Table includes 1,050,778 PRPUs, which represents the target number of PRPUs granted as of December 31, 2020, including 486,611 PRPUs granted during the year ended December 31, 2020. The weighted average grant date fair values for PRPUs and other profits interest participation rights outstanding as of January 1, 2020 and those granted during the year ended December 31, 2020 were, in each case, the same for PRPUs and other profits interest participation rights. The weighted average grant date fair values for PRPUs and other profits interest participation rights outstanding as of December 31, 2020 were \$40.61 and \$40.30, respectively.

Compensation expense recognized for profits interest participation rights, including PRPUs, is determined by multiplying the number of shares of common stock underlying such awards that, based on the Company's estimate, are considered probable of vesting, by the grant date fair value. As of December 31, 2020, the total estimated unrecognized compensation expense was \$21,633, and the Company expects to amortize such expense over a weighted-average period of approximately 0.9 years subsequent to December 31, 2020.

LFI and Other Similar Deferred Compensation Arrangements

Commencing in February 2011, the Company granted LFI to eligible employees. In connection with LFI and other similar deferred compensation arrangements, which generally require future service as a condition for vesting, the Company recorded a prepaid compensation asset and a corresponding compensation liability on the grant date based upon the fair value of the award. The prepaid asset is amortized on a straight-line basis over the applicable

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

vesting periods or requisite service periods (which are generally similar to the comparable periods for RSUs) and is charged to “compensation and benefits” expense within the Company’s consolidated statement of operations. LFI and similar deferred compensation arrangements that do not require future service are expensed immediately. The related compensation liability is accounted for at fair value as a derivative liability, which contemplates the impact of estimated forfeitures, and is adjusted for changes in fair value primarily related to changes in value of the underlying investments.

The following is a summary of activity relating to LFI and other similar deferred compensation arrangements during the year ended December 31, 2020:

	Prepaid Compensation Asset	Compensation Liability
Balance, January 1, 2020	\$ 74,597	\$ 226,026
Granted	143,289	143,289
Settled.....	-	(104,774)
Forfeited	(3,134)	(6,979)
Amortization	(113,119)	-
Change in fair value related to:		
Increase in fair value of underlying investments	-	40,634
Adjustment for estimated forfeitures	-	10,167
Other.....	(2)	3,037
Balance, December 31, 2020.....	\$ 101,631	\$ 311,400

The amortization of the prepaid compensation asset will generally be recognized over a weighted average period of approximately 0.9 years subsequent to December 31, 2020.

The following is a summary of the impact of LFI and other similar deferred compensation arrangements on “compensation and benefits” expense within the accompanying consolidated statements of operations for the years ended December 31, 2020, 2019 and 2018:

	Year Ended December 31,		
	2020	2019	2018
Amortization, net of forfeitures	\$ 119,441	\$ 105,250	\$ 90,230
Change in the fair value of underlying investments.....	40,634	31,657	(14,086)
Total.....	\$ 160,075	\$ 136,907	\$ 76,144

Incentive Awards Granted In February 2021

In February 2021, the Company granted approximately \$364,000 of deferred incentive compensation awards to eligible employees as part of the year-end compensation process with respect to the 2020 fiscal year. These grants included: RSUs or shares of restricted common stock; PRSUs; profits interest participation rights, including PRPUs; LFI awards; deferred cash awards; and a portion of certain fund managers’ year-end incentive compensation that is reinvested in certain funds managed by the Company’s Asset Management business.

The RSUs, restricted common stock and LFI granted generally provide for one-third vesting on the second anniversary of the grant date and the remaining two-thirds vesting on the third anniversary of the grant date, so long as applicable conditions have been satisfied. PRSUs and the profits interest participation rights granted generally provide for vesting on the third anniversary of the grant date, so long as applicable conditions have been satisfied. Compensation expense with respect to such incentive awards will generally be recognized over the applicable service period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

17. EMPLOYEE BENEFIT PLANS

The Company provides retirement and other post-retirement benefits to certain of its employees through defined benefit pension plans (the “pension plans”). The Company also offers defined contribution plans to its employees. The pension plans generally provide benefits to participants based on average levels of compensation. Expenses related to the Company’s employee benefit plans are included in “compensation and benefits” expense for the service cost component, and “operating expenses—other” for the other components of benefit costs on the consolidated statements of operations.

Employer Contributions to Pension Plans—The Company’s funding policy for its U.S. and non-U.S. pension plans is to fund when required or when applicable upon an agreement with the plans’ trustees. Management also evaluates from time to time whether to make voluntary contributions to the plans.

The Company expects to contribute approximately \$3,400 to the non-U.S. pension plans during the year ending December 31, 2021.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The following table summarizes the changes in the benefit obligations, the fair value of the assets, the funded status and amounts recognized in the consolidated statements of financial condition for the post-retirement plans. The Company uses December 31 as the measurement date for its post-retirement plans.

	Pension Plans	
	2020	2019
Change in benefit obligation		
Benefit obligation at beginning of year.....	\$ 744,705	\$ 655,015
Service cost.....	843	815
Interest cost.....	11,912	15,350
Actuarial loss.....	60,613	89,242
Benefits paid.....	(30,400)	(30,817)
Settlements.....	(4,178)	-
Foreign currency translation and other adjustments.....	28,167	15,100
Benefit obligation at end of year.....	<u>811,662</u>	<u>744,705</u>
Change in plan assets		
Fair value of plan assets at beginning of year.....	710,592	642,837
Actual return on plan assets.....	86,248	74,844
Employer contributions.....	6,708	5,623
Benefits paid.....	(30,272)	(30,760)
Settlements.....	(3,926)	-
Foreign currency translation and other adjustments.....	30,545	18,048
Fair value of plan assets at end of year.....	<u>799,895</u>	<u>710,592</u>
Funded (deficit) at end of year.....	<u>\$ (11,767)</u>	<u>\$ (34,113)</u>
Amounts recognized in the consolidated statements of financial condition at December 31, 2020 and 2019 consist of:		
Prepaid pension asset (included in “other assets”).....	\$ 28,473	\$ 2,922
Accrued benefit liability (included in “other liabilities”).....	(40,240)	(37,035)
Net amount recognized.....	<u>\$ (11,767)</u>	<u>\$ (34,113)</u>
Amounts recognized in AOCI (excluding tax benefits of \$41,253 and \$41,298 at December 31, 2020 and 2019, respectively) consist of:		
Actuarial net loss (gain).....	\$ 208,743	\$ 211,197
Prior service cost (credit).....	3,154	3,165
Net amount recognized.....	<u>\$ 211,897</u>	<u>\$ 214,362</u>

For the years ended December 31, 2020 and 2019, the change in the benefit obligation related to the actuarial loss is principally attributable to changes in the discount rates.

The following table summarizes the fair value of plan assets, the accumulated benefit obligation and the projected benefit obligation at December 31, 2020 and 2019:

	U.S. Pension Plans		Non-U.S. Pension Plans		Total	
	As Of December 31,		As Of December 31,		As Of December 31,

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The assumptions used to develop actuarial present value of the projected benefit obligation and net periodic pension cost as of or for the years ended December 31, 2020, 2019 and 2018 are set forth below:

	Pension Plans December 31,		
	2020	2019	2018
Weighted average assumptions used to determine benefit obligations:			
Discount rate	1.3%	1.8%	2.6%
Weighted average assumptions used to determine net periodic benefit cost:			
Discount rate	1.6%	2.2%	2.4%
Expected long-term rate of return on plan assets.....	3.9%	4.4%	4.4%

Generally, the Company determined the discount rates for its defined benefit plans by utilizing indices for long-term, high-quality bonds and ensuring that the discount rate does not exceed the yield reported for those indices after adjustment for the duration of the plans' liabilities.

