

LAZARD

APRIL 2025

Investor Presentation

Safe Harbor

This presentation contains certain statements, estimates and forecasts with respect to future performance and events. These statements, estimates and forecasts are “forward-looking statements” within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. In some cases, forward-looking statements can be identified by the use of forward-looking terminology such as “may,” “might,” “will,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “target,” “goal,” “pipeline,” or “continue,” and the negative of these terms and other comparable terminology. All statements other than statements of historical fact included in this presentation are forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us and may include projections of our future financial performance based on our growth strategies, business plans and initiatives and anticipated trends in our business. These forward-looking statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. These factors include, but are not limited to, those discussed in our Annual Report on Form 10-K under Item 1A “Risk Factors,” and also discussed from time to time in our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, including the following: (a) adverse general economic conditions or adverse conditions in global or regional financial markets, (b) changes in international trade policies and practices including the implementation of tariffs, proposed further tariffs, and responses from other jurisdictions, and the economic impacts, volatility and uncertainty resulting therefrom, (c) a decline in our revenues, for example due to a decline in overall mergers and acquisitions (“M&A”) activity, our share of the M&A market or our assets under management (“AUM”), (d) losses caused by financial or other problems experienced by third parties, (e)

Non-GAAP Financial Information

This presentation uses non-GAAP measures for (a) adjusted net revenue, (b) adjusted compensation and benefits expense, (c) adjusted non-compensation expenses, (d) adjusted operating income (loss), (e) adjusted operating margin, (f) adjusted net income, (g) adjusted diluted net income per share, and (h) adjusted diluted weighted average shares outstanding. Such non-GAAP measures are not meant to be considered in isolation or as a substitute for the corresponding U.S. GAAP measures and should be read only in conjunction with our

losses due to unidentified or unanticipated risks, (f) a lack of liquidity, *i.e.*, ready access to funds, for use in our businesses, (g) competitive pressure on our businesses and on our ability to retain and attract employees at current compensation levels, and (h) changes in relevant tax laws, regulations or treaties or an adverse interpretation of those items.

These risks and uncertainties are not exhaustive. Our SEC reports describe additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for our management to predict all risks and uncertainties, nor can management assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

As a result, there can be no assurance that the forward-looking statements included in this presentation will prove to be accurate or correct. Although we believe the statements reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance, achievements or events. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. You should not rely upon forward-looking statements as predictions of future events. We are under no duty to update any of these forward-looking statements after the date of this presentation to conform our prior statements to actual results or revised expectations and we do not intend to do so.

consolidated financial statements prepared in accordance with U.S. GAAP. We believe that certain non-GAAP measures provide a meaningful and useful basis for assessing our operating results and comparisons between present, historical and future periods. See the attached appendices and related notes for a detailed explanation of applicable adjustments to corresponding U.S. GAAP measures.

Unless otherwise indicated, all information in this presentation relates to Lazard, Inc. and its direct and indirect subsidiaries on a consolidated basis as of March 31, 2025.

Investment Thesis

Lazard is the preeminent, independent financial advisory and asset management firm focused on driving the next phase of growth.

1

Investment Highlights

Global perspective paired with local presence and expertise

Outstanding talent dedicated to innovative solutions

Deep client relationships

Our Culture

Lazard’s reputation for excellence, integrity, and delivering innovative results is driven by our commercial and collegial culture, comprised of talented colleagues working together to provide exceptional advice and investment solutions for clients.

BARRON'S

"Lazard's top-tier brand allows it to punch above its weight class"

BREAKINGVIEWS

"Showing bigger Wall Street rivals the power of simplicity"

The Economist

"Success built on its bankers' discretion and its long-term relationships with clients"

EUROMONEY

"Lazard can tackle the most seemingly insurmountable crises"

THE TIMES of LONDON

"One of the most influential financial institutions in the world"

Our Technology

We leverage technology and innovative data intelligence to drive scale, efficiencies, and deliver proprietary insights for our clients.

