LAZARD REPORTS SECOND QUARTER AND FIRST HALF 2026 RESULTS

NEW YORK, July 23, 2026 – Lazard, Inc. (NYSE: LAZ) today reported net revenue of \$808 million and adjusted net revenue¹ of \$786 million for the quarter ended June 30, 2026. For the first half of 2026, Lazard reported net revenue of \$1,564 million and adjusted net revenue¹ of \$1,459 million.

On a U.S. GAAP basis, Lazard reported second-quarter 2026 net income of \$5 million or \$0.03 per share, diluted. For the first half of 2026, net income on a U.S. GAAP basis was \$106 million or \$0.94 per share, diluted. On an adjusted basis¹, Lazard reported second-quarter 2026 net income of \$13 million or \$0.12 per share, diluted. For the first half of 2026, adjusted net income¹ was \$60 million or \$0.54 per share, diluted.

"Lazard continues to progress toward our 2030 objectives, with underlying trends reinforcing our confidence in our long-term growth strategy," said Peter R. Orszag, CEO and Chairman. "In Asset Management, we delivered our best first-half net inflows in nearly 20 years and reached record reported AUM, providing clear evidence of the inflection we anticipated. In Financial Advisory, we achieved our strongest announced half-year league table position since 2014, with a variety of forward indicators supporting our view that the investments we made to strengthen our MD talent are shifting from a headwind to a tailwind for productivity and revenue growth."

"We are excited about the momentum and evidence of progress across both of our businesses," said Tracy Farr, CFO. "This quarter's earnings were impacted by an elevated tax rate, which is not indicative of the full-year rate. In addition, as we exit the most substantial period of repositioning our advisory talent, the benefits of our growth investments will increasingly mature into earnings. Combined with our focus on operational efficiency, this supports our path toward long-term profitability and shareholder value."

ENDNOTES

¹ A non-GAAP measure. Our non-GAAP measures are not meant to be considered in isolation or as a substitute for the corresponding U.S. GAAP measures and should be read only in conjunction with our consolidated financial statements prepared in accordance with U.S. GAAP. See attached financial schedules and related notes for a detailed explanation of adjustments to corresponding U.S. GAAP results. We believe that presenting our results on an adjusted basis, in addition to the U.S. GAAP results, is a meaningful and useful way to compare our operating results across periods.

² Beginning in the first quarter of 2026, the Company presents Other revenue separately from Management fees in order to improve the analysis of average annual fee rates. Prior period results have been recast to conform to this change. Other revenue generally consists of commission income, net interest income, and net investment gains/losses.