In selecting the expected long-term rate of return on plan assets, the Company considered the average rate of earnings expected on the funds invested or to be invested to provide for the benefits of the plan, giving consideration to expected returns on different asset classes held by the plans in light of prevailing economic conditions as well as historical returns. This basis is consistent for all years presented.

Expected Benefit Payments—The following table summarizes the expected benefit payments for the Company's pension plans for each of the next five fiscal years and in the aggregate for the five fiscal years thereafter:

	Pension Plans
2021	\$ 27,940
2022	28,477
2023	28,068
2024	30,325
2025	30,243
2026-2030	156,134

LAZARD LTD

(dollars in thousands, except for per share data, unless otherwise noted)

Plan Assets—The following tables present the categorization of our pension plans’ assets as of December 31, 2020 and 2019, measured at fair value, into a fair value hierarchy and investments measured at NAV or its equivalent as a practical expedient in accordance with fair value measurement disclosure requirements:

	As of December 31, 2020				
	Level 1	Level 2	Level 3	NAV (a)	Total
Assets:					
Cash.....	\$ 19,489	\$ -	\$ -	\$ -	\$ 19,489
Debt.....	84,031	-	-	-	84,031
Equities.....	41,251	-	-	-	41,251
Funds:					
Alternative investments	-	-	-	18,847	18,847
Debt.....	11,978	83,401	-	322,086	417,465
Equity	199,201	6,287	-	11,378	216,866
Derivatives.....	-	1,946	-	-	1,946
Total	<u>\$ 355,950</u>	<u>\$ 91,634</u>	<u>\$ -</u>	<u>\$ 352,311</u>	<u>\$ 799,895</u>

	As of December 31, 2019				
	Level 1	Level 2	Level 3	NAV (a)	Total
Assets:					
Cash.....	\$ 11,742	\$ -	\$ -	\$ -	\$ 11,742
Debt.....	77,940	-	-	-	77,940
Equities.....	37,898	-	-	-	37,898
Funds:					
Alternative investments	-	-	-	26,692	26,692
Debt.....	8,828	81,898	-	269,183	359,909
Equity	183,727	4,697	-	6,442	194,866
Derivatives.....	-	1,545	-	-	1,545
Total	<u>\$ 320,135</u>	<u>\$ 88,140</u>	<u>\$ -</u>	<u>\$ 302,317</u>	<u>\$ 710,592</u>

(a) Represents certain investments measured at NAV or its equivalent as a practical expedient in determining fair value. In accordance with current accounting guidance, these investments have not been classified in the fair value hierarchy.

Included in equity funds are \$92,359 and \$99,671 as of December 31, 2020 and 2019, respectively, that are invested in funds managed by the Company.

Consistent with the plans’ investment strategies, at December 31, 2020 and 2019, the Company’s U.S. pension plan had 53% and 60%, respectively, of the plans’ assets invested in equity funds in Level 1 and measured at NAV or its equivalent as a practical expedient, 46% and 39%, respectively, invested in Level 1 debt funds and, at both December 31, 2020 and 2019, 1% was invested in cash, which is a Level 1 asset. The Company’s non-U.S. pension plans at December 31, 2020 and 2019 had 32% and 32%, respectively, of the plans’ assets invested in equities and equity funds that are primarily Level 1 and Level 2 assets; 63% and 62%, respectively, of the plans’ assets invested in debt and debt funds that are Level 1 and Level 2 assets or measured at NAV or its equivalent as a practical expedient, and 5% and 6%, respectively, of the plans’ assets invested in cash, which is a Level 1 asset, or in alternative investment funds that are primarily measured at NAV.

Investment Policies and Strategies—The primary investment goal is to ensure that the pension plans remain well funded, taking account of the likely future risks to investment returns and contributions. As a result, a portfolio of assets is maintained with appropriate liquidity and diversification that can be expected to generate long-term future returns that minimize the long-term costs of the pension plans without exposing the plans to an unacceptable risk of under-funding. The Company’s likely future ability to pay such contributions as are required to maintain the

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

funded status of the plans over a reasonable time period is considered when determining the level of risk that is appropriate. The fair value of plan investments classified as Level 1 assets are based on market quotes. The fair value of plan investments measured at NAV or its equivalent as a practical expedient is determined based on information provided by external fund administrators and such investments are redeemable in the near term.

Defined Contribution Plans—Pursuant to certain matching contributions, the Company contributes to employer sponsored defined contribution plans. Such contributions amounted to \$16,736, \$16,994 and \$15,872 for the years ended December 31, 2020, 2019 and 2018, respectively, which are included in “compensation and benefits” expense on the consolidated statements of operations.

18. BUSINESS REALIGNMENT

The Company conducted a review of its business in 2019, which resulted in a realignment that included employee reductions and the closing of subscale offices and investment strategies, most of which were completed during the third quarter of 2019.

Expenses associated with the business realignment for the year ended December 31, 2019 were as follows:

	<u>Financial</u>	<u>Asset</u>		
	<u>Advisory</u>	<u>Management</u>	<u>Corporate</u>	<u>Total</u>
Compensation and benefits	\$ 39,476	\$ 14,480	\$ 2,679	\$ 56,635
Other (a).....	4,371	1,750	5,054	11,175
Total	<u>\$ 43,847</u>	<u>\$ 16,230</u>	<u>\$ 7,733</u>	<u>\$ 67,810</u>

(a) Financial Advisory includes losses of \$3,727 associated with the closing of certain offices as part of business realignment.

Activity related to the obligations pursuant to the business realignment during the year ended December 31, 2020 was as follows:

	<u>Accrued</u>		
	<u>Compensation</u>	<u>Other</u>	<u>Total</u>
	<u>and Benefits</u>	<u>Liabilities</u>	
Balance, January 1, 2020	\$ 20,210	\$ 5,068	\$ 25,278
Less:			
Cash paid or otherwise settled	(18,784)	(5,068)	(23,852)
Balance, December 31, 2020.....	<u>\$ 1,426</u>	<u>\$ -</u>	<u>\$ 1,426</u>

19. INCOME TAXES

Lazard Ltd, through its subsidiaries, is subject to U.S. federal income taxes on all of its U.S. operating income, as well as on the portion of non-U.S. income attributable to its U.S. subsidiaries. In addition, Lazard Ltd, through its subsidiaries, is subject to state and local taxes on its income apportioned to various state and local jurisdictions. Outside the U.S., Lazard Group operates principally through subsidiary corporations that are subject to local income taxes in foreign jurisdictions. Lazard Group is also subject to Unincorporated Business Tax (“UBT”) attributable to its operations apportioned to New York City.

