Supplemental Financial Information

LAZARD

Corporate Structure & Tax Considerations

Corporate Structure

Bermuda corporation with common stock traded on the NYSE

- Corporate governance structure consistent with U.S. peers and files annual proxy statement
 - Files 10-Ks and 10-Qs with SEC, including IRS Employer Identification Number
- Partnership structure for U.S. tax purposes
 - K-1 issuer for dividends – no Unrelated Business Taxable Income (UBTI) or Effectively Connected Income (ECI)
 - No separate state filing requirements, appropriate for tax-exempt investors
 - Foreign investors only subject to withholding tax on U.S. portion of dividends

Investor Diversification

Broadly diversified investor base includes key indexes, mutual funds and global institutions

- Included in Russell and CRSP market capitalization weighted indexes, and Dow Jones U.S. Select Dividend Index
 - Approximately 21% of Lazard holders identified as index investors, compared to generally de minimis for publicly traded partnerships
- Float approximately 96% held by a broad range of active and passive institutional investors
 - Representing approximately 220 mutual funds and 86 ETFs

Tax Considerations

US tax provisions suggest conversion to a U.S. C-corporation would result in a significantly higher tax rate

- Recent analysis indicates a conversion under the current tax law could add significantly to our steady-state effective tax rate
- Net operating losses (NOLs) restrict our ability to use foreign tax credits and to access the special deduction for foreign earnings, resulting in double taxation for non-U.S. earnings
- Expansion of categories of foreign income to be taxed would result in increased tax payments

- 4 Represents an adjustment to match the timing of the recognition of carried interest revenue subject to clawback to the recognition of the related incentive compensation expense, which is not aligned under U.S. GAAP. The result reflects the cost associated with awards that are expected to vest. This calculation is undertaken in order to present awarded compensation on a similar basis to GAAP compensation.
