NEW YORK, October 27, 2010 – Lazard Ltd (NYSE: LAZ) today announced financial results for the third quarter and first nine months ended September 30, 2010. Net income on a fully exchanged basis was \$62.2 million, or \$0.46 per share (diluted), for the third quarter of 2010, compared to a net income of \$52.5 million, or \$0.41 per share (diluted), for the third quarter of 2009. Net income on a fully exchanged basis was \$176.6 million, or \$1.30 per share (diluted), for the first nine months of 2010, compared to \$65.9 million, or \$0.53 per share (diluted) for the first nine months of 2009, excluding in each period special charges in the first quarter of the applicable year. (c)(e)

Refers to net income or loss attributable to Lazard Ltd.

Refers to the full conversion of all outstanding exchangeable interests held by the members of LAZ-MD holdings and is a non-GAAP measure.

Refers to first-quarter 2010 pre-tax charges of \$87.1 million as a result of staff reductions and realignments, and a \$24.9 million non-cash special charge related to the implementation and amendment of a previously approved retirement policy, which accelerated the accounting for certain deferred stock awards during the same period.

Core operating business revenue includes the Financial Advisory and Asset Management businesses, and excludes revenues from the Corporate business.

Net income, on a U.S. GAAP basis, which is before exchange of exchangeable interests, was \$64.1 million, or \$0.51 per share (diluted), for the third quarter of 2010, compared to a net income of \$37.4 million, or \$0.41 per share (diluted), for the third quarter of 2009. Net income, on a U.S. GAAP basis, which includes the first quarter special charges in the 2010 and 2009 periods, was \$75.1 million, or \$0.58 per share (diluted), for the first nine months of 2010, compared to net income of \$12.1 million, or \$0.16 per share (diluted), for the first nine months of 2009.

A reconciliation of the U.S. GAAP results to the adjusted results is presented on page 12 of this release.

Lazard believes that results assuming full exchange of outstanding exchangeable interests and excluding special charges provide the most meaningful basis for comparison among present, historical and future periods.

Operating Revenue and Operating Income

Operating revenue for the third quarter of 2010 increased 10% to \$473.2 million, compared to \$431.5 million for the third quarter of 2009. Operating income increased 9% to \$79.5 million for the 2010 third quarter, compared to operating income of \$73.2 million for the third quarter of 2009.

Operating revenue increased 24% to \$1,368.4 million for the 2010 first nine months, compared to \$1,103.2 million for the first nine months of 2009. Operating income increased 120% to \$224.0 million for the 2010 first nine months, compared to operating income of \$101.9 million for the first nine months of 2009, excluding special charges in both periods.

The Company's quarterly revenue and profits can fluctuate materially depending on the number, size and timing of completed transactions on which it advised, as well as seasonality and other factors. Accordingly, the revenue and profits in any particular quarter may not be indicative of future results. As such, Lazard management believes that annual results are the most meaningful.

Comments

"Our core business, which consists of Financial Advisory and Asset Management, reported record revenue for the first nine months," said Kenneth M. Jacobs, Chairman and Chief Executive Officer of Lazard. "We grew nearly thirty percent in M&A and Strategic Advisory, and Asset Management achieved a record in assets under management, against a backdrop of a gradual but uneven upturn in the cycle. We are continuing to invest in our businesses by making strategic senior level hires worldwide."

"Lazard's performance in this quarter and year-to-date underscores the power of our firm's advice-driven, intellectual capital model in a climate marked by uneven economic recovery, aftershocks from the financial crisis and shifting flows of investment capital between developed and developing markets," said Mr. Jacobs. "In this new environment, companies, government bodies and investors demand independent advice, with a geographic perspective, deep understanding of capital structure, informed research, and knowledge of global economic conditions. Lazard, through its Financial Advisory and Asset Management businesses, is the only global independent firm positioned to meet that need."

Refers to first-quarter 2010 pre-tax charges of \$87.1 million as a result of staff reductions and realignments, and a \$24.9 million non-cash special charge related to the implementation and amendment of a previously approved retirement policy, which accelerated the accounting for certain deferred stock awards during the same period.

⁽e) Refers to first-quarter 2009 pre-tax charge of \$62.6 million as a result of staff reductions and realignments.

"Our fundamentals and financial position remain strong. We continue to generate significant cash flow and we remain focused on containing discretionary spending while investing in our businesses for future growth," said Michael J. Castellano, Chief Financial Officer of Lazard. "Our previously stated goal is to grow annual compensation expense at a slower rate than revenues. We have achieved that goal for the first nine months of 2010."