On December 22, 2017, the Tax Cuts and Jobs Act (the “Tax Act”) was enacted, which significantly changed U.S. tax law and included several provisions applicable to us such as the reduction in the corporate income tax rate from 35% to 21%, the limitations on the deductibility of interest expense and certain international provisions. The

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

international provisions of the Tax Act that impact us include the tax on global intangible low-tax income (GILTI) and the base erosion and anti-abuse tax (BEAT).

The components of the Company’s provision for income taxes for the years ended December 31, 2020, 2019 and 2018, and a reconciliation of the U.S. federal statutory income tax rate to the Company’s effective tax rates for such years, are shown below.

	Year Ended December 31,		
	2020	2019	2018
Current:			
Federal	\$ 6,531	\$ 3,756	\$ 2,507
Foreign	44,381	62,885	95,279
State and local	1,389	3,469	5,145
Total current	<u>52,301</u>	<u>70,110</u>	<u>102,931</u>
Deferred:			
Federal	41,817	15,139	49,604
Foreign	6,946	2,091	(12,632)
State and local	(1,615)	7,642	8,414
Total deferred	<u>47,148</u>	<u>24,872</u>	<u>45,386</u>
Total	<u>\$ 99,449</u>	<u>\$ 94,982</u>	<u>\$ 148,317</u>

	Year Ended December 31,		
	2020	2019	2018
U.S. federal statutory income tax rate	21.0%	21.0%	21.0%
BEAT and GILTI tax	0.9	3.0	1.0
Foreign source income not subject to U.S. income tax	(6.4)	(5.3)	(2.2)
Change in U.S. federal valuation allowance	0.5	0.6	2.1
Share-based incentive compensation	0.6	(2.9)	(5.0)
Foreign taxes	3.2	5.8	5.4
Foreign tax credits	(2.1)	(2.6)	(4.3)
State and local taxes	0.2	2.4	1.7

Uncertain tax positions	0.7	1.8	0.2
Other	1.1	0.9	2.0
Effective income tax rate	<u>19.8%</u>	<u>24.2%</u>	<u>21.8%</u>

See Note 23 regarding “operating income (loss)” by geographic region.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Deferred income taxes are provided for the effects of temporary differences between the tax basis of an asset or liability and its reported amount in the consolidated statements of financial condition. These temporary differences result in taxable or deductible amounts in future years. Details of the Company's deferred tax assets and liabilities are as follows:

	<u>December 31,</u>	
	<u>2020</u>	<u>2019</u>
Deferred Tax Assets:		
Basis adjustments (a)	\$ 195,313	\$ 233,371
Compensation and benefits	181,751	167,631
Net operating loss and tax credit carryforwards	281,901	272,456
Depreciation and amortization	1,065	1,815
Other.....	<u>57,363</u>	<u>62,159</u>
Gross deferred tax assets.....	717,393	737,432
Valuation allowance	<u>(82,210)</u>	<u>(76,486)</u>
Deferred tax assets (net of valuation allowance).....	<u>635,183</u>	<u>660,946</u>
Deferred Tax Liabilities:		
Depreciation and amortization	11,119	12,019
Compensation and benefits	17,564	7,058
Goodwill	35,717	29,876
Other.....	<u>33,376</u>	<u>28,754</u>
Deferred tax liabilities	97,776	77,707
Net deferred tax assets.....	<u>\$ 537,407</u>	<u>\$ 583,239</u>

(a) The basis adjustments recorded as of December 31, 2020 and 2019 are primarily the result of additional basis from acquisitions of interests, including the impact of the tax receivable agreement obligation.

The historical profitability of each tax paying entity is an important factor in determining whether to record a valuation allowance and when to release any such allowance. Certain of our tax-paying entities have individually experienced losses on a cumulative three year basis or have tax attributes that may expire unused. In addition, one of our tax paying entities has recorded a valuation allowance on substantially all of its deferred tax assets due to the combined effect of operating losses in certain subsidiaries of that entity as well as foreign taxes that together substantially offset any U.S. tax liability. Taking into account all available information, we cannot determine that it is more likely than not that deferred tax assets held by these entities will be realized. Consequently, we have recorded valuation allowances on \$82,210 and \$76,486 of deferred tax assets held by these entities as of December 31, 2020 and 2019, respectively.

Changes in the deferred tax assets valuation allowance for the years ended December 31, 2020, 2019 and 2018 was as follows:

	<u>Year Ended December 31,</u>		
	<u>2020</u>	<u>2019</u>	<u>2018</u>
Beginning Balance.....	\$ 76,486	\$ 73,114	\$ 61,456
Charged (credited) to provision for income taxes.....	4,598	3,515	14,156
Charged (credited) to other comprehensive income and other	1,126	(143)	(2,498)
Ending Balance	<u>\$ 82,210</u>	<u>\$ 76,486</u>	<u>\$ 73,114</u>

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The Company had net operating loss and tax credit carryforwards for which related deferred tax assets of \$281,901 were recorded at December 31, 2020 primarily relating to:

- (i) indefinite-lived carryforwards (subject to various limitations) of approximately \$54,000 in Australia, Germany, Hong Kong, Luxembourg, Saudi Arabia, Singapore and the U.S.; and
- (ii) certain carryforwards of approximately \$172,000 in the U.S., which begin expiring in 2029.

With few exceptions, the Company is no longer subject to income tax examination by foreign tax authorities and by U.S. federal, state and local tax authorities for years prior to 2014. While we are under examination in various tax jurisdictions with respect to certain open years, the Company does not expect that the result of any final determination related to these examinations will have a material impact on its financial statements. Developments with respect to such examinations are monitored on an ongoing basis and adjustments to tax liabilities are made as appropriate.

A reconciliation of the beginning to the ending amount of gross unrecognized tax benefits (excluding interest and penalties) for the years ended December 31, 2020, 2019 and 2018 is as follows:

	Year Ended December 31,		
	2020	2019	2018
Balance, January 1 (excluding interest and penalties of \$18,376, \$15,901 and \$15,136, respectively).....	\$ 86,886	\$ 77,889	\$ 78,674
Increases in gross unrecognized tax benefits relating to tax positions taken during:			
Prior years.....	2,454	11,764	653
Current year	14,702	22,383	17,961
Decreases in gross unrecognized tax benefits relating to:			
Tax positions taken during prior years.....	(9,814)	(19)	(699)
Settlements with tax authorities.....	(904)	(7,251)	(1,218)
Lapse of the applicable statute of limitations	(12,370)	(17,880)	(17,482)
Balance, December 31 (excluding interest and penalties of \$18,882, \$18,376 and \$15,901, respectively)	\$ 80,954	\$ 86,886	\$ 77,889

Additional information with respect to unrecognized tax benefits is as follows:

	Year Ended December 31,		
	2020	2019	2018
Unrecognized tax benefits at the end of the year that, if recognized, would favorably affect the effective tax rate (includes interest and penalties of \$18,882, \$18,376 and \$15,901, respectively)	\$ 86,117	\$ 85,603	\$ 78,693
Unrecognized tax benefits that, if recognized, would not affect the effective tax rate	\$ 13,719	\$ 19,659	\$ 15,097
Interest and penalties recognized in current income tax expense (after giving effect to the reversal of interest and penalties of \$3,757, \$3,455 and \$4,889, respectively).....	\$ 506	\$ 2,475	\$ 765

The Company anticipates that it is reasonably possible that approximately \$22,700 of unrecognized tax benefits, including interest and penalties recorded at December 31, 2020, may be recognized within 12 months as a result of the lapse of the statute of limitations in various tax jurisdictions.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

20. NET INCOME PER SHARE OF COMMON STOCK

The Company issued certain profits interest participation rights, including certain PRPUs, that the Company is required under U.S. GAAP to treat as participating securities and therefore the Company is required to utilize the “two-class” method of computing basic and diluted net income per share.