AI Strategy to Enhance Operational Performance

Accelerating our growth by investing in a “smart” enterprise that operates digitally with depth, speed and precision

Collaboration

- 
Optimizing workflow connectivity
 - Real-time engagement through productivity platforms: DealCloud, SharePoint, Salesforce, Teams
- 
Global information ecosystem
 - Big data platforms
 - Lazard IQ knowledge center
 - AI Hub & training
- 
Business resiliency
 - Critical function capabilities
 - Global mobility
 - Secure remote-access

Infrastructure & Analytics

- 
Dynamic processing analytics
 - Cloud native computing & data platforms
 - Portfolio evaluation & trading execution
 - AI, data science and machine learning
- 
Cybersecurity
 - 24/7 monitoring and testing
 - Employee training
 - Third-party risk management
- 
Enterprise finance / risk
 - Centralized global platform
 - Compliance and risk management

Customer-centric Solutions

- 
GenAI / Large Language Models
 - Enhance deep sector insights
 - Accelerate scenario analysis
 - Simplify language barriers and data analytics
- 
Data privacy
 - Multi-factor authentication
 - Secure and single-source
- 
Digitization and personalization
 - 360 portfolio view
 - Specialized solutions
 - Process engineering and automation

Our Value Proposition

Our complementary businesses and intellectual capital result in a global platform built over centuries that provides unparalleled service as a trusted advisor to institutions and individuals.

Established in the world's developed and emerging markets

↳ with a view to macroeconomic cycles, markets and industry evolution

Seasoned expertise and innovative insights

↳ attract clients across the spectrum of industries and geographies

Complementary businesses

↳ provide access to deep markets with independent demand dynamics

Significant scale provides strong financial performance across business cycles

Investment in talent and growth strategies,

↳ along with demonstrated cost discipline, to deliver long-term value creation

Technology-driven

↳ agile and adaptive resources, investments in infrastructure and innovative applications

Strong capital structure and cash flow generation

↳ enable annual capital returns through dividends and share repurchases

Lazard 2030 Strategy

Strategic goals and actions in place to drive long-term growth and profitability

+100%

Revenue

↳ Our goal is for revenue to double by 2030

10-15%

Returns

↳ Our goal is for our total shareholder return (TSR) to average 10 to 15 percent per year through 2030

+++

Relevance

↳ Our goal is for our relevance to grow stronger by 2030, to further drive substantial, positive impact on outcomes for our clients

Setting goals, assessing market opportunities and identifying building blocks

Organization and Structure

↳ Recalibrating the team for growth, productivity drivers, and disciplined investment

Aligning teams across geographies and creating a leaner operating model with enhanced accountability

Adjusting compensation to align with commercial and collegial behavior, and driving shareholder value

Market Opportunities

↳ Financial Advisory Sectors, including Technology, Industrial, Healthcare, Energy

Financial Advisory Specialized Expertise: geopolitical advisory, restructuring, private and public capital solutions

Asset Management Strategies: investment performance, product solutions, global distribution, alternative strategies

Building Blocks

↳ Targeting FA increase in annual revenue per MD to \$8.5 million in 2025 and \$10 million in 2028

Targeting FA net growth of 10-15 MDs each year through lateral hires and internal promotions

Targeting AM ~30% of revenues from alternative/private investments and/or wealth management

Annual Performance

Lazard's 2030 Strategy is designed to drive revenue growth and higher operating margins

Selected Strategic Advisory Trends

Technology disruption

Seismic shifts in underpinning technologies

Disruption accelerating M&A and capital raising activity

Artificial Intelligence

- Race to create, and capture, the market for advanced AI applications and its compute-intensive supporting infrastructure

Cloud Computing

- Continued migration of computing workloads to shared compute infrastructure and growth in “as a Service” applications

Technology Decoupling

- Government policies to encourage and fund domestic manufacturing of key enabling tech like semiconductors and critical components

Private Capital

- Massive war chest of private capital chasing enterprise software, IT services and data services

Wireless Connectivity & Edge Compute

- Low cost, high bandwidth connectivity allowing proliferation of intelligent devices to support new applications and forms of computing

Deep Tech

- Meaningful advancements in robotics, autonomous systems, special computing and quantum computing with potential to transform multiple traditional industries

Energy transition

Investment in technologies to decarbonize

Secular trends impacting every aspect of the economy

Solar and Wind Energy

- Proliferation of renewables implementation and transactions

Short- and Long-Duration Storage

- Driven by reliability, grid stabilization, cheaper battery costs and government incentives

Energy Transition Fuels

- Hydrogen and biofuels will play a significant role in transportation, aviation and broader industry applications

Sustainable Building Materials

- Energy efficiency improvements from retrofitting and usage of greener steel, cement and mass timber

Software

- Heightened role in optimizing operations of power grids, buttressing energy efficiency and determining decarbonization pathways

New Technology

- Increased financing for ventures in Carbon Capture and Storage (CCS), Advanced Small Modular Reactors (SMRs), carbon offsets and nuclear fusion, among others

Healthcare evolution

Advances across the sector

Innovation, access to capital and navigating regulation

Revolutionary Advances in Biology

- Innovation has driven unprecedented rate of company formation

Large Pharma Growth Challenges

- Patent expiries heighten focus on building domain leadership and sustainable revenue