Revenue

Core Operating Business

Lazard's core operating business includes its Financial Advisory and Asset Management businesses. Core operating business revenue increased 11% to \$462.4 million for the 2010 third quarter, compared to \$417.5 million for the third quarter of 2009. Core operating business revenue increased 26% to a nine-month record of \$1,348.1 million in 2010, compared to \$1,068.6 million for the first nine months of 2009.

Third quarter 2010 revenue from M&A and Strategic Advisory, Capital Markets and Other Advisory in the aggregate increased \$47.3 million, or 34%, compared to third quarter 2009 revenue and increased \$22.6 million, or 14%, compared to second quarter 2010 revenue, while third quarter 2010 revenue from Restructuring decreased \$53.1 million, or 45%, compared to third quarter 2009 revenue and decreased \$13.9 million, or 17%, compared to second quarter 2010 revenue.

Financial Advisory operating revenue increased 14% to \$769.1 million for the first nine months of 2010, compared to \$676.8 million for the first nine months of 2009. The nine-month 2010 revenue was positively impacted by an aggregate revenue increase of \$119.5 million, or 30%, from M&A and Strategic Advisory, Capital Markets and Other Advisory, partially offset by a \$27.2 million, or 10%, decrease in Restructuring revenue.

M&A and Strategic Advisory

We also continue to advise the Republic of Côte d'Ivoire on its debt restructuring, Greece for general financial advice, the US Treasury with respect to General Motors, including its potential IPO, and the Islamic Republic of Mauritania on various strategic sovereign financial issues.

Restructuring

Restructuring operating revenue decreased 45% to \$66.0 million for the third quarter of 2010, compared to \$119.1 million for the third quarter of 2009, and decreased 17% compared to \$79.9 million for the second quarter of 2010. Restructuring operating revenue decreased 10% to \$246.1 million for the first nine months of 2010, compared to \$273.3 million for the first nine months of 2009. Restructuring operating revenue reflects continued restructuring advisory activity in the US and Europe.

The decrease in the third quarter of 2010, compared to both the third quarter of 2009 and the second quarter of 2010, was due primarily to a decrease in completion fees and retainer fees earned, related to the continuing decline of the number and value of corporate defaults since the peak in early 2009. The decrease in the first nine months of 2010 was due primarily to a decrease in retainer fees, partially offset by increased completion fees.

Completed Restructuring assignments during the third quarter of 2010 include: U.S. Concrete and Trump Entertainment Resorts in connection with their Chapter 11 proceedings; BTA Bank JSC and Italtel in their debt restructurings; Highstreet investors on Karstadt's restructuring; Voyage Group in the renegotiation of its senior credit facilities; EEMS on the renegotiation of its debt and sale of its Singapore unit to ASE Taiwan; and LNR Property Corp. on its recapitalization.

Capital Markets and Other Advisory operating revenue increased 45% to \$69.0 million for the first nine months of 2010, compared to \$47.5 million for the first nine months of 2009. The increase in the third-quarter and nine-month revenue was due primarily to growth in the number and value of fund closings by our Private Fund Advisory Group, partially offset by a decrease in underwriting for public offerings.

Capital Markets and Other Advisory assignments in the third quarter of 2010 included advising on:

- IPOs: IntraLinks Holdings and NuPathe
- PIPEs, Registered Directs, Underwritten Registered Directs and Private Placements as well as other Convertible and Capital Markets transactions: MAP Pharmaceuticals, Pacific Ethanol, PDL BioPharma

Asset Managemen

Asset Management operating revenue increased 32% to a record \$208.0 million for the third quarter of 2010, compared to \$157.3 million for the 2009 third quarter. Asset Management operating revenue increased 48% to a record \$578.9 million for the first nine months of 2010, compared to \$391.8 million for the first nine months of 2009.

Assets Under Management at September 30, 2010, were \$143.6 billion, representing a 19% increase over Assets Under Management of \$120.2 billion at September 30, 2009, and a 16% increase compared to Assets Under Management of \$123.5 billion at June 30, 2010. Assets Under Management were primarily impacted in the third quarter by positive market and foreign exchange movements. Net inflows were \$1.1 billion in the 2010 third quarter and \$6.2 billion in the 2010 first nine months.

Average Assets Under Management were \$133.5 billion for the third quarter of 2010, representing a 22% increase over average Assets Under Management of \$109.1 billion for the third quarter of 2009. Average Assets Under Management were \$132.9 billion for the first nine months of 2010, a 36% increase, compared to \$97.6 billion for the first nine months of 2009.