The Company’s basic and diluted net income per share calculations using the “two-class” method for the years ended December 31, 2020 and 2019 and using the “treasury stock” method for the year ended December 31, 2018 are presented below:

	Year Ended December 31,		
	2020	2019	2018
Net income attributable to Lazard Ltd	\$ 402,461	\$ 286,500	\$ 527,125
Add - adjustment for earnings attributable to participating securities	(7,667)	(3,390)	-
Net income attributable to Lazard Ltd - basic	394,794	283,110	527,125
Add - adjustment for earnings attributable to participating securities	6,429	25	-
Net income attributable to Lazard Ltd - diluted	<u>\$ 401,223</u>	<u>\$ 283,135</u>	<u>\$ 527,125</u>
Weighted average number of shares of common stock outstanding	104,803,849	108,316,241	118,753,778
Add - adjustment for shares of common stock issuable on a non-contingent basis	2,058,890	1,873,621	252,753
Weighted average number of shares of common stock outstanding - basic	106,862,739	110,189,862	119,006,531
Add - dilutive effect, as applicable, of:			
Weighted average number of incremental shares of common stock issuable from share-based incentive compensation	6,620,641	5,889,944	10,761,061
Weighted average number of shares of common stock outstanding - diluted	<u>113,483,380</u>	<u>116,079,806</u>	<u>129,767,592</u>
Net income attributable to Lazard Ltd per share of common stock:			
Basic	\$ 3.69	\$ 2.57	\$ 4.43
Diluted	<u>\$ 3.54</u>	<u>\$ 2.44</u>	<u>\$ 4.06</u>

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

21. RELATED PARTIES

Sponsored Funds

The Company serves as an investment advisor for certain affiliated investment companies and fund entities and receives management fees and, for the alternative investment funds, performance-based incentive fees for providing such services. Investment advisory fees relating to such services were \$564,686, \$587,665 and \$654,561 for the years ended December 31, 2020, 2019 and 2018, respectively, and are included in “asset management fees” on the consolidated statements of operations. Of such amounts, \$72,076 and \$54,561 remained as receivables at December 31, 2020 and 2019, respectively, and are included in “fees receivable” on the consolidated statements of financial condition.

Tax Receivable Agreement

The Second Amended and Restated Tax Receivable Agreement, dated as of October 26, 2015 (the “Amended and Restated Tax Receivable Agreement”), between Lazard and LTBP Trust, a Delaware statutory trust (the “Trust”), provides for the payment by our subsidiaries to the Trust of (i) approximately 45% of the amount of cash savings, if any, in U.S. federal, state and local income tax or franchise tax that we actually realize as a result of certain increases in the tax basis of certain assets and of certain other tax benefits related to the Amended and Restated Tax Receivable Agreement, and (ii) an amount that we currently expect will approximate 85% of the cash tax savings that may arise from tax benefits attributable to payments under the Amended and Restated Tax Receivable Agreement. Our subsidiaries expect to benefit from the balance of cash savings, if any, in income tax that our subsidiaries realize. Any amount paid by our subsidiaries to the Trust will generally be distributed to the owners of the Trust, who include certain of our executive officers, in proportion to their beneficial interests in the Trust.

For purposes of the Amended and Restated Tax Receivable Agreement, cash savings in income and franchise tax will be computed by comparing our subsidiaries’ actual income and franchise tax liability to the amount of such taxes that our subsidiaries would have been required to pay had there been no increase in the tax basis of certain tangible and intangible assets of Lazard Group attributable to our subsidiaries’ interest in Lazard Group and had our subsidiaries not entered into the Amended and Restated Tax Receivable Agreement. The term of the Amended and Restated Tax Receivable Agreement will continue until approximately 2033 or, if earlier, until all relevant tax benefits have been utilized or expired.

The amount of the Amended and Restated Tax Receivable Agreement liability is an undiscounted amount based upon currently enacted tax laws, the current structure of the Company and various assumptions regarding potential future operating profitability. The assumptions reflected in the estimate involve significant judgment. For example, if our structure were to change or our annual taxable income were to increase, we could be required to accelerate payments under the Amended and Restated Tax Receivable Agreement. As such, the actual amount and timing of payments under the Amended and Restated Tax Receivable Agreement could differ materially from our estimates. Any changes in the amount of the estimated liability would be recorded as a non-compensation expense in the consolidated statement of operations. Adjustments, if necessary, to the related deferred tax assets would be recorded through the “provision (benefit) for income taxes”.

For the years ended December 31, 2020, 2019 and 2018, the Company recorded a “benefit pursuant to tax receivable agreement” on the consolidated statements of operations of \$439, \$503 and \$6,495, respectively. The cumulative liability relating to our obligations under the Amended and Restated Tax Receivable Agreement as of December 31, 2020 and 2019 was \$221,451 and \$247,344, respectively, and is recorded in “tax receivable agreement obligation” on the consolidated statements of financial condition. The balance at December 31, 2020 reflects a payment made under the Amended and Restated Tax Receivable Agreement in the year ended December 31, 2020 of \$25,454.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

See Note 15 for information regarding related party transactions pertaining to shares repurchased from certain of our executive officers.

22. REGULATORY AUTHORITIES

LFNY is a U.S. registered broker-dealer and is subject to the net capital requirements of Rule 15c3-1 under the Exchange Act. Under the basic method permitted by this rule, the minimum required net capital, as defined, is a specified fixed percentage ($6\frac{2}{3}\%$) of total aggregate indebtedness recorded in LFNY's Financial and Operational Combined Uniform Single ("FOCUS") report filed with the Financial Industry Regulatory Authority ("FINRA"), or \$5, whichever is greater. In addition, the ratio of aggregate indebtedness (as defined) to net capital may not exceed 15:1. At December 31, 2020, LFNY's regulatory net capital was \$170,286, which exceeded the minimum requirement by \$163,005. LFNY's aggregate indebtedness to net capital ratio was 0.64:1 as of December 31, 2020.

Certain U.K. subsidiaries of the Company, including LCL, Lazard Fund Managers Limited and Lazard Asset Management Limited (collectively, the "U.K. Subsidiaries") are regulated by the Financial Conduct Authority. At December 31, 2020, the aggregate regulatory net capital of the U.K. Subsidiaries was \$184,227, which exceeded the minimum requirement by \$160,353.

