Corporate Structure & Tax Considerations

Corporate Structure

Bermuda corporation with common stock traded on the NYSE

- Corporate governance structure consistent with U.S. peers and files annual proxy statement
 - Files 10-Ks and 10-Qs with SEC, including IRS Employer Identification Number
- Partnership structure for U.S. tax purposes
 - K-1 issuer for dividends – no Unrelated Business Taxable Income (UBTI) or Effectively Connected Income (ECI)
 - No separate state filing requirements, appropriate for tax-exempt investors
 - Foreign investors only subject to withholding tax on U.S. portion of dividends

Investor Diversification

Broadly diversified investor base includes key indexes, mutual funds and global institutions

- Included in Russell and CRSP market capitalization weighted indexes, and Dow Jones U.S. Select Dividend Index
 - Approximately 20% of Lazard holders identified as index investors, compared to generally de minimis for publicly traded partnerships
- Float approximately 97% held by a broad range of active and passive institutional investors
 - Representing approximately 229 mutual funds and 92 ETFs

Tax Considerations

US tax provisions suggest conversion to a U.S. C-corporation would result in a significantly higher tax rate

- Recent analysis indicates a conversion under the current tax law could add significantly to our steady-state effective tax rate
- Net operating losses (NOLs) restrict our ability to use foreign tax credits and to access the special deduction for foreign earnings, resulting in double taxation for non-U.S. earnings
- Expansion of categories of foreign income to be taxed would result in increased tax payments

Operating Revenue is a non-GAAP measure which excludes:

- 2 Changes in the fair value of investments held in connection with LFI and other similar deferred compensation arrangements for which a corresponding equal amount is excluded from compensation and benefits expense.
- 3 Interest expense related to corporate financing activities because such expense is not considered to be a cost directly related to the revenue of our business. For year ended 2016, includes excess interest of \$0.6 million due to the delay between the issuance of the 2027 notes and the settlement of the 2017 notes. - 5 For the year ended December 31, 2016, represents a gain relating to the Company's acquisition of MBA Lazard resulting from the increase in fair value of the Company's investment in the business. For the year ended December 31, 2015, represents revenue relating to the Company's disposal of the Australian private equity business which was adjusted for the recognition of an obligation, which was previously recognized for U.S. GAAP.

- 4 Represents an adjustment to match the timing of the recognition of carried interest revenue subject to clawback to the recognition of the related incentive compensation expense, which is not aligned under U.S. GAAP.