Management fees increased 38% to a record \$184.0 million for the third quarter of 2010, compared to \$133.4 million for the 2009 third quarter, and increased 54% to a record \$512.8 million for the first nine months of 2010, compared to \$334.0 million for the first nine months of 2009.

Incentive fees, primarily related to traditional long-only investment strategies, were \$15.5 million and \$41.9 million for the third quarter and first nine months of 2010, respectively, compared to \$15.2 million and \$33.8 million for the comparable periods in 2009. Incentive fees are recorded on the measurement date, which for most of our alternative strategies that are subject to incentive fees occurs in the fourth quarter.

Our Asset Management business provides investment management and advisory services to governments, institutions, financial intermediaries, private clients and investment vehicles around the world. Our goal in our Asset Management business is to produce superior risk-adjusted investment returns and provide investment solutions customized for our clients. Asset Management includes the management of equity and fixed income securities as well as alternative investment and private equity funds.

Expenses

Compensation and Benefits

Compensation and benefits expense includes base salaries and benefits, amortization of deferred incentive awards and an accrual for estimated year-end discretionary cash incentive compensation. The expense was \$282.5 million and \$250.9 million for the third quarters of 2010 and 2009, respectively. The expense was \$821.1 million and \$693.7 million for the first nine months of 2010 and 2009, respectively, excluding the 2010 first-quarter special charge. While operating revenue increased 24% for the first nine months of 2010, compensation and benefits expense increased 18%, compared to the same 2009 period.

The ratio of compensation and benefits expense to operating revenue was 59.7% for the third quarter of 2010 compared to 58.2% for the same 2009 period, and was 60.0% and 62.9% for the first nine months of 2010 and 2009, respectively, excluding the 2010 first-quarter special charge. The reduction in the compensation ratio for the first nine months of 2010 is due primarily to execution on our previously announced goals to grow annual compensation expense at a slower rate than operating revenues, and to achieve over the cycle compensation levels on average consistent with the targets established at the time we went public in 2005.

Non-Compensation

The ratio of non-compensation expense to operating revenue, excluding amortization of intangibles related to acquisitions, was 18.9% and 19.0% for the third quarter and first nine months of 2010, respectively, compared to 19.8% and 21.5% for the respective 2009 periods. Total non-compensation expense increased 4% to \$91.2 million for the third quarter of 2010 and increased 11% to \$265.4 million for the first nine months of 2010, compared to \$87.6 million and \$240.1 million for the respective periods in 2009, including amortization of intangibles related to acquisitions of \$1.7 million and \$5.3 million in the respective 2010 periods and \$2.0 million and \$2.7 million in the respective 2009 periods. Factors contributing to the third-quarter and first-nine-months 2010 increases include higher business development expenses for travel and market related data and fund administration expenses related to the increased level of business activity and assets under management, and partially offset by lower professional fees.

The percentage of non-compensation expenses to operating revenue can vary from quarter to quarter due to quarterly fluctuation in revenues, among other things. Accordingly, the results in a particular quarter may not be indicative of future results. Lazard management believes that annual results are the most meaningful basis for comparison.

Provision for Income Taxes

The provision for income taxes, on a fully exchanged basis, was \$17.2 million and \$44.4 million for the third quarter and first nine months of 2010, respectively, compared to \$18.6 million and \$34.7 million for the third quarter and first nine months of 2009, respectively, excluding the effects of special charges in each period. The effective tax rate on the same basis was 21.7% and 20.1% for the third quarter and first nine months of 2010, respectively, exclusive of noncontrolling interests.

Noncontrolling interests

Net income attributable to noncontrolling interests, on a fully exchanged basis, amounted to \$0.1 million and \$2.9 million for the third quarter and first nine months of 2010, respectively, compared to \$2.0 million and \$1.2 million for the respective periods of 2009. Noncontrolling interests, on a fully exchanged basis, principally represents interests that the Company is deemed to control but not own in (i) various LAM-related general partnerships and (ii) in Edgewater management vehicles acquired during the third quarter of 2009.

- At September 30, 2010, current and former Lazard Managing Directors and employees now own 32% of Lazard Ltd, assuming full vesting of their deferred equity-based incentive awards and including exchangeable interests and Class A shares that they own.

This presentation includes non-GAAP measures. Our non-GAAP measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures, and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. For a detailed explanation of the adjustments made to comparable GAAP measures, see item (d) in notes to unaudited condensed consolidated statements of operations and reconciliation of US GAAP results to full exchange excluding special charges. Lazard believes that results assuming full exchange of outstanding exchangeable interests and excluding special charges provides the most meaningful basis for comparison among present, historical and future periods.