CFLF, under which asset management and commercial banking activities are carried out in France, is subject to regulation by the Autorité de Contrôle Prudentiel et de Résolution ("ACPR") for its banking activities conducted through its subsidiary, LFB. LFB, as a registered bank, is engaged primarily in commercial and private banking services for clients and funds managed by LFG (asset management) and other clients, and asset-liability management. The investment services activities of the Paris group, exercised through LFB and other subsidiaries of CFLF, primarily LFG, also are subject to regulation and supervision by the Autorité des Marchés Financiers. At December 31, 2020, the consolidated regulatory net capital of CFLF was \$147,885, which exceeded the minimum requirement set for regulatory capital levels by \$81,871. In addition, pursuant to the consolidated supervision rules in the European Union, LFB, in particular, as a French credit institution, is required to be supervised by a regulatory body, either in the U.S. or in the European Union. During the third quarter of 2013, the Company and the ACPR agreed on terms for the consolidated supervision of LFB and certain other non-Financial Advisory European subsidiaries of the Company (referred to herein, on a combined basis, as the "combined European regulated group") under such rules. Under this supervision, the combined European regulated group is required to comply with minimum requirements for regulatory net capital to be reported on a quarterly basis and satisfy periodic financial and other reporting obligations. At December 31, 2020, the regulatory net capital of the combined European regulated group was \$184,842, which exceeded the minimum requirement set for regulatory capital levels by \$66,782. Additionally, the combined European regulated group, together with our European Financial Advisory entities, is required to perform an annual risk assessment and provide certain other information on a periodic basis, including financial reports and information relating to financial performance, balance sheet data and capital structure.

Certain other U.S. and non-U.S. subsidiaries are subject to various capital adequacy requirements promulgated by various regulatory and exchange authorities in the countries in which they operate. At December 31, 2020, for those subsidiaries with regulatory capital requirements, their aggregate net capital was \$214,571, which exceeded the minimum required capital by \$184,977.

At December 31, 2020, each of these subsidiaries individually was in compliance with its regulatory capital requirements.

Any new or expanded rules and regulations that may be adopted in countries in which we operate (including regulations that have not yet been proposed) could affect us in other ways.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

23. SEGMENT INFORMATION

The Company's reportable segments offer different products and services and are managed separately as different levels and types of expertise are required to effectively manage the segments' transactions. Each segment is reviewed to determine the allocation of resources and to assess its performance. The Company's principal operating activities are included in its Financial Advisory and Asset Management business segments as described in Note 1. In addition, as described in Note 1, the Company records selected other activities in its Corporate segment.

The Company's segment information for the years ended December 31, 2020, 2019 and 2018 is prepared using the following methodology:

- Revenue and expenses directly associated with each segment are included in determining operating income.
- Expenses not directly associated with specific segments are allocated based on the most relevant measures applicable, including headcount, square footage and other factors.
- Segment assets are based on those directly associated with each segment, and include an allocation of certain assets relating to various segments, based on the most relevant measures applicable, including headcount, square footage and other factors.

The Company records other revenue, interest income and interest expense among the various segments based on the segment in which the underlying asset or liability is reported.

Each segment's operating expenses include (i) compensation and benefits expenses incurred directly in support of the businesses and (ii) other operating expenses, which include directly incurred expenses for occupancy and equipment, marketing and business development, technology and information services, professional services, fund administration and outsourced services and indirect support costs (including compensation and other operating expenses related thereto) for administrative services. Such administrative services include, but are not limited to, accounting, tax, human resources, legal, facilities management and senior management activities.

For the years ended December 31, 2020, 2019 and 2018, no individual client constituted more than 10% of the net revenue of any of the Company's business segments.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

Management evaluates segment results based on net revenue and operating income (loss) and believes that the following information provides a reasonable representation of each segment's contribution with respect to net revenue, operating income (loss) and total assets:

		As of or for the Year Ended December 31,		
		2020	2019	2018
Financial Advisory	Net Revenue	\$ 1,420,501	\$ 1,374,036	\$ 1,555,526
	Operating Expenses (a)	1,130,850	1,225,795	1,198,807
	Operating Income	\$ 289,651	\$ 148,241	\$ 356,719
	Total Assets	\$ 1,181,783	\$ 1,144,339	\$ 859,306
Asset Management	Net Revenue	\$ 1,167,466	\$ 1,237,390	\$ 1,331,801
	Operating Expenses (a)	861,031	887,522	912,110
	Operating Income	\$ 306,435	\$ 349,868	\$ 419,691
	Total Assets	\$ 958,588	\$ 821,641	\$ 728,220
Corporate	Net Revenue	\$ (21,829)	\$ (24,653)	\$ (60,975)
	Operating Expenses (a)	72,116	80,758	34,669
	Operating Loss	\$ (93,945)	\$ (105,411)	\$ (95,644)
	Total Assets	\$ 3,831,490	\$ 3,673,601	\$ 3,409,715
Total	Net Revenue	\$ 2,566,138	\$ 2,586,773	\$ 2,826,352
	Operating Expenses (a)	2,063,997	2,194,075	2,145,586
	Operating Income	\$ 502,141	\$ 392,698	\$ 680,766
	Total Assets	\$ 5,971,861	\$ 5,639,581	\$ 4,997,241

(a) Operating expenses include depreciation and amortization of property as set forth in table below.

	Year Ended December 31,		
	2020	2019	2018
Financial Advisory	\$ 6,104	\$ 5,492	\$ 7,720
Asset Management	3,730	2,995	3,253
Corporate	25,261	27,085	23,130
Total	\$ 35,095	\$ 35,572	\$ 34,103

Geographic Information

Due to the highly integrated nature of international financial markets, the Company manages its business based on the profitability of the enterprise as a whole. Accordingly, management believes that profitability by geographic region is not necessarily meaningful. The Company's revenue and identifiable assets are generally allocated based on the country or domicile of the legal entity providing the service.

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

The following table sets forth the net revenue from, and identifiable assets for, the Company and its consolidated subsidiaries by geographic region allocated on the basis described above. In the table below, Americas principally includes the U.S., EMEA principally includes the U.K. and France, and Asia Pacific principally includes Australia.

	As of or for the Year Ended December 31,		
	2020	2019	2018
Net Revenue:			
Americas.....	\$ 1,530,100	\$ 1,544,063	\$ 1,615,736

Total.....	<u>\$ 5,971,861</u>	<u>\$ 5,639,581</u>	<u>\$ 4,997,241</u>

LAZARD LTD

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

24. CONSOLIDATED VIEs

The Company’s consolidated VIEs as of December 31, 2020 and 2019 include certain funds that were established for the benefit of employees participating in the Company’s existing LFI deferred compensation arrangement. Lazard invests in these funds and is the investment manager and is therefore deemed to have both the power to direct the most significant activities of the funds and the right to receive benefits (or the obligation to absorb losses) that could potentially be significant to these funds. The Company’s consolidated VIE assets and liabilities as reflected in the consolidated statements of financial condition consist of the following at December 31, 2020 and 2019. The Company’s consolidated VIE assets can only be used to settle the obligations of the consolidated VIEs.

	December 31,	
	2020	2019
ASSETS		
Cash and cash equivalents.....	\$ 3,558	\$ 3,826
Customers and other receivables	160	102
Investments (a).....	158,370	97,474
Other assets	400	245
Total Assets	\$ 162,488	\$ 101,647
LIABILITIES		
Deposits and other customer payables	\$ 104	\$ 62
Other liabilities.....	491	513
Total Liabilities.....	\$ 595	\$ 575

(a) Includes \$121,376 and \$83,036 of LFI held by Lazard Group which is eliminated in the consolidated statements of financial condition as of December 31, 2020 and 2019, respectively.