Shift to Value-based Care

- Emphasis on delivering measurable patient value and associated infrastructure requirements

Disruption from New Entrants

- Emerging innovators and expansion of big tech and big-box retail into healthcare space

Impact of Legislation

- Pressure on drug pricing and reimbursement adds to growth challenges

Non-cyclical Industry

- Demand and growth within healthcare less impacted by broader recession concerns

Private Capital Advisory

An integrated business offering primary fundraising and secondary advisory services across the private markets on a global basis

Works with Lazard’s M&A, Capital Solutions, Restructuring and Liability Management businesses to provide complete life-cycle advisory services for financial sponsors and their portfolio companies

... creating opportunity for capital raising advisory that harnesses knowledge of developing investment stages and investor universe

We continue to deliver strong outcomes for clients in fundraising and secondary markets

Global Capital Solutions

- Rapid convergence of public and private capital markets allows Lazard to provide unbiased advice across all financing options
- Scale and flexibility of the private capital markets facilitate creative financing solutions across capital structure risk spectrum
- Lazard is creating bespoke financing solutions for our clients from across our platform

Capital Markets as a Solution

Key considerations:

- Differentiated approach to traditional capital markets, engaging private and public markets to improve execution
- Auction process optimizes investors and terms
- Enables outcome-oriented decision-making with a focus on scale, speed and certainty
- Potential for strategic relationship with capital providers
- Cross-capital options, including straight debt, mezzanine, convertible, preferred and equity
- Customization of capital: price, structure, covenants and redemption flexibility

1 Segment results exclude expenses not directly associated with the businesses. See "U.S. GAAP Operating Income to Adjusted Reconciliation" for additional information regarding overhead allocation on page 42.

2 Corporate segment shows total firm adjusted net revenue and adjusted operating income. Compensation and non-compensation expenses are shown only for the Corporate segment but are consolidated with Financial Advisory and Asset Management segments in adjusted operating income and adjusted operating margins.

See Notes to Financial Schedules

Notes to Financial Schedules

- (a) Selected Financial Information are both U.S. GAAP and non-GAAP measures. Lazard believes that presenting results and measures on an adjusted basis in conjunction with U.S. GAAP measures provides a meaningful and useful basis for comparison of its operating results across periods.
 - (b) Represents the effect of the periodic revaluation of the TRA liability.
 - (c) (Revenue) loss and expenses related to the consolidation of noncontrolling interests and similar arrangements are excluded because the Company has no economic interest in such amounts.
 - (d) Represents changes in the fair value of investments held in connection with LFI and other similar deferred compensation arrangements, for which a corresponding equal amount is excluded from compensation and benefits expense.
 - (e) Represents certain distribution, introducer and management fees paid to third parties, reimbursable deal costs, and (provision) benefit for credit losses relating to fees and other receivables that are deemed uncollectible, for which an equal amount is excluded for purposes of determining adjusted non-compensation expenses and included for purposes of determining adjusted net revenue.
 - (f) Interest expense, excluding interest expense incurred by Lazard Frères Banque SA ("LFB"), is added back in determining adjusted net revenue because such expense relates to corporate financing activities and is not considered to be a cost directly related to the revenue of our business.
 - (g) Represents losses associated with the closing of certain offices as part of the cost-saving initiatives, including the reclassification of currency translation adjustments to earnings from accumulated other comprehensive loss and transactions related to foreign currency exchange.
 - (h) Represents gain on the sale of an owned office building.
 - (i) Represents losses related to the reclassification of currency translation adjustments to earnings from accumulated other comprehensive loss associated with restructuring and closing of certain of our offices.
 - (j) Represents changes in the fair value of the compensation liability recorded in connection with LFI and other similar deferred compensation arrangements, for which a corresponding equal amount is excluded from adjusted net revenue.
 - (k) Represents estimated statutory profit-sharing expenses associated with the sale of an owned office building.
 - (l) Represents expenses associated with senior management transition reflecting the departure of certain executive officers.
 - (m) Represents expenses associated with restructuring and closing of certain offices.
 - (n) A non-GAAP measure which represents adjusted compensation and benefits expense as a percentage of adjusted net revenue.
 - (o) Represents building depreciation and other costs related to office space reorganization.
 - (p) A non-GAAP measure which represents adjusted non-compensation expenses as a percentage of adjusted net revenue.
 - (q) A non-GAAP measure which represents adjusted operating income (loss) as a percentage of adjusted net revenue.
 - (r) For details of these adjustments, please see the respective year's Form 10-K.
 - (s) Adjusted operating margins for Financial Advisory and Asset Management reflect a reallocation of expenses from Corporate to the business segments.