25. COVID-19

In March 2020, the World Health Organization declared the coronavirus (“COVID-19”) a pandemic. Several governments in jurisdictions that encompass the Company’s largest offices and most significant operations implemented strict social distancing measures in the first quarter of 2020, and such governments continue to review and modify such measures. In response, in the first quarter of 2020, the Company implemented remote work arrangements for most of its employees and restricted business travel; these arrangements and restrictions have been modified as governments modified applicable social distancing measures. These arrangements have not materially affected our ability to maintain and conduct our business operations, including the operation of financial reporting systems, internal controls over financial reporting and disclosure controls and procedures. While the COVID-19 pandemic has adversely affected the global economy, the nature and extent of COVID-19’s effect on the Company’s operational and financial performance will continue to depend on future developments.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(dollars in thousands, except for per share data, unless otherwise noted)

26. SUBSEQUENT EVENT

In February 2021, Lazard Growth Acquisition Corp. I (“LGAC”) consummated its \$575,000 initial public offering, which included \$75,000 attributable to the exercise in full of the underwriter’s over-allotment option. LGAC is a special purpose acquisition company, incorporated as a Cayman Islands exempted company for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses. LGACo 1 LLC, a Delaware series limited liability company and the Company’s indirect subsidiary, is the sponsor of LGAC. The Company continues to retain control of LGAC through the sponsor’s ownership of Class B founder shares of LGAC. As a result, both LGAC and the sponsor continue to be consolidated in the Company’s financial statements and the Company will include the proceeds from the offering as segregated cash and include redeemable noncontrolling interests associated with the publicly held LGAC Class A shares in the Company’s consolidated statements of financial condition in the first quarter of 2021.

SUPPLEMENTAL FINANCIAL INFORMATION

Not applicable due to early adoption of amendment to Regulation S-K, Item 302.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosures

There were no changes in or disagreements with accountants on accounting and financial disclosure during the last two fiscal years.

Item 9A. Controls and Procedures

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act as of the end of the period covered by this Annual Report on Form 10-K. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this Annual Report on Form 10-K, our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) are effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

In addition, no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during our most recent fiscal quarter that has materially affected, or is likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act), and the related report of our independent registered public accounting firm, are set forth in Part II, Item 8 of this Annual Report on Form 10-K and are incorporated herein by reference.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

Information regarding members of the Board of Directors, including its audit committee and audit committee financial expert, as well as information regarding our Code of Business Conduct and Ethics that applies to our Chief Executive Officer and senior financial officers, will be presented in Lazard Ltd's definitive proxy statement for its 2021 annual general meeting of shareholders, which will be held in April 2021, and is incorporated herein by reference. Information regarding our executive officers is included in Part I of this Annual Report on Form 10-K under the caption "Executive Officers of the Registrant".

The information required to be furnished pursuant to this item with respect to compliance with Section 16(a) of the Exchange Act will be set forth under the caption "Section 16(a) Beneficial Ownership Reporting and Compliance" in Lazard Ltd's definitive proxy statement for its 2021 annual general meeting of shareholders, and is incorporated herein by reference.

Item 11. Executive Compensation

Information regarding executive officer and director compensation will be presented in Lazard Ltd's definitive proxy statement for its 2021 annual general meeting of shareholders, which will be held in April 2021, and is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Information regarding security ownership of certain beneficial owners and management and related shareholder matters will be presented in Lazard Ltd's definitive proxy statement for its 2021 annual general meeting of shareholders, which will be held in April 2021, and is incorporated herein by reference.

Equity Compensation Plan Information

The following table provides information as of December 31, 2020 regarding securities issued under our 2018 Incentive Compensation Plan, 2008 Incentive Compensation Plan and 2005 Equity Incentive Plan.

	Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in the Second Column)
Equity compensation plans approved by security holders.....	2018 Incentive Compensation Plan ⁽¹⁾	11,101,228	(5)	17,665,165
Equity compensation plans approved by security holders.....	2008 Incentive Compensation Plan ⁽²⁾	2,833,307 ⁽⁴⁾	(5)	-
Equity compensation plans not approved by security holders.....	2005 Equity Incentive Plan ⁽³⁾	25,602 ⁽⁴⁾	(5)	-
Total		<u>13,960,137⁽⁴⁾</u>		<u>17,665,165</u>

- (1) Our 2018 Incentive Compensation Plan was approved by the stockholders of Lazard Ltd on April 24, 2018 and replaced the 2008 Incentive Compensation Plan, which was terminated on April 24, 2018. The 2018 Plan authorizes the issuance of up to 30 million shares of common stock.

- (2) Our 2008 Incentive Compensation Plan was approved by the stockholders of Lazard Ltd on May 6, 2008. The 2008 Incentive Compensation Plan was terminated on April 24, 2018, although awards granted under the 2008 Incentive Compensation Plan remain outstanding and continue to be subject to its terms.
- (3) Our 2005 Equity Incentive Plan was established prior to our equity public offering in May 2005 and, as a result, did not require approval by security holders. The 2005 Equity Incentive Plan expired in the second quarter of 2015, although awards granted under the 2005 Equity Incentive Plan remain outstanding and continue to be subject to its terms.
- (4) Represents outstanding stock unit awards and profits interest participation rights, after giving effect to forfeitures, as of December 31, 2020. As of that date, the only grants made under the 2018 Incentive Compensation Plan, 2008 Incentive Compensation Plan and 2005 Equity Incentive Plan have been in the form of stock unit awards, restricted stock awards and profits interest participation rights. See Note 16 of Notes to Consolidated Financial Statements for a description of the plans.
- (5) Each restricted stock unit awarded under our 2018 Incentive Compensation Plan, 2008 Incentive Compensation Plan and 2005 Equity Incentive Plan was granted at no cost to the persons receiving them and represents the contingent right to receive the equivalent number of shares of common stock. Performance-based units awarded represent the contingent right to receive common stock based on the achievement of performance criteria, and the number of shares of common stock that ultimately may be received generally can range from zero to two times the target number. Profits interest participation rights, including PRPUs, represent the contingent right to receive the equivalent number of shares of common stock in exchange for such rights, subject to the satisfaction of certain service-based criteria and the Minimum Value Condition, and, in the case of PRPUs, certain performance-based criteria. For PRPUs, the number of shares of common stock that ultimately may be received generally can range from zero to two times the target number. See Note 16 of Notes to Consolidated Financial Statements.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Information regarding certain relationships and related transactions, and director independence, will be presented in Lazard Ltd's definitive proxy statement for its 2021 annual general meeting of shareholders, which will be held in April 2021, and is incorporated herein by reference.

Item 14. Principal Accounting Fees and Services

Information regarding principal accountant fees and services will be presented in Lazard Ltd's definitive proxy statement for its 2021 annual general meeting of shareholders, which will be held in April 2021, and is incorporated herein by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules

(a) Documents filed as part of this Report:

1. Consolidated Financial Statements

The consolidated financial statements required to be filed in the Annual Report on Form 10-K are listed on page F-1 hereof and in Part II, Item 8 hereof.

2. Financial Statement Schedule

The financial statement schedule required in the Annual Report on Form 10-K is listed on page F-1 hereof. The required schedule appears on pages F-2 through F-6 hereof. All other schedules have been omitted because they are not applicable, not required or the information required is included in the Company's consolidated financial statements or notes thereto.

3. Exhibits

- 3.1 Certificate of Incorporation and Memorandum of Association of the Registrant (incorporated by reference to Exhibit 3.1 to the Registrant's Registration Statement (File No. 333-121407) on Form S-1/A filed on March 21, 2005).
- 3.2 Certificate of Incorporation on Change of Name of the Registrant (incorporated by reference to Exhibit 3.2 to the Registrant's Registration Statement (File No. 333-121407) on Form S-1/A filed on March 21, 2005).
- 3.3 Amended and Restated Bye-Laws of Lazard Ltd (incorporated by reference to Exhibit 3.3 to the Registrant's Quarterly Report (File No. 001-32492) on Form 10-Q filed on June 16, 2005).
- 3.4 First Amendment to Amended and Restated Bye-Laws of Lazard Ltd (incorporated by reference to Exhibit 3.4 to the Registrant's Quarterly Report (File No. 001-32492) on Form 10-Q filed on May 9, 2008).
- 3.5 Second Amendment to the Amended and Restated Bye-Laws of Lazard Ltd (incorporated by reference to Exhibit 3.5 to the Registrant's Quarterly Report (File No. 001-32492) on Form 10-Q filed on April 30, 2010).
- 4.1 Form of Specimen Certificate for Class A common stock (incorporated by reference to Exhibit 4.1 to the Registrant's Registration Statement (File No. 333-121407) on Form S-1/A filed on April 11, 2005).
- 4.2 Indenture, dated as of May 10, 2005, by and between Lazard Group LLC and The Bank of New York, as Trustee (incorporated by reference to Exhibit 4.1 to Lazard Group LLC's Registration Statement (File No. 333-126751) on Form S-4 filed on July 21, 2005).
- 4.3 Sixth Supplemental Indenture, dated as of February 13, 2015, between Lazard Group LLC and The Bank of New York Mellon, as trustee (incorporated by reference to Exhibit 4.1 of the Registrant's Current Report on Form 8-K (File No. 001-32492) filed on February 13, 2015).
- 4.4 Seventh Supplemental Indenture, dated as of November 4, 2016, between Lazard Group LLC and The Bank of New York Mellon, as trustee (incorporated by reference to Exhibit 4.1 of the Registrant's Current Report on Form 8-K (File No. 001-32492) filed on November 7, 2016).
- 4.5 Eighth Supplemental Indenture, dated as of September 19, 2018, between Lazard Group LLC and the Bank of New York Mellon, as trustee (incorporated by reference to Exhibit 4.1 to the Registrant's Current Report on Form 8-K (File No. 001-32492) filed on September 19, 2018).
- 4.6 Ninth Supplemental Indenture, dated as of March 11, 2019, between Lazard Group LLC and The Bank of New York Mellon, as trustee (incorporated by reference to Exhibit 4.1 to the Registrant's Current Report on Form 8-K (File No. 001-32492) filed on March 11, 2019).

- 4.7 Form of Senior Note (included in Exhibits 4.3, 4.4, 4.5, and 4.6).
- 4.8 Description of Registrant’s Class A Common Stock (incorporated by reference to Exhibit 4.8 to Registrant’s Annual Report (File No. 001-32492) on Form 10-K filed on February 25, 2020).
- 10.1 Amended and Restated Operating Agreement of Lazard Group LLC, dated as of February 4, 2019 (incorporated by reference to Exhibit 99.1 to Registrant’s Current Report (File No. 001-32492) on Form 8-K filed on February 5, 2019).
- 10.2 Second Amended and Restated Tax Receivable Agreement, dated as of October 26, 2015, by and among Ltd Sub A, Ltd Sub B and LTBP Trust (incorporated by reference to Exhibit 10.2 to the Registrant’s Quarterly Report (File No. 001-32492) on Form 10-Q filed on October 28, 2015).
- 10.3 Lease, dated as of January 27, 1994, by and between Rockefeller Center Properties and Lazard Frères & Co. LLC (incorporated by reference to Exhibit 10.19 to the Registrant’s Registration Statement (File No. 333-121407) on Form S-1/A filed on February 11, 2005).
- 10.4 Fourth Amendment dated as of February 16, 2011, by and among RCPI Landmark Properties, L.L.C. (as the successor in interest to Rockefeller Center Properties), RCPI 30 Rock 22234849, L.L.C. and Lazard Group LLC (as the successor in interest to Lazard Frères & Co. LLC), to the Lease dated as of January 27, 1994, by and among Rockefeller Center Properties and Lazard Frères & Co. LLC (incorporated by reference to Exhibit 10.16 to the Registrant’s Quarterly Report (File No. 001-32492) on Form 10-Q filed on April 29, 2011).
- 10.5* Lazard Ltd 2005 Equity Incentive Plan (incorporated by reference to Exhibit 10.21 to the Registrant’s Registration Statement (File No. 333-121407) on Form S-1/A filed on May 2, 2005).
- 10.6* Lazard Ltd 2008 Incentive Compensation Plan (incorporated by reference to Annex B to the Registrant’s Definitive Proxy Statement on Schedule 14A (File No. 001-32492) filed on March 24, 2008).
- 10.7* Lazard Ltd 2016 French Sub-plan (incorporated by reference to Annex B to the Registrant’s Definitive Proxy Statement on Schedule 14A (File No. 001-32492) filed on March 10, 2016).
- 10.8* Lazard Ltd 2018 Incentive Compensation Plan (incorporated by reference to Annex B to the Registrant’s Definitive Proxy Statement on Schedule 14A (File No. 001-32492) filed on March 15, 2018).
- 10.9* Amended and Restated Agreement relating to Retention and Noncompetition and Other Covenants, dated as of March 29, 2019, by and among the Registrant, Lazard Group LLC and Kenneth M. Jacobs (incorporated by reference to Exhibit 10.1 to the Registrant’s Current Report on Form 8-K (File No. 001-32492) filed on April 3, 2019).
- 10.10* Amended and Restated Agreement relating to Retention and Noncompetition and Other Covenants, dated as of March 29, 2019, by and among the Registrant, Lazard Group LLC and Ashish Bhutani (incorporated by reference to Exhibit 10.3 to the Registrant’s Current Report on Form 8-K (File No. 001-32492) filed on April 3, 2019).
- 10.11* Amended and Restated Agreement relating to Retention and Noncompetition and Other Covenants, dated as of March 29, 2019, by and among the Registrant, Lazard Group LLC and Scott D. Hoffman (incorporated by reference to Exhibit 10.4 to the Registrant’s Current Report on Form 8-K (File No. 001-32492) filed on April 3, 2019).
- 10.12* Amended and Restated Agreement relating to Retention and Noncompetition and Other Covenants, dated as of March 29, 2019, by and among the Registrant, Lazard Group LLC and Evan L. Russo (incorporated by reference to Exhibit 10.2 to the Registrant’s Current Report on Form 8-K (File No. 001-32492) filed on April 3, 2019).

- 10.13* Amended and Restated Agreement relating to Retention and Noncompetition and Other Covenants, dated as of March 29, 2019, by and among the Registrant, Lazard Group LLC and Alexander F. Stern (incorporated by reference to Exhibit 10.5 to the Registrant’s Current Report on Form 8-K (File No. 001-32492) filed on April 3, 2019).
- 10.14* Form of Award Letter for Annual Grant of Deferred Stock Units to Non-Executive Directors (incorporated by reference to Exhibit 99.1 to the Registrant’s Current Report on Form 8-K (File No. 001-32492) filed on September 8, 2005).
- 10.15* Form of Agreement evidencing a grant of Restricted Stock Units to Executive Officers under the 2008 Incentive Compensation Plan (incorporated by reference to Exhibit 10.41 to the Registrant’s Annual Report (File No. 001-32492) on Form 10-K filed on March 2, 2009).
- 10.16* Form of Agreement evidencing a grant of Deferred Cash Award to Executive Officers (incorporated by reference to Exhibit 10.42 to the Registrant’s Annual Report (File No. 001-32492) on Form 10-K filed on March 2, 2009).
- 10.17* Directors’ Fee Deferral Unit Plan (incorporated by reference to Exhibit 10.39 to the Registrant’s Quarterly Report (File No. 001-32492) on Form 10-Q filed on May 11, 2006).
- 10.18 Amended and Restated Credit Agreement, dated as of July 22, 2020, among Lazard Group LLC, the Banks from time to time parties thereto, and Citibank, N.A., as Administrative Agent (incorporated by reference to Exhibit 10.18 to the Registrant’s Quarterly Report (File No. 001-32492) on Form 10-Q filed on August 4, 2020).
- 10.19* Form of Agreement evidencing a grant of Lazard Fund Interests to Named Executive Officers (incorporated by reference to Exhibit 10.55 to the Registrant’s Quarterly Report (File No. 001-32492) on Form 10-Q filed on May 1, 2013).
- 10.20* Form of Agreement evidencing a February 20, 2014 grant of Performance-Based Stock Units under the 2008 Incentive Compensation Plan (incorporated by reference to Exhibit 10.55 to the Registrant’s Quarterly Report (File No. 001-32492) on Form 10-Q filed May 6, 2014).
- 10.21* Agreement between the Company and Kenneth M. Jacobs, dated as of February 20, 2014, evidencing a grant of Performance-Based Stock Units under the 2008 Incentive Compensation Plan (incorporated by reference to Exhibit 10.56 to the Registrant’s Quarterly Report (File No. 001-32492) on Form 10-Q filed on May 6, 2014).
- 10.22* Form of Agreement evidencing a grant of Restricted Stock under the 2008 Incentive Compensation Plan (incorporated by reference to Exhibit 10.55 to the Registrant’s Quarterly Report (File No. 001-32492) on Form 10-Q filed on April 30, 2010).

LAZARD LTD
(parent company only)

NOTES TO CONDENSED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The accompanying Lazard Ltd condensed financial statements (the “Parent Company Financial Statements”), including the notes thereto, should be read in conjunction with the consolidated financial statements of Lazard Ltd and its subsidiaries (the “Company”) and the notes thereto.

The Parent Company Financial Statements as of December 31, 2020 and 2019, and for each of the three years in the period ended December 31, 2020, are prepared in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenue and expenses, and the disclosures in the condensed financial statements. Management believes that the estimates utilized in the preparation of the condensed financial statements are reasonable. Actual results could differ materially from these estimates.

The Parent Company Financial Statements include investments in subsidiaries, accounted for under the equity method.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, as amended, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

Dated: February 26, 2021

LAZARD LTD

Net Income, as adjusted	<u>\$410</u>	<u>\$385</u>	<u>\$539</u>	<u>\$501</u>	<u>\$410</u>
DILUTED NET INCOME PER SHARE:					
U.S. GAAP Basis	\$3.54	\$2.44	\$4.06	\$1.91	\$2.92
Non-GAAP Basis, as adjusted	\$3.60	\$3.28	\$4.16	\$3.78	\$3.09

This document includes non-GAAP measures. We have provided reconciliations of these measures for each period discussed to the most directly comparable U.S. GAAP measure. Our non-GAAP measures are not meant to be considered in isolation or as a substitute for comparable U.S. GAAP measures, and should be read only in conjunction with our consolidated financial statements prepared in accordance with U.S. GAAP.

- (a) A non-GAAP measure which excludes (i) revenue related to non-controlling interests (see (c) below), (ii) gains/losses related to the changes in the fair value of investments held in connection with Lazard Fund Interests and other similar deferred compensation arrangements for which a corresponding equal amount is excluded from compensation and benefits expense, and (iii) interest expense primarily related to corporate financing activities. For 2020, 2019 and 2018, excludes revenue related to certain distribution fees and reimbursable deal costs paid to third parties for which an equal amount is excluded from both non-GAAP operating revenue and non-compensation expense, and excludes bad debt expense. For 2019, excludes write-down of a private equity investment to the potential transaction value and losses associated with the closing of certain offices as part of a business realignment. For 2016, excludes a gain on the acquisition of MBA Lazard (which resulted from the increase in the fair value of the Company's investment in MBA Lazard prior to the acquisition).

- (b) A non-GAAP measure. For 2020, excludes (i) a reduction in our tax receivable agreement (“TRA”) obligation, and (ii) incremental rent expense, building depreciation, impairment losses and legal fees related to office space reorganization. For 2019, excludes (i) a reduction in our TRA obligation, (ii) expenses and losses associated with a business realignment, (iii) expenses associated with the Enterprise Resource Planning (“ERP”) system implementation, (iv) incremental rent expense and lease abandonment costs related to office space reorganization, (v) acquisition-related costs, primarily reflecting changes in fair value of contingent consideration associated with certain business acquisitions, (vi) write-down of a private equity investment to the potential transaction value, and (vii) charges pertaining to a redemption of Lazard Group’s 4.25% senior notes due in 2020 (the “2020 Notes”). For 2018, excludes (i) a reduction in our TRA obligation as a result of tax rate adjustments associated with the 2017 U.S. Tax Cuts and Jobs Act, (ii) expenses associated with the ERP system implementation, (iii) incremental rent expense and lease abandonment costs related to office space reorganization, (iv) acquisition-related benefits, primarily reflecting changes in fair value of contingent consideration associated with certain business acquisitions, (v) charges pertaining to a partial redemption of the 2020 Notes, and (vi) expenses associated with the unconditional commitment to the Lazard Foundation. For 2017, excludes (i) as a result of the U.S. Tax Cuts and Jobs Act, reduction of deferred tax assets (net of a reduction in our TRA obligation), (ii) expenses associated with the ERP system implementation, (iii) incremental rent expense and lease abandonment costs related to office space reorganization, and (iv) acquisition-related costs, primarily reflecting changes in fair value of contingent consideration associated with certain business acquisitions. For 2016, excludes (i) acquisition-related costs, primarily reflecting changes in fair value of contingent consideration associated with certain business acquisitions, (ii) a gain on the acquisition of MBA Lazard (which resulted from the increase in the fair value of the Company’s investment in MBA Lazard prior to the acquisition), (iii) charges pertaining to the redemption of the remaining balance of the 6.85% senior notes due 2017 (the “2017 Notes”), and (iv) a valuation allowance associated with changes in certain New York City UBT tax laws.
- (c) Noncontrolling interests include revenue and expenses principally related to Edgewater and ESC Funds, and is a non-GAAP measure.
